### PROMOTERS OF OUR COMPANY: SREI INFRASTRUCTURE FINANCE LIMITED AND MAKE IN INDIA FUND

**PUBLIC ISSUE OF UP TO 29,300,000 EQUITY SHARES OF FACE VALUE ₹ 10.00 EACH ("EQUITY SHARES") OF BHARAT ROAD NETWORK LIMITED (OUR "COMPANY" OR THE "ISSUER") FOR CASH AT A PRICE OF ₹ [●] PER EQUITY SHARE (INCLUDING A SHARE PREMIUM OF ₹ [●] PER EQUITY SHARE) AGGREGATING UP TO ₹ [●] MILLION ("ISSUE"). THE ISSUE WOULD CONSTITUTE 34.90% OF THE POST-ISSUE PAID-UP EQUITY SHARE CAPITAL OF OUR COMPANY.**

**THE FACE VALUE OF THE EQUITY SHARES IS ₹ 10.00 EACH. THE PRICE BAND AND THE MINIMUM BID LOT WILL BE DECIDED BY OUR COMPANY IN CONSULTATION WITH THE BOOK RUNNING LEAD MANAGERS ("BRLMs") (OTHER THAN SCML) AND WILL BE ADVERTISED IN ALL EDITIONS OF THE ENGLISH NATIONAL NEWSPAPER FINANCIAL EXPRESS, ALL EDITIONS OF THE HINDI NATIONAL NEWSPAPER JANSATTA AND KOLKATA EDITION OF THE BENGALI NEWSPAPER KALANTAR PATRIKA (BENGALI BEING THE REGIONAL LANGUAGE OF WEST BENGAL WHERE OUR REGISTERED OFFICE IS LOCATED), EACH WITH WIDE CIRCULATION, AT LEAST 5 (FIVE) WORKING DAYS PRIOR TO THE BID/ISSUE OPENING DATE AND SHALL BE MADE AVAILABLE TO BSE LIMITED ("BSE") AND THE NATIONAL STOCK EXCHANGE OF INDIA LIMITED ("NSE"), AND TOGETHER WITH BSE REFERRED TO AS THE "STOCK EXCHANGES") FOR THE PURPOSES OF UPLOADING ON THEIR RESPECTIVE WEBSITES.**

In case of any revisions in the Price Band, the Bid/Issue Period will be extended by at least three (3) additional Working Days after such revision of the Price Band, subject to the Bid/Issue Period not exceeding ten (10) Working Days. Any revision in the Price Band and the revised Bid/Issue Period, if applicable, will be widely disseminated by notification to the Stock Exchanges, by issuing a press release, and also by indicating the change on the website of the BRLMs and the terminals of the Syndicate Members.

This Issue is being undertaken in terms of Rule 19(2)(b) of the Securities Contracts (Regulation) Rules, 1957, as amended ("SCRR") wherein the Issue constitutes 34.90% of the post-Issue paid up equity share capital of our Company. The Issue is being made through the Book Building Process in accordance with Regulation 26(2) of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009, as amended ("SEBI ICDR Regulations"), wherein at least 75.00% of the Issue shall be Allotted on a proportionate basis to Qualified Institutional Buyers ("QIBs"), provided that our Company in consultation with the BRLMs (other than SCML) may allocate up to 60.00% of the QIB Portion to Anchor Investors at the Anchor Investor Allocation Price, on a discretionary basis, out of which at least one-third will be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. The number of Equity Shares representing 5.00% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only. The remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to QIBs, including Mutual Funds, subject to valid Bids being received from them at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5.00% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. If at least 75.00% of the Issue cannot be Allotted to QIBs, all the application monies will be refunded / unblocked forthwith. Further, not more than 15.00% of the Issue shall be available for allocation on a proportionate basis to Non Institutional Bidders and not more than 10.00% of the Issue shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price. All Bidders, other than Anchor Investors, shall participate in the Issue mandatorily through the Applications Supported by Blocked Amount ("ASBA") process by providing the details of their respective bank accounts in which the corresponding Bid Amount will be blocked by the SCSBs. Anchor Investors are not permitted to participate in the Issue through the ASBA process. For details, please refer to the chapter "Issue Procedure" at page 378.

### RISKS IN RELATION TO THE FIRST ISSUE

This being the first public issue of Equity Shares of our Company, there has been no formal market for the Equity Shares. The face value of the Equity Shares is ₹ 10.00 each. The Floor Price is [●] times the face value and the Cap Price is [●] times the face value. The Issue Price (determined and justified by our Company, in consultation with the BRLMs (other than SCML) as stated in "Basis for Issue Price" on page 99) should not be taken to be indicative of the market price of the Equity Shares after the Equity Shares are listed. No assurance can be given regarding an active or sustained trading in the Equity Shares or regarding the price at which the Equity Shares will be traded after listing.

### GENERAL RISKS

Investments in equity and equity-related securities involve a degree of risk and investors should not invest any funds in this Issue unless they can afford to take the risk of losing their entire investment. Investors are advised to read the risk factors carefully before taking an investment decision in this Issue. For taking an investment decision, investors must rely on their own examination of our Company and the Issue, including the risks involved. The Equity Shares offered in the Issue have not been recommended or approved by the Securities and Exchange Board of India ("SEBI"), nor does SEBI guarantee the accuracy or adequacy of the contents of this Red Herring Prospectus. Specific attention of the investors is invited to the chapter "Risk Factors" on page 18.

### COMPANY'S ABSOLUTE RESPONSIBILITY

Our Company, having made all reasonable inquiries, accepts responsibility for and confirms that this Red Herring Prospectus contains all information with regard to our Company and the Issue, which is material in the context of the Issue, that the information contained in this Red Herring Prospectus is true and correct in all material aspects and is not misleading in any material respect, that the opinions and intentions expressed herein are honestly held and that there are no other facts, the omission of which makes this Red Herring Prospectus as a whole or any of such information or the expression of any such opinions or intentions, misleading in any material respect.

### LISTING

The Equity Shares offered in the Issue through this Red Herring Prospectus are proposed to be listed on the BSE and the NSE. In-principle approvals of BSE and NSE for listing the Equity Shares have been received pursuant to letter No. DCS/IPO/RB/IP/863/2016-17 dated March 8, 2017 and letter No. NSE/LIST/2349 dated April 7, 2017, respectively. For the purposes of the Issue, the Designated Stock Exchange shall be BSE.

Notwithstanding the foregoing, terms in the chapters titled “*Industry Overview*”, “*Statement of Tax Benefits*”, “*Financial Statements*”, “*Issue Procedure – Part B - General Information Document for Investing in Public Issues*” and “*Main Provisions of Articles of Association*” on pages 106, 102, 218, 391 and 424, respectively, shall have the meaning given to such terms in such sections.

## FORWARD-LOOKING STATEMENTS

All statements in this Red Herring Prospectus that are not statements of a historical fact constitute “forward-looking statements”. This Red Herring Prospectus contains certain “forward-looking statements”. These forward-looking statements generally can be identified by words or phrases such as “aim”, “anticipate”, “believe”, “goal”, “expect”, “estimate”, “intend”, “objective”, “plan”, “project”, “should”, “will”, “will continue”, “will pursue” or other words or phrases of similar import. Similarly, statements that describe our Company’s strategies, objectives, plans or goals are also forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are reasonable at this time, we cannot assure investors that such expectations will prove to be correct. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

Actual results may differ materially from those suggested by the forward-looking statements due to risks or uncertainties associated with the expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which we operate and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India and globally which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in laws, regulations and taxes and changes in competition in our industry and incidence of any natural calamities and/or acts of violence. Important factors that could cause actual results to differ materially from our Company’s expectations include, but are not limited to, the following:

- Volume of the traffic in projects undertaken by our Project SPVs;
- Our ability to successfully bid or acquire a new project;
- Our ability to complete the projects undertaken by our Project SPV on time;
- Our ability to effectively manage our growth or to successfully implement our business plan and growth strategy;
- Our ability to compete effectively in the BOT industry;
- Our ability to implement new technologies for our business operations in a timely and cost-effective manner; and
- Our ability to attract or retain key personnel, including our senior management.

For further discussion of factors that could cause the actual results to differ from the expectations, please refer to the chapters “Risk Factors”, “Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 18, 136 and 304, respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual gains or losses could materially differ from those that have been estimated. We cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance. Forward-looking statements reflect the current views of our Company as of the date of this Red Herring Prospectus and are not a guarantee of future performance. These statements are based on the management’s beliefs and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions could prove to be inaccurate, and the forward-looking statements based on these assumptions could be incorrect. Neither our Company, our Directors, the BRLMs nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition. In accordance with regulatory requirements, our Company and the BRLMs will ensure that investors in India are informed of material developments until the time of the grant of listing and trading permission by the Stock Exchanges. The Company will ensure that investors are informed of material developments in relation to statements and undertakings made by it in this Red Herring Prospectus and the Prospectus until the time of the grant of listing and trading permission by the Stock Exchanges.

## PRESENTATION OF FINANCIAL, INDUSTRY AND MARKET DATA

### Certain Conventions

All references to “India” contained in this Red Herring Prospectus are to the Republic of India, all references to the “U.S.”, the “USA” or the “United States” are to the United States of America, together with its territories and possessions. Unless stated otherwise, all references to page numbers in this Red Herring Prospectus are to the page numbers of this Red Herring Prospectus.

### Financial Data

Unless stated otherwise, the financial information in this Red Herring Prospectus is derived from our Restated Financial Statements. These financial statements have been prepared in accordance with Indian GAAP and the Companies Act and restated under the SEBI ICDR Regulations. For further details, please refer to “*Summary Financial Information*”, “*Financial Statements*”, and “*Summary of Significant Differences between Indian GAAP and Ind AS*” beginning on pages 63, 218 and 333, respectively.

Our Company’s financial year commences on April 1 and ends on March 31 of the next year and accordingly all references to a particular financial year, unless stated otherwise, are to the 12 months’ period ended on March 31 of that year.

All numbers in this Red Herring Prospectus have been presented in million or in whole numbers where the numbers have been too small to present in million, unless stated otherwise. One million represents 1,000,000 and one billion represents 1,000,000,000.

Unless the context requires otherwise, any percentage amounts, as set forth in this Red Herring Prospectus, including in “*Risk Factors*”, “*Business*”, “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 18, 136 and 304 respectively, have been calculated on the basis of the Restated Financial Statements.

### Adoption of Ind AS

There are significant differences between Indian GAAP, Ind AS, U.S. GAAP and IFRS. The reconciliation of the financial information to Ind AS, IFRS or U.S. GAAP financial information has not been provided. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Red Herring Prospectus, and we urge that the investors consult their own advisors regarding such differences and their impact on our Company’s financial data. Accordingly, the degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices, Indian GAAP, the Companies Act, 1956 and/or Companies Act, 2013 and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices, Indian GAAP, the Companies Act, the SEBI ICDR Regulations on the financial disclosures presented in this Red Herring Prospectus should accordingly be limited.

India has decided to adopt the “Convergence of its existing standards with IFRS” and not the “International Financial Reporting Standards” (“**IFRS**”). These “IFRS based / synchronised Accounting Standards” are referred to in India as the Indian Accounting Standards (“**Ind AS**”). The Ministry of Corporate Affairs, Government of India, has through a notification dated February 16, 2015, set out the Ind AS and the timelines for their implementation.

Ind-AS will be required to be implemented on a mandatory basis by companies based on their respective net worth as set out below:

| Phase I - Mandatory for accounting periods on or after April 1, 2016 (comparatives for the periods ended March 31, 2016 or as appropriate)                                                | Phase II - Mandatory for accounting periods on or after April 1, 2017 (comparatives for the periods ended March 31, 2017 or as appropriate)                                              |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Those whose equity and/or debt securities are listed or are in the process of listing on any stock exchange in India or outside India and having net worth of ₹ 500 crores or more. ("A") | Those whose equity and/or debt securities are listed or are in the process of listing on any stock exchange in India or outside India and having net worth less than ₹ 500 crores. ("A") |

| <b>Phase I - Mandatory for accounting periods on or after April 1, 2016 (comparatives for the periods ended March 31, 2016 or as appropriate)</b> | <b>Phase II - Mandatory for accounting periods on or after April 1, 2017 (comparatives for the periods ended March 31, 2017 or as appropriate)</b> |
|---------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------|
| Companies, other than those covered in "A", having a net worth of ₹ 500 crores or more. ("B")                                                     | Companies, other than those covered in "A", having a net worth of ₹ 250 crores or more but less than ₹ 500 crores. ("B")                           |
| Holding, subsidiary, joint venture or associate companies of companies covered under "A" or "B".                                                  | Holding, subsidiary, joint venture or associate companies of companies covered under "A" or "B".                                                   |

For the purpose of calculation of net worth of Companies, the net worth shall be calculated in accordance with the stand-alone financial statements of our Company as on March 31, 2014 or the first audited period ending after that date.

In addition, any holding, subsidiary, joint venture or associate companies of the companies specified above (even though if they do not meet above threshold) shall also comply with such requirements from the respective periods specified above.

Further it has been clarified under the Ind AS Transition Facilitation Group (ITFG) clarification bulletin 1, that the companies meeting the specified net worth threshold (i.e. ₹ 5,000 million for Phase I and ₹ 2,500 million for Phase II) for the first time at the end of the accounting year shall apply Indian Accounting Standard (Ind AS) from the immediate next accounting year. Our Companies' net worth exceeded ₹ 500 crores during Fiscal 2017 and accordingly we are required to prepare the financial statements including consolidated financial statements in accordance with Ind AS for periods beginning on or after April 1, 2017 with comparatives for the period ending March 31, 2017. The date of transition to Ind AS shall be 1<sup>st</sup> April 2016. Given that Ind AS is different in many respects from Indian GAAP under which our financial statements are currently prepared, our financial statements for the period commencing from April 1, 2017 may not be comparable to our historical financial statements. Further, our restated financial statements have been prepared in accordance with Indian GAAP and the Companies Act, and restated in accordance with the SEBI ICDR Regulations. These statements have not been drawn up in accordance with Ind AS and they may be impacted if Ind AS were applied to them.

We have not attempted to quantify the impact of Ind AS on the financial information included in this Red Herring Prospectus, nor have we provided a reconciliation of our financial statements to those under Ind AS. While we have conducted a preliminary review of the impact of Ind AS on our accounting policies, details of which are disclosed below. The full impact of the adoption of Ind AS cannot be ascertained.

#### **Standalone Financial Statements:**

- **Investment in subsidiaries and joint ventures** – Our Company has an option to carry investment at cost subject to impairment in accordance with Ind AS 27. Alternatively, our Company may also fair value such investments in accordance with Ind AS 109. At initial recognition, our Company shall have an irrevocable option to categorize the investment as Fair value through Profit and Loss (FVTPL) or Fair value through other comprehensive income (FVTOCI). If the investment is classified as FVTPL, all changes including the changes in the fair value of the investment shall be taken to the Profit and loss account. If the investments are classified as FVTOCI, all changes including fair value changes except for dividend shall be routed through other comprehensive income (OCI). The entity applies the same accounting for each category of investments.
- **First time adoption:** On first time adoption to Ind AS, our Company can choose to measure the investments in subsidiaries and associates at previous GAAP carrying amount or fair value determined in accordance with Ind AS 109 at our Company's date of transition to Ind AS. Our Company will take a suitable call on adoption of Ind AS.

#### **Consolidated Financial Statements:**

- **Accounting for service concession arrangement** – The Group is currently accounting for its construction cost as an intangible asset (right to collect toll). Under Ind AS 11, the operator is required to allocate the total consideration received or receivable in to activities for (a) construction of the asset i.e. toll roads (b) operation and maintenance of the asset. For construction of the asset, our Company will recognize revenue as construction progresses, based on percentage of completion basis (for example, cost of constructing the toll roads with a fair margin) over the construction phase. The intangible assets i.e. the right to charge users of the toll roads shall be recognized at fair value which shall be amortized over the concession period. With

regard to the revenue from operation and maintenance services, revenue shall be recognized as and when the services are performed. Hence the companies will experience an upfront booking of revenue in the initial years of construction and a corresponding cost will be booked in Profit and Loss statement.

- **Negative Government Grant** - Premium payable to NHAI is required to be measured at the present value and the same shall be added to the cost of the intangible asset with a corresponding financial liability at the inception of the agreement.
- **Major Maintenance and Repair Expenses (MMR)** - MMR is to be accounted as a provision measured at the present value of the costs expected to be incurred to perform the maintenance or restoration work.
- **Revenue Based Amortization** - Revenue based method of amortization is generally not permitted under IND AS for intangible assets related to toll roads under a service concession arrangement. Ind AS 38, permits straight line method of amortization.
- **Equity Support from Government** - The equity support received from the NHAI is treated as a financial asset and is to be recognized at the fair value of the consideration receivable.
- **Amortization of upfront fee paid on borrowings** - Such cost is required to be amortized over the relevant period of the loan, using the effective interest method.
- **First time adoption** – On first time adoption to Ind AS, the group is generally required to apply the requirement of service concession accounting (as stated above) retrospectively unless it is impracticable to apply. Our Company will take a suitable call on adoption of Ind AS.

No numerical reconciliation of the financial position and results of operations under Indian GAAP and under Ind-AS has been included in this Red Herring Prospectus. Therefore, we are not in a position to state as to how our financial position and the results of operations would be impacted when computed under Ind-AS. There can be no assurance that our Company's financial condition, results of operation, cash flow or changes in shareholders' equity will be exactly comparable under Indian GAAP and IND AS for the similar period. Please refer to the chapter "*Risk Factors – Companies in India, including our Company, are required to prepare financial statements under the new Indian Accounting Standards. In addition, all income-tax assesseees in India, including our Company, will be required to follow the Income Computation and Disclosure Standards*" on page 46. Further, for details of certain differences between Indian GAAP and Ind AS, please refer to "*Summary of Significant Differences between Indian GAAP and Ind AS*" on page 333. The degree to which the financial information included in this Red Herring Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting policies and practices, Indian GAAP, the Companies Act and the SEBI ICDR Regulations.

## Currency and Units of Presentation

Unless the context otherwise requires, all references to:

- "₹" or "Rupees" or "Rs." are to Indian Rupees, the official currency of the Republic of India; and
- "US\$" or "USD" are to United States Dollars, the official currency of the United States of America.

This Red Herring Prospectus contains conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all.

The following table sets forth, for the dates indicated, information with respect to the exchange rate between the Rupee and USD:

| (in ₹)   |                      |                      |                      |                      |                      |
|----------|----------------------|----------------------|----------------------|----------------------|----------------------|
| Currency | As on March 31, 2017 | As on March 31, 2016 | As on March 31, 2015 | As on March 28, 2014 | As on March 28, 2013 |
| USD      | 64.84                | 66.33                | 62.59                | 60.10                | 54.39                |

Note: In case March 31 of any of the respective years is a public holiday, the previous working day has been considered.

## Market and Industry Data

The chapter titled “*Summary of Industry*” and “*Industry Overview*” quotes and otherwise includes information from a commissioned report, or the CRISIL Report, prepared by CRISIL Research for the purposes of this Red Herring Prospectus. We commissioned CRISIL Research to provide an independent assessment of the opportunities, dynamics and competitive landscape of the markets in India for the business we are engaged in.

CRISIL has issued the CRISIL Report with the following disclaimer:

*CRISIL Research, a division of CRISIL Limited (CRISIL) has taken due care and caution in preparing this report (Report) based on the Information obtained by CRISIL from sources which it considers reliable (Data). However, CRISIL does not guarantee the accuracy, adequacy or completeness of the Data / Report and is not responsible for any errors or omissions or for the results obtained from the use of Data / Report. This Report is not a recommendation to invest / disinvest in any entity covered in the Report and no part of this Report should be construed as an expert advice or investment advice or any form of investment banking within the meaning of any law or regulation. CRISIL especially states that it has no liability whatsoever to the subscribers / users / transmitters/ distributors of this Report. Without limiting the generality of the foregoing, nothing in the Report is to be construed as CRISIL providing or intending to provide any services in jurisdictions where CRISIL does not have the necessary permission and/or registration to carry out its business activities in this regard. Bharat Road Network Limited will be responsible for ensuring compliances and consequences of non-compliances for use of the Report or part thereof outside India. CRISIL Research operates independently of, and does not have access to information obtained by CRISIL’s Ratings Division / CRISIL Risk and Infrastructure Solutions Limited (CRIS), which may, in their regular operations, obtain information of a confidential nature. The views expressed in this Report are that of CRISIL Research and not of CRISIL’s Ratings Division / CRIS. No part of this Report may be published/reproduced in any form without CRISIL’s prior written approval.*

Except for the CRISIL Report, we have not commissioned any report for purposes of this Red Herring Prospectus and any market and industry related data, other than that derived from the CRISIL Report, used in this Red Herring Prospectus has been obtained or derived from publicly available documents and other industry sources. Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured and accordingly, investment decisions should not be based on such information. Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in the chapter titled “*Risk Factors*” on page 18. Accordingly, investment decisions should not be based solely on such information. For further details, refer to the “*Risk Factors – This Red Herring Prospectus contains information from an industry report which we have commissioned from CRISIL Research.*” on page 43.

Further, the extent to which the market and industry data used in this Red Herring Prospectus is meaningful depends on the reader’s familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions may vary widely among different industry sources. In addition, certain data in relation to our Company used in this Red Herring Prospectus has been obtained or derived from the CRISIL Report which may differ in certain respects from our Restated Consolidated Financial Statements as a result of, inter alia, the methodologies used in compiling such data. Accordingly, no investment decision should be made based on such information.

In accordance with the SEBI ICDR Regulations, “*Basis for Issue Price*” beginning on page 99 includes information relating to our peer companies. Such information has been derived from publicly available sources, and neither we nor the BRLMs have independently verified such information.

## SECTION II: RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all information in this Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in the Equity Shares. If any or some combination of the following risks actually occur, our business, prospects, results of operations and financial condition could suffer, the trading price of the Equity Shares could decline and you may lose all or part of your investment. In addition, the risks set out in this chapter may not be exhaustive and additional risks and uncertainties not presently known to us, or which we currently deem to be immaterial, may arise or may become material in the future. Unless specified in the relevant risk factor below, we are not in a position to quantify the financial implication of any of the risks mentioned below. Any potential investor in the Equity Shares should pay particular attention to the fact that we are subject to extensive regulatory environment that may differ significantly from one jurisdiction to other. In making an investment decision, you must rely on their own examination of us on a consolidated basis and the terms of the Issue including the merits and the risks involved. Prospective investors should consult your tax, financial and legal advisors about the particular consequences to you of an investment in this offer. To obtain a complete understanding of our business, you should read the sections “Business”, “Management’s Discussion and Analysis of Financial Condition and Result of Operations” and “Financial Statements” on pages 136, 304 and 218, respectively. If our business, result of operations or financial condition suffers, the price of the Equity Shares and the value of your investments in the Equity Shares could decline.

This Red Herring Prospectus also contains forward looking statements, which refers to future events that produce known and unknown risks, uncertainties and other factors, many of which are beyond our control, which may cause the actual results to be materially different from those expressed or implied by the forward looking statements. Please refer to the chapter “Forward Looking Statements” on page 13.

In this section, unless the context otherwise requires, a reference to “our Company” refers to BRNL on a stand-alone basis and “we”, “us” and “our” refers to BRNL, our Subsidiaries and Associates on a consolidated basis. Unless otherwise stated or the context otherwise requires, the financial information used in this section is derived from our Restated Consolidated Financial Information and Restated Standalone Financial Information, as applicable.

### Risks related to our Company

#### 1. There are various outstanding litigations involving our Company, our Directors, our Promoters, our Subsidiaries and Associates, which if determined against us, may adversely, affect our business.

We are involved in certain legal proceedings which are pending at different levels of adjudication before various Courts, tribunals, enquiry officers, and appellate authorities. We cannot assure you that these legal proceedings will be decided in our favour. Decisions in such proceedings adverse to our interests may have adverse effect on our business, results of operations, cash flows and financial condition.

A summary of the pending proceedings involving our Company, our Directors, our Promoters, our Subsidiaries, Associates, and our Group Companies, is provided below:

#### Litigation against our Company

| Nature of the cases/claims | No. of cases outstanding | Amount involved (in ₹ million) |
|----------------------------|--------------------------|--------------------------------|
| Taxation                   | 2                        | 2.31                           |

#### Litigation against our Directors

| Nature of the cases/claims     | No. of cases outstanding | Amount involved (in ₹ million) |
|--------------------------------|--------------------------|--------------------------------|
| <b>Bajrang Kumar Choudhary</b> |                          |                                |
| Civil                          | 1                        | Not Ascertainable              |

#### Litigation involving our Promoters

| Nature of the cases/claims | No. of cases outstanding | Amount involved (in ₹ million) |
|----------------------------|--------------------------|--------------------------------|
| Civil                      | 26                       | 52,859.25                      |
| Taxation                   | <b>20</b>                | <b>844.74</b>                  |

### Litigation against our Associates

| Nature of the cases/claims                      | No. of cases outstanding | Amount involved (in ₹ million) |
|-------------------------------------------------|--------------------------|--------------------------------|
| <b>GIPL</b>                                     |                          |                                |
| Actions by Statutory and Regulatory Authorities | 2                        | 0.49                           |
| Taxation                                        | 4                        | 1.62                           |
| Civil                                           | 8                        | Not Ascertainable              |
| <b>KEPL</b>                                     |                          |                                |
| Taxation                                        | 3                        | 0.60                           |
| Civil                                           | 1*                       | 197.93                         |

| Criminal                   | 3                        | Not Ascertainable              |

\*in one of the matters a counterclaim has been filed by the counter party

### Litigation against our Subsidiaries

#### Litigation against STPL

| Nature of the cases/claims | No. of cases outstanding | Amount involved (in ₹ million) |
|----------------------------|--------------------------|--------------------------------|
| Taxation                   | 1                        | 0.25                           |

#### Litigation against OSEPL

| Nature of the cases/claims | No. of cases outstanding | Amount involved (in ₹ million) |
|----------------------------|--------------------------|--------------------------------|
| Taxation                   | 1                        | 0.41                           |

The amounts claimed in these proceedings have been disclosed to the extent ascertainable and include amounts claimed jointly and severally. Such proceedings could divert management time and attention, and consume financial resources in their defence. Further, an adverse judgment in some of these proceedings could adversely affect our business, results of operations and financial condition. For further details of legal proceedings involving our Company, our Subsidiaries and Associates, our Directors, our Promoters and our Group Companies, please refer to the chapter “Outstanding Litigation and Material Developments” on page 341.

## 2. We had negative net cash flows from operating activities, investing activities, financing activities and restated losses in the past and may continue to have negative net cash flows and losses in the future.

We had negative cash flows on consolidated basis from operating activities, investing activities, financing activities and restated losses for the following periods as set out below:

(in ₹ million)

| Particulars                                              | For the Fiscal |            |          |          |            |
|----------------------------------------------------------|----------------|------------|----------|----------|------------|
|                                                          | 2017           | 2016       | 2015     | 2014     | 2013       |

| Net Profit / (Loss) for the Year                         | (738.85)       | (925.44)   | (264.22) | (607.61) | (168.77)   |

For further details in relation to the net cash flows and net profit / (loss), please refer to the chapters “Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 218 and 304, respectively. We cannot assure you that our net cash flow will be positive in the future or that we shall generate profits in future and thus, adversely impair our ability to distribute dividends.

**3. We have reported losses in the past and we cannot assure you that we would be able to achieve profitability in the future. If we continue to incur losses, the results of our operations and financial condition may be materially and adversely affected.**

We have reported consolidated net loss (as restated) of ₹ 738.85 million, ₹ 925.44 million and ₹ 264.22 million in Fiscal 2017, Fiscal 2016 and Fiscal 2015, respectively. For a discussion of our results of operations for Fiscal 2017 compared to Fiscal 2016 and for Fiscal 2016 compared to Fiscal 2015, please refer to the chapter “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on page 304. We cannot assure you that we will not incur losses in the future which may materially and adversely affect our results of operations, prospects and financial condition.

**4. Delays in the achieving financial closure for our future projects or delays in completion of construction of current and future projects could lead to termination of the concession agreements or cost overruns, which could have an adverse effect on our cash flows, business, results of operations and financial condition.**

Typically, our BOT Projects are subject to specific completion schedules. We provide the Concessioneing Authorities with performance securities, which are typically valid for a period of one year from the appointed date (i.e. the date on which conditions precedents under concession agreement for the project are fulfilled), and require us to complete the construction of our projects within a specified timeframe.

Additionally, concession agreements entered for our BOT Projects typically require us to complete the construction no later than the scheduled dates specified under the relevant concession agreements, or by the end of the extension period, if any, granted by the Concessioneing Authority. Subject to certain customary exceptions such as (i) occurrence and continuance of force majeure events that are not within the control of the concessionaire, or (ii) delays that are caused due to reasons solely attributable to the Concessioneing Authority, failure to adhere to contractually agreed timelines or extended timelines could require us to pay liquidated damages as stipulated in the concession agreement or lead to encashment and appropriation of the bank guarantee or performance security. The Concessioneing Authority may also be entitled to terminate the concession agreement in the event of delay in completion of the work, if the delay is not on account of any of the agreed exceptions. Further, we may not be able to obtain extensions for projects on which we face delays or time overruns. In addition to the risk of termination by the Concessioneing Authority, delays in completion of projects may result in cost overruns, lower or no returns on capital and reduced revenue for the concessionaire thus impacting the project’s performance, as well as failure to meet scheduled debt service payment dates and increased interest costs from our financing agreements for the projects. We have faced delays in project construction in some of our BOT Projects as on March 31, 2017, as follows:

| Particulars                                               | GIPL              | MTPL              | KEPL             | GAEPL           | SJEPL            |

We cannot assure you that similar delays will not occur in the future. Such delays could have an adverse effect on our cash flows, business, results of operations and financial condition. Further, typically for projects under construction, the Concession Agreements require us to complete the financing for the project within the period specified in the relevant Concession Agreement. In the event of delay in completing the financing for the project, we are typically entitled to a limited extension subject to payment of damages to the Concessioning Authority calculated at a specified rate of the performance security for each day of delay or the concession agreement can be terminated.

We cannot assure you that we will be able to complete the financing for future projects as may be provided in the Concession Agreements or complete our current and future projects within specified schedules or at all.

**5. Our business depends on our ability to successfully bid for or acquire projects. Our inability to successfully bid for or acquire projects could have an adverse effect on the growth of our business.**

As part of our growth strategy, we intend to bid for projects on an individual basis or with SPV partners. Such future acquisitions of or, successful bid for, projects will depend on various factors including, (i) our ability to identify projects on a cost-effective basis, (ii) our ability to integrate acquired operations into the business, (iii) our ability to outbid our competitors and (iv) other factors including legal, tax and accounting issues. Further, such acquisitions may require consents from (a) the lenders under the existing financing agreements and (b) the Concessioning Authority. We cannot assure you that we will be able to achieve the strategic purpose of such acquisitions or successfully integrate operations or generate an acceptable return on such investments or successfully bid for such projects, which may adversely affect our cash flows, business, results of operations and financial condition.

**6. Any reduction or suspension of toll collection in relation to our BOT Projects may adversely affect our profitability cash flows and results of operations.**

We have limited control over the terms relating to tolls. The tolls we are permitted to charge with respect to a BOT Project are determined by Governmental authorities, and are subject to annual adjustments and escalation over the life of the project based on the increase in the Indian wholesale price index (WPI) as specified in respective Concession Agreements. Further, with respect to certain of our BOT Projects, the relevant Governmental authority may be entitled to effect a reduction or suspension in the prevailing tolling rates. For instance, in relation to our SJEPL Project, NHAI and the state government passed orders directing cessation of toll collection over a portion of the SJEPL Project and exemption of certain classes of vehicles from payment of toll fees, respectively. As on May 31, 2017, SJEPL has, through various letters, submitted a cumulative claim of ₹ 1,992.56 million to the NHAI and the state government in this regard which is pending. Further, in relation to our MTPL Project, the state road development authority passed an order suspending the collection of toll fees on the MTPL Project for a certain period of time in relation to which a cumulative claim of ₹ 127.42 million through letters dated June 2, 2016 and December 21, 2016 is pending before the MPRDC. Similarly, in relation to our GIPL Project, state government authorities directed non - collection of toll fees over a portion of the GIPL Project and exemption of certain classes of vehicles from payment of toll fees, in relation to which a

cumulative claim of ₹ 605.95 million through letter dated April 1, 2017 is pending before NHAI and a claim of ₹ 568.98 million through letter dated June 6, 2017 which is pending before the Kerala State Road Transport Corporation. Additionally, GIPL has, *inter alia*, also submitted a claim before NHAI for an amount of ₹ 130.84 million on account of delay in toll hike by the Government of Kerala, ₹ 21.40 million (claim amount revised subsequently) for suspension of user fee due to demonetisation and ₹ 199.80 million for loss incurred due to unauthorised diversion of toll plaza.

We cannot assure you that the tolling rates set forth would be sufficient to cover our cost. Additionally, our ability to recover compensation, on account of termination by the government authorities is limited and we cannot assure you that we will be able to recover the claims submitted to the relevant government authorities or relevant state governments in a timely manner or at all. Our inability to recover such amounts may adversely impact our profitability, cash flows and results of operations.

**7. *Our business is significantly dependent on various Government entities and could be adversely affected if there are adverse changes in the policies adopted by such Government entities.***

Our business is highly dependent on projects awarded by Government entities. Our Project SPVs derive almost all of their revenue from their respective concession agreements with the Government entities like NHAI and MPRDC. Any adverse change in the policies adopted by the Government regarding award of its projects such as relating to pre-qualification criteria or our existing relationship with the Government could adversely affect our ability to bid for and/ or win such projects. In addition, we benefit and are dependent on policies adopted by the Government in respect of infrastructure developments, including amongst other things, incentives granted, resource and budgetary allocation and concessions. Any changes in these existing policies pertaining to incentives granted, could adversely affect our existing projects and opportunities to secure new projects. For details of certain of these policies and incentives, please refer to the chapter “*Regulations and Policies*” on page 167. For example, recent news reports indicate that given the muted response to toll road projects under public private partnership route, the NHAI is increasingly beginning to adopt the EPC route or the HAM route for construction of national highways. For further details, please refer to “*Industry Overview - NHAI awarding trend: Significant change in last few years*” on page 119.

Any adverse changes in Government policies may lead to our agreements being restructured or renegotiated or a decrease in the concession period or our inability to collect toll, which could adversely affect our financing, capital expenditure, asset utilization, revenues, cash flows or operations relating to our existing projects as well as our ability to participate in competitive bidding or bilateral negotiations for our future projects.

**8. *Our ability to negotiate the standard form of concession agreement may be limited, and the concession agreements contain certain other restrictive terms and conditions which may be subject to varying interpretations.***

Most of our concession agreements were entered into with the NHAI and we have limited ability to negotiate the terms of these contracts. The concession agreements that we have entered into are based on a model concession agreement prescribed by the NHAI. For example, the toll fees under the concession agreements are fixed, subject to fixed annual adjustments and adjustments to account for inflation as specified in the respective concession agreements. In addition, the operation and maintenance standards and specifications require the Project SPVs to incur cost on operation and maintenance on a regular and periodic basis.

The form of the concession agreement has evolved within the last decade and there is limited guidance available on the interpretation of a number of terms and conditions of such concession agreements. Accordingly, the interpretation of certain terms and conditions in the concession agreements by the Concessions Authority, the courts or regulators may be different from our interpretation of such terms and conditions.

The terms and conditions of the concession agreements contain punitive terms and conditions. For example, the concession agreements contain provisions that mandate substitution clauses in the project agreements. Such substitution clauses allow the NHAI to step into project agreements in place of the concessionaire in the event of suspension or termination of the concession agreements due to a breach or default by such concessionaire. The concession agreements also provide that the lenders to a concessionaire may substitute the concessionaire with new concessionaire approved by the Concessions Authority in the event of a default by the concessionaire under the relevant concession agreement. Additionally, the NHAI or lenders may substitute the concessionaire in the event of a “financial default” by such concessionaire. While approving such substitution, the NHAI may also impose a penalty on the defaulting concessionaire, subject to a cap of 1.00% of the total

project cost.

The terms of our concession agreements require us to indemnify the NHAI for losses arising out of breach of the obligations by us under the concession agreements.

In the event the NHAI or a lender invokes any restrictive term or condition in the concession agreements, or the NHAI, a court, or regulator interprets any term or condition in an adverse manner, such invocation or interpretation may materially and adversely affect our business, financial condition and results of operations.

If, due to unforeseen circumstances, if we are required to but are unable to negotiate out of the restrictive or onerous provisions which we had previously agreed to, our cash flows, business, results of operations and financial condition may be adversely affected.

9. ***We propose to utilise a portion of Net Proceeds for investment in our subsidiary, STPL by way of subordinated debt. We cannot assure you that we will achieve anticipated returns from our investments made in the STPL Project. Further, there has been a delay in implementation of the STPL Project and we cannot assure you that there will be no further delays in the implementation of the STPL Project in the future and which may impact our investment in the STPL Project.***

We propose to utilise a portion of the Net Proceeds by advancing subordinate debt to our Subsidiary, STPL for part financing of the STPL Project. As certified by MKPS & Associates, Chartered Accountants, SREI and our Company (the “**STPL Sponsors**”) are required to contribute ₹ 2,942.10 million towards the project cost (the “**STPL Committed Capital**”) in STPL. As of July 15, 2017, STPL Sponsors have invested an aggregate amount of ₹ 2,427.35 million and are under an obligation to infuse an additional amount of ₹ 514.70 million. The loan facility agreement for STPL provides that the STPL Committed Capital can be contributed in the form of equity investment including by way of subordinated debt by the STPL Sponsors and such subordinated debt shall be non-interest bearing during the construction period only. We propose to utilise a portion of the Net Proceeds towards this STPL Committed Capital. In terms of the financing agreements advancing of subordinated debt by STPL Sponsors is subject to restrictions including, charging of interest on subordinate debt and restrictions on payment of dividends that can be paid by STPL to our Company. We intend to infuse the outstanding STPL Committed Capital by way of interest free un-secured loans to STPL. We cannot assure you that STPL Project would generate adequate cash flows to repay our Company’s share of the STPL Committed Capital whether in full or at all during the pendency of the concession agreement. We also cannot assure you that we will achieve anticipated returns from our investments made in the STPL Project.

Further, as of May 31, 2017, the overall progress of the STPL Project has fallen behind the scheduled completion timeline as per the concession agreement due to, among other reasons, a delay in acquisition of land and delay in approval of estimates in shifting of utilities from the Concessing Authority. Upon request by STPL and based on recommendation of the IE for the STPL Project, the Project Director, PIU Solapur, NHAI vide letter no. NHAI/PIU/SLP/MAH-KNTBorder/STPL/14029/10/1/1983 dated November 17, 2016, addressed to the Chief General Manager (Tech) & NHAI Regional Office, Navi Mumbai, Maharashtra has recommended an extension of time for completion of Milestone II and thus consequentially the project completion period, as contemplated in the STPL Concession Agreement, by 213 days. The Chief General Manager (Tech.), NHAI has accepted the recommendation and vide his letter dated March 21, 2017 has recommended the extension up to June 29, 2017 to the competent authority at NHAI, for approval. Accordingly, the revised scheduled COD date (“**Revised Scheduled COD**”) in the event of this recommendation being approved would be June 29, 2017.

However, pursuant to non-fulfilment of obligations of NHAI towards land acquisition, further delays in finalisation of change of scope, shifting of population, health and environment utility and electrical utility and unprecedented rainfall in Osmanabad District section of project highway in Fiscal 2017, STPL has vide its letter dated May 31, 2017 addressed to the independent engineer for the STPL Project, requested for extension of time for execution of Milestone III and scheduled four-laning of the STPL Project by 548 days from the Scheduled COD, i.e. up to May 31, 2018.

We cannot assure you that such extensions will be granted or that there will be no further operational delays in the future with respect to the STPL Project or that such delays will not adversely impact our existing and proposed investments and anticipated returns in the STPL Project. For further details, please refer to the chapter “*Objects of the Issue*” on page 88.

**10. We propose to utilise a portion of Net Proceeds for acquisition of subordinate debt advanced by SREI, our Corporate Promoter to Identified SPVs.**

We propose to utilise up to ₹ 3,722.53 million from the Net Proceeds towards acquisition of the promoter/ sponsor contribution advanced/ made by SREI, our Corporate Promoter, in the Identified SPVs, pursuant to respective promoter/sponsor contribution agreement/undertaking under the relevant financing arrangements or otherwise as per the terms of the letter arrangements, all dated November 11, 2016, entered into between our Company and the Corporate Promoter for acquisition of subordinated debt/ unsecured loan from respective Identified SPVs (“**Letter Arrangements**”). For details of the Letter Arrangements please refer to the chapter “*History and Certain Corporate Matters*” on page 171. Additionally, of the KEPL subordinated debt that our Company proposes to acquire from the Net Proceeds, 27,781,900 OCDs were, transferred by our Company to SREI on October 28, 2016. Similarly, of the MTPL subordinated debt that our Company proposes to acquire from the Net Proceeds, 26,658,500 Series I OCPIDs and 2,718,100 Series II OCPIDs were transferred by our Company to SREI on June 30, 2014 and October 27, 2016. Similarly, of the STPL subordinated debt that our Company proposes to acquire from the Net Proceeds, 65,820,000 OCPIDs were transferred by our Company to SREI on June 30, 2014.

The subordinated debt that we intend to acquire are either unsecured loans or optionally convertible debt instruments or warrants that are subordinated to the claims of all senior lenders and are subject to restrictions including, any interest payable on these optionally convertible debt instruments accruing and becoming payable only upon the Identified SPVs having residual cash flows available for distribution after paying all expenses, statutory dues and payment to senior secured lenders. Further, in terms of the Letter Arrangement, any interest that accrues and is payable as above for the period during which SREI held the debt instruments shall be paid by BRNL as and when the interest on the debt instruments accrue and are paid by Identified SPVs to BRNL.

We cannot assure you that we will achieve anticipated returns from investments in these Identified SPVs whether in full or at all. For further details, please refer to the chapter “*Objects of the Issue*” on page 88.

**11. One of our Projects which was under construction has been foreclosed by NHAI, subject to determination of amount of compensation through settlement-cum ISAC procedure. We cannot assure you that we would receive any part or whole of such compensation on a timely basis or at all.**

OSEPL has entered into conciliation with NHAI in relation with foreclosure of the OSEPL Project due to delay in handing over of the requisite land for the purpose of the OSEPL Project. Pursuant to multiple rounds of NHAI conciliation committee meetings NHAI, by way of letter dated January 13, 2017 has recommended foreclosure of the OSEPL Project, return of the project to NHAI for re-bid and permitted OSEPL to settle its claims of refund of ₹ 2,109.60 million incurred by OSEPL along with interest and loss of profit of ₹ 4,010.00 million plus damages and mobilisation cost through the settlement-cum ISAC procedure. In case OSEPL is not satisfied with the compensation, it can invoke arbitration proceedings to recover its investments and costs. OSEPL has communicated to NHAI by way of its letter dated January 18, 2017, that it accepted the proposal of NHAI and has considered the OSEPL Concession Agreement as foreclosed with effect from January 13, 2017 and has released the project for re-bid, subject to the claims of OSEPL being settled as part of the ISAC procedure. Subsequently, NHAI has vide its letter dated May 5, 2017 suggested that the settlement-cum ISAC procedure be followed by an arbitration. OSEPL has vide letter dated June 13, 2017, re-submitted its request to proceed under the settlement-cum ISAC procedure and have resubmitted a consolidated claim of ₹ 8,304.80 million for cost incurred, finance costs, overheads and loss of profit-up to March 31, 2017.

This settlement process with ISAC is yet to begin and we cannot assure you that its outcome will be in our favour. In the event, the aforementioned claims are not accepted by the authorities, we may be required to initiate arbitration proceedings which may involve substantial costs. We cannot assure you that we would receive any part or whole of such compensation on a timely basis or at all. Any delay in receipt or any adverse finding in such proceedings would have an adverse effect on our cash flows, business, finance cost, results of operations and financing condition.

**12. Our Company has pledged, and may continue to pledge a portion of the shares held by it in certain of the Subsidiaries and Associates in favour of lenders, who may exercise their rights under the respective pledge agreements in events of default**

Our Company has pledged and may continue to pledge a portion of the shares it holds in certain of the Subsidiaries and Associates in favour of lenders as security for the loans provided to the Subsidiaries and

Associates. The details of the equity shares held by our Company in some of our Subsidiaries and Associates which have been pledged in favour of the lenders of the respective Subsidiaries and Associates as on March 31, 2017, are as follows:

| Sr. No.             | Name of the Company                          | Number of equity shares pledged by our Company | Percentage of equity shares pledged out of the total equity shareholding of our Company | Percentage of equity shares pledged by our Company out of the total paid up capital of the Subsidiary/ Associate |
|---------------------|----------------------------------------------|------------------------------------------------|-----------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| <b>Subsidiaries</b> |                                              |                                                |                                                                                         |                                                                                                                  |

\*20,504,960 equity shares of KEPL, were acquired by the Company pursuant to a share purchase agreement dated October 27, 2016 entered into with SREI. Of the 20,504,960 equity shares of KEPL, 4,900 equity shares of KEPL and 13,665,630 equity shares of KEPL held in the name of SREI and IPDC, respectively are pledged with the senior lenders of KEPL and shall be transferred in the name of the Company upon release of the pledge by the senior lenders of KEPL. However, pending transfer of these shares upon being released from pledge, all the economic and beneficial interest with respect to these shares have been transferred to the Company pursuant to the share purchase agreement dated October 27, 2016.\*\* includes the 4,900 equity shares of KEPL and 13,665,630 equity shares of KEPL held in the name of SREI and IPDC, respectively which are pledged with the senior lenders of KEPL and shall be transferred in the name of the Company upon release of the pledge by the senior lenders of KEPL. However, pending transfer of these shares upon being released from pledge, all the economic and beneficial interest with respect to these shares have been transferred to the Company pursuant to the share purchase agreement dated October 27, 2016.

If the Subsidiaries and Associates default on their obligations under the relevant financing documents, the lenders may enforce the share pledges, have the shares transferred to their names and may acquire management control over the Subsidiaries and Associates whose shares have been pledged or sell the shares to any person without any restriction. Such a sale will dilute our stake in such company and could entail our Company's equity stake in such Subsidiaries and Associates being sold to any of our competitors. In case, such an event occurs, we will lose the value of such pledged shares and will no longer be able to recognize any revenue attributable to them or the relevant Project SPV. In addition, if we lose control of any of our Subsidiaries, our ability to implement our overall business strategy would be adversely affected. For details in respect of our shareholding interest and the pledge of our shareholding interests in our Subsidiaries and Associates, please refer to the sections titled "Our Subsidiaries and Associates" and "Financial Statements" on pages 184 and 218, respectively.

**13. One of our Project SPVs, MTPL has in the past entered into one-time settlement with its lenders. We cannot assure you that similar situations may not arise in the future or that we will be able to make a settlement or refinance the loan facilities on terms that are acceptable to us.**

One of our Associate companies namely MTPL has faced issues in terms of servicing its debt obligations towards the original lenders to the MTPL Project under the MTPL CLA and has had to fall back on the sponsors from time to time for additional funds for meeting shortfalls in debt servicing. In light of the same, MTPL during Fiscal 2016 initiated and during the current Fiscal 2017 consummated a one-time settlement with the original lenders to the MTPL Project under the MTPL CLA as approved by MPRDC vide letter dated March 27, 2017. For the purpose of this one-time settlement, MTPL entered into a new common loan agreement or MTPL New CLA with our Corporate Promoter, SREI, pursuant to which, outstanding liability to the original lenders under the MTPL CLA of ₹ 2,016.40 million has been settled for ₹ 1,650.00 million. We cannot however assure you that similar situations may not arise in this MTPL Project or other projects of the Group, in the future or that we may be able to make a settlement or refinance our loan facilities on terms that are acceptable to us or at all.

**14. We have acquired and could acquire minority interests in projects that we do not control. Certain decisions of, or risks taken by, majority stakeholders or managements of such companies as per the shareholders' agreements and/or the terms of the articles of such SPVs, may impair the value of our assets and materially and adversely affect our financial condition, results of operations and cash flow.**

Although we intend to exercise operational control or influence in the projects we undertake or in which we acquire interests, we have in the past and may acquire interests in certain companies that we do not control or influence in a significant manner. We don't have majority shareholding in the five (5) operating Project SPVs and operations of these entities are governed in accordance with the terms of respective shareholder's agreements and charter documents. For further details, please refer "*Our Subsidiaries and Associates*" at page 184.

We may also acquire interests in large-sized assets, which involve certain complexities and risks that are not encountered in small- and medium-sized assets, and we may dispose of a portion of these majority equity interests over time in a manner that results in a minority holding. Further, our shareholding in a business venture may be diluted if such business venture raises additional capital through issue of equity or equity-linked instruments.

Such investments are, and in future will be, subject to the risk that the Project SPV may make business, financial or management decisions with which our Company may disagree with or that the majority stakeholders or the management of the Project SPV may take risks or otherwise act in a manner that does not serve the interests of our Company. If any of the foregoing were to occur, the value of our investments could decrease and our financial condition, results of operations and cash flow could be materially and adversely affected.

**15. *Some of the shares acquired by our Company in KEPL, have not been transferred in the name of our Company pending release of pledge by senior lenders.***

Our Company, pursuant to a share purchase agreement dated October 27, 2016, acquired an aggregate of 20,504,960 equity shares of KEPL from SREI, of which, 4,900 and 13,665,630 equity shares of KEPL, held in the name of SREI and IPDC, respectively are presently pledged with the senior lenders of KEPL and are yet to be transferred in the name of our Company. We cannot assure you when the senior lenders would release the pledge to give an effect to the transfer or if at all. We also cannot assure you that senior lenders may not demand for recreation of pledge of these shares with them as per the terms of the KEPL loan agreements.

**16. *Inability to meet our obligations, including financial and other covenants under our debt financing arrangements could adversely affect our business and results of operations.***

We, as a part of our business operations borrow funds to meet our capital requirements. As on March 31, 2017, on consolidated basis, our total outstanding borrowings (short term and long term borrowing including current maturities) was ₹ 5,683.81 million. Our financing agreements contain certain restrictive covenants that limit our ability to undertake certain types of transactions, any of which could adversely affect our business and financial condition. We are required to obtain prior approval from our lenders for, among other things:

- alteration of our capital structure in any manner;
- effecting any amalgamation, merger, reconstruction, takeover or consolidation;
- amending our MoA and AoA;
- concluding any fresh borrowing arrangements, either secured or unsecured, with any other lender;
- effecting any change in our actual and beneficial ownership or control;
- creation of further charge, lien or encumbrance on assets hypothecated with our lenders;
- effecting any material change in the management of our business or our operating structure;
- undertaking new projects or implementing any scheme of expansion or acquire fixed assets;
- investment by way of share capital in or lend or advance to or place deposits with any other entity;
- undertaking guarantee obligations on behalf of any other lender or any third party;
- provision of sponsor/ promoter support by our Promoters;
- declaring dividends; and
- effecting any repayment of loans and deposits and discharging other liabilities except those shown in the fund flow statements submitted to our lenders from time to time.

In the event, we breach any financial or other covenants contained in any of our financing arrangements, we may be required to immediately repay our borrowings either in whole or in part, together with any related costs. We may also be forced to sell some or all of the assets charged with our lenders if we do not have sufficient cash or credit facilities to make repayments. Furthermore, our financing arrangements contain cross-default provisions which could automatically trigger defaults under other financing arrangements.

Any failure to meet our obligations under the debt financing agreements could have an adverse effect on our business, results of operations and financial condition.

**17. Bidding for all our Project SPVs were undertaken by SREI, our Corporate Promoter and we have in the past taken their assistance to complete the financing for our BOT Projects.**

Bidding for all our Project SPVs were undertaken by SREI, our Corporate Promoter and we have in the past taken their assistance to complete the financing for our BOT Projects. In the past SREI has either transferred its shareholding in the relevant Project SPV to our Company or incorporated the SPV with our Company as a shareholder.

While our Company is pre-qualified on an annual basis up to March 31, 2017, to bid either directly or through joint ventures for BOT Projects, subject to certain eligibility criteria, of project value up to ₹ 21,472.00 million (source: Certificate dated August 2, 2017 issued by Kamal H Agarwal & Associates) by the NHAI, we may continue to take assistance from SREI for acquiring projects awarded by Concessioning Authorities, which are either of a higher project value or due to the requirements of the concession, financing or other bidding documents for the project.

SREI and our Company have entered into a letter arrangement dated February 16, 2017, pursuant to which, SREI has undertaken, among other things, to carry out the roads, highways and related business on BOT basis only through our Company, subject to certain terms and conditions as set out in such letter arrangement. As per the letter arrangement it has been agreed that as long as SREI continues to be the Promoter of the Company, it shall not directly or indirectly engage in any business that is considered to be a competing business with our Company, except through our Company and that all future road assets / projects shall be managed by our Company, with the exception of those road assets/projects acquired by SREI, in its ordinary course of business. However, in case SREI intends to subsequently dispose of these assets acquired as part of its ordinary course of business, it shall provide our Company a first right of refusal. We cannot assure you that SREI, our Corporate Promoter will continue to transfer interest in projects to us or would be in a position to provide assistance on terms which are similar to terms which it has provided in the past or which are favourable to us or at all, which may restrict our ability to acquire or develop future projects. Any violation, non-compliance (whether in whole or in part) or unenforceability of the agreement may have an adverse effect on our growth, the results of our operations and financial condition. Please refer to the chapter “History and Certain Corporate Matters” on page 171 for details of this agreement.

**18. We have certain contingent liabilities and our cash flows, financial condition and profitability may be adversely affected if any of these contingent liabilities materialise.**

As of March 31, 2017, we had the following contingent liabilities on a consolidated basis:

| (Amount in ₹ million)                                                                                 |                      |
|-------------------------------------------------------------------------------------------------------|----------------------|
| Particulars                                                                                           | As of March 31, 2017 |
| Income Tax (F.Y. 2013)                                                                                | 2.31                 |
| Income Tax (F.Y. 2014)                                                                                | 0.38                 |
| Reimbursement to NHAI for Independent engineer remuneration prior to appointed date i.e. June 3, 2014 | 3.15                 |
| Claims against the Company not acknowledged as debt                                                   | 10.48                |

If the aforementioned contingent liabilities materialise, our profitability and cash flows may be adversely affected. For further details of contingent liabilities on consolidated basis, please refer to the chapter “Financial Statements – Restated Consolidated Financial Statements – Note 29.1” on page 252.

**19. Although our Company met the criteria for classification as an NBFC during the financial year 2012-13, yet our Company has not registered with the RBI as an NBFC. Our Company may be subject to a penalty and/or other action for non-registration as an NBFC for that year.**

While our Company met the criteria to be classified as an NBFC for the financial year 2012-13, as provided in the Reserve Bank of India Act, 1934 (“RBI Act”), we did not register with the RBI as an NBFC as our principal business activity is development of road/highway projects. This has been brought to the notice of RBI vide our letter dated February 15, 2017. We cannot assure you that RBI will not levy a penalty and/or take other action against us and, or persons in charge of and responsible, at the relevant time, in our Company, for non-registration as a NBFC for the financial year 2012-13.

In addition, while our Company does not currently qualify as a core investment company (“CIC”), we cannot assure you that our Company has not and will not qualify as a NBFC or a CIC in the future or for any prior period, due to the nature of the business of our Company. In the event our Company is classified as an NBFC or a CIC, we will be required to comply with certain conditions, including those in relation to adjusted net worth and outside liabilities, as specified under the RBI Act and other applicable regulations.

**20. *Our ability to complete our projects in a timely manner and operate, maintain and expand our toll roads is subject to performance of our contractors. Any delay in completion of our projects will adversely impact our financial conditions.***

We typically engage third-party contractors and sub-contractors to perform parts of our contract or provide services or manpower. In particular, we generally do not engage a single EPC contractor and rely on more than one entity to carry out different aspects of EPC. Although our contractors are qualified, we do not have control over their day to day performance. We cannot ensure that there will be no delay in performance of duties by our contractors, which may cause a delay in completion of our projects. We may also be exposed to risks relating to the ability of the contractors to obtain requisite approvals for the operation and maintenance activities as well as the quality of their services, equipment and supplies. In particular, failure to ensure the reliability and sustainability of toll collectors who are required to man the toll booths continuously may adversely affect the overall level of our net revenue. In addition, under certain of the concession agreements, the consent of the Concessioning Authority is required for any selection or replacement of an operation and maintenance contractor. Further, under certain of our financing agreements, the consent of the lenders is required for replacement of the engineering, procurement and construction contractor and operation and maintenance contractor for the project.

Further, while we may sub-contract our construction work and may be indemnified by the subcontractor for any loss or damage due to their default, we may still be liable for accidents on the projects due to defects in design and quality of construction of our projects during their construction and operation. In addition, we cannot assure you that such contractors or their sub-contractors will continue to hold or be able to renew valid registrations under the relevant labour laws in India or be able to obtain or maintain the requisite approvals for undertaking such construction and operation.

If our contractors are unable to perform in accordance with their commitments on time or meet the quality standards required, our ability to complete projects on time or at all could be impaired. Further, if a sub-contractor becomes insolvent, we may be unable to recover damages or compensation for defective work and we may incur additional expenditure as a result of correcting any defective work. This may have an adverse effect on our reputation, cash flows, business, results of operations and financial condition.

**21. *Delays in the acquisition of private land or eviction of encroachments from Government owned land by the Government may adversely affect the timely performance of our contracts leading to disputes with the Government.***

Road and highway projects are dependent on the acquisition of unencumbered contiguous land. Failure to acquire unencumbered contiguous land by the Central or State Governments or other concerned agencies under the concession agreements could result in us changing, delaying or abandoning entire projects, which in turn could adversely affect our business.

Pursuant to the terms of most of our concession agreements, Government entities are required to facilitate the acquisition or license of or secure rights of way over, tracts of land or to hand over unencumbered land, free of encroachments to us. Delays in any of the foregoing may result in the delay of project implementation prescribed by the relevant concession agreement and cause consequent delays in commencement of construction or termination of the concession agreement on account of a material default by the Concessioning Authority. For example, we have agreed to foreclosure of OSEPL Project due to problems in connection with land acquisition and obtaining environment and forest clearances. For details refer to “Risk Factors – One of our Projects which was under construction has been foreclosed by NHAI, subject to determination of amount of compensation through settlement-cum ISAC procedure. We cannot assure you that we would receive any part or whole of such compensation on a timely basis or at all” on page 24. Also, we have faced problems relating to handing over of certain stretch of land for our STPL Project, SJEPL Project, GAEPL Project and GIPL Project. Such events may also lead to disputes and cross-claims for liquidated damages between us and the relevant Government entity. Additionally, a failure to acquire land may lead to a change of scope of the project or

payment delays or disputes with the Government entity for claims in connection with a completed project's eligibility for an early completion bonus (if any). We will continue to face risks associated with implementation which could be due to reasons including those beyond our control which can include, among others, non-availability of environmental clearances, delay in acquisition of land by the Government, and other delays on the part of Concessioneering Authority.

Any delays or inability to complete such land acquisitions may also result in an increase in the project cost from original estimates, which we may not be able to pass on to the Concessioneering Authority. Further, we may be exposed to legal proceedings or claims by landowners objecting to the acquisition of their lands for our projects. These factors could have an adverse effect on our business, results of operations and financial condition.

**22. *Our SPV partners may not perform their obligations, which could impose additional financial and performance obligations on our Company, resulting in reduced profits or in some cases, losses from the projects. Further, we may have disagreements with our SPV partners with respect to the operation of our Project SPVs.***

Each of our Subsidiaries and Associates is an SPV held in partnership with SPV partners. Further, we may bid for our future projects in conjunction with SPV partners.

Our liability in relation to the projects being executed by such Project SPVs under their respective financing agreements is typically joint and several. The success of these Project SPVs depends significantly on the satisfactory performance by all the SPV partners and fulfilment of the respective obligations, including obligations relating to equity/ sponsor financing. Under most of the financing agreements of our Project SPVs, we, along with our SPV partners, are required to execute sponsor or promoter undertakings in relation to prescribed equity contributions and providing additional funds in the event of a shortfall in resources or cost overruns during the construction period and meeting certain obligations in the event of default of the financing agreements. If our SPV partners fail to perform their obligations satisfactorily, or at all, the relevant Project SPVs may be unable to perform adequately or deliver its contracted services. Delays in infusing equity and/or debt contributions on the part of any of the SPV partners may adversely affect our ability to subscribe to equity in respective Project SPVs as the relevant shareholding percentages may be fixed under the relevant shareholders' agreements.

The inability or unwillingness of a joint venture partner to continue to fund or execute a project due to financial or legal difficulties or its inability or unwillingness to bring in investment as stipulated in the shareholders' agreement could result in us bearing increased or entire costs to be incurred for the completion of the project. In some cases, we may not be able to provide the services which our SPV partners have failed to provide, due to our lack of experience or expertise in certain areas and we may not be successful in finding acceptable substitute partners, in a timely manner or at all.

Further, we may be more reliant on our SPV partners in regions where we have limited experience. In addition, we may also need the cooperation and consent of our various SPV partners in connection with the operations of our Project SPVs, which we may not obtain in a timely manner or at all. Further, we may have disagreements with our SPV partners regarding the business and operations of the joint ventures. We cannot assure you that we will be able to resolve such disagreements/ disputes in a manner that will be in our best interests or at all, or that the interests and goals of our SPV partners will be consistent or aligned with our interests. If we are unable to successfully manage relationships with our SPV partners, our projects, cash flows and our result of operations may be adversely affected.

**23. *Our ability to increase tolls on a BOT Project is limited by the terms of the contract governing the BOT Project and future increase in tolls may be inadequate to meet increases in maintenance and operating costs and debt payments over the project's life.***

The tolls we are permitted to charge with respect to a BOT Project are determined by Governmental authorities, as the case may be, and are subject to annual adjustments and escalation over the life of the project based on the increase in the Indian wholesale price index (WPI) as specified in respective Concession Agreements.

The costs of operating and maintaining the BOT Projects may increase due to factors beyond our control, including, among others things:

- increase in the cost of labour, materials and insurance;

- the Project SPVs being required to restore their project roads in the event of any landslides, floods, road subsidence, other natural disasters, accidents or other events causing structural damage or compromising safety;
- increase in electricity tariff rates or other fuel costs resulting in an increase in the cost of energy;
- adverse weather conditions;
- unforeseen legal, tax and accounting liabilities relating to acquired assets; and
- other unforeseen operational and maintenance costs.

In the event that our costs increase, we may be unable to offset such increases by increasing toll fees due to the restrictions of the concession agreements. Any significant increase in operation and maintenance costs beyond the amounts budgeted for by us, could have a material, adverse effect on our business, financial condition and results of operations.

**24. Due to the nature of our Concession Agreements, we may be subjected to claim and counter-claims to and from the Concessioneing Authorities, any adverse outcome of any such claim or counter claim may have an adverse effect on our profitability.**

Pursuant to the terms of our Concession Agreements, government entities are required to acquire or license or secure rights of way over, tracts of land or to hand over unencumbered land, free of encroachments to us. Our concession agreements also contain provisions to compensate us or adjust the terms of the concession for changes in applicable law. Delays in any of the foregoing may result in delay of project implementation prescribed in the relevant Concession Agreement and cause consequent delays in commencement of construction or termination of the contract on account of a material default by the Concessioneing Authority. Such events may also lead to disputes and claims and counter claims for losses and damages between us and the relevant government entity. Further, our operating Project SPVs, KEPL, SJEPL, GAEPL, MTPL and GIPL, have outstanding claims amounting to ₹ 29.55 million, ₹ 47.10 million, ₹ 9.47 million, ₹ 26.00 million and ₹ 21.40 million (claim amount revised subsequently) to NHAI/ MPRTC for loss of revenue for the 24 days in Fiscal 2017 when the toll collection was suspended by NHAI, from November 9, 2017 to December 2, 2016 due to demonetisation of ₹500 and ₹1,000 currency notes. We cannot assure you that we will be able to recover the amount as per the claims submitted to the Concessioneing Authority in a timely manner or at all.

The details in relation to pending claims and counter claims involving our Project SPVs as on May 31, 2017 are as follows:

| No                  | Name of the Project SPV                      | No of claims by the Project SPV(s) | Total amount pending (₹ in million) | No of counter-claims by the Concessioneing Authority | Total amount pending (₹ in million) |

<sup>\*</sup>Includes a penalty of ₹5.45 million.

<sup>\*\*</sup>These include the claims made for loss of revenue due to suspension of toll on account of demonetisation.

<sup>#</sup>OSEPL has vide letter dated June 13, 2017, re-submitted a consolidated claim of ₹8,304.80 million for cost and loss of profit and interest incurred up to March 31, 2017.

<sup>\*\*\*</sup>With regards to one of the counter claim above, KEPL has received a letter in relation to non-completion of certain works regarding the KEPL Project and recovery of damages to the tune of ₹3.25 lakhs per day with effect from July 1, 2015. On March 17, 2017, KEPL has received a letter from NHAI claiming damages with effect from July 1, 2015 to February 28, 2017 aggregating ₹ 197.93 million (609 days at ₹ 0.33 million per day). The matter is currently under arbitration

We cannot assure you that we will be able to recover the claims submitted to the Concessioneing Authority in a timely manner or at all. Our inability to recover such amounts may adversely impact our profitability, cash flows and results of operations. We will continue to face risks associated with implementation of our Concession Agreements which could be due to reasons including those beyond our control which can include, among others,

non-availability of environmental clearances, delay in acquisition of land by the government, or other delays from the Concessioning Authority. Such factors could have an adverse effect on our business, results of operations and financial condition.

**25. Unavailability of sufficient cash flows in order to meet required payments on our debt and working capital requirements, there may be an adverse effect on our operations.**

We have working capital requirement for our projects, part of which is expected to be met through additional borrowings in the future. Moreover, we may need working capital for operation and maintenance of our projects. Our working capital requirements may increase due to an increase in the size of our projects and related operations that are required to be executed within a similar timeframe. Since the contracts we bid typically involve a lengthy and complex bidding and selection process which is affected by a number of factors, it is generally difficult to predict whether or when a particular contract we have bid for will be awarded to us and the time period within which we will be required to mobilize our resources for the execution of such contract.

We cannot assure you that market conditions and other factors will permit future project and working capital financing, whether by way of debt or equity, on terms acceptable to us or at all. Our ability to arrange financing and the costs of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from financial institutions, the amount and terms of our existing indebtedness, investor confidence, the continued success of current projects and laws that are conducive to our raising capital in this manner. Further, if we are unable to obtain financing at commercially viable rates or terms were to diminish or cease to exist, our business, prospects, financial condition and results of operation could be adversely affected.

In addition, our lenders may implement new credit policies, adopt new pre-qualification criteria or procedures, raise interest rates or add restrictive covenants in loan agreements, some or all of which may significantly increase our financing costs, or prevent us from obtaining financings totally. Our lenders may change their lending policies or practices due to factors beyond our control and at a time when we need to finance our business operations or expansion. If we cannot meet any new requirement of our lenders or accept their new lending practices, we may lose them as sources to finance our projects. If we cannot find substitute financing sources at affordable costs, our financing costs may increase significantly and in the worst case, we may not be able to finance our projects at all. Any constraint or restraint on our ability to obtain financing on commercially acceptable terms may result in significant delays and cost overruns of our projects, and our business, financial condition and results of operations may be materially and adversely affected.

**26. Both our Subsidiaries and all of our Associate Companies have incurred losses in the last three preceding Fiscals. This could impose additional financial and performance obligations on our Company, resulting in reduced return on investments or in some cases, losses from the investment activities.**

The following Subsidiaries and Associates have incurred losses in last three preceding Fiscals, based on their respective audited financial statements:

(Amount in ₹ million)

| Sr. No.        | Name of the entity | Profit/ (Loss) after tax for the Fiscal |          |          |
|----------------|--------------------|-----------------------------------------|----------|----------|
|                |                    | 2017                                    | 2016     | 2015     |
| Our Subsidiary |                    |                                         |          |          |
| 1.             | STPL               | (1.11)                                  | (0.74)   | (0.40)   |
| 2.             | OSEPL              | (0.35)                                  | (0.30)   | (0.56)   |
| Our Associates |                    |                                         |          |          |
| 1.             | MTPL               | (147.57)                                | (168.69) | (205.74) |
| 2.             | KEPL               | (715.28)                                | (807.00) | (657.62) |
| 3.             | GIPL               | (108.81)                                | (120.44) | 330.97   |
| 4.             | GAEPL              | (513.90)                                | (373.46) | NA       |
| 5.             | SJEPL              | (11.29)                                 | NA       | NA       |

For all our toll based projects, our primary source of revenue is from toll receipts, which are dependent on traffic volumes and traffic mix on the toll roads and toll fees. Traffic volumes are directly or indirectly affected by a number of factors, many of which are outside our control which may result in operating losses, lower or no returns on capital and reduced revenue for the concessionaire thus impacting the project's performance, as well as failure to meet scheduled debt service payment dates and increased interest costs. Under the financing agreements of our Project SPVs, we, along with our SPV partners, are required to execute sponsor or promoter undertakings in relation to prescribed equity contributions and providing additional funds, by way of infusion

of further equity or subordinated interest free debt, in the event of a shortfall in resources or cost overruns and towards meeting financing obligations of the Project SPVs during the Construction Period. This may result in reduced return on investments or in some cases, losses from the investment activities adversely affecting our cash flows, business, results of operations and financial condition.

Further, post commencement of commercial operations some of the Project SPVs have not been able to generate enough cash flows to meet debt obligations, annuity payment obligations and operational expenses. The sponsors in the relevant Project SPVs have supported the Project SPVs, to meet the above obligations and expenses. Although there is no requirement on us or any of the respective partners in the Project SPVs to infuse further capital into these Project SPVs, we have made investments to support the Project SPVs and we cannot assure you that this situation may not arise in the future. Any such situation may result in our Company having to make further investments in the Project SPVs, which might result in additional financial burden on our Company affecting our financial condition. For details on select financial details of our Associates please refer to the chapters “Financial Statements - Identified Associates Audited Financial Statements” and “Subsidiaries and Associates” on page 303 and 184, respectively.

**27. Any material deficit between the actual traffic volume and our forecasted traffic volume for a toll based project could have an adverse effect on our business, results of operations, cash flows and financial condition.**

When preparing the tender for a toll based project, particularly to determine the bid pricing for such toll based project or contract, we forecast the traffic volume for the proposed project in order to arrive at our expected revenue over the concession period or the contract period, as applicable. In such instances, if the actual traffic volume is significantly less than the forecasted traffic volume, the revenue generated from the toll based project may be lower than the anticipated revenue. We forecast the traffic volume for toll based projects based on the data provided by external agencies engaged by our Company such as traffic consultants and in-house team of professionals. The forecasting of traffic volumes is based on various assumptions, and we cannot assure you that such forecasts will be accurate. While all our toll-based concession agreements (except GIPL Project) provide for an extension of the concession period if the actual traffic volumes are significantly lower than the target traffic (as per the concession agreement) projected for the project, we cannot assure you that the concession period will be actually extended. Further, in case the actual traffic volumes are significantly higher than the actual traffic (as per the concession agreement) projected for the project, the concession period will be reduced.

Our current project portfolio consists of six (6) BOT Projects, of which two (2) BOT Projects are Projects operational under Final COD, three (3) BOT Projects are Projects operational under Provisional COD and one (1) BOT Project is a Project under Construction. For toll based projects, our revenue is primarily derived from toll receipts which are dependent on traffic volumes and traffic mix on the toll roads and toll fees. Traffic volumes are directly or indirectly affected by a number of factors, many of which are outside our control, including:

- toll fees;
- economic activity in the region;
- fuel prices in India;
- growth in sale of automobiles and affordability;
- presence of alternate competing roads;
- convenience and extent of a toll road’s connections with other parts of the local and national highway networks;
- level of commercial, industrial and residential development in areas served by our projects; and
- weather conditions and seasonal traffic.

Toll roads that are part of projects operated by us may experience high levels of traffic and congestion at certain times of the day or days of the week. Although we may consider possible solutions and take appropriate steps to ease traffic flow and reduce congestion on such roads, there can be no guarantee that such problems will be resolved under conditions that are economically satisfactory to us. This could also lead to user dissatisfaction and could potentially reduce the traffic volume which may adversely affect our results of operations, cash flows, business and financial condition.

**28. One of our Project SPVs, GIPL is contesting levy of interest by NHAI for deferment in payment of negative grant by GIPL to NHAI in terms of the GIPL Concession Agreement. Further, GIPL has requested NHAI**

***to either defer payment of negative grant till such time as receipt of dues by GIPL from Kerala State Road Transportation Corporation (“KSRTC”) and Government of Kerala or off-set the payment of this negative grant against such dues. In the event NHAI does not accede to this request or for set off or deferment of the negative grant as the case may be against the dues to GIPL from KSRTC and the Government of Kerala or both, the results of our operations, cash flows and financial condition may be adversely impacted.***

GIPL has submitted a request to NHAI for deferment of the second and subsequent instalments of negative grant payable to NHAI, aggregating to ₹ 2,000.00 million. NHAI approved such deferment in November 2014 for a period of 21 months from the due date i.e. September 22, 2014 subject to payment of interest on the deferred amount at the applicable bank rate along with an additional interest of 2.00% p.a. and signing of a supplementary agreement for having no claim on account of deferment. GIPL has by way of several letters to the NHAI submitted that such levy of interest is unjustified and not in accordance with terms of the Concession Agreement and has contested the levy of such interest. The Chief General Manager (Tech) and Regional Officer-Chennai vide his letter dated June 26, 2015 has recommended non-levy of interest to the General Manager (NHA) for the deferment given that the delay in project completion was due to inordinate delay in handing over project land. This matter is under consideration by NHAI and no final decision in this regard has been taken.

Further, on July 7, 2016, GIPL has submitted a request to NHAI to either (i) defer the payment of negative grant till such time as receipt of the dues payable by Kerala State Road Transport Corporation (“KSRTC”) and Government of Kerala; or (ii) adjust the negative grant against such dues. The NHAI General manager Technical and Regional Officer, Kerala vide letters dated April 10, 2017 and May 3, 2017 has recommended to the competent authority to a) adjust the payment of the 2<sup>nd</sup> instalment of negative grant of ₹ 400.00 million against the monies to be received from the Government of Kerala for additional work to be carried out in terms of the Government of Kerala order dated February 18, 2012; and b) request MoRTH to deduct ₹ 1,142.10 million, due to GIPL as on March 31, 2017, from the payment of central funds to the Government of Kerala and remit the same to NHAI against the monies payable by GIPL as negative grant to NHAI. While the General Manager, Finance, NHAI has vide its letter dated June 9, 2017 has acknowledged the receipt of request, the matter is under consideration of NHAI and no decision has been taken as on the date of this Red Herring Prospectus. Further, Member Finance, NHAI vide letter dated June 29, 2017 addressed to Chief Secretary, Government of Kerala has impressed upon the Government of Kerala to expedite the process of clearing out the outstanding dues of GIPL in relation to issuance of free passes to local users and non-payment of user fee by KSRTC buses.

In the event either of the above requests / submissions are not accepted by NHAI and if further GIPL does not receive the dues from the KSRTC and the Government of Kerala in due course of time or at all, then the results of operations, cash flows and the financial condition of GIPL may be materially and adversely impacted.

- 29. Our concession agreements require payment of annual premium, negative grants and/ or share in fee realised in consideration for being granted the right to build and operate the concession project. Failure to make such payments could result in accumulation of interest and imposition of penalties on us. In case the amount of deferred premium alongwith the penalty/ interest due is more than potential fee flows available from the project, it may result in termination of the relevant concession agreement by the Concessioneing Authority.***

Under some of our concession agreements, we are required to undertake annual premium payment/ sharing of revenue/ payment of negative grant to Concessioneing Authorities, for securing the right to build and operate the project. Payment of negative grants under our Concession Agreements are fixed payments typically commencing from the first year of concession period or commercial operations and payable in instalments or annually with escalation in accordance with the respective Concession Agreement. Details of premium paid by our Project SPV to the Concessioneing Authorities in the last three years are stated below:

(₹ in million)

| No | Name of the SPV | Nature of Payment* | Fiscal 2017 | Fiscal 2016 | Fiscal 2015 |
|----|-----------------|--------------------|-------------|-------------|-------------|
| 1. | KEPL            | Annual premium     | -           | 3.22        | 87.95       |

\*Includes amount appropriated by NHAI from the amount payable to KEPL towards change of scope / other account.

For further details, please refer section “Business – Our Business and Operations” on page 141.

In the event of any decrease in our revenue due to lack of growth in traffic or otherwise, we may not be able to generate enough revenue from such projects to make the payment in a timely manner or at all or there may be delays by us in making such payments.

The Ministry of Road Transport and Highways conveyed a scheme of deferment of premium whereby the premium payable to the NHAI could be deferred over a few years and would be payable along with interest. For example, in relation to the KEPL Project, we were permitted to defer our premium payment obligations under the respective concession agreements subject to certain additional restrictive covenants and onerous obligations. Further, the NHAI has the authority to terminate the concession at any point if in its sole opinion, the deferred premium along with debt due is more than potential fee flows available from the project for the balance period of the concession.

If any of our above concession agreements are terminated as a result of a failure to satisfy annual premium payment liabilities, our cash flows, business, results of operations and financial condition may be adversely affected.

**30. Delay in servicing of outstanding borrowings by our Subsidiaries and Associates may result in an event of default and may have an adverse effect on our results of operations and financial condition.**

In the past there have been instances wherein our Associates have delayed in timely servicing the principal and/or the interest components of their outstanding financial obligations.

The details of outstanding delays in payment of interest and principal in relation to the outstanding term loans for each Project SPV, as on March 31, 2017, is as follows:

| Name of the Project SPV | Due date of payment of interest/repayment of principal | Interest amount remaining outstanding as on March 31, 2017 | Delay in payment of interest in number of days from the due date of payment* | Principal amount remaining outstanding as on March 31, 2017 | Delay in repayment of principal in number of days from the due date of payment* |
|-------------------------|--------------------------------------------------------|------------------------------------------------------------|------------------------------------------------------------------------------|-------------------------------------------------------------|---------------------------------------------------------------------------------|
| GIPL <sup>1</sup>       | -                                                      | -                                                          | NA                                                                           | -                                                           | NA                                                                              |
| STPL <sup>2</sup>       | -                                                      | -                                                          | NA                                                                           | -                                                           | NA                                                                              |
| MTPL <sup>3</sup>       | -                                                      | -                                                          | NA                                                                           | -                                                           | NA                                                                              |

We cannot assure you that such delays or defaults will not occur in the future, which may result in such outstanding borrowing becoming categorised as NPAs and an event of default being triggered under their respective financial covenants. In case of such delays or defaults of any borrowings of our Subsidiaries and/or Associates, may also result our Company stepping in to cover the default. Such instances could negatively affect our cash flows and may also have an adverse effect on our results of operations and financial conditions.

**31. Our agreements for our toll-based BOT Projects contain limited protection against new roads and bridges being built to compete against them. Newly constructed roads or existing alternate routes may compete with our toll-based BOT Projects and result in diversion of the vehicular traffic, resulting in a reduction in our revenue from toll receipts.**

In terms of the concession agreements entered into by each Project SPV and the Concessioneing Authority, the GOI and State Governments have the right to construct and open additional roads which may serve as alternate

routes to our toll-based BOT Projects after the expiry of between eight and 24 years from the appointed date, depending on terms of the Concession. The construction of such alternative roads and highways may result in a diversion of vehicular traffic from our BOT Projects and a reduction of revenue from toll receipts. While terms of concession agreements provide for increase in concession period from the date such road, is opened to traffic, we cannot assure you that the construction of any additional roads that compete with our toll-based BOT Projects will not materially and adversely affect our revenues and operations. For further details on the terms of the concession agreements, please refer to “*Business – Summary of our BOT contracts*” on page 144.

Furthermore, local roads and state highways, which are not subject to the control of the Concessioneing Authority, may be improved so as to serve as alternate routes to our toll-based BOT Projects, and toll may or may not be charged on such local roads and state highways. The existence or improvement of such alternative roads and highways may also result in a diversion of vehicular traffic from our toll-based BOT Projects and a reduction of revenue from toll receipts, which may materially and adversely affect our business, financial condition and results of operations.

**32. *We are subject to restrictive covenants under our concession agreements that could limit our flexibility in managing our business or BOT Projects.***

The concession agreements that we have entered into with the Concessioneing Authorities for our BOT Projects contain one or more restrictive covenants, obligations and certain other provisions which may adversely affect us, such as:

- Prior consent of the Concessioneing Authority to undertake certain actions including amendment, modification or replacement of finance agreement, if it results in increasing the financial liability of the Concessioneing Authority
- minimum shareholding requirements, including transfer restrictions on the equity shares of the Project SPVs holding and operating the project;
- setting up of escrow arrangements for toll proceeds;
- ability of the Concessioneing Authority to change the scope of the project;
- periodic operations and maintenance obligations;
- indemnity to the Concessioneing Authority for certain actions; and
- termination of our concession agreement by the Concessioneing Authority in the event of default.

Additionally, we may be restricted in our ability to, among other things, increase toll rates, sell our interests to third parties within certain time specified in all concession agreement from the date of start of commercial operations, undertake expansions and contract with certain third parties. These restrictions and provisions may limit our flexibility in operating our business, and could have an adverse effect on our cash flows, business, results of operations and financial condition.

**33. *Leakage of the tolls collected on our BOT toll roads may adversely affect our revenues and earnings.***

Our collection of toll is primarily dependent on the integrity of toll collection systems, our internal control and checks and audit systems and willingness to pay toll fees. While we have in place an audit and an integrated toll collection system, the level of revenues derived from collection of tolls may be reduced by leakage through toll evasion, theft, fraud or technical defaults in our toll systems or forced violations by users of our toll roads. If toll collection is not properly monitored, leakage may reduce our toll revenue. Further, toll collection errors may amount to a loss of revenue as there is an inherent risk of under-collection of toll fees given that most users of toll roads pay in cash. Any significant failure by us to control leakage in toll collection systems could have an adverse effect on our cash flows, business, results of operations and financial condition.

**34. *Our inability to collect receivables from Concessioneing Authorities or other third parties on time or at all may adversely affect our cash flows, business, results of operations and financial condition.***

There may be delays associated with the collection of receivables from Concessioneing Authorities, other third parties and related parties. For the outstanding amount of receivables for the year ended March 31, 2017, please refer to the chapter “*Financial Statements*” on page 218. We cannot assure you that we will be able to collect our receivables in time or at all which may have an adverse effect on our cash flows, business, results of operations and financial condition.

**35. *If the operation of one or more of our projects is disrupted and our Project SPVs are not able to collect tolls, or a premature termination of any of our projects occurs or any of the provisions of our concession agreements or the concession agreements are held to be void by any court, tribunal or appellate authority, our financial condition, cash flows and results of operations could be adversely affected.***

In the event of disruption in receipt of toll, our cash flows, business, results of operations and financial condition may be adversely affected. For example, recently, collection of toll at all toll booths from November 9, 2016 to December 2, 2016 was restrained by Concessioning Authorities, due to the decision of the GoI to withdraw ₹ 500.00 and ₹ 1,000.00 notes as legal tender w.e.f. midnight November 8, 2016. Even though we are entitled to compensation as per concession agreements, we cannot assure you that the compensation as and when received shall be adequate to cover the toll collection losses for the period of disruption. Any future suspension of toll or user fees will have an adverse effect on our financial condition, cash flows and results of operations.

Further, we will be unable to continue the operation of a particular road concession without the continuing concession right from the Concessioning Authorities. A concession may be revoked by the Concessioning Authority for the reasons set forth in the relevant concession agreement, including but not limited to, one or more of the following:

- failure to comply with prescribed minimum shareholding requirements;
- failure to complete pending items listed in the provisional completion certificate within the prescribed time;
- refusal or non-acceptance of any proposed augmentation of capacity of the existing toll road;
- failure to augment the capacity of the project if so directed by the Concessioning Authority;
- failure to make any payments, including negative grants, to the Concessioning Authority in a timely manner;
- failure to comply with operational or maintenance standards;
- occurrence of an event of default under financing documents where the lenders have recalled all or a portion of the loan;
- continuation of a force majeure event, such as an act of God, act of war, expropriation or compulsory acquisition of any project assets by the Government, industrial strikes and public agitation, beyond a specified time; and
- failure by the relevant Subsidiary / Associate to comply with any other material term of the relevant concession agreement.

Under most of our concession agreements, if the concession agreement is terminated by the Concessioning Authority due to a default by the Project SPV, or by the Project SPV due to a default by the Concessioning Authority, such Project SPV is entitled to receive termination payments from the Concessioning Authority in accordance with the terms of the relevant concession agreement. Such termination payments are computed taking into account equity and debt (senior and subordinated), of the Project SPVs in accordance with the concession agreement. There can be no assurance that the Concessioning Authority will pay such termination payments in time or at all. Further, there can be no assurance that the termination payments from the Concessioning Authority, if any, will be adequate to enable our Company to recover its investments in such Project SPVs. Further, in the event any of the provisions of our concession agreements or the concession agreements are held to be void by any court, tribunal or appellate authority, we will not be able to claim any compensation payments from the Concessioning Authority in accordance with the terms of the relevant concession agreement. If the concession agreements are terminated prematurely, our business, results of operations, cash flows and financial condition may be adversely affected.

**36. *Our Statutory Auditors have made certain comments in respect of our Company's audited financial statements for the last five Fiscals.***

Our Statutory Auditors in their examination report in respect of our Company's audited standalone financial statements for the last five Fiscals have drawn attention to notes in the standalone financials regarding investments in the Project SPVs formed as per the concession agreements and regulatory guidelines and treatment of such investments as qualifying assets which is based on legal opinion and capitalisation of directly attributable borrowing costs incurred in respect thereof.

| 2017                 | <p>The Company is presently engaged in the business of designing, building, operating, maintaining and carrying out all other activities pertaining to road projects. As per the guidelines of respective Government Authority and the requirements of the Concession Agreements, such road projects are required to be implemented under the Built, Operate &amp; Transfer (BOT) model by creating Special Purpose Vehicles (SPVs) so that after the concession period, the SPV can be transferred to the respective authority on an “as is where is basis”. The Company has, therefore, invested in various road projects under the aforesaid SPV model.</p> <p>These investments have been made on a long-term basis with an objective to obtain return and capital appreciation after the commencement of commercial operations of the respective Project.</p> <p>Based on a legal opinion, the Company has treated these investments as “Qualifying Asset”. As required by Accounting Standard 16 on ‘Borrowings Costs’, Accounting Standard 13 on ‘Investments’ and in accordance with the accounting concept of ‘Matching costs and revenues’, the Company has capitalised borrowing cost incurred on funds borrowed exclusively for investments in SPVs as part of the cost of investments.</p> <p>Accordingly, borrowing cost has been capitalised to Non-Current Investments and Other Non-Current Assets for an amount of ₹ 1,549,491,994 including ₹ 349,471,740 for the year (As at 31<sup>st</sup> March 2016: ₹ 1,200,020,254 including ₹ 466,401,238 for that year) and ₹ nil for the year (As at 31<sup>st</sup> March 2015: ₹ 3,069,682 including ₹ 3,069,682) respectively incurred on loans borrowed for acquisition of these investments.</p>                                           |                          |                       |                                    |                       |                                    |                      |            |      |      |         |

**37. The auditors of our Subsidiaries and Associates have made certain comments in respect of our Subsidiaries’ and Associates’ audited financial statements for the last three financial years.**

The auditors in their examination report in respect of our Subsidiary OSEPL and Associate MTPL’s audited financial statements for the last three financial years have drawn attention to notes in the respective standalone financials.

Hence no provision has been made in the books of account towards Premium amounting to ₹ 69.26 million for the financial year 2015-16.                                                                                                                                                                                                             |
| 2017   | As per the Concession Agreement for the Project executed with MPRDC, the available balance in the Escrow Account needs to be withdrawn every month as per the order specified in the Escrow Agreement dated February 23, 2010. During the year, the revenue of the company was insufficient for payment of Premium to MPRDC as per the said specified order of withdrawal under Escrow Agreement. The Concession Agreement does not provide for accrual of Premium if the Project revenue is insufficient for its payment. Hence no provision has been made in the books of account towards Premium amounting to ₹ 56.76 million for the financial year 2016-17. |
| OSEPL  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2017   | We draw attention to Note No. 26 of the financial statements wherein the company has disclosed the fact that the project has been foreclosed on 2 <sup>nd</sup> March 2017 and that the process of determination & settlement of claims is under process.<br>Our report is not qualified in respect of above matter.                                                                                                                                                                                                                                                                                                                                             |

**38. Political and other agitations against the collection of tolls may affect our ability to collect tolls over prolonged periods, which could have a material, adverse effect on our business, results of operation and financial condition.**

Over the past few years, there have been agitations by political parties and local community members against the collection of tolls on local road and state highway projects across India, especially in states of Kerala, Haryana, Maharashtra etc. where certain of our BOT Projects are located. These agitations have sometimes turned violent and resulted in the destruction of toll-collection booths and other related property. If such events spread it may limit our ability to collect tolls over a prolonged period and may have a material, adverse effect on our business, financial condition and results of operations. For example, during Jat quota agitation in Haryana, which started on February 14, 2016 and turned violent on February 19, 2016, the toll plaza of our KEPL Project at Dighal village was set on fire and completely destroyed by the agitating mob. Due to disturbances, the tolling operations were halted up to February 24, 2016 at the Gangaycha Toll Plaza of our KEPL Project and up to February 29, 2016 at the Dighal village toll plaza. The loss to KEPL due to damaged assets has been ascertained as ₹ 115.50 million, including cash theft/burnt for which an insurance claim has been made by KEPL and is pending.

Further, the concession agreements entered into by our Project SPVs provide that in the event that the concessionaire ability to collect tolls is disrupted as a result of political and other agitations over a specified period, either party to the concession agreement may terminate the agreement. While the concession agreements provide for a specified payment mechanism in the case of such termination, there can be no assurance that our Project SPVs will receive such payments from the NHAI in a timely manner or at all, or that such payments will be adequate to recover our investment or return, which may materially and adversely affect our business, financial condition and results of operations.

**39. Our operations could be adversely affected by strikes, work stoppages or increased wage demands by our employees or any other kind of disputes with our employees and contract labour.**

As of March 31, 2017, our Company employed approximately 20 employees and GAEPL, GIPL, MTPL, KEPL, SJEPL, OSEPL and STPL had 207, 10, 29, 23, 25, nil and 24 employees, respectively. While we consider our current labour relations to be good, we cannot assure you that we will not experience disruptions in work due to disputes or other problems with our work force, which may adversely affect our ability to perform our obligations for the projects.

We enter into contracts with certain independent contractors to complete specified assignments including construction and O&M of our projects. The number of contract labourers employed by the contractors varies from time to time based on the nature and extent of work contracted to independent contractors. Any disputes between such contractors and their employees may also result in disruptions in our operations, which may also adversely affect our ability to complete a project in a timely manner.

**40. Unavailability of sufficient cash flows in order to meet required payments on our debt and working capital requirements, may have an adverse effect on our operations.**

We have working capital requirements for our projects, part of which is expected to be met through additional borrowings in the future. Moreover, we may need working capital for operation and maintenance of our projects. Our working capital requirements may increase due to an increase in the size of our projects and related operations that are required to be executed within a similar timeframe. Since the contracts we bid typically involve a lengthy and complex bidding and selection process which is affected by a number of factors, it is generally difficult to predict whether or when a particular contract we have bid for will be awarded to us and the time period within which we will be required to mobilize our resources for the execution of such contract.

We cannot assure you that market conditions and other factors will permit future project and working capital financing, whether by way of debt or equity, on terms acceptable to us or at all. Our ability to arrange financing and the costs of such financing are dependent on numerous factors, including general economic and capital market conditions, credit availability from financial institutions, the amount and terms of our existing indebtedness, investor confidence, the continued success of current projects and laws that are conducive to our raising capital in this manner. Further, if we are unable to obtain financing at commercially viable rates or terms were to diminish or cease to exist, our business, prospects, financial condition and results of operation could be adversely affected.

In addition, our lenders may implement new credit policies, adopt new pre-qualification criteria or procedures, raise interest rates or add restrictive covenants in loan agreements, some or all of which may significantly increase our financing costs, or prevent us from obtaining financing totally. Our lenders may change their lending policies or practices due to factors beyond our control and at a time when we need to finance our business operations or expansion. If we cannot meet any new requirement of our lenders or accept their new lending practices, we may lose them as sources to finance our projects. If we cannot find substitute financing sources at affordable costs, our financing costs may increase significantly and in the worst case, we may not be able to finance our projects at all. Any constraint or restraint on our ability to obtain financing on commercially acceptable terms may result in significant delays and cost overruns of our projects, and our business, financial condition and results of operations may be materially and adversely affected.

**41. *The cost of implementing new technologies for collection of tolls and monitoring our projects could be significant and could adversely affect our results of operations, cash flows and financial condition.***

Our future success will depend in part on our ability to respond to technological advances and emerging standards and practices on a cost effective and timely basis. In addition, rapid and frequent technology and market demand changes can often render existing technologies and equipment obsolete, requiring substantial new capital expenditures and/ or write-down of assets. Our failure to successfully adopt such technologies in a cost effective and a timely manner could increase our costs and lead to us bidding at lower returns or loss of bidding opportunities vis-à-vis our competitors. Additionally, Government authorities may require adherence with certain technologies in the execution of projects and we cannot assure you that we would be able to implement the same in a timely manner, or at all. For example, as part of the approval for deferment of premium, certain Project SPVs are required to install electronic toll collection systems. Further, implementation of such technology may not be cost effective, thereby negatively impacting our profitability. Any of the above events may adversely affect our future prospects, cash flows, business, results of operations and financial condition.

**42. *Our inability to raise equity funding in the future to meet the requirements for the new projects which our Company bids for may result in our Company not being able to successfully bid for or acquire new projects. Any future issuance of Equity Shares by us may dilute your shareholding and adversely affect the trading price of the Equity Shares.***

As part of our growth strategy, we intend to bid for projects on an individual basis or with SPV partners. Such future acquisitions of or, successful bid for, projects will require us to infuse capital which may be raised by way of equity funding in our Company. Our inability to raise further equity capital may result in us losing out on opportunity to bid for or acquire new projects, which may adversely affect our cash flows, business, results of operations and financial condition.

Any future issuance of the Equity Shares or securities linked to the Equity Shares by us, if any may dilute your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares.

#### 43. Our Group Companies have incurred losses in the past.

Our Group Companies have incurred losses in the past, based on the audited financial statements:

(Amount in ₹ million)

| Sr. No. | Name of the entity | Surplus/ (Deficit) for the Fiscals |        |        |
|---------|--------------------|------------------------------------|--------|--------|
|         |                    | 2017                               | 2016   | 2015   |
| 1.      | IPDF               | (205.27)                           | (8.49) | 213.24 |
| 2.      | IPDC               | (163.43)                           | 3.07   | 285.41 |

For details on select financial details of our Group Companies please refer to the chapter “Group Companies” on page 213.

#### 44. Our Company’s performance depends on the financial performance of our Project SPVs and their ability to service the subordinate debt advanced to them and to declare and pay dividends on the equity contribution of our Company in these Project SPVs.

All our projects are operated through our Project SPVs. Except, consultancy fees and fees for project management services, our Company’s only material sources of revenue are and are expected to be dividends, and distributions and payments, if any, pursuant to subordinated debt advanced to the Project SPVs. The ability of these Project SPVs to make dividend payments is subject to applicable laws and regulations in India relating to payment of dividends and is further subject to conditions including, among others, all the conditions in the financial covenants having been met prior to the declaration and/or payment of dividends by these Project SPVs. Further, our Company cannot claim setoff against dividend distribution tax payable by the Associates.

Our Company’s performance is also dependent upon ability of the Project SPVs to service the subordinated debt advanced by our Company to the Project SPVs. Payment of any interest is subject to availability of residual cash flow after the payment of all expenses, statutory dues and payments to the senior secured lenders.

Further, in the event of a bankruptcy, liquidation or reorganisation of a Project SPV, our Company’s claim in the assets of such Project SPV as a shareholder in the Project SPV and/or as a holder of subordinated debt remains subordinated to the claims of senior lenders and other creditors. Any decline in performance of our Project SPVs may adversely affect our cash flows, business, results of operations and financial condition.

#### 45. We have entered into and may in the future enter into related party transactions.

We have in the course of our business entered into, and will continue to enter into, transactions with related parties. Our Company has entered into several related party transactions with our Promoter Group entities and our Project SPVs, including in relation to acquisition of projects, construction and development of projects, management services, operations and maintenance services, inter-corporate loans etc. For more information regarding our related party transactions, please refer to the chapter “Related Party Transactions” on page 216. We cannot assure you that we will receive similar terms in our related party transactions in the future.

Further, while all of our related party transactions are in compliance with applicable law and are on arms’ length basis, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties. We cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on our reputation, cash flows, business, results of operations and financial condition.

#### 46. Our Company has term loan/unsecured loans/inter corporate deposits that may be recalled by the lenders at any time.

As of March 31, 2017, our Company has availed the following unsecured loans/inter corporate deposits which may be recalled by their respective lenders at any time. In the event that any lender seeks the accelerated repayment of any such loan, it may have a material adverse effect on our business, cash flows and financial condition.

(Amount in ₹ million)

| Lender                                 | Amount |
|----------------------------------------|--------|
| Prasandi Infotech Park Private Limited | 30.00  |
| Religare Finvest Limited               | 500.00 |

| Lender                             | Amount          |
|------------------------------------|-----------------|
| IL & FS Financial Services Limited | 700.00          |
| <b>Total</b>                       | <b>1,230.00</b> |

In addition to the above, our Promoters, Group Companies, Subsidiaries and Associates may avail of unsecured loans which could be recalled by the respective lenders.

**47. Our business is subject to a variety of environmental laws and regulations. Any failure on our part to comply with applicable environmental laws and regulations could have an adverse effect on our business.**

Our operations are subject to numerous environmental protection laws and regulations, which are complex and stringent. We regularly perform work in and around sensitive environmental areas such as rivers, lakes, coastlines and forests. Sanctions for failure to comply with these laws, rules and regulations, may include administrative, civil and criminal penalties, revocation of permits and corrective action orders. Certain environmental laws provide for strict liability for remediation of hazardous substances released on a site. In addition, we incur significant expenditure relating to operating methodologies and standards in order to comply with applicable environmental laws and regulations. Furthermore, we believe environmental regulations in India will become more stringent in the future. The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with certainty. The costs and management time required to comply with these requirements could be significant.

**48. Our inability to obtain, renew or maintain the statutory and regulatory permits and approvals required to operate our business could have a material adverse effect on our business.**

We require certain statutory and regulatory permits and approvals for our business. There can be no assurances that the relevant authorities will issue such permits or approvals in the timeframe anticipated by us or at all. Failure by us to renew, maintain or obtain the required permits or approvals at the requisite time may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations. For further details, please refer to the chapter “Government and Other Approvals” on page 357.

**49. We are required to meet specifications and standards of operation and maintenance in our projects. We may be subject to increase in operation and maintenance costs which will lead to an increase in operating expenses to comply with such specifications and standards, which may adversely affect our business, cash flows and results of operations**

We are required to meet specifications and standards of operation and maintenance in our projects. We may be subject to increase in operation and maintenance costs which will lead to an increase in operating expenses to comply with such specifications and standards, which may adversely affect our business, cash flows and results of operations.

Our concession agreements typically specify certain operation and maintenance standards and specifications to be met by us while undertaking our operation and maintenance activities. These specifications and standards require us to incur operation and maintenance costs on a regular basis. The operation and maintenance costs and operating expenses of our projects may increase due to factors beyond our control, including, among others:

- standards of maintenance or road safety applicable to our projects prescribed by the relevant regulatory authorities;
- restoration of our projects in the event of any landslides, floods, road subsidence, other natural disasters accidents or other events causing structural damage or compromising safety;
- unanticipated increases in construction material costs;
- higher axle loading, traffic volume or environmental stress leading to more extensive or more frequent heavy repairs or maintenance costs;
- increase in electricity tariff rates or other fuel costs resulting in an increase in the cost of energy;
- local disturbances;
- increase in the cost of labour; and
- adverse weather conditions.

In the event that our costs increase, we may be unable to offset such increases by passing on the cost to road users. As such, the inability to change the terms and conditions, including the toll fees and annuity payments of

the concession during the concession period may adversely affect our operational and financial flexibility. Any significant increase in operation and maintenance costs beyond the amounts budgeted for by us, or any failure to meet quality standards, may increase our operating expenses, reduce our profits, could expose us to penalties imposed by the Concessioning Authorities and could have an adverse effect on our cash flows, business, results of operations and financial condition.

**50. Our insurance coverage may not adequately protect us against all material hazards.**

Under all of our concession agreements, we are required to obtain insurance for the project undertaken by us. While we believe that the insurance coverage which we maintain would be reasonably adequate to cover the normal risks associated with the development and the operation of our BOT Projects, we cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all material losses.

Notwithstanding the insurance coverage that we carry, we may not be fully insured against some business risks and the occurrence of an event that causes losses in excess of limits specified under the relevant policy, or losses arising from events not covered by insurance policies, could adversely affect our cash flows, business, results of operations and financial condition. If we are subject to litigation or claims or our operations are interrupted for a sustained period, we cannot assure you that our insurance policies will be adequate to cover the losses that may be incurred as a result of such interruption. If we suffer large uninsured losses or if any insured losses suffered by us significantly exceed our insurance coverage, it may adversely affect our cash flows, business, results of operations and financial condition. Further, our Company (on a standalone basis) is not required to maintain any insurance policy and has taken a directors and officers policy. The below table provides a comparison of percentage of total insurance vis à vis book value of the assets and net book value of the assets of the respective Project SPV:

(₹ in million)

| Sr. No. | Name of the SPV | Total Assets as on March 31, 2017 | Net Assets covered under insurance as on March 31, 2017* | Insurance coverage as on March 31, 2017 | Insurance Coverage vis-à-vis total Assets (%) | Insurance Coverage vis à-vis Net Assets (%) |
|---------|-----------------|-----------------------------------|----------------------------------------------------------|-----------------------------------------|-----------------------------------------------|---------------------------------------------|
| 1.      | STPL            | 4,997.51                          | 4,411.02                                                 | 7,839.00                                | 156.86                                        | 177.71                                      |
| 2.      | KEPL            | 9,889.33                          | 9,790.06                                                 | 11,526.44                               | 116.55                                        | 117.74                                      |
| 3.      | GAEPL           | 19,195.23                         | 19,022.22                                                | 21,654.86                               | 112.81                                        | 113.84                                      |
| 4.      | SJEPL           | 14,547.26                         | 14,193.90                                                | 20,182.65                               | 138.74                                        | 142.19                                      |
| 5.      | GIPL            | 8,041.02                          | 6,109.16                                                 | 10,741.50                               | 133.58                                        | 175.83                                      |
| 6.      | MTPL            | 2,595.34                          | 2,404.22                                                 | 4,746.20                                | 182.87                                        | 197.41                                      |

\* Net assets include tangible assets, cash in hand, intangible assets and capital work in progress and net of government grants, internal accruals and depreciation.

Note: Our OSEPL Project has been foreclosed with effect from January 13, 2017 and the project has been released to NHAI for re-bid, subject to the claims of OSEPL being settled. As the project is no longer under execution, no insurance policy has been taken in relation to the said project. For details refer to "Risk Factors – One of our Projects which was under construction has been foreclosed by NHAI, subject to determination of amount of compensation through settlement-cum ISAC procedure. We cannot assure you that we would receive any part or whole of such compensation on a timely basis or at all" on page 24.

Source: As per certificate dated June 30, 2017 issued by Kamal H Agarwal & Associates, Chartered Accountants

To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance or exceeds our insurance coverage, the loss would have to be borne by us and our results of operations, cash flows and financial performance could be adversely affected. For further details on insurance arrangements, please refer to "Business – Insurance" on page 165.

**51. We are dependent on our Key Managerial Personnel and other members of our senior management team, and the loss of or our inability to retain such persons or find adequate replacements could adversely affect our cash flows, business, results of operations and financial condition.**

Our performance depends largely on the efforts and abilities of our Key Managerial Personnel and other members of our senior management team. The inputs and experience of our key managerial personnel and other senior management are crucial for the development of our business and operations and the strategic directions taken by us. We cannot assure you that we will be able to retain these employees or find adequate replacements in a timely manner, or at all, should they chose to discontinue their employment with us. In terms of our concession agreements, we are required to employ qualified and trained employees for operating the projects. We may require a long period of time to hire and train replacement personnel when skilled personnel terminates their employment with us. We may also be required to increase our levels of employee compensation more

rapidly than in the past to remain competitive in attracting skilled employees that our business requires. We believe that competition for qualified personnel with relevant expertise in India is intense due to the scarcity of qualified individuals in the industry that we operate in. A loss of services of our key personnel could adversely affect our cash flows, business, results of operations and financial condition.

**52. *This Red Herring Prospectus contains information from an industry report which we have commissioned from CRISIL Research.***

This Red Herring Prospectus includes information that is derived from the CRISIL Report, prepared by CRISIL Research, a research house, pursuant to an engagement with our Company. We commissioned this report for the purpose of confirming our understanding of the infrastructure industry in India. Neither we, nor any of the BRLMs, nor any other person connected with the Issue has verified the information in the CRISIL Report. CRISIL has advised that while it has taken due care and caution in preparing the commissioned report, which is based on information obtained from sources that it considers reliable (“**Information**”), it does not guarantee the accuracy, adequacy or completeness of the Information and disclaims responsibility for any errors or omissions in the Information or for the results obtained from the use of the Information. The CRISIL Report also highlights certain industry and market data, which may be subject to assumptions. There are no standard data gathering methodologies in the industry in which we conduct our business, and methodologies and assumptions vary widely among different industry sources. Further, such assumptions may change based on various factors. We cannot assure you that CRISIL’s assumptions are correct or will not change and, accordingly, our position in the market may differ from that presented in this Red Herring Prospectus. Further, the commissioned report is not a recommendation to invest or disinvest in our Company. CRISIL has disclaimed all financial liability in case of any loss suffered on account of reliance on any information contained in the CRISIL Report.

**53. *Our Company’s Registered Office and Corporate Office are not owned by us and our Company has only leased these properties. In the event these leases are terminated by the counter parties, our cash flows, business, financial condition and results of operations could be adversely affected.***

The premises on which our Company’s Registered Office and our Corporate Office are on leased premises. In case such lease arrangements are terminated by the counter parties, we may suffer a disruption in our operations. For details, please refer to “*Business – Property and Equipment*” on page 165. Relocation of any part of our operations may cause disruptions to our business and we cannot assure you that in such a case, we will be able to find suitable premises on commercially reasonable terms in a timely manner, if at all or we may have to pay significantly higher rent which may materially and adversely affect our business, financial condition and results of operations.

**54. *Upon completion of the Issue, our Promoters and Promoter Group will continue to retain control over us, which will allow them to influence the outcome of matters submitted to the shareholders for approval.***

Our Promoters and Promoter Group together currently hold 99.99% of our issued and paid-up Equity Share capital and after the completion of the Issue, will continue to together hold a majority of our Equity Shares. Consequently, our Promoters and Promoter Group may collectively exercise substantial control over us and may jointly have the power to elect and remove a majority of our Directors and/or determine the outcome of proposals for corporate action requiring approval of our Board of Directors or shareholders. This collective control could also delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from obtaining control of our Company. The interests of our Promoters and Promoter Group may conflict with the interests of our other shareholders, including the holders of our Equity Shares to be offered pursuant to this Issue. We cannot assure that our Promoters and Promoter Group will act to resolve any conflicts of interest in our Company’s favour. For further information, please refer to the chapters “*Capital Structure*” and “*Promoters and Promoter Group*” on pages 79 and 205 respectively.

**55. *Our Company’s management will have flexibility in utilising the Net Proceeds and that there is no assurance that the deployment of the Net Proceeds in the manner intended by our Company will result in any increase in the value of your investment. Further, the funding plan has not been appraised by any bank or financial institution.***

Our Company intends to use the Net Proceeds for the purposes described in “*Objects of the Issue*” on page 88. As our Company’s management has broad discretion to use the Net Proceeds from the Issue, you will be relying

on the judgment of our Company's management regarding the application of these Net Proceeds.

Our Company, in accordance with the policies formulated by the Board of Directors from time to time, will have flexibility to deploy the Net Proceeds. Pending utilisation of the Net Proceeds for the purposes described above, our Company will deposit the Net Proceeds only with scheduled commercial banks included in second schedule of the Reserve Bank of India Act, 1934. In accordance with Section 27 of the Companies Act, 2013, our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in equity shares of any other listed company. Our Board will have significant flexibility in temporarily investing the Net Proceeds of the Issue. The use of the Net Proceeds for purposes identified by our management may not result in actual growth of its business, increased profitability or an increase in the value of your investment.

**56. *Our Company has issued Equity Shares in the preceding one year at a price which may be lower than the Issue Price.***

Our Company has issued Equity Shares at a price which could be lower than the Issue Price. For details, please refer to the chapter "Capital Structure" on page 79. The Issue Price is not indicative of the price that will prevail in the open market following listing of the Equity Shares.

**57. *We do not own any of the intellectual property rights used by us.***

We do not own intellectual property rights in the trade name and logo used by us. Our Company has entered into an agreement with our Corporate Promoter, SREI for use of the "BRNL" trade name and logo on a license basis for a royalty amount of ₹ 10,000.00 per annum till such date when SREI continues to be our Promoter and thereafter a royalty of 0.25% of our Company's consolidated revenue for the previous year. If any of the intellectual property used by us becomes unavailable, we could face disruptions in our operations, which may adversely affect our business and reputation.

**58. *Our business is subject to seasonal and other fluctuations that may affect our cash flows and business operations.***

Our business and operations are affected by seasonal factors, which may require suspension or curtailment of operations, in particular, the monsoon season in the second quarter of each Fiscal. During periods of curtailed activity due to adverse weather conditions, we may continue to incur operating expenses and our project related activities may be delayed or reduced. Additionally, traffic volumes witness a decrease during the monsoon. Such fluctuations may adversely affect our toll revenues, cash flows, results of operations and financial conditions.

**External Risks**

**59. *Significant increases in the price or shortages in supply of crude oil could adversely affect the volume of traffic at the projects operated by us and the Indian economy in general, including the infrastructure sector, which could have an adverse effect on our business and results of operations.***

India imports a significant majority of its requirements of crude oil. Crude oil prices are volatile and are subject to a number of factors, including the level of global production and political factors, such as war and other conflicts, particularly in the Middle East, where a substantial proportion of the world's oil reserves are located. Any significant increase in the price of or shortages in the supply of crude oil could adversely affect the volume of traffic at the projects operated by us and adversely affect the Indian economy in general, including the infrastructure sector, which could have an adverse effect on our business and results of operations.

**60. *Changing laws, rules and regulations and legal uncertainties may adversely affect our business and financial performance.***

Our business and financial performance could be adversely affected by any change in laws or interpretations of existing, or the promulgation of new laws, rules and regulations applicable to us and our business. We cannot assure you that the Central Government or state Governments in India will not implement new regulations and policies which will require us to obtain additional approvals and licenses from the Government and other regulatory bodies or impose onerous requirements and conditions on our operations. We cannot predict the terms of any new policy, and we cannot assure you that such policy will not be onerous. For example, the Ministry of Road Transport and Highways has prepared a draft legislation to establish an industry regulator

with both enforcement and advisory functions. The Government has sought the views of the concerned ministries on the draft Regulatory Authority for Highways in India Bill, 2013. The draft bill proposes to, *inter alia*, give adjudicatory powers to a proposed regulator (independent of the NHAI) in areas such as contract dispute resolution, enforcement of contractual provisions and renegotiation of future contracts.

Further, the Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement Act, 2013 (the “**Land Acquisition Act, 2013**”) came into force with effect from January 1, 2014. The provisions of the Land Acquisition Act, 2013 cover various aspects related to the acquisition of land which may affect us, including provisions stipulating (i) restrictions on land acquisition (e.g., certain types of agricultural land) and (ii) compensation, rehabilitation and resettlement of affected people residing on such acquired land. The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (Amendment) Bill, 2015 passed by the lower house of the Indian Parliament, seeks to amend the provisions of the Land Acquisition Act, 2013 to make the provisions in relation to determination of compensation, rehabilitation and resettlement and infrastructure amenities of the Land Acquisition Act, 2013 applicable to the NH Act with effect from January 1, 2015. Further, it exempts certain categories of land use, including infrastructure projects under public-private ownership where ownership of land continues to vest in the Government, from requirements to obtain consents from affected families where land is being acquired. The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (Second Amendment) Bill, 2015 provides that, infrastructure projects under public-private partnership, among others, are exempt from the chapters on determination of social impact and public purposes and special provision to safeguard food security of the Land Acquisition Act. Any changes and related uncertainties with respect to the implementation of new regulations may have an adverse effect on our business, financial condition and results of operations, including delays in commissioning schedule of our projects.

**61. Changes in legislation or the rules relating to tax regimes could adversely affect our business, prospects and results of operations.**

The Government has proposed to alter the implementation of direct taxes by way of introduction of the Direct Taxes Code, 2013. The Direct Taxes Code, 2013 proposes to consolidate and amend laws relating to income tax and wealth tax. The Government has indicated in the union budget for the Fiscal 2016 that Direct Tax Code shall not be pursued further.

A comprehensive national goods and services tax (“**GST**”) regime that combines the indirect taxes and levies by the Central and State Governments into a unified rate structure and replaces indirect taxes on applicable goods and services such as central excise duty, service tax, customs duty, central sales tax, state VAT, cess and surcharge and excise that were being collected by the Government of India and state governments, has come into effect from July 1, 2017. While tax on toll collected continues to be exempt under GST, the rate of tax on highway construction contracts and highway maintenance contracts would increase to 18%. While the concession agreements entered into with NHAI and MPRDC includes provisions on change in law, whereby if the concessionaire suffers an increase in cost or reduction in return or other financial burden then the concessioning authority will place the concessionaire in the same financial position as it would had enjoyed had there been no such change in law resulting in cost increase, reduction in return or other financial burden, we cannot assure you that the increase in cost or reduction in return due to introduction of GST would be covered. Further, the implementation of this rationalized tax structure, being managed by both GoI and state governments, may be affected by any disagreement between certain state governments and/ or GoI, which may create uncertainty. Any future increases or amendments may affect the overall tax efficiency of companies operating in India and may result in additional taxes becoming payable. If, as a result of a particular tax risk materializing, the tax costs associated with certain transactions are greater than anticipated, it could affect the profitability of such transactions.

Further, the General Anti Avoidance Rules (GAAR) are effective from April 1, 2017. The tax consequences of the GAAR provisions being applied to an arrangement could result in denial of tax benefit amongst other consequences. In the absence of any precedents on the subject, the application of these provisions is uncertain. If the GAAR provisions are made applicable to our Company, it may have an adverse tax impact on us.

We have not determined the impact of such proposed legislations on our business. Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

**62. Companies in India, including our Company, are required to prepare financial statements under the new Indian Accounting Standards. In addition, all income-tax assesseees in India, including our Company, will be required to follow the Income Computation and Disclosure Standards.**

The Ministry of Corporate Affairs (“MCA”), Government of India, has through notification dated February 16, 2015 issued the Indian Accounting Standards Rules, 2015 (“Ind AS”) which have come into effect from April 1, 2015 and are applicable to companies which fulfil certain conditions. In accordance with this circular, our Company is required to prepare its financial statements in accordance with Ind AS for the financial years beginning on April 1, 2018. Given that Ind AS is different in many respects from Indian GAAP, our financial statements for the period commencing from April 1, 2018 and its comparable period included in accordance with Ind AS may not be comparable to our historical financial statements prepared under Indian GAAP. For instance, accounting policies related to employee benefits, operating lease rentals, Investments, borrowings, deferred taxes, etc. in terms of the Ind AS are different from the accounting policies for these items under Indian GAAP. As a result, these financial statements or the annual financial statements of our Company for the period ended March 31, 2017 may not be comparable to our historical financial statements.

Further, there can be no assurance that the adoption of Ind AS will not affect our reported results of operations or financial condition. Any of these factors relating to the use of Ind AS may adversely affect our financial condition and results of operations. We have not provided a reconciliation of our financial statements to those under Ind AS. Any of these factors relating to the use of Ind AS may adversely affect our financial condition and results of operations.

Further, the Ministry of Finance, Government of India has issued a notification dated September 29, 2016 notifying Income Computation and Disclosure Standards (“ICDS”), thereby creating a new framework for the computation of taxable income. The ICDS shall apply from the assessment year 2017-2018 and subsequent years. The adoption of ICDS is expected to significantly alter the way companies compute their taxable income, as ICDS deviates from several concepts that are followed under general accounting standards, including Indian GAAP and Ind AS. In addition, ICDS shall be applicable for the computation of income for tax purposes but shall not be applicable for the computation of income for minimum alternate tax. There can be no assurance that the adoption of ICDS will not adversely affect our business, results of operations and financial condition.

**63. Our business is dependent on economic growth in India.**

Our performance is dependent on the health of the overall Indian economy. While the GDP growth rate of India is estimated to increase between 6.75 - 7.50% in the Fiscal 2018 (Source: *Indian Economic Survey 2017, Ministry of Finance, Government of India*), there have been periods of slowdown in the economic growth of India in the past. India’s economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports (oil and oil products), global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production. In the past, economic slowdowns have harmed industries including the road infrastructure sector. Any future slowdown in the Indian economy could harm our business, results of operations and financial condition.

**64. Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely impact the trading price of the Equity Shares.**

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to certain exceptions), if they comply with the valuation and reporting requirements specified by the RBI. If a transfer of shares is not in compliance with such requirements and does not fall under any of the exceptions specified by the RBI, then the RBI’s prior approval is required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. We cannot assure you that any required approval from the RBI or any other Government agency can be obtained on any particular terms or at all. Please refer to “Restrictions on Foreign Ownership of Indian Securities” on page 423.

**Risks Related to the Issue**

**65. *The determination of the Price Band is based on various factors and assumptions and the Issue Price of the Equity Shares may not be indicative of the market price of the Equity Shares after the Issue.***

The determination of the Price Band is based on various factors and assumptions, and is determined by our Company in consultation with the BRLMs (other than SCML). Furthermore, the Issue Price of the Equity Shares will be determined by our Company in consultation with the BRLMs (other than SCML) through the Book Building Process. These will be based on numerous factors, including factors as described under “Basis for Issue Price” beginning on page 99 and may not be indicative of the market price for the Equity Shares after the Issue. In addition to the above, the current market price of securities listed pursuant to certain previous initial public offerings managed by the BRLMs is below their respective issue price. For further details, please refer to “Other Regulatory and Statutory Disclosures—Price information of past issues handled by the BRLMs” on page 364. The factors that could affect the market price of the Equity Shares include, amongst others, broad market trends, financial performance and results of the company post-listing, and other factors beyond our control. We cannot assure you that an active market will develop or sustained trading will take place in the Equity Shares or provide any assurance regarding the price at which the Equity Shares will be traded after listing.

**66. *The price of the Equity Shares may be volatile, and you may be unable to resell the Equity Shares at or above the Issue Price.***

Prior to the Issue, there has been no public market for the Equity Shares, and an active trading market on the Indian Stock Exchanges may not develop or be sustained after the Issue. The Issue Price of the Equity Shares may bear no relationship to the market price of the Equity Shares after the Issue. The market price of the Equity Shares after the Issue may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the road infrastructure sector in India, developments relating to India and volatility in the BSE and the NSE and securities markets elsewhere in the world.

**67. *Any future issuance of Equity Shares by us may dilute your shareholding and adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares or securities linked to the Equity Shares by us may dilute your shareholding in our Company, adversely affect the trading price of the Equity Shares and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. No assurance may be given that we will not issue additional Equity Shares.

**68. *Future sale of Equity Shares by our Promoters and Promoter Group may adversely affect the market price of the Equity Shares.***

After the completion of the Issue, our Promoters and Promoter Group will own, directly and indirectly, approximately 65.10% of our outstanding Equity Shares. Sale of a large number of the Equity Shares by our Promoters and/ or Promote Group could adversely affect the market price of the Equity Shares. Similarly, the perception that any such primary or secondary sale may occur, could adversely affect the market price of the Equity Shares. No assurance may be given that our Promoters and Promote Group will not dispose of, pledge or encumber their Equity Shares in the future.

**69. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of Equity Shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to long term capital gains tax in India if Securities Transaction Tax (“STT”) is paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares, except in the case of such acquisitions where STT could not have been paid, as notified by the Central Government on June 5, 2017 (F. No. 43/2017/F. No. 370142/09/2017-TPL). Due to uncertainty in the applicability of this provision, you may be subject to payment of long term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

**70. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

**71. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.***

Under the Companies Act, a company incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in our Company may be reduced.

**Prominent Notes**

1. Issue of up to 29,300,000 Equity Shares for cash at a price of ₹ [●] per Equity Share (including a share premium of ₹ [●] per Equity Share), aggregating up to ₹ [●] million. The Issue will constitute 34.90% of the fully diluted post issue paid-up Equity Share capital of our Company.
2. The Issue is being made through the Book Building Process wherein at least 75.00% of the Issue shall be Allotted on a proportionate basis to QIBs, provided that our Company in consultation with the BRLMs (other than SCML) may allocate up to 60.00% of the QIB Portion to Anchor Investors at the Anchor Investor Allocation Price, on a discretionary basis, out of which at least one-third will be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. The number of Equity Shares representing 5.00% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only. The remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to QIBs, including Mutual Funds, subject to valid Bids being received from them at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5.00% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. If at least 75.00% of the Issue cannot be Allotted to QIBs, all the application monies will be refunded/ unblocked forthwith. Further, not more than 15.00% of the Issue shall be available for allocation on a proportionate basis to Non Institutional Bidders and not more than 10.00% of the Issue shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price.
3. There has been no change in our Company's name since incorporation. Our Company was incorporated as Bharat Road Network Limited on December 22, 2006, at Kolkata as a public limited company under the Companies Act, 1956. Our Company was issued a certificate of commencement of business on August 2, 2007 by the RoC. For details of change in the Registered Office, please refer to "History and Certain Corporate Matters" on page 171.

4. As of March 31, 2017, our Company's net worth was ₹ 4,217.25 million as per our Company's Restated Standalone Financial Statements and ₹ 4,297.65 million, respectively, as per our Company's Restated Consolidated Financial Statements.
5. As of March 31, 2017, the net asset value per Equity Share was ₹ 77.17 as per our Company's Restated Standalone Financial Statements and was ₹ 78.64 as per our Company's Restated Consolidated Financial Statements.
6. The average cost of acquisition of Equity Shares by SREI, our Corporate Promoter, is ₹ 205.00 and Make in India Fund is ₹ 205.00, respectively. For details, please refer to the chapter "*Capital Structure*" on pages 79. The average cost of acquisition per Equity Share by our Promoters has been calculated by taking the average of the amounts paid by each of our Promoters to acquire Equity Shares.
7. For details of related party transactions entered into by our Company with our Group Companies and Subsidiaries and Associates in the last Fiscal, including nature and cumulative value of the transaction, please refer to the chapter "*Related Party Transactions*" beginning on page 216.
8. There has been no financing arrangement whereby our Promoter Group, directors of our Corporate Promoter, investment manager of our Promoter, Make in India Fund, our Directors and their relatives have financed the purchase by any other person of securities of our Company other than in normal course of the business of the financing entity during the period of six months immediately preceding the date of filing of the Draft Red Herring Prospectus. SREI has financed investment of 9,520,000 Equity Shares by OSPL Infradeal Private Limited (earlier known as Omkareshwar Suppliers Private Limited) on November 12, 2016 in normal course of the business as an NBFC.
9. Except as disclosed in the chapters "*Group Companies*" and "*Related Party Transactions*" beginning on pages 213 and 216, none of our Group Companies have business interest or other interests in our Company.
10. For any complaints, information or clarifications pertaining to the Issue, investors may contact the BRLMs who have submitted the due diligence certificate to the SEBI.
11. All grievances, in relation to the ASBA process, may be addressed to the Registrar to the Issue, with a copy to the relevant Designated Intermediary with whom the ASBA Form was submitted and the BRLMs, quoting the full name of the sole or first Bidder, ASBA Form number, Bidders' DP ID, Client ID, PAN, number of Equity Shares applied for, date of submission of ASBA Form, address of Bidder, the name and address of the relevant Designated Intermediary, where the ASBA Form was submitted by the Bidder and ASBA Account number in which the amount equivalent to the Bid Amount was blocked. Further, the Bidder shall enclose the Acknowledgment Slip from the Designated Intermediaries in addition to the documents or information mentioned hereinabove.

## SECTION III: INTRODUCTION

### SUMMARY OF INDUSTRY

The information in this section includes extracts from report commissioned by us titled “Study of the Road Sector in India” dated January 2017 prepared by CRISIL Research, a division of CRISIL Limited (“**CRISIL Report**”). While we have exercised reasonable care in compiling and reproducing information from the CRISIL Report, it has not been independently verified by us or any of our advisors, nor any of the Book Running Lead Managers or any of their advisors, and should not be relied on as if it had been so verified. The information may not be consistent with other information compiled by third parties within or outside India. The data may have been re-classified by us for the purposes of presentation.

Industry sources and publications generally state that the information contained therein has been obtained from sources generally believed to be reliable, but that their accuracy, completeness and underlying assumptions are not guaranteed and their reliability cannot be assured. Industry sources and publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Industry sources and publications may also base their information on estimates, projections, forecasts and assumptions that may prove to be incorrect. Accordingly, investors should not place undue reliance on, or base their investment decision on this information. The information in this section should be read in conjunction with the sections titled “Industry Overview”, “Risk Factors” and “Business” on page 106, 18 and 136, respectively.

The CRISIL Report is subject to the following disclaimer: “CRISIL Research, a division of CRISIL Limited (CRISIL) has taken due care and caution in preparing this report (Report) based on the Information obtained by CRISIL from sources which it considers reliable (Data). No part of this Report may be published/reproduced in any form without CRISIL’s prior written approval.”

#### 1. Overview of macroeconomic scenario in India

##### 1.1. Review and outlook on GDP growth in India

##### New series (from 2011- 12 onwards)

India adopted a new base year (2011-12) for calculating GDP based on which, absolute GDP shot up from ₹ 87 trillion in 2011-12 to ₹ 114 trillion in 2015-16 or a CAGR of 7.0%. In 2015-16, growth was 7.6%, well above the world average of 3.1%.

India’s GDP registered some pick up in the second quarter of the current fiscal. According to latest data, real GDP growth in the second quarter, or July-September 2016, was 7.3%, up from 7.1% in the first quarter, or April-June. As anticipated, this year’s normal and well-distributed monsoon gave a fillip to the agricultural sector, where growth shot up to 3.3% in the second quarter, compared with 2% in the same period of fiscal 2016.

#### 2. Overview infrastructure Sector in India

##### Overview of investments

Major infrastructure development requires substantial capital investment. The policies of the Indian government April 2000 to September 2015 stood at \$4,423.46 million according to the Department of Industrial Policy and

Promotion (DIPP). The government has introduced significant policy reforms to augment FDI inflows, to further boost investments and enhance infrastructure. The infrastructure industry includes roads, power, railways, urban infrastructure and others. The road sector is the key contributor to overall investments in the infrastructure industry.

Source: CRISIL Research

In the Eleventh Five-Year Plan period (2007-08 to 2011-12), actual investments in the infrastructure sector reached ₹ 27.3 trillion, driven by GoI's thrust on improving domestic infrastructure.

According to the second report of the High-Level Committee on Financing Infrastructure, the construction spend on infrastructure projects is expected to amount to ₹ 30.93 trillion over 2012-17, up from ₹ 10.3 trillion (likely investments till 2013-14), with 39% contribution by the private sector and 61% by the central and state governments. Within infrastructure, electricity is estimated to be the largest contributor, followed by roads and railways.

#### Construction spends (₹ trillion) in key infrastructure segments (Eleventh and Twelfth Five-Year Plans)

\*Others include irrigation, water supply and sanitation, storage, oil and gas pipelines

Source: High-level Committee on Financing Infrastructure (Second Report, June 2014), CRISIL Research

**Roads:** Investments in roads in the Eleventh Five-Year Plan were ₹ 5.3 trillion, accounting for about 19% of overall infrastructure investments in the same period. Investments were largely driven by the government's thrust on the sector via encouragement of public private partnerships (PPPs), speedy implementation of National Highways Development Project (NHDP) and recent changes in the policy environment. The continued thrust on improving rural and state road network by the various state governments has supported this growth. Investments in roads is expected to increase to ₹ 5.8 trillion in the Twelfth Five-Year Plan, as against ₹ 5.3 trillion (actual) in the Eleventh Five-Year Plan (marking a 11% increase).

## Five Year planned investments in road sector

| (₹ Billion)  | Centre      | Roads & Bridges State | Private     | Total       |
|--------------|-------------|-----------------------|-------------|-------------|

## Growth drivers in infrastructure investments

Economic growth, increasing government thrust, preference of road in freight traffic, spurt in private participation and surge in passenger traffic and vehicle density are key growth drivers for infrastructure investments.

### Economic growth

Freight traffic growth is a function of economic activity which further necessitates road development. Freight traffic in billion net tonne km (BTKM) is set to surge 6-8% in 2016-17, a substantial increase from the 4.3% rise seen in 2015-16, due to higher growth in industrial and agricultural GDP. Industrial GDP in H1 FY17 was estimated to be 5.59%, as against an estimated growth of 6.5% in H1 FY16.

Roads continue to dominate freight traffic with their share in overall freight movement rising steadily to 65.1% in 2015-16, from 58.2% in 2009-10, due to capacity constraints in railways and healthy growth in non-bulk traffic.

### Moderate growth in overall freight demand (in BTKM)

Source: CRISIL Research

### Road freight traffic gaining preference

Capacity constraints of the railways has led to the share of roads in the primary freight pie increasing from an estimated 58.2% (in BTKM) in 2009-10 to around 65.1% in 2015-16. The positive trajectory is expected to continue from 2015-16 to 2020-21, with road freight logging 7-9% CAGR growth to about 2,450 BTKM from an estimated 1,700 BTKM in 2015-16.

Growth in road freight traffic will be largely driven by increased non-bulk traffic and development of road infrastructure. Roads remain the preferred mode of transport for non-bulk traffic and we expect its share in total road primary BTKM to surge to 77.5% by 2020-21, from 74.3% currently.

### Share of roads in total freight movement (BTKM terms)

E: Estimates P: Projected

Source: CRISIL Research

### E-commerce logistics is a growth driver for road freight

CRISIL Research expects the e-commerce industry to grow at an estimated 40-44% CAGR during 2014-15 to 2017-18, to reach close to ₹ 2.5 trillion. Growth is expected to be driven by segments such as the online marketplace, where players will continue to offer huge discounts and deals and will innovate to attract customers. Further, rising penetration of the internet, increasing use of smart phones (with mobile apps) and increasing consumer awareness should support the growth story. As the industry grows, players are looking to develop local ecosystems to serve demand across India. As these local ecosystems develop, lead distances can reduce and freight traffic can shift from air freight to roads gradually.

### Vehicular growth picked in 2015-16, long term projects looks healthy

Domestic passenger car sales increased from 1.97 million units in 2010-11 to 2.03 million units in 2015-16 at a CAGR of 0.5%. From 2.03 million units in 2010-11, domestic passenger car sales shrank at a CAGR of 3.9% to 1.9 million in 2014-15. However, it shot up 7.9%, in 2015-16, primarily due to faster economic growth, lower fuel prices and improvement in consumer sentiments (driven by rising affordability and competitively priced launches).

In contrast, commercial vehicle sales shrank 8.8% CAGR from 2011-12 to 2014-15. However, in 2015-16, commercial vehicle sales shot up 11.2%.

#### Passenger cars sales

#### Commercial vehicle sales

Source: SIAM, CRISIL Research

Note: Commercial vehicles include goods vehicle and passenger but excludes three-wheeler

### Several new trends seen in roads sector

**Slowing progress in road construction:**

The length of roads constructed has decreased at a CAGR of 3%, from 1,784 km in 2010-11 to 1,576 km in 2014-15 (from around 500 km under NHDP in 2001). However, in 2015-16, total road constructed/upgraded shot up to 2,196 km.

**Improving awarding momentum:**

Government is focusing to improve awarding and with the introduction of HAM, a significant share of awarding has been under HAM and it is expected to improve further in coming years.

**Increasing participation of private equity funds:**

Private equity has contributed to road projects in the past. Going ahead, private equity investment can further pick up, following the recent announcements of exit policy for debt-stressed operators for toll roads.

**Re-emergence of EPC contracts:**

Given the current financial crunch being faced by build-operate-transfer (BOT) players, over the next five years, we expect the share of engineering, procurement, construction (EPC)/ cash contract projects to widen, especially in low-traffic-volume projects under NHDP-Phase IV.

**Other sector-favourable policies:**

100% exit policy for stressed BOT players, providing for 'secured' status for PPP projects while lending, proposal to scrap slow moving highway projects (under consideration) etc.

**HAM:**

The hybrid annuity model has now gathered pace and hence is likely to improve private participation in the sector. The model has been successful in bringing a new set of players to the private space by mitigating risks related to traffic, interest rate and inflation, and by requiring a smaller equity commitment (only 12-15% of project cost).

**TOT:**

The Toll, Operate and Transfer (TOT) model is a new PPP model under consideration by NHAI to spur private participation in the roads sector.

**OMT:**

Apart from NHAI, operate, maintain, transfer (OMT) models have also been adopted by a few large Indian states, where state road development authorities have invited bids / awarded state highway stretches to be operated and maintained on OMT basis.

**ETC lane:**

Electronic Toll Collection enables road users to pay highway tolls electronically without stopping at the toll plazas. Dedicated ETC lane will help in reducing congestion at the toll plazas and enable seamless movement of vehicles on the national highways. The Ministry has decided to roll out ETC programme in the country under the brand name 'FASTag'

**i. Outlook on planned investment in roads in Smart Cities**

The government introduced the Smart Cities Mission in June 2015 for the development of 100 smart cities over five years (2016-17 onwards) to meet the infrastructure and services expectations of citizens.

**Current status**

The smart cities mission has progressed quickly and under it 100 cities have been selected to be developed as smart cities. Of these 100, 33 cities have been selected to be funded from 2016-2017 onwards and they will start implementing their smart city proposals from 2016-17. In the second round of the contracts awarding Stage II, another 27 cities will be selected for funding from 2017-18 and another 40 will be funded from 2018-19 onwards.

About ₹ 335 billion is expected to translate into construction opportunity in the top 33 smart cities. Approximately, 87% of the spends will be spread across four categories - housing, non-residential complexes, water supply and sanitation and, roads and transport facilities.

Source: CRISIL Research

### Status of the Smart Cities Mission

In January 2016, the government announced 20 winners of the Smart City challenge competition, for financing during this financial year. Three cities from Madhya Pradesh, two each from Andhra Pradesh, Karnataka, Tamil Nadu, Gujarat, Maharashtra and Rajasthan, one each from Odisha, Kerala, Assam and Punjab, and the New Delhi Municipal Council made it to the winning list.

The winning cities and towns have proposed a total investment of ₹ 508.02 billion over five years, with all the cities proposing public-private partnership as a major vehicle of resource mobilisation; 10 of the 20 cities have indicated ability to raise ₹ 85.2 billion via the PPP route. The cities have identified 26,735 acres for smart city interventions.

Since then, 13 cities were selected for the mission under the fast track round and another 27 cities were selected in September 2016 taking the total number of cities under the mission to 60.

### ii. Review of road infrastructure in India

#### Road sector contribution to Indian GDP

As of FY 2014-15, road transport sector's share to Indian GDP among other sectors is 3.20%, which is 5 basis points lower than the share in FY 2013-14.

| GVA Share (%)  | 2011-12 | 2012-13 | 2013-14 | 2014-15 |
|----------------|---------|---------|---------|---------|
| Road Transport | 3.24%   | 3.26%   | 3.25%   | 3.20%   |

Source: MOSPI, CRISIL Research

#### Total length, and break-up by national, state and rural

India has the second largest road network in the world, aggregating 5.2 million km. Roads are the most common mode of transportation and account for about 86% of passenger traffic and close to 65% of freight traffic.

In India, national highways, with a length of close to 100,475 km, constitute a mere 2% of the road network but carry about 40% of the total road traffic. On the other hand, state roads and major district roads are the secondary system of roads; they carry another 60% of traffic and account for 98% of road length.

In the decreasing order of the volume of traffic movement, road network in India can be divided into the following categories:

#### Road network in India as in 2015-16

| Road network     | Length (km)      | Percentage of total |              | Connectivity to                                                                                       |
|------------------|------------------|---------------------|--------------|-------------------------------------------------------------------------------------------------------|
|                  |                  | Length              | Traffic      |                                                                                                       |
| National highway | 100,475          | 2.0                 | 40.0         | Union capital, state capitals, major ports, foreign highways                                          |
| State highway    | 148,256          | 3.0                 | 60.0         | Major centres within the states, national highways                                                    |
| Other roads      | 4,983,579        | 95.0                |              | Major and other district roads, Rural roads - Production centres, Markets, Highways, Railway stations |
| <b>Total</b>     | <b>5,232,310</b> | <b>100.0</b>        | <b>100.0</b> |                                                                                                       |

Source: CRISIL Research

### National highways

National highways (NHs) constitute around 2% of the country's road network, but carry about 40% of the total road traffic. The National Highways Authority of India (NHAI), the nodal agency under the Ministry of Road Transport & Highways (MoRTH), is responsible for building, maintaining and upgrading NHs. In order to develop the NH network, NHAI launched the National Highways Development Programme (NHDP) in December 2000.

### National highways network

Source: MoRTH

Note: Year represents Financial Year

### State roads

State roads constitute around 18% of the country's total road network, handling about 40% of the total road traffic. State roads comprise state highways (SHs), major district roads (MDRs), other district roads (ODRs) and rural roads - which do not come under the purview of the Pradhan Mantri Gram Sadak Yojana (PMGSY). State roads represent the secondary system of road transportation in the country. They provide linkages with national highways, district headquarters of the state and important towns, tourist centres and minor ports.

### Rural roads

Rural roads, connect rural habitations as well as state and national highways. Of India's 4.8 million km road network, rural roads account for around 3.7 million km (80%).

### Key growth drivers for road sector

#### Rise in investments, reforms and higher budgetary support to drive growth in roads sector

CRISIL Research expects investment in road projects to double to ₹ 9.8 trillion over the next five years. Investment in state roads is expected to grow steadily, and rise at a faster pace in rural roads owing to higher budgetary allocation to the PMGSY since 2015-16.

Execution of national highway projects has seen a good pick-up since 2015-16, aided by policy reforms, after having slowed down in the previous two fiscals. Higher budgetary support to fund engineering, processing and

construction (EPC) projects will also drive investment in national highways, which have recently seen a significant drop in private interest.

### **Policy changes to drive execution of national highway projects**

Execution of national highway projects declined in the past two years owing to delays in land acquisition and clearances, and private developers' weak financials. To clear the logjam, NHAI terminated projects -- work on about 5,500 km of length was stalled. To put execution back on track, the agency has also re-awarded almost 1,000 km of the terminated projects. Moreover, in the past year and a half, the government announced a host of policy changes to reduce delays in project execution.

To offer some respite to ailing developers, the government came out with a premium rescheduling policy and allowed promoters to fully exit all projects two years after completion. The Union Cabinet has also allowed NHAI to fund projects stuck owing to the weak financial health of promoters and where at least 50% of the work has been completed. The new amendments to the model concession agreement such as back-ending of premium payments and deemed termination on delay of appointed date, have also brought many changes which will reduce delay and improve lender comfort. The new HAM should encourage private participation with limited risk to the developer.

Hence, the government's focus has clearly shifted towards ensuring on-the-ground implementation, instead of merely awarding more projects.

### **New Initiatives to drive growth in state road network**

New initiatives have been taken by the government to build state roads. Road Requirement Plan-I (RRP-I) for Left Wing Extremism (LWE) affected areas and Special Accelerated Road Development Programme for North-Eastern region (SARDP- NE) are some of the projects which are going in full swing to cover the state roads. Apart from these projects the Bharat Mala programme has also been proposed to build new state roads. For details on these projects, see section 2F.

### **Healthy economic growth to push road development**

With the economy expected to grow at a healthy pace, per capita income is set to improve pushing the number of two- wheelers and passenger vehicles in the country. Initiatives like 'Make in India' and GST is also expected to add to the road freight traffic in the country (for details, refer section 5J and 5K). The rise in two-wheeler and four-wheeler vehicles, increasing freight traffic, strong trade and tourist flows between states are all set to augment road development in the country. All segments of roads i.e. National Highways, state roads and rural roads are expected to benefit from the growing economy of the country.

### **Increased private participation to boost road development**

The changes done by the government to put in place appropriate policy, institutional and regulatory mechanisms including a set of fiscal and financial incentives are expected to encourage further private participation in future, which will boost all segments of roads in the country, be it, National Highways, state roads or rural roads.

## **iii. Review and outlook on national highways and NHDP**

### **Review of investments in NHAI projects**

NHAI awards projects under different modes - EPC, build-operate-transfer, or BOT, and the recently introduced HAM. In the last two years, BOT projects have lost out to EPC projects because the latter requires limited upfront capital and involves lower risk.

Since 2013-14, cash contracts have dominated NHAI awarding as a result of low appetite of road players for BOT projects.

To boost private participation further, the government introduced HAM in 2015-16, wherein 40% of the total project cost is to be funded by the government and the remaining by the private developer. The equity requirement in these projects is only about 12-15% of the project cost, which is much lower than a BOT project, and the developer is immune to traffic, inflation and interest rate risk. In 2015-16, this model took off at a rather slower-

than-expected pace and only about 350 km were awarded mostly due to the apprehensions of various stakeholders towards a new, untested model. However, the participation of players in these projects improved significantly towards the end of 2015-16. In 2016-17, almost half of the projects are expected to be awarded on HAM.

#### NHAI awarding trend: Significant change in last few years

P: projected

Source: NHAI, CRISIL Research

Between 2016-17 and 2020-21, CRISIL Research expects an investment of ₹ 3.8 trillion, up 3.2 times in the next five years compared with the past five years. Notably, the government will account for more than half of the investments against 44% in the previous five years. We believe that in the medium term with EPC and HAM execution being dominant, funding needs for agencies like NHAI will rise substantially.

#### National Highway Development Programme (NHDP)

##### Current status and overview

NHDP encompasses building, upgradation, rehabilitation and broadening of existing national highways. The programme is executed by NHAI in coordination with the public works department (PWD) of various states. NHAI also collaborates with BRO for development of certain stretches.

NHDP is being implemented in seven phases:

##### NHDP phases

| Phases |                                               | Description                                                             | Implementing agencies |
|--------|-----------------------------------------------|-------------------------------------------------------------------------|-----------------------|
| I      | Golden Quadrilateral                          | Connecting Delhi-Kolkata Chennai                                        | NHAI                  |
|        | Port connectivity                             | Connectivity for 10 major ports                                         | NHAI                  |
|        | Others                                        | -                                                                       | NHAI                  |

| III    | Phase                                         | Connecting state capitals and places of economic and tourist importance | NHAI                  |
| IV     | Improve 2-lane standards with paved shoulders | -                                                                       | NHAI, MoRTH           |
| V      | 6-laning of existing national highways        | Phase involves 6,500 km stretch under GQ                                | NHAI                  |
| VI     | Expressways                                   | -                                                                       | NHAI                  |
| VII    | Ring roads                                    | -                                                                       | NHAI                  |

Source: CRISIL Research

Execution of NHDP projects increased to 5.6 km per day in July 2016 compared to 3.2 in September 2014. As of July, 2016, around 53% of 46,200 km roads under NHDP has been completed. The total cost incurred amounted to ₹ 2,245 billion (as on October 31, 2014). About 20% of the total length is under construction/ upgradation and the rest is yet to be awarded.

Note: 1) Data is available till July 31st on the NHAI website.

2) Phase IV total length is 20,000 km. However total length under NHAI is 13,203 km.

## Review and outlook of state roads

### Review of investments, 2010-11 to 2015-16

State roads (which include highways, major district roads and rural roads that do not come under the purview of the PMGSY) constitute over 20% of the country's total road network and handle about 40% of road traffic. They play an important role in economic development of mid-sized towns and rural areas, and aid industrial development by enabling movement of raw materials and products to and from the hinterland.

Over the past few years, many state governments, such as Uttar Pradesh, Gujarat, Maharashtra, Tamil Nadu, etc. have allocated a significant portion of their budgets for developing roads; during this period, the contribution from the Centre to state roads through the central road fund has remained more or less constant. Currently, 12-15% of the total investment in state road projects happens through the PPP route.

During 2010-11 to 2015-16, a total investment of ₹ 2.8 trillion has been made.

### State roads: Overall investments

Note: State road includes state highways and other district roads

## SUMMARY OF OUR BUSINESS

Incorporated in 2006, we are a road BOT company in India, focused on development, implementation, operation and maintenance of roads/highways projects. We are involved in the development, operation and maintenance of national and state highways in several states in India with projects in states of Uttar Pradesh, Kerala, Haryana, Madhya Pradesh, Maharashtra and Odisha through partnerships with experienced EPC players in the local space where the project is located. At present, all of our projects are implemented through special purpose vehicles, either through our Subsidiary or in partnership with other infrastructure players.

We perform a range of project management functions, including design, engineering, EPC management and quality control. We also provide project advisory activities including, project management consultancy, project conceptualisation, commissioning, operation and management of the projects during the entire life cycle of our projects. We also undertake debt syndication, refinancing and financial restructuring of our projects.

We have a project portfolio consisting of six (6) BOT Projects, of which two (2) are Projects operational under Final COD, three (3) are Projects operational under Provisional COD and one (1) is a Project under Construction. Our Projects operational under Final COD and Projects operational under Provisional COD are located in the states of Kerala, Madhya Pradesh, and Haryana, Uttar Pradesh and Odisha, respectively. Our Project under Construction is located in the state of Maharashtra. Our Projects operational under Final COD and Projects operational under Provisional COD cover approximately 1,622.44 lane kms, including major and minor bridges and approximately 12 lane kms and 60.72 lane kms are under construction at the GAEPL Project and SJEPL Project, respectively for which we are awaiting final COD. Our Project under Construction involves development of 400.24 lane kms, including major and minor bridges. Further, as of March 31, 2017, the average residual Concession Period of our BOT Projects (based on concession agreements as of March 31, 2017) was approximately 18 years and six (6) months in comparison with our average debt maturity profile of approximately 10 years, as on March 31, 2017. Details of our Company's equity shareholdings in various Project SPVs are as follows:

*\*In addition to the Project SPVs mentioned above, our Company holds 59.38% equity shareholding in Orissa Steel Expressway Private Limited, which was implementing the OSEPL Project, now under foreclosure proceedings with NHAI. For further details regarding the Project SPVs, please refer to the chapter "History and Certain Corporate Matters" and "Our Subsidiaries and Associates" on page 171 and 184.*

We believe, with a history of over two decades in the infrastructure sector, SREI Infrastructure Finance Limited ("SREI"), our Corporate Promoter, is one of India's recognized infrastructure institutions and provides financial products and services for the customers engaged in the infrastructure sector. SREI is registered with the RBI as an Infrastructure Finance Company and is also a notified Public Financial Institution, under Section 4A of the Companies Act, 1956 (now Section 2(72) of the Companies Act, 2013). Our Company has entered into a letter arrangement dated February 16, 2017, pursuant to which all the road/highway assets of SREI would be managed by our Company. For further details please refer chapter "History and Certain Corporate Matters - Letter Arrangement dated February 16, 2017 between SREI and our Company" on page 182.

We are involved in operating toll based BOT Projects wherein we have the right to collect toll or user fees. Our Company generates revenue from toll operations & maintenance and project management consultancy fees

including from our Project SPVs. The summary statement of percentage contribution of our Project SPVs towards the revenue from operations, including other income, of our Company, on a standalone basis is provided below:

| Sr. No. | Name of the SPV | Percentage contribution towards the revenue for the year ended |        |       |
|---------|-----------------|----------------------------------------------------------------|--------|-------|
|         |                 | 2017                                                           | 2016   | 2015  |
| 1.      | STPL            | 14.89%                                                         | 42.10% | 4.67% |
| 2.      | OSEPL           | 29.88%                                                         | 26.78% | 4.60% |
| 3.      | KEPL            | 0.00%                                                          | 0.00%  | 0.00% |
| 4.      | MTPL            | 1.24%                                                          | 10.21% | 0.25% |
| 5.      | SJEPL           | 7.25%                                                          | 17.75% | 0.00% |
| 6.      | GIPL            | 0.00%                                                          | 0.00%  | 0.00% |
| 7.      | GAEPL           | 4.58%                                                          | 3.14%  | 0.00% |

For the Fiscal 2017 and 2016, the total revenue and PBDITA for our operational Project SPVs are as follows:

| Project SPV | Shareholding of BRNL in the Project SPVs (%) | Total revenue (₹ in million) # |                     | PBDITA* (in ₹ million) # |                     |
|-------------|----------------------------------------------|--------------------------------|---------------------|--------------------------|---------------------|
|             |                                              | For the Fiscal 2017            | For the Fiscal 2016 | For the Fiscal 2017      | For the Fiscal 2016 |

# as per the audited financial statements of the respective Project SPVs

##20,504,960 equity shares of KEPL, was acquired by our Company pursuant to a share purchase agreement dated October 27, 2016 entered into with SREI. Of the 20,504,960 equity shares of KEPL, 4,900 equity shares of KEPL and 13,665,630 equity shares of KEPL held in the name of SREI and IPDC, respectively are pledged with the senior lenders of KEPL and shall be transferred in the name of our Company upon release of the pledge by the senior lenders of KEPL. However, pending transfer of these shares upon being released from pledge, all the economic and beneficial interest with respect to these shares have been transferred to our Company pursuant to a share purchase agreement dated October 27, 2016. For further details, please refer to "Risk Factor - Some of the shares acquired by our Company in KEPL, have not been transferred in the name of our Company pending release of pledge by senior lenders" on page 26.

\* PBDITA has been calculated as profit before tax and before depreciation, amortisation and finance cost as per the audited financial statements of the respective Project SPVs.

\*\* As SJEPL has received its first Provisional COD on January 12, 2017, no profit and loss account was prepared for the Fiscal 2016. SJEPL has been however collecting toll since December 14, 2011 but the same has been utilised for funding the construction of the SJEPL Project.

For the Fiscals 2017, 2016 and 2015 our consolidated revenue from operations was ₹ 102.51 million, ₹ 7.50 million and ₹ 84.33 million, respectively. For the Fiscals 2017, 2016 and 2015 our consolidated loss after tax was ₹ 738.85 million, ₹ 925.44 million and ₹ 264.22 million, respectively.

## SUMMARY FINANCIAL INFORMATION

The following tables set forth summary financial information derived from the Restated Financial Statements, prepared in accordance with the Companies Act, 2013 and restated in accordance with the SEBI ICDR Regulations and presented under “Financial Statements” on page 218.

The summary financial information presented below should be read in conjunction with the Restated Financial Statements, the notes thereto and the chapters “Financial Statements” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 218 and 304, respectively.

| Balance available for allocation to Net QIBs Portion (assuming Anchor Investor Portion is fully subscribed) | 8,790,000 Equity Shares                                                     |
| <i>of which</i>                                                                                             |                                                                             |
| Available for allocation to Mutual Funds only (5.00% of the Net QIB Portion)                                | 439,500 Equity Shares                                                       |
| Balance of Net QIB Portion for all QIBs including Mutual Funds                                              | 8,350,500 Equity Shares                                                     |
| <b>B) Non – Institutional Portion<sup>(3)</sup></b>                                                         | <b>Not more than 4,395,000 Equity Shares</b>                                |
| <b>C) Retail Portion<sup>(3)</sup></b>                                                                      | <b>Not more than 2,930,000 Equity Shares</b>                                |
| Pre and post Issue Equity Shares                                                                            |                                                                             |
| Equity Shares outstanding prior to the Issue                                                                | 54,650,000 Equity Shares                                                    |
| Equity Shares outstanding after the Issue                                                                   | Up to 83,950,000 Equity Shares                                              |
| Utilisation of Net Proceeds                                                                                 | For details, please refer to the chapter “Objects of the Issue” on page 88. |

Allocation to Bidders in all categories, except the Retail Portion and the Anchor Investor Portion, if any, shall be made on a proportionate basis. For further details, please refer to “Issue Procedure – Allotment Procedure and Basis of Allotment” on page 413.

- (1) The Issue has been authorised by our Board pursuant to a resolution passed at its meeting held on November 10, 2016 and by our Shareholders pursuant to a resolution passed at the EGM held on November 14, 2016.
- (2) Our Company in consultation with the BRLMs (other than SCML), may allocate up to 60.00% of the QIB Portion to Anchor Investors on a discretionary basis. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In case of under-subscription in the Anchor Investor Portion, the remaining Equity Shares will be added back to the QIB Category. 5.00% of the QIB Category (excluding Anchor Investor Portion) shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Category shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 439,500 Equity Shares, the balance Equity Shares available for allotment in the Mutual Fund Portion will be added to the Net QIB Portion and allocated proportionately to the QIB Bidders in proportion to their Bids. For details, please refer to the chapter “Issue Procedure” on page 378.
- (3) Subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in the Non-Institutional Portion or the Retail Portion would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company, in consultation with the BRLMs (other than SCML) and the Designated Stock Exchange, on a proportionate basis. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories, subject to receiving minimum subscription for 90.00% of the Issue and compliance with Rule 19(2)(b) of the SCRR.

For details of the Issue procedure, including the grounds for rejection of Bids, please refer to the chapter “Issue Procedure” on page 378. For details of the terms of the Issue, please refer to the chapter “Terms of the Issue” on page 371.

| 9.      | Managing the book and finalization of pricing, in consultation with the Company.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Inga and ICSIPL | Inga                                   |
| 10.     | The post Bidding activities including management of escrow accounts, co-ordination of institutional and non-institutional allocation, intimation of allocation and dispatch of refunds to bidders etc. The post-Issue activities for the Issue involving essential follow up steps, which include the finalization of trading and dealing of instruments and demat delivery of Equity Shares, with the various agencies connected with the work such as the Registrar and Bankers to the Issue, SCSBs and the bank(s) handling refund business. The BRLMs shall be responsible for ensuring that these agencies fulfil their functions and enable it to discharge this responsibility through suitable agreements with the Company. | Inga and ICSIPL | Inga                                   |

\*SCML, which is our Promoter Group entity, shall only be involved in marketing of the Issue.

### Credit Rating

As this is an Issue of Equity Shares, there is no credit rating for this Issue.

### IPO Grading

No IPO Grading agency registered with SEBI has been appointed in respect of obtaining grading for the Issue.

### Trustees

As this is an Issue of Equity Shares, the appointment of trustees is not required.

## Appraising Entity

None of the objects of the Issue for which the Net Proceeds will be utilised have been appraised.

## Book Building Process

The book building, in the context of the Issue, refers to the process of collection of Bids on the basis of this Red Herring Prospectus, the Bid cum Application Form and Revision Form, within the Price Band, which will be decided by our Company, in consultation with the BRLMs (other than SCML), and advertised in all editions of the English national newspaper Financial Express, all editions of the Hindi national newspaper Jansatta and Kolkata edition of the Bengali newspaper Kalantar Patrika (Bengali being the regional language of West Bengal where our registered office is located), each with wide circulation, at least five (5) working days prior to the Bid/Issue opening date. The Issue price shall be determined by our Company in consultation with the BRLM (other than SCML), after the Bid/Issue closing Date. The principal parties involved in the Book Building Process are:

- our Company;
- the BRLMs;
- the Syndicate Members;
- the SCSBs;
- the Registrar to the Issue;
- the Registered Brokers;
- the CDPs;
- the Collecting RTAs; and
- the Escrow Collection Banks.

The Issue is being made through the Book Building Process and in terms of Regulation 26(2) of SEBI ICDR Regulations wherein at least 75.00% of the Issue shall be available for allocation on a proportionate basis to QIBs, provided that our Company in consultation with the BRLMs (other than SCML) may allocate up to 60.00% of the QIB Portion to Anchor Investors on a discretionary basis. Further, 5.00% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Issue Price. Further, not more than 15.00% of the Issue shall be available for allocation on a proportionate basis to Non-Institutional Bidders and not more than 10.00% of the Issue shall be available for allocation to Retail Individual Investors in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Issue Price. Under subscription if any, in any category, except in the QIB Portion, would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the BRLMs (other than SCML) and the Designated Stock Exchange.

**All Bidders (excluding Anchor Investors) shall participate in the Issue only through the ASBA process. Anchor Investors are not permitted to participate through the ASBA process.**

**In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bid(s) (in terms of quantity of Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise or withdraw their Bids until Bid/Issue Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bid/Issue Period. Allocation to the Anchor Investors will be on a discretionary basis. For further details, please refer to the chapter “Issue Procedure” on page 378.**

**The process of Book Building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to making a Bid or application in the Issue.**

## Illustration of Book Building and Price Discovery Process

For an illustration of the Book Building Process and the price discovery process, please refer to “Issue Procedure - Part B - Basis of Allocation - Illustration of the Book Building Process and Price Discovery Process” on page 412.

### Steps to be taken by the Bidders for Bidding:

For details, please refer to the chapter “Issue Procedure” on page 378).

### Underwriting Agreement

After the determination of the Issue Price, but prior to the filing of the Prospectus with the RoC, our Company will enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be issued through the Issue. The Underwriting Agreement is dated [●]. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters are several and are subject to certain conditions specified therein.

The Underwriters have indicated their intention to underwrite the following number of Equity Shares:

*This portion has been intentionally left blank and will be filled in before filing of the Prospectus with the RoC.*

| Name and Address of the Underwriters along with the telephone number, fax number and e-mail address of the Underwriter | Indicated Number of Equity Shares to be Underwritten | Amount Underwritten (in ₹ million) |
|------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------|------------------------------------|
| [●]                                                                                                                    | [●]                                                  | [●]                                |
| [●]                                                                                                                    | [●]                                                  | [●]                                |

*The above-mentioned amount is indicative and will be finalised after determination of the Issue Price and actual allocation and subject to the provisions of the SEBI ICDR Regulations*

In the opinion of the Board of Directors (based on certificates provided by the Underwriters), the resources of the above mentioned Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The abovementioned Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchange(s). The Board of Directors / Committee of Directors, at its meeting held on [●], has accepted and entered into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitment.

Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to Equity Shares allocated to investors procured by them. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the Underwriting Agreement, will also be required to procure/subscribe to the Equity Shares to the extent of the defaulted amount.

The underwriting arrangements mentioned above shall not apply to the subscriptions by the Bidders in this Issue, except for Bids procured by the Syndicate Member(s). The underwriting agreement shall list out the role and obligations of each Syndicate Member.

## CAPITAL STRUCTURE

The share capital of our Company as on the date of this Red Herring Prospectus, is set forth below:

| (Amount in ₹ except share data) |                                                                      |                               |                                |

|                                 | After the Issue                                                      |                               | [●]                            |

\*The Issue has been authorised by a resolution of the Board of Directors dated November 10, 2016 and by a resolution of the Shareholders dated November 14, 2016.

### Changes in authorised equity share capital of our Company

| Date of Shareholders' Resolution | Particulars                                                                                                                                                                                                                                                                                   |
|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| March 28, 2013                   | The capital clause of the Memorandum of Association was substituted to reflect the increase in the authorised capital of our Company from ₹ 5.00 million divided into 500,000 Equity Shares of ₹ 10.00 each to ₹ 100.00 million divided into 10,000,000 Equity Shares of ₹ 10.00 each         |
| October 18, 2016                 | The capital clause of the Memorandum of Association was substituted to reflect the increase in the authorised capital of our Company from ₹ 100.00 million divided into 10,000,000 Equity Shares of ₹ 10.00 each to ₹ 1,000.00 million divided into 100,000,000 Equity Shares of ₹ 10.00 each |

### Notes to Capital Structure

#### 1. Equity share capital history of our Company

(a) The history of the equity share capital of our Company is provided in the following table:

| Date of allotment of Equity Shares | No. of Equity Shares allotted | Face value (₹) | Issue price (₹) | Nature of consideration | Reason for allotment                | Cumulative number of Equity Shares | Cumulative paid up capital (₹ in million) | Cumulative share premium (₹ in million) |
|------------------------------------|-------------------------------|----------------|-----------------|-------------------------|-------------------------------------|------------------------------------|-------------------------------------------|-----------------------------------------|
| On Incorporation                   | 50,000                        | 10.00          | 10.00           | Cash                    | Subscription to MoA <sup>1</sup>    | 50,000                             | 0.50                                      | 0                                       |
| March 28, 2013                     | 9,950,000                     | 10.00          | 10.00           | Cash                    | Preferential allotment <sup>2</sup> | 10,000,000                         | 100.00                                    | 0                                       |
| October 28, 2016                   | 18,000,000                    | 10.00          | 10.00           | Cash                    | Rights issue <sup>3</sup>           | 28,000,000                         | 280.00                                    | 0                                       |
| November 12, 2016                  | 26,650,000                    | 10.00          | 205.00          | Cash                    | Preferential allotment <sup>4</sup> | 54,650,000                         | 546.50                                    | 5,196.75                                |

<sup>1.</sup> 7,150 Equity Shares were each allotted to Mr. Ram Narayan Yadav, Mr. Surinder Kumar Kalra, Mr. Ramawatar Sharma, Mr. Sanjay Chaurasia, Mr. Manoj Harlalka and Mr. Bajrang Kumar Choudhary; and 7,100 Equity Shares were allotted to Mr. Manoj Agarwal;

<sup>2.</sup> 9,950,000 Equity Shares were allotted to IPDC.

<sup>3.</sup> Nine (9) Equity Shares were offered for every five (5) Equity Shares held by the Shareholders of our Company as on October 17, 2016. IPDC, Mr. Manoj Agarwal, Mr. Manoj Beriwal, Mr. Rajesh Sirohia, Mr. Sandeep Lakhota, Mr. Bajrang Kumar Choudhary and Mr. Sanjay Kumar Chaurasia renounced 6,910,000, 180, 180, 180, 180, 180 and 180 Equity Shares in favour of IPDF. Thus, 11,000,000 Equity Shares were allotted to IPDC and 7,000,000 Equity Shares allotted to IPDF.

<sup>4.</sup> 16,630,000 Equity Shares were allotted to SREI; 500,000 Equity Shares were allotted to Make in India Fund; and 9,520,000 Equity Shares were allotted to OSPL Infradeal Private Limited (earlier known as Omkareshwar Suppliers Private Limited.)

(b) Our Company has not allotted any Equity Shares for consideration other than cash.

- (c) Our Company has not issued or allotted any Equity Shares in terms of any scheme approved under sections 391-394 of the Companies Act, 1956 and/or sections 230-232 of the Companies Act, 2013.
2. Since incorporation, our Company has not revalued any of its assets and hence has not issued any Equity Shares out of its revaluation reserves or unrealised profits.
3. Except as disclosed below, our Company has not made any issue of Equity Shares at a price lower than the Issue Price during the preceding one year from the date of this Red Herring Prospectus

| Date of allotment | Number of Equity Shares issued | Face Value (₹) | Issue Price (₹) | Name of allottees                                                                                                  | Relationship with our Company | Reasons for allotment  |

All the above Equity Shares were fully paid-up at the time of allotment. None of the Equity Shares held by the Promoters are pledged.

## B. Details of Promoters' contribution locked-in for three years

Pursuant to the SEBI ICDR Regulations, an aggregate of 20.00% of the fully diluted post-Issue paid up capital of our Company held by the Promoters shall be locked-in for a period of three years from the date of Allotment of Equity Shares ("Promoters' Contribution") in the Issue and our Promoters' shareholding in excess of 20.00% shall be locked in for a period of one year from Allotment.

The details of the Equity Shares held by our Promoters, which shall be locked-in for a period of three years from the date of Allotment are set out in the following table:

| Sr. No.      | Name of the Promoters | Date of transaction | Nature of transaction  | No. of Equity Shares | Face value (₹) | Issue price per Equity Share (₹) | Maximum no. of Equity Shares to be locked-in | Percentage of pre-Issue lock-in paid-up capital (%) | Percentage of post-Issue lock-in paid-up capital (%) |

Note: In the event the upper end of the Price Band is more than ₹ 205.00 per Equity Share, our Promoters shall bring the difference between ₹ 205.00 per Equity Share and such price not later than one (1) day prior to Bid/ Issue Opening Date.

Our Promoters have confirmed that acquisition of the Equity Shares held by them and which will be locked in as Promoters' Contribution have been financed from their own funds and no loans or financial assistance from any bank or financial institution has been availed for such purpose.

The minimum Promoters' Contribution has been brought to the extent of not less than the specified minimum lot and from our Promoters in terms of the SEBI ICDR Regulations. The Equity Shares that are being locked-in are not ineligible for computation of Promoters' Contribution under Regulation 33 of the SEBI ICDR Regulations. In this computation, as per Regulation 33 of the SEBI ICDR Regulations, our Company confirms that the Equity Shares locked-in, do not, and does not, consist of:

- The Equity Shares acquired during the three years preceding the date of the Draft Red Herring Prospectus (a) for consideration other than cash and revaluation of assets or capitalisation of intangible assets, or (b) bonus shares issued out of revaluations reserves or unrealised profits or against equity shares which are otherwise ineligible for computation of Promoters' Contribution;
- The Equity Shares acquired during the year preceding the date of this Red Herring Prospectus, at a price lower than the price at which the Equity Shares are being offered to the public in the Issue;
- Equity Shares issued to the Promoters upon conversion of a partnership firm; and
- Equity Shares held by the Promoters that are subject to any pledge or any other form of encumbrance.

## C. Details of pre-Issue equity share capital locked-in for one year

In addition to the 20.00% of the fully diluted post-Issue shareholding of our Company held by our Promoters and locked in for a period of three years as specified above and the Equity Shares held by IPDC and IPDF, being SEBI registered VCFs (more particularly described in point D below), the entire pre-Issue Equity Share capital of our Company will be locked-in for a period of one year from the date of Allotment.

## D. Lock in of Equity Shares held by IPDC and IPDF

In terms of proviso to Regulation 37 (b) of SEBI ICDR Regulations, equity shares acquired by a venture capital fund or alternative investment fund of category I or a foreign venture capital investor shall be locked in for a period of at least one year from the date of such acquisition. IPDC and IPDF have acquired 11,000,000 Equity Shares and 7,000,000 Equity Shares on October 28, 2016. These shares shall be locked-in for a period of 1 year from the date of acquisition i.e. up to October 27, 2017. Further, 400 Equity Shares were acquired by IPDF on November 25, 2016. These shares shall also be locked-in for a period of 1 year from the date of acquisition i.e. up to November 24, 2017.

All other Equity Shares held by IPDC and IPDF i.e. 9,950,000 and 49,400 Equity Shares respectively are not eligible to be locked-in in terms of Regulation 37 (b) of SEBI ICDR Regulations.

**E. *Lock in of Equity Shares Allotted to Anchor Investors***

Equity Shares Allotted to Anchor Investors in the Anchor Investor Portion shall be locked-in for a period of 30 days from the date of Allotment.

**F. *Other requirements in respect of lock-in***

The Equity Shares held by the Promoters which are locked-in for a period of one year from the date of Allotment in the Issue may be pledged only with scheduled commercial banks or public financial institutions as collateral security for loans granted by such banks or public financial institutions provided that the pledge of the Equity Shares is one of the terms of the sanction of such loans. Further, the Equity Shares held by our Promoters that are locked-in for a period of three years from the date of Allotment of Equity Shares in the Issue, may be pledged only with scheduled commercial banks or public financial institutions if, in addition to complying with the aforesaid condition, the loans have been granted by the scheduled commercial banks or public financial institutions for the purpose of financing one or more Objects of the Issue.

The Equity Shares held by persons other than the Promoters and locked-in for a period of one year from the date of Allotment in the Issue, may be transferred to any other person holding the Equity Shares which are locked-in subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with the SEBI Takeover Regulations, as applicable. Further, Equity Shares held by the Promoters and locked-in, may be transferred to and among the Promoters or Promoter Group or to a new Promoters or persons in control of our Company subject to continuation of the lock-in in the hands of the transferees for the remaining period and compliance with the SEBI Takeover Regulations, as applicable.

## 6. Shareholding Pattern of our Company

The following table sets forth details of the shareholding pattern of our Company as on the date of this Red Herring Prospectus:

| Category (I) | Category of shareholder (II)   | Nos. of share holders (III) | Number of fully paid up Equity Shares held (IV) | Number of Partly Paid-up Equity Shares held (V) | Number of shares underlying Depository Receipts (VI) | Total nos. shares held (VII) = (IV)+(V)+(VI) | Shareholding as a % of total number of shares (calculated as per SCRR, 1957) (VIII) As a % of (A+B+C2) | Number of Voting Rights held in each class of securities (IX) |                    |            |                          | Number of Shares Underlying Outstanding convertible securities (including Warrants) (X) | Shareholding, as a % assuming full conversion of convertible securities (as a percentage of diluted share capital) (XI)= (VII)+(X) As a % of (A+B+C2) | Number of Locked in shares (XII) |                                 | Number of Shares pledged or otherwise encumbered (XIII) |                                 | Number of Equity Shares held in dematerialised form (XIV) |

\*Promoter Group Company

<sup>#</sup> Managing Director

All Equity Shares were transferred at face value.

11. Except as disclosed below, our Promoters, Promoter Group, or the Directors of our Company and directors of our Corporate Promoter and their immediate relatives or the investment manager of our Promoter, Make in India Fund, have not purchased or sold any or the equity shares of any of our Subsidiaries within six months preceding the filing of the Draft Red Herring Prospectus:

| Sr. No. | Name of Subsidiary | Name of Transferor (relationship with our Company) | Name of Transferee (relationship with our Company) | Number of equity shares transferred | Date of transfer  |
|---------|--------------------|----------------------------------------------------|----------------------------------------------------|-------------------------------------|-------------------|
| 1.      | OSEPL              | SREI (Corporate Promoter)                          | BRNL (the Issuer)                                  | 7,330,033                           | November 15, 2016 |
| 2.      | OSEPL              | IPDC (Promoter Group)                              | SREI (Corporate Promoter)                          | 4,250,000                           | December 7, 2016  |
| 3.      | OSEPL              | SREI (Corporate Promoter)                          | BRNL (the Issuer)                                  | 4,254,900                           | December 7, 2016  |
| 4.      | STPL               | SREI (Corporate Promoter)                          | BRNL (the Issuer)                                  | 4,900                               | November 15, 2016 |

12. As on the date of this Red Herring Prospectus, there are no outstanding warrants, financial instruments or any rights, which would entitle the Promoters or the Shareholders or any other person any option to acquire/ receive any Equity Shares after the Issue.
13. The Equity Shares are fully paid-up and there are no partly paid-up Equity Shares as on date of this Red Herring Prospectus. The Equity Shares issued pursuant to this Issue shall be fully paid-up.
14. Our Company shall not make any further issue of Equity Shares and/or any securities convertible into Equity Shares, whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner, during the period commencing from filing of this Red Herring Prospectus with SEBI until the Equity Shares have been listed on the Stock Exchanges.
15. Our Company presently does not intend or propose to alter the capital structure for a period of six months from the Issue Opening Date, by way of split or consolidation of the denomination of Equity Shares or further issue of Equity Shares (including issue of securities convertible into or exchangeable, directly or indirectly for Equity Shares) whether on a preferential basis or issue of bonus or rights or further public issue of specified securities or otherwise. However, if business needs of the Company so require, the Company may alter the capital structure by way of split / consolidation of the denomination of the Equity Shares / issue of Equity Shares on a preferential basis or issue of bonus or rights or public or preferential issue of Equity Shares or any other securities during the period of six (6) months from the date of opening of the Issue or from the date the application moneys are refunded on account of failure of the Issue, after seeking and obtaining all the approvals which may be required. However, if our Company enters into acquisitions, joint ventures or other arrangements, our Company may, subject to necessary approvals, consider raising additional capital to fund such activity or use Equity Shares as currency for acquisitions or participation in such joint venture.
16. There shall be only one denomination of the Equity Shares, unless otherwise permitted by law.
17. Our Promoters and members of the Promoter Group will not subscribe to or purchase any Equity Shares in the Issue.
18. Total number of Shareholders of our Company as on the date of this Red Herring Prospectus is seven (7).
19. Other than 9,950,000 and 49,400 Equity Shares held by IPDC and IPDF currently pledged with SREI, as on the date of this Red Herring Prospectus, none of the Equity Shares of our Company are subject to any pledge or encumbrance.

20. No person connected with the Issue, including, but not limited to, the BRLMs, the members of the Syndicate, our Company, the Directors, the Promoter Group, Group Companies, and the KMPs, shall offer any incentive, whether direct or indirect, in any manner, whether in cash or kind or services or otherwise to any Bidder for making a Bid except as disclosed in this Red Herring Prospectus.
21. Our Company has not issued any Equity Shares out of its revaluation reserves or unrealised profits.
22. Except as disclosed in this section, our Company has not made any public issue of its Equity Shares or rights issue of any kind since its incorporation.
23. Save and except as stated below, none of our Promoter, Promoter Group or directors of our Corporate Promoter or the investment manager of our Promoter, Make in India Fund, have any shareholding in our Company as on the date of this Red Herring Prospectus:

| Sr. No.            | Name of the Shareholder (relationship with our Company) | No. of Shares     | Percentage of pre-Issue shareholding (%) | Percentage of post-Issue shareholding (%) |
|--------------------|---------------------------------------------------------|-------------------|------------------------------------------|-------------------------------------------|
| 1.                 | SREI (Promoter)                                         | 16,630,000        | 30.43                                    | 19.81                                     |
| 2.                 | Make in India Fund (Promoter)                           | 500,000           | 0.91                                     | 0.60                                      |
| 3.                 | IPDC (Promoter Group)                                   | 20,950,000        | 38.33                                    | 24.96                                     |
| 4.                 | IPDF (Promoter Group)                                   | 7,049,800         | 12.90                                    | 8.40                                      |
| 5.                 | OSPL Infradeal Private Limited (Promoter Group)         | 9,520,000         | 17.42                                    | 11.34                                     |
| <b>Grand Total</b> |                                                         | <b>546,49,800</b> | <b>100.00</b>                            | <b>65.10</b>                              |

24. As on date of this Red Herring Prospectus, all the Equity Shares of our Company held by our Promoters and Promoter Group are in dematerialised form.
25. Any over-subscription to the extent of 10.00% of the Issue can be retained for the purpose of rounding off to the nearer multiple of minimum allotment lot while finalising the Basis of Allotment.
26. This Issue is being made in terms of Rule 19(2)(b) of SCRR.

The Issue is being made through the Book Building Process in accordance with SEBI ICDR Regulations, wherein at least 75% of the Issue shall be Allotted on a proportionate basis to QIBs, provided that our Company in consultation with the BRLMs (other than SCML) may allocate up to 60% of the QIB Portion to Anchor Investors at the Anchor Investor Allocation Price, on a discretionary basis, out of which at least one-third will be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription or non-allocation in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. The number of Equity Shares representing 5% of the Net QIB Portion shall be available for allocation on a proportionate basis to Mutual Funds only. The remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to QIBs, including Mutual Funds, subject to valid Bids being received from them at or above the Issue Price. However, if the aggregate demand from Mutual Funds is less than 5% of the Net QIB Portion, the balance Equity Shares available for allocation in the Mutual Fund Portion will be added to the remaining Net QIB Portion for proportionate allocation to QIBs. If at least 75% of the Issue cannot be Allotted to QIBs, all the application monies will be refunded / unblocked forthwith. Further, not more than 15% of the Issue shall be available for allocation on a proportionate basis to Non Institutional Bidders and not more than 10% of the Issue shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received from them at or above the Issue Price. All Bidders, other than Anchor Investors, shall participate in the Issue mandatorily through the ASBA process by providing the details of their respective bank accounts in which the corresponding Bid Amount will be blocked by the SCSBs. Anchor Investors are not permitted to participate in the Issue through the ASBA process.

27. Subject to valid Bids being received at or above the Issue Price, under-subscription, if any, in any category except in the QIB category would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company, in consultation with the BRLMs (other than SCML) and the Designated Stock Exchange, subject to applicable law. However, under-subscription, if any, in the QIB Category will not be allowed to be met with spill-over from other categories or a combination of categories.

28. Our Company shall ensure that transactions in the Equity Shares by the Promoters and the Promoter Group between the date of registering this Red Herring Prospectus with the RoC and the Bid/Issue Closing Date, if any, shall be reported to the Stock Exchanges within 24 hours of such transaction.
29. There are no financing arrangements pursuant to which our Promoter Group, Directors or their relatives, directors of our Corporate Promoter or Investment Manager of our Promoter, Make in India Fund, have financed the purchase of Equity Shares by any other person other than in the ordinary course of business of the financing entity during the six months preceding the date of filing of the Draft Red Herring Prospectus with SEBI. SREI has financed acquisition of 9,520,000 Equity Shares by OSPL Infradeal Private Limited (earlier known as Omkareshwar Suppliers Private Limited) on November 12, 2016 in normal course of its business as an NBFC.
30. None of the BRLMs or their associates hold any Equity Shares except:
- SREI (the holding company of SCML) holds 16,630,000 Equity Shares; and
  - IPDC, IPDF and Make in India Fund, funds managed by Srei Alternative Investment Managers Limited, a 100.00% subsidiary of our Corporate Promoter) hold 20,950,000 Equity Shares, 7,049,800 Equity Shares and 500,000 Equity Shares respectively;

The BRLMs and their affiliates may engage in the transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company for which they may in the future receive customary compensation.

31. For details of our related party transactions, please refer to the chapter “*Financial Statements*” on page 218.

## SECTION IV: PARTICULARS OF THE ISSUE

### OBJECTS OF THE ISSUE

Our Company proposes to utilise the funds which are being raised through the Issue, after deducting the Issue related expenses (“**Net Proceeds**”), estimated to be approximately ₹ [●] million, towards funding the following objects (collectively, referred to herein as the “**Objects**”):

1. Advancing of subordinate debt in form of interest free unsecured loan to our Subsidiary, STPL, for part financing of the STPL Project (“**STPL Sponsor Investment**”);
2. Acquisition of the subordinated debt in the form of unsecured loans/OCPIDs/warrants/OCDs, advanced/held by SREI to/in STPL, KEPL and MTPL (“**Identified SPVs**”); and
3. General corporate purposes.

In addition to the aforementioned Objects, our Company expects to receive the benefits of listing of its Equity Shares on the Stock Exchanges, including among other things, enhancing the visibility of our Company.

The main objects set out in the Memorandum of Association enable us to undertake our existing activities and the Objects.

The STPL Sponsor Investment will be utilized by STPL to carry out activities as permitted by the objects clause of its memorandum of association.

### Issue Proceeds

The details of the Issue Proceeds are set forth in the following table:

(in ₹million)

| Particulars                    | Amount |
|--------------------------------|--------|
| Gross proceeds of the Issue*   | [●]    |
| (Less) Issue related expenses* | [●]    |
| Net Proceeds of the Issue*     | [●]    |

\*To be finalised upon determination of the Issue Price.

### Requirement of funds and utilisation of Net Proceeds

The proposed utilisation of the Net Proceeds is set forth in the table below:

(in ₹million)

| Particulars                                                                                                                                  | Amount   |
|----------------------------------------------------------------------------------------------------------------------------------------------|----------|
| STPL Sponsor Investment                                                                                                                      | 514.70   |
| Acquisition of the subordinated debt in the form of unsecured loans/ OCPIDs/ warrants/ OCDs, advanced/held by SREI to/in the Identified SPVs | 3,722.53 |
| General corporate purposes*                                                                                                                  | [●]      |
| <b>Total</b>                                                                                                                                 | [●]      |

\*To be finalised upon determination of the Issue Price.

### Schedule of Deployment

We propose to deploy the Net Proceeds for the aforesaid Objects in accordance with the estimated schedule of implementation and deployment of funds set forth in the table below:

(in ₹million)

| Particulars                                                                                                                               | Amount proposed to be funded from the Net Proceeds | Estimated utilisation in Fiscal 2018 |
|-------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------|--------------------------------------|
| STPL Sponsor Investment                                                                                                                   | 514.70                                             | 514.70                               |
| Acquisition of the subordinated debt in the form of unsecured loans/OCPIDs/warrants/OCDs, advanced/held by SREI to/in the Identified SPVs | 3,722.53                                           | 3,722.53                             |
| General corporate purposes*                                                                                                               | [●]                                                | [●]                                  |

\* To be finalised upon determination of the Issue Price.

As indicated above, our Company proposes to deploy the entire Net Proceeds towards the Objects during Fiscal

2018 and that no amounts proposed to be utilised out of the Issue have been deployed by our Company as on August 3, 2017. However, where the Net Proceeds are not completely utilised for the Objects in the Fiscal 2018 due to various factors including but not limited to (i) economic and business conditions; (ii) delay or failure in meeting any conditions attached to the borrowings with respect to these Identified SPVs or delay or failure to obtain waivers from fulfilment of any such conditions, and (iii) other commercial considerations such as interest rate, tenor of the debt and availability of alternate financial resources; the same would be utilised (in part or full) in Fiscal 2018-19 or a subsequent period as may be determined by our Company at its sole discretion and in accordance with applicable law. G.P. Agrawal & Co., Chartered Accountants have *vide* its certificate dated August 3, 2017, certified that our Company, has not, as of August 3, 2017, deployed any monies towards the stated Objects.

The deployment of funds described herein are based on the internal management estimates of our Company and have not been appraised or verified by the Book Running Lead Managers or appraised by any bank or financial institution. We may have to revise our funding requirements and deployment on account of a variety of factors such as our financial condition, business and strategy, certain external factors which may not be within the control of our management. Consequently, the fund requirements of our Company are subject to revisions in the future at the discretion of the management. In the event of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in this Issue, subject to compliance with applicable laws. Further, in case of a shortfall in the Net Proceeds, our management may explore a range of options including utilising our Company's internal accruals or seeking debt financing. For further details, please refer "*Risk Factors – Our Company's management will have flexibility in utilising the Net Proceeds and that there is no assurance that the deployment of the Net Proceeds in the manner intended by our Company will result in any increase in the value of your investment. Further, the funding plan has not been appraised by any bank or financial institution*" on page 44.

#### **Details of the Objects of the Issue**

The details in relation to objects of the Issue are set forth herein below.

##### **1. Advancing of subordinate debt in form of interest free unsecured loan to our Subsidiary, STPL, for part financing of the STPL Project**

We propose to utilise ₹ 514.70 million from the Net Proceeds towards part-financing of the STPL Project, which is being developed by one of our subsidiaries, STPL, by advancing subordinate debt in form of interest free unsecured loan to STPL aggregating up to ₹ 514.70 million.

The STPL Project is for augmenting the existing road by four-laning the Solapur-Maharashtra / Karnataka border section of NH-9 from km 249.00 to km 348.80 ("**STPL Project Road**") in the state of Maharashtra on DBFOT pattern on toll basis. Pursuant to the STPL Concession Agreement, STPL has been granted an exclusive right, license and authority to construct, operate and maintain the STPL Project for a period of 25 years commencing from the appointed date for the STPL Project, being June 3, 2014 ("**STPL Appointed Date**").

The scheduled date for completion ("**Scheduled COD**") of the STPL Project was the 910<sup>th</sup> day from the STPL Appointed Date i.e. November 28, 2016. The Project Director, PIU Solapur, NHAI *vide* letter no. NHAI/PIU/SLP/MAH-KNTBorder/STPL/14029/10/1/1983 dated November 17, 2016, addressed to the Chief General Manager (Tech) and NHAI Regional Office, Navi Mumbai, Maharashtra ("**STPL Project Extension Letter**"), has recommended an extension of time for completion of Milestone II and thus consequentially the project completion period, as contemplated in the STPL Concession Agreement, by 213 days. The recommendation was accepted by the Chief General Manager (Tech.), NHAI, Mumbai and was submitted to the competent Authority at NHAI for approval *vide* letter dated March 21, 2017. Accordingly, once the approval is received and notified, the revised Scheduled COD would be advanced to June 29, 2017 ("**Revised Scheduled COD**"). STPL had, *vide* letter dated January 20, 2017 addressed to the independent engineer for the STPL Project, requested for extension of time for execution of Milestone III and scheduled four-laning of the STPL Project by 444 days from the Scheduled COD, i.e. up to February 15, 2018, due to delays in acquisition of land, shifting of utilities and other reasons which are not attributable to STPL. However, pursuant to non-fulfilment of obligations of NHAI towards land acquisition, continuing delays in finalisation of change of scope, shifting of population, health and environment utility and electrical utility and unprecedented rainfall in Osmanabad District section of project highway in Fiscal 2017, STPL has *vide* its letter dated May 31, 2017 addressed to the independent engineer for the STPL Project, requested for extension of time for execution of Milestone III and scheduled four-laning of the STPL Project by 548 days from

the Scheduled COD, i.e. up to May 31, 2018.

For further details, please refer to “BOT Projects in Operation - Solapur Tollways Private Limited” on page 156.

## Details of the STPL Project

### Estimated Project Cost

In terms of the STPL Loan Facility (as defined hereinafter) the estimated project cost of the STPL Project is ₹ 8,826.20 million (“**STPL Project Cost**”). The detailed break-up of the STPL Project Cost, together with the actual costs incurred up to July 15, 2017 is set forth below.

(in ₹million)

| Particulars                  | STPL Project Cost<br>(as per STPL Loan Facility) | Projects costs incurred<br>as of July 15, 2017* |
|------------------------------|--------------------------------------------------|-------------------------------------------------|
| EPC Cost                     | 7,839.00                                         | 4,053.11                                        |
| Pre-Operative Expenses       | 206.00                                           | 199.65                                          |

### Schedule of Implementation of STPL Project

The schedule of implementation of the development of the STPL Project as per the STPL Concession Agreement as well as the current status is set out below:

| Milestone             | Activity to be completed prior to milestones                                       | Scheduled date of completion | Revised date of completion as per the recommendations stated in the STPL Project Extension Letter | Status                                                                                                                          |
|-----------------------|------------------------------------------------------------------------------------|------------------------------|---------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| I                     | Completion of 10.00% of STPL Project Cost within 180 days from STPL Appointed Date | November 29, 2014            | -                                                                                                 | Has been achieved on scheduled date                                                                                             |
| II                    | Completion of 35.00% of STPL Project Cost within 400 days from STPL Appointed Date | July 7, 2015                 | February 5, 2016                                                                                  | Has been achieved on March 31, 2016 within cure period of 90 days from the revised date under the STPL Project Extension Letter |
| III                   | Completion of 70.00% of STPL Project Cost within 650 days from STPL Appointed Date | March 14, 2016               | October 13, 2016                                                                                  | To be achieved*                                                                                                                 |
| Scheduled four-laning | Scheduled COD                                                                      | November 28, 2016            | June 29, 2017                                                                                     | To be achieved*                                                                                                                 |

\* An extension of time of 213 days had been recommended by NHAI Solapur vide the STPL Project Extension Letter and by NHAI Regional Office, Mumbai vide letter dated March 21, 2017. Due to delays in achieving completion of Milestone III due to delays in acquisition of land, shifting of utilities and other reasons which are not attributable to STPL, STPL has, vide letter dated May 31, 2017 addressed to the independent engineer for the STPL Project, requested for further extension of time for execution of Milestone III and scheduled four-laning of the STPL Project up to May 31, 2018.

As of May 31, 2017, the cumulative financial progress of 50.59% and the cumulative physical progress of 43.88% of the STPL Project has been achieved as per MPR for the month of May, 2017.

### Means of finance

The STPL Project Cost in terms of the STPL Loan Facility is ₹ 8,826.20 million. In relation to the STPL Project, STPL has entered into:

- (i) the common facility agreement dated August 3, 2013 (“**CLA**”) as amended by the amendment agreements to the CLA dated December 12, 2014, April 21, 2015, October 19, 2015 and February 15, 2016 with Union Bank of India, India Infrastructure Finance Company Limited, Oriental Bank of Commerce, SREI, Vijaya Bank and Syndicate Bank, with Union Bank of India acting as the Lenders Agent and Axis Trustee Services Limited as the Security Trustee (the “**STPL Loan Facility**”) for ₹ 5,884.20 million.
- (ii) Under the STPL Loan Facility and in terms of the “STPL SSU” (as defined below), the contribution by the STPL sponsors (“**STPL Sponsors**”) towards the STPL Project Cost is ₹ 2,942.10 million (“**STPL Committed Capital**”). The STPL Loan Facility provides that the STPL Committed Capital can be contributed *inter alia* in the form of equity share capital and/or subordinated debt by the STPL Sponsors and such subordinated debt shall be non-interest bearing during the construction period only.
- (iii) Further STPL Sponsors have under sponsor support undertaking dated August 3, 2013, as amended by the sponsor support undertaking dated December 12, 2014, (“**STPL SSU**”) in relation to the STPL Loan Facility, undertaken that, any financial support provided by the STPL Sponsors shall remain fully subordinated to the outstanding due amounts under the STPL Loan Facility and shall not be due and payable until all rights and claims which the secured lenders under the STPL Loan Facility may have against STPL in respect of such outstanding due amounts have been irrevocably paid and discharged in full to the satisfaction of the lenders under the STPL Loan Facility.

As of July 15, 2017, STPL Sponsors have invested an aggregate amount of ₹ 2,427.40 million (including equity contribution of ₹ 0.05 million made by Coastal Projects Limited) towards STPL Committed Capital by way of equity share capital / equity convertibles and optionally convertible debentures.

Source: Certificate dated July 28, 2017 from MKPS & Associates, Chartered Accountants (Firm membership No: 302014E)

\*Aggregate of 176,420,000 warrants of face value ₹ 10.00 each issued by STPL to SREI and our Company for an aggregate consideration of ₹ 1,764.20 million including the conversion of SREI's loan of ₹ 1,659.20 million. These warrants are fully paid-up and provide the right to the warrant holder to convert each warrant into one fully paid-up equity share of STPL on maturity i.e. 36 months from the date of allotment of the warrants. For further details, please refer to the chapter “Our Subsidiaries and Associates” on page 184.

\*\* Aggregate of 65,820,000 STPL OCPIDs of face value ₹ 10.00 each were issued by STPL to SREI. Each STPL OCPID provides its holder to convert at any time, in one or more tranches, subject to a three months' conversion notice being served on STPL, into one fully paid-up equity shares of STPL. STPL OCPIDs that remain unconverted at maturity (i.e. 10 years from the date of allotment, which may be extended by a further period of five (5) years) shall be redeemed. For further details, please refer to the chapter “Our Subsidiaries and Associates” on page 184.

<sup>#</sup> Coastal Projects Limited holds equity contribution of ₹ 0.05 million being the minority shareholder in STPL

In order to fund STPL Project Cost, the STPL Sponsors are under an obligation to infuse an additional amount of ₹ 514.70 million by way of *inter alia* equity share capital and/or subordinated debt, in terms of the STPL Loan Facility and the remaining balance amount of ₹ 3,269.72 million shall be drawn down from the STPL Loan Facility. Thus, firm arrangements of finance through verifiable means towards atleast seventy-five per cent of the stated means of finance have been made as mandated under Regulation 4 (2) (g) of SEBI ICDR Regulations.

The summary of the details of means of finance for the STPL Project are set forth below.

\* Certificate dated July 28, 2017 from MKPS & Associates, Chartered Accountants (Firm membership No: 302014E)

\*\* Mobilisation and adhoc advances, cash and bank balances, investment in mutual fund, current assets net of current liabilities and inter-corporate deposits

@ Coastal Projects Limited holds equity contribution of 0.05 million, being the minority shareholder in STPL

The Net Proceeds of the Issue for the above stated objects may also be utilized for the purpose of pre-payment or repayment of any borrowings undertaken by our Company for the purpose of funding of the STPL SSU. Further the Net Proceeds of the Issue for the above stated objects may also be utilized for the purpose of acquisition of any sponsor support extended by SREI to STPL at such terms as may be mutually agreed between SREI and our Company. While the remaining portion of the STPL Project Cost is to be financed through STPL Loan Facility, in case there is any shortfall or cost overruns, the same is proposed to be met by way of additional equity or subordinated debt by the STPL Sponsors or by way of debt financing.

## 2. Acquisition of subordinated debt advanced by SREI to the Identified SPVs

In terms of the loan agreements entered into by the Identified SPVs, the sponsors of the Identified SPVs have to bring in their contribution towards the project expenses, as a condition precedent to disbursement of loan by the lenders. The sponsors of the Identified SPVs have also executed sponsor support undertakings pursuant to the terms of such loan agreements. This contribution can be brought in as equity or by way of loans which are unsecured in nature and governed by the terms of the loan agreement with respect to permissible unsecured lending. Accordingly, SREI in its capacity as the sponsor, had extended support in the form of unsecured loans/OCPIs/warrants/OCs to the Identified SPVs. Additionally, in the case of MTPL and KEPL, SREI has extended funds to meet debt servicing requirements of senior lenders of the MTPL Project and KEPL Project. We would like to draw your attention to the chapter “Our Subsidiaries and Associates” on page 184 where the total sponsor contribution to each of the Project SPVs has been disclosed.

The Company has, in Fiscal 2015 and Fiscal 2016, acquired the equity shares of the Identified SPVs from SREI and its related entities and has further entered into a Letter Agreement dated November 11, 2016 with SREI to acquire the subordinated debt advanced by SREI to the Identified SPVs. Accordingly, our Company proposes to utilise ₹ 3,722.53 million from the Net Proceeds of the Issue towards acquisition of the sponsor contribution in form of subordinated debt advanced by SREI, in the following Identified SPVs. Pursuant to this acquisition, our Company would hold 100% of the sponsor contribution made by SREI in its capacity as a sponsor to the Identified SPVs.

| Identified SPV | Nature of instrument / lending | Sponsor contribution by SREI as of July 15, 2017 |                     | Sponsor contribution proposed to be acquired by our Company |                            |
|----------------|--------------------------------|--------------------------------------------------|---------------------|-------------------------------------------------------------|----------------------------|
|                |                                | Number of instruments                            | Amount in ₹ million | Number of instruments                                       | Consideration in ₹ million |
| STPL           | STPL Warrants                  | 165,920,000                                      | 1,659.20            | 165,920,000                                                 | 1,659.20                   |

| Identified SPV | Nature of instrument / lending                               | Sponsor contribution by SREI as of July 15, 2017 |                     | Sponsor contribution proposed to be acquired by our Company |                            |

The fund requirement set out above is proposed to be entirely funded from the Net Proceeds. Accordingly, our Company confirms that there is no requirement to make firm arrangements of finance through verifiable means towards atleast 75% of the stated means of finance, excluding the amounts to be raised from the Issue and existing identifiable internal accruals. In case of a shortfall in the Net Proceeds, our management may explore a range of options including utilising our internal accruals or seeking debt financing.

#### **Details of Sponsor contribution in each of the Identified SPVs**

##### **i) STPL**

The STPL Project is for augmenting the existing road by four-laning the Solapur-Maharashtra / Karnataka border section of NH-9 from km 249.00 to km 348.800 in the state of Maharashtra on DBFOT pattern on toll basis. In terms of the STPL Loan Facility and the STPL SSU, the STPL Sponsors are required to infuse an aggregate amount of ₹ 2,942.10 million as STPL Committed Capital. Further in terms of the STPL SSU, any claims towards the STPL Committed Capital shall be subordinate to the claims of lenders under the STPL Loan Facility.

As of July 15, 2017, the contribution towards STPL Committed Capital is as under:

| Nature of instrument / lending | SREI                  |                                  | Our Company           |                                  | Total in ₹ million <sup>#</sup> |

<sup>#</sup>Source: Certificate dated July 28, 2017 from MKPS & Associates, Chartered Accountants (Firm membership No: 302014E)

\* does not include the equity contribution of ₹0.05 million by Coastal Projects Limited, being the minority shareholder in STPL.

MKPS & Associates, Chartered Accountants (Firm membership No: 302014E) vide their certificate dated July 28, 2017 have confirmed the STPL Committed Capital and the amount drawn down from the STPL Loan Facility and that it has been utilized by STPL for the purposes for which it has been raised.

#### **Terms of the STPL Warrant**

The STPL Warrants have a tenure of 36 months from the date of allotment at the end of which STPL Warrant holder has the right to convert each STPL Warrant into one equity share in STPL of face value of ₹ 10.00 each. In the event the STPL Warrant holder does not opt to convert the STPL Warrant into the equity shares of STPL, then the monies paid for the subscription of the STPL Warrant would be fully forfeited.

Further, if any re-characterisation events (as listed below) has taken place, the warrant holder may serve a notice upon STPL, and in case STPL does not satisfactorily redress the notice served by the warrant-holder, the STPL Warrants shall be deemed to have been converted into debentures of face value of ₹ 10.00 each repayable with a fixed interest of 14.00% p.a. in the ratio of 1:1 (“**STPL Contingent Debt Obligations**”) which will be repayable within 17 years from the date of issue. Interest shall accrue and will be payable annually on interest due dates only when STPL has distributable profits after paying all expenses, statutory dues and payments to the senior secured lenders of STPL.

The re-characterisation events are:

- Change of control over the Company.
- The Company not achieving COD for its project within 2.5 years from the date of the issuance of the Warrants.
- The Company not achieving revenue and/or Cash accrual as per the Projected cash flow with a (+/-) 20.00% variation.

#### Terms of the STPL OCPID

The STPL OCPID have a tenure of 10 years from the date of allotment which may be extended by a further period of five (5) years at the option of the holders. Each STPL OCPID provides its holder to convert at any time, in one or more tranches, subject to a three months' conversion notice being served on STPL, into one fully paid-up equity shares of STPL. STPL OCPIDs that remain unconverted at maturity shall be redeemed. The total interest i.e. fixed interest @12.00% p.a. alongwith variable interest that shall accrue and that will be payable on the STPL OCPID shall be determined at the end of every financial year depending on the residual cash flows after the payment of all expenses, statutory dues and payments to the senior secured lenders of STPL. Such total interest on the STPL OCPID shall be capped to 16.00% p.a. computed on a cumulative basis.

Our Company proposes to utilize ₹ 2,317.40 million to acquire the STPL Warrants and STPL OCPID currently being held by SREI. Further in terms of the letter agreement dated February 16, 2017 entered into between our Company and SREI, our Company has agreed to pay SREI on the same terms, any interest earned on the STPL OCPID by our Company, for the period of holding of the STPL OCPID by SREI. Provided that in the event our Company converts any part or whole of the STPL OCPID into the equity shares of STPL, there would be no payments due and payable by our Company to SREI for such converted STPL OCPID. For further details, please also refer to the "Risk Factor - We propose to utilise a portion of Net Proceeds for acquisition of subordinate debt advanced by SREI, our Corporate Promoter to Identified SPVs" on page 23.

\*Source: Certificate dated July 26, 2017 from Sunil Saraf & Associates, Chartered Accountants (Firm membership. No. 015021C)

<sup>#</sup> 24,198,500 and 2,460,000 MTPL OCPID Series I of face value of ₹10.00 issued on March 29, 2013 and February 15, 2014

<sup>##</sup> 273,600 and 2,444,500 MTPL OCPID Series II of face value of ₹10.00 were issued on December 25, 2015 and March 28, 2016 to our Company, which was transferred to SREI on October 27, 2016.

Sunil Saraf & Associates, Chartered Accountants (Firm Regn. No. 015021C) vide their certificate dated July 26, 2017 have confirmed that MTPL Committed Capital has been utilized by MTPL for the purpose for which it has been raised.

#### Terms of Unsecured Loan

The Unsecured loan was advanced by SREI for a period of 11 years from the date of initial disbursement as may be extended by a further period of five (5) years at the discretion of SREI on such terms and conditions as SREI may deem fit in terms of the rupee loan agreement dated August 29, 2014. Interest yield from the loan will be 16.00% at the time of prepayment / repayment in part or full, and will be payable quarterly on availability of free available cash flow i.e. cash flow available after payment of all expenses, statutory dues and servicing of debt obligation to senior lenders, etc. as mentioned under escrow agreement dated February 23, 2010, executed between MTPL, MPRDC, Escrow Bank and lender's representative as per the MTPL Concession Agreement. If free available cash flow is insufficient, interest will be paid when sufficient free available cash flow will be available.

#### *Terms of the MTPL OCPID Series I*

Optionally convertible participating interest bearing debentures of face value of ₹ 10.00 ("MTPL OCPID Series I") each having a tenure of 10 years from the date of allotment, with an option to extend it for another five (5) years, at option of holders, payable at a fixed interest of 12.00% p.a. If in any of the years' residual cash flow is not enough to provide for the interest of the MTPL OCPID Series I, the cumulative deficit shall be made good in the year it has sufficient residual cash flows. The interest payable on the MTPL OCPID Series I shall accrue and shall be payable on interest due date only upon MTPL having residual cash flows available for distribution after paying all expenses, statutory dues and payment to senior secured lenders subject to a maximum of 16.00% p.a. The MTPL OCPID Series I are redeemable at par.

#### *Terms of the MTPL OCPID Series II*

Optionally convertible participating interest bearing debentures of face value of ₹ 10.00 ("MTPL OCPID Series II") each having a tenure of 15 years from the date of allotment, with an option to extend it for another three (3) years at option of holders, payable at a fixed interest of 12.00% p.a. If in any of the years' residual cash flow is not enough to provide for the interest of the MTPL OCPID Series II, the cumulative deficit shall be made good in the year it has sufficient residual cash flows. The interest payable on the MTPL OCPID Series II shall accrue and shall be payable on interest due date only upon MTPL having residual cash flows available for distribution after paying all expenses, statutory dues and payment to senior secured lenders subject to a maximum of 16.00% p.a. The MTPL OCPID Series II are redeemable at par.

Our Company has agreed to acquire the principal amount of unsecured debt and MTPL OCPIDs advanced by SREI to MTPL:

| (in ₹ million)                     |                       |               |
|------------------------------------|-----------------------|---------------|
| Particulars                        | Number of Instruments | Amount        |
| Unsecured loan from SREI (1)       | -                     | 231.77        |
| MTPL OCPID Series I from SREI (2)  | 26,658,500            | 266.59        |
| MTPL OCPID Series II from SREI (3) | 2,718,100             | 27.18         |
| <b>Total = (1 + 2 + 3)</b>         |                       | <b>525.54</b> |

### **3. General Corporate Purposes**

Our Company proposes to deploy the balance Net Proceeds aggregating ₹ [●] million towards general corporate purposes, subject to such utilisation not exceeding 25.00% of the Issue proceeds, in compliance with the SEBI ICDR Regulations, including but not limited to strategic initiatives, partnerships and joint ventures, meeting exigencies which our Company may face in the ordinary course of business, meeting expenses incurred in the ordinary course of business and any other purpose as may be approved by the Board or a duly appointed committee from time to time, subject to compliance with the necessary provisions of the Companies Act. Our Company's management, in accordance with the policies of the Board, will have flexibility in utilising any surplus amounts.

#### **Issue Expenses**

The total expenses of the Issue are estimated to be approximately ₹ [●] million. The break-up for the Issue expenses is as follows:

| Activity                                                                                         | Estimated expenses<br>(in ₹ million) | As a % of the total<br>estimated Issue expenses | As a % of the<br>total Issue size |
|--------------------------------------------------------------------------------------------------|--------------------------------------|-------------------------------------------------|-----------------------------------|
| BRLMs fees and commissions (including underwriting commission, brokerage and selling commission) | [●]                                  | [●]                                             | [●]                               |

| Activity                                                      | Estimated expenses<br>(in ₹ million) | As a % of the total<br>estimated Issue expenses | As a % of the<br>total Issue size |
|---------------------------------------------------------------|--------------------------------------|-------------------------------------------------|-----------------------------------|
| Commission/processing fee for SCSBs and Bankers to the Issue  | [•]                                  | [•]                                             | [•]                               |
| Brokerage and selling commission for Registered Brokers       | [•]                                  | [•]                                             | [•]                               |
| Registrar to the Issue                                        | [•]                                  | [•]                                             | [•]                               |

\* Based on valid Bid cum Application Forms

4) Selling commission payable to the SCSBs on the portion for Retail Individual Bidders and Non-Institutional Bidders, which are directly procured by them would be as follows:

Portion for retail individual bidders 0.35% of the amount allotted\* (plus applicable taxes)

Portion for Non-Institutional Bidders 0.20% of the Amount Allotted\* (plus applicable taxes)

\* Amount Allotted is the product of the number of Equity Shares Allotted and the Issue Price.

No additional processing/uploading charges shall be payable by the Company to the SCSBs on the applications directly procured by them.

5) Processing fees payable to the SCSBs on the portion for Retail Individual Bidders and Non-Institutional Bidders which are procured by the members of the Syndicate /sub-syndicate /Registered Brokers / RTAs /CDPs and submitted to SCSBs for blocking of funds in ASBA Accounts would be as follows.

Portion for Retail Individual Bidders ₹ 10 per valid Bid cum Application Form\* (plus applicable taxes)

Portion for Non-institutional bidders ₹ 10 per valid Bid cum Application Form\* (plus applicable taxes)

\* Based on valid Bid cum Application Forms

### Interim use of Net Proceeds

Our Company, in accordance with the policies formulated by the Board of Directors from time to time, will have flexibility to deploy the Net Proceeds. Pending utilisation of the Net Proceeds for the purposes described above, our Company will deposit the Net Proceeds only with scheduled commercial banks included in second schedule of the Reserve Bank of India Act, 1934. In accordance with Section 27 of the Companies Act, 2013, our Company confirms that it shall not use the Net Proceeds for buying, trading or otherwise dealing in equity shares of any other listed company.

**Bridge Financing Facilities**

Our Company has not raised any bridge loans from any bank or financial institution as on the date of this Red Herring Prospectus, which are proposed to be repaid from the Net Proceeds.

**Monitoring of Utilisation of Funds**

Our Company has appointed HDFC Bank Limited as the Monitoring Agency in relation to the Issue, under the requirements of Regulation 16 of the SEBI ICDR Regulations. Our Board and Monitoring Agency will monitor the utilisation of the Net Proceeds. Our Company will disclose the utilisation of the Net Proceeds under a separate head in our balance sheet along with the relevant details, for all such amounts that have not been utilised. The Company will indicate investments, if any, of unutilised Net Proceeds in the balance sheet of our Company for the relevant Fiscal subsequent to receipt of listing and trading approvals from the Stock Exchanges.

Pursuant to Regulation 18 of the SEBI Listing Regulations, our Company shall, on a quarterly basis disclose to the Audit Committee the uses and application of the Net Proceeds. The Audit Committee shall make recommendations to our Board of Directors for further action, if appropriate. Our Company shall, on an annual basis, prepare a statement of funds utilised for purposes other than those stated in this Red Herring Prospectus and place it before the Audit Committee. Such disclosure shall be made only the such time that all the Net Proceeds have been utilised in full. The statement shall be certified by the Statutory Auditors of our Company. Furthermore, in accordance with Regulation 32(6) of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement including material deviations, if any, in the utilisation of the proceeds of the Issue from the Objects as stated above. This information will also be published in newspapers simultaneously with the interim or annual financial results, placing the same before the Audit Committee. Our Company will disclose the utilisation of the Net proceeds under a separate head along with details in our balance sheet(s) until such time as the Next Proceeds remain unutilised clearly specifying the purpose for which such Net Proceeds have been utilised.

**Appraising Entity**

None of the Objects for which the Net Proceeds will be utilised have been appraised.

**Other Confirmations**

Other than payment to SREI and STPL, for the Objects stated above, no part of the proceeds of the Issue will be paid by us to our Promoters and Promoter Group, Group Companies, Directors, Subsidiaries, Associates or Key Management Personnel, except in the normal course of business and in compliance with applicable law.

## BASIS FOR ISSUE PRICE

The Issue Price will be determined by our Company in consultation with the BRLMs (other than SCML) on the basis of assessment of market demand for the Equity Shares offered through the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹ 10.00 each and the Issue Price is [●] times the face value at the lower end of the Price Band and [●] times the face value at the higher end of the Price Band. Investors should refer to the chapters “*Business*”, “*Risk Factors*” and “*Financial Statements*” beginning on pages 136, 18 and 218, respectively, to have an informed view before making an investment decision.

### Qualitative Factors

We believe the following are our strengths:

- Diverse portfolio of projects in several states in India and long residual concession period of the projects
- Ability to partner with domestic and international experienced EPC players
- Ability to effectively finance and manage our projects
- Strong and experienced Corporate Promoter
- Experienced and professional management team with strong asset management, execution capabilities and extensive industry experience

For further details, please refer to “*Business - Strengths*” on page 137.

### Quantitative Factors

The information presented below relating to our Company is based on the Restated Financial Statements. For details, please refer to “*Financial Statements*” on page 218.

Some of the quantitative factors which may form the basis for computing the Issue Price are as follows:

#### 1. Basic and Diluted Earnings Per Share (“EPS”), as adjusted for changes in capital:

On standalone basis:

|                           | Basic EPS (in ₹) | Diluted EPS (in ₹) | Weight |
|---------------------------|------------------|--------------------|--------|
| Year Ended March 31, 2015 | (6.31)           | (6.31)             | 1      |
| Year Ended March 31, 2016 | (46.67)          | (46.67)            | 2      |
| Year Ended March 31, 2017 | (11.04)          | (11.04)            | 3      |
| <b>Weighted Average</b>   | <b>(22.13)</b>   | <b>(22.13)</b>     |        |

On a consolidated basis:

|                           | Basic EPS (in ₹) | Diluted EPS (in ₹) | Weight |
|---------------------------|------------------|--------------------|--------|
| Year Ended March 31, 2015 | (26.42)          | (26.42)            | 1      |
| Year Ended March 31, 2016 | (92.54)          | (92.54)            | 2      |
| Year Ended March 31, 2017 | (26.51)          | (26.51)            | 3      |
| <b>Weighted Average</b>   | <b>(48.51)</b>   | <b>(48.51)</b>     |        |

Notes:

- (1) The face value of each Equity Share is ₹10.
- (2) Basic and diluted earnings per share are computed in accordance with Accounting Standard 20 ‘Earnings per Share’ notified accounting standard by Companies (Accounting Standards) Rules, 2006 (as amended).
- (3) The above statement should be read with significant accounting policies and notes on Restated Financial Statements as appearing in the chapter “*Financial Statements*” on page 218.
- (4) Basic EPS (₹) is Net profit/(loss) after tax, as restated attributable to equity shareholders divided by Weighted average number of Equity Shares outstanding during the year
- (5) Diluted EPS (₹) is Net profit/(loss) after tax, as restated attributable to equity shareholders divided by Weighted

average number of diluted Equity Shares outstanding during the year

## 2. Price/Earning (“P/E”) ratio in relation to Price Band of ₹ [●] to ₹ [●] per Equity Share:

| Particulars                                                             | P/E at the lower end of Price Band (no. of times) | P/E at the higher end of Price band (no. of times) |
|-------------------------------------------------------------------------|---------------------------------------------------|----------------------------------------------------|
| Basic EPS - for the year ended March 31, 2017 on standalone basis       | NM                                                | NM                                                 |
| Basic EPS - for the year ended March 31, 2017 on a consolidated basis   | NM                                                | NM                                                 |
| Diluted EPS - for the year ended March 31, 2017 on standalone basis     | NM                                                | NM                                                 |
| Diluted EPS - for the year ended March 31, 2017 on a consolidated basis | NM                                                | NM                                                 |

NM – Not measurable, since EPS is negative

### Industry P/E ratio\*

(i) Highest: 11.60

(ii) Lowest: 11.60

(iii) Average: 11.60

\*Peer Group includes IRB Infrastructure Developers Limited, Sadbhav Infrastructure Project Limited and Ashoka Buildcon Limited. P/E Ratio has been computed based on the closing market price of equity shares on March 31, 2017, on www.bseindia.com, divided by the diluted EPS as on March 31, 2017 as disclosed in consolidated audited financials submitted by the respective entity with the stock exchange for the year ended March 31, 2017.

## 3. Average Return on Net Worth (“RoNW”)

As per Restated Standalone Financial Statements of our Company:

| Particulars             | RoNW** (%)     | Weight |
|-------------------------|----------------|--------|
| March 31, 2015          | NM*            | -      |
| March 31, 2016          | NM*            | -      |
| March 31, 2017          | (7.29)         | 1      |
| <b>Weighted Average</b> | <b>(7.29)#</b> |        |

\* NM – Not measurable, since both Restated Net Profit and Net worth are negative

\*\*RoNW is calculated as Net profit after tax (as restated) attributable to equity shareholders divided by net worth excluding preference share capital at the end of the year.

#Since we cannot calculate RoNW for Fiscal 2015 and Fiscal 2016, the weighted average RoNW will be same as RoNW for March 31, 2017.

As per Restated Consolidated Financial Statements of our Company:

| Particulars             | RoNW** (%)       | Weight |
|-------------------------|------------------|--------|
| March 31, 2015          | (443.99)         | 1      |
| March 31, 2016          | NM*              | -      |
| March 31, 2017          | (17.19)          | 2      |
| <b>Weighted Average</b> | <b>(159.46)#</b> |        |

\* NM – Not measurable, since both Restated Net Profit and Net worth are negative

\*\*RoNW is calculated as Net profit after tax (as restated) attributable to equity shareholders divided by net worth excluding preference share capital at the end of the year.

#Weighted average has been calculated considering RoNW for Fiscal 2015 and Fiscal 2017.

## 4. Minimum Return on Increased Net Worth after the Issue needed to maintain pre-Issue basic/diluted EPS for the year ended March 31, 2017:

| Particulars                              | At Floor Price | At Cap Price |
|------------------------------------------|----------------|--------------|
| <b>To maintain pre-Issue basic EPS</b>   |                |              |
| On standalone basis                      | NM             | NM           |
| On consolidated basis                    | NM             | NM           |
| <b>To maintain pre-Issue diluted EPS</b> |                |              |

| Particulars           | At Floor Price | At Cap Price |
|-----------------------|----------------|--------------|
| On standalone basis   | NM             | NM           |
| On consolidated basis | NM             | NM           |

NM – Not measurable, since EPS is negative

## 5. Net Asset Value per Equity Share of face value of ₹ 10.00 each

- Net asset value per equity share as on March 31, 2017 as per restated standalone financial statements is ₹ 77.17 and as per restated consolidated financial statements is ₹ 78.64.
- After the Issue on standalone basis:
  - At the Floor Price: ₹ [●]
  - At the Cap Price: ₹ [●]
- After the Issue on the consolidated basis:
  - At the Floor Price: ₹ [●]
  - At the Cap Price: ₹ [●]
- Issue Price: ₹ [●]

Note: Issue Price per equity share will be determined on conclusion of the book building process.

## 6. Comparison with Listed Industry Peers

| Name of Company                        | Latest Fiscal (on a consolidated basis) | Face Value (₹ per share) | EPS (₹ per share) |         | NAV (₹ per share)     | P/E                  | RONW (%)                |
|----------------------------------------|-----------------------------------------|--------------------------|-------------------|---------|-----------------------|----------------------|-------------------------|
|                                        |                                         |                          | Basic             | Diluted |                       |                      |                         |
| Bharat Road Network Limited            | Consolidated                            | 10.00                    | (26.51)           | (26.51) | 78.64                 | NM <sup>(1)</sup>    | (17.19)                 |

## STATEMENT OF TAX BENEFITS

**Date: 3<sup>rd</sup> Aug, 2017**

To,

The Board of Directors  
**Bharat Road Network Limited**  
Mirania Gardens, 10B/1,  
Topsia Road (East),  
Kolkata - 700 046,  
West Bengal, India.

Dear Sirs,

**Re: Proposed Initial public offering (Issue) of equity shares of ₹ 10/- each by Bharat Road Network Limited (Company)**

We, G. P. Agrawal & Co., the Statutory Auditor of the Company, hereby report that the enclosed statement is in connection with the possible special tax benefits available to (i) the Company (including its subsidiaries and associates) and, (ii) to the shareholders of the Company, under applicable tax laws presently in force in India including the Income Act, 1961 (**Act**), and the Central Goods and Services Tax Act, 2017, the Integrated Goods and Services Tax Act, 2017 and the applicable states' Goods and Services Tax Act.

Several of these benefits are dependent on the Company (including its subsidiaries and associates) or its shareholders fulfilling the conditions prescribed under the relevant statutory provisions. Hence, the ability of the Company (including its subsidiaries and associates) or its shareholders to derive the possible special tax benefits is dependent upon fulfilling such conditions, which, based on the business imperatives the Company (including its subsidiaries and associates) faces in the future, the Company may or may not choose or be able to fulfil.

The benefits discussed in the enclosed Annexure covers only special tax benefits available to the Company (including its subsidiaries and associates) and its shareholders and do not cover any general tax benefits available to the Company (including its subsidiaries and associates). Further, the benefits discussed in the enclosed statement are not exhaustive. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the Issue. We do not express any opinion or provide any assurance as to whether:

- (i) the Company (including its subsidiaries and associates) or its shareholders will continue to obtain these benefits in the future; or
- (ii) the conditions prescribed for availing of the benefits have been/would be met with.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

We hereby consent to the extracts of this certificate being used in the Red Herring Prospectus, the Prospectus and on the website of the Company in connection with the Issue.

This certificate may be relied on by Inga Capital Private Limited and Investec Capital Services (India) Private Limited and the legal advisors in relation to the Issue.

Yours sincerely,  
**For G. P. Agrawal & Co.**

## STATEMENT OF TAX BENEFITS

**STATEMENT OF POSSIBLE TAX BENEFITS AVAILABLE TO THE COMPANY (INCLUDING ITS SUBSIDIARIES AND ASSOCIATES) AND TO ITS SHAREHOLDERS UNDER INCOME TAX ACT, 1961 ('ACT') AND THE CENTRAL GOODS AND SERVICES TAX ACT, 2017, THE INTEGRATED GOODS AND SERVICES TAX ACT, 2017 AND THE APPLICABLE STATES' GOODS AND SERVICES TAX ACTS.**

### ***I. Special tax benefits available to the Company***

There are no special tax benefits available to the Company.

### ***II. Special tax benefits available to the subsidiaries and associates of the Company***

The following specific tax benefits are available to the under mentioned subsidiaries and associates of the Company after fulfilling conditions as per the respective provisions of the relevant tax laws.

#### **Income arising from the business of Infrastructure facilities**

As per the provisions of section 80-IA of the Act (under Chapter VI-A) of the Income Tax Act, 1961, following subsidiaries and associates of the Company, engaged in the business of developing or operating and maintaining or developing, operating and maintaining an infrastructure facility, are eligible for a deduction of 100 percent of its profits and gains from such business for a period of 10 consecutive years, subject to fulfilment of the conditions stipulated therein.

#### **Subsidiaries:**

1. Solapur Tollways Private Limited

#### **Associates:**

1. Kurukshetra Expressway Private Limited;
2. Ghaziabad Aligarh Expressway Private Limited;
3. Shree Jagannath Expressways Private Limited;
4. Mahakaleshwar Tollways Private Limited; and
5. Guruvayoor Infrastructure Private Limited.

The aforementioned subsidiaries and associates of the Company are eligible to claim the deduction subject to satisfaction of certain conditions as laid down under section 80-IA of the Act for a period of any 10 consecutive assessment years out of 20 years from the year in which they develops and begins to operate the infrastructure facility.

In view of the above provisions of the Act, certain agreement entered by subsidiaries and associates of the Company for operating and maintaining or developing, operating and maintaining an infrastructure facility are eligible to claim deduction under section 80-IA of the Income Tax Act, 1961 as both the subsidiaries and associates have fulfilled all the following conditions required to be eligible to claim deduction under section 80IA.

- (i) It must be owned by:
  - a. an Indian company or a consortium of such companies or
  - b. an authority or a board or a corporation or any other body established or constituted under any Central or State Act.

- (ii) There should be an agreement with any Government or a local authority or statutory body for developing (etc.) a new infrastructure facility.
- (iii) It starts operating and maintaining such infrastructure facility on or after 1-4-1995.

However, the aforesaid deduction is not available while computing tax liability of the Company under section 115JB of the Act i.e. Minimum Alternative Tax (**MAT**) provisions. Nonetheless, such MAT paid/ payable on the book profits of the Company computed in terms of the provisions of Act would be eligible for credit against tax liability arising under normal provisions of the Act.

Further, such credit would not be allowed to be carried forward and set off beyond 10th assessment year immediately succeeding the assessment year in which such credit becomes allowable.

### ***III. Special tax benefits available to the Shareholders***

There are no special tax benefits available to the Shareholders of the Company.

#### **Notes:**

1. All the above benefits are as per the Current Tax Laws and any change or amendment in the laws/regulation, which when implemented would impact the same.
2. The special tax benefits are subject to several conditions and eligibility criteria which need to be examined for precise tax implications.

## SECTION V: ABOUT THE COMPANY

### 3. Overview of macroeconomic scenario in India

#### 3.1. Review and outlook on GDP growth in India

##### New series (from 2011- 12 onwards)

India adopted a new base year (2011-12) for calculating GDP based on which, absolute GDP shot up from ₹ 87 trillion in 2011-12 to ₹ 114 trillion in 2015-16 or a CAGR of 7.0%. In 2015-16, growth was 7.6%, well above the world average of 3.1%.

##### Real GDP growth in India (new GDP series)

Source: Central Statistics Office (CSO), CRISIL Research

India’s GDP registered some pick up in the second quarter of the current fiscal. According to latest data, real GDP growth in the second quarter, or July-September 2016, was 7.3%, up from 7.1% in the first quarter, or April-June. As anticipated, this year’s normal and well-distributed monsoon gave a fillip to the agricultural sector, where growth shot up to 3.3% in the second quarter, compared with 2% in the same period of fiscal 2016.

### Real GDP growth (% y-o-y)

Source: CSO (Central Statistical Organisation), CRISIL Research

GDP growth in the first half of fiscal 2017 was 7.2% compared with 7.5% in the same period of fiscal 2016. After demonetisation, we expect it to be reasonably lower in the second half.

From 2000-01, FDI inflows in India have grown at a rapid pace of around 20% CAGR to reach \$40 billion in 2015-16 from \$2.5 billion in 2000-01. The pace of growth was even faster from 2000-01 to 2008-09 (CAGR of ~38%) but the global slowdown affected investments in 2009-10 and 2010-11. However, since then, the growth in FDI has picked up again.

### FDI Inflows to India (\$ billion)

Source: DIPP, CRISIL Research

According to the quarterly fact sheet on Foreign Direct Investment (FDI) prepared by the Department of Industrial Policy and Promotion (DIPP) up to the September quarter of 2016-17, Mauritius is the leader in cumulative FDI inflow over the period of April 2000 to September 2016 with a share of 33% followed by Singapore (16%), United Kingdom (8%), Japan (8%), USA (6%) and Netherlands (6%).

The services sector accounted for 18% of the cumulative FDI inflow over April 2000 to September 2016, followed by construction development (8%), computer software and hardware (7%), telecommunications (7%) and automobiles (5%). Construction (Infrastructure) activities sector was 12<sup>th</sup> on the list with a share of 2.87% over the same period.

Mumbai accounted for 30% of the cumulative FDI inflow over April 2000 to September 2016, followed by New Delhi (21%), Chennai (7%), Bangalore (7%) and Ahmedabad (4%).

CRISIL Research believes the pain in the economy from tardy infusion of new banknotes has curtailed demand. The impact of this on growth and inflation will be seen for the rest of this fiscal. That said, our GDP growth forecast for fiscal 2017 stands at 6.9%. We believe inflation will also print lower at 4.7% creating room for a 25

bps repo rate cut by the Reserve Bank of India (RBI) this fiscal. Also, rural areas, which have a higher share of cash transactions, could see a sharper fall in inflation compared with urban areas.

#### Inflation (Base Year 2004-05) (Y-o-Y %)

|      | Wholesale Price Index (WPI) | Composition                          |                                                        |                                            |

## 4. Overview infrastructure Sector in India

### Overview of investments

Major infrastructure development requires substantial capital investment. The policies of the Indian government April 2000 to September 2015 stood at \$4,423.46 million according to the Department of Industrial Policy and Promotion (DIPP). The government has introduced significant policy reforms to augment FDI inflows, to further boost investments and enhance infrastructure. The infrastructure industry includes roads, power, railways, urban infrastructure and others. The road sector is the key contributor to overall investments in the infrastructure industry.

Source: CRISIL Research

In the Eleventh Five-Year Plan period (2007-08 to 2011-12), actual investments in the infrastructure sector reached ₹ 27.3 trillion, driven by GoI's thrust on improving domestic infrastructure.

According to the second report of the High Level Committee on Financing Infrastructure, the construction spend on infrastructure projects is expected to amount to ₹ 30.93 trillion over 2012-17, up from ₹ 10.3 trillion (likely investments till 2013-14), with 39% contribution by the private sector and 61% by the central and state governments. Within infrastructure, electricity is estimated to be the largest contributor, followed by roads and railways.

#### Construction spends (₹ trillion) in key infrastructure segments (Eleventh and Twelfth Five-Year Plans)

\*Others include irrigation, water supply and sanitation, storage, oil and gas pipelines

Source: High-level Committee on Financing Infrastructure (Second Report, June 2014), CRISIL Research

**Roads:** Investments in roads in the Eleventh Five-Year Plan were ₹ 5.3 trillion, accounting for about 19% of overall infrastructure investments in the same period. Investments were largely driven by the government's thrust on the sector via encouragement of public private partnerships (PPPs), speedy implementation of National Highways Development Project (NHDP) and recent changes in the policy environment. The continued thrust on improving rural and state road network by the various state governments has supported this growth. Investments in roads is expected to increase to ₹ 5.8 trillion in the Twelfth Five-Year Plan, as against ₹ 5.3 trillion (actual) in the Eleventh Five-Year Plan (marking a 11% increase).

## Five Year planned investments in road sector

| (₹ Billion)  | Centre      | Roads & Bridges State | Private     | Total       |

## Growth drivers in infrastructure investments

Economic growth, increasing government thrust, preference of road in freight traffic, spurt in private participation and surge in passenger traffic and vehicle density are key growth drivers for infrastructure investments.

### Economic growth

Freight traffic growth is a function of economic activity which further necessitates road development. Freight traffic in billion net tonne km (BTKM) is set to surge 6-8% in 2016-17, a substantial increase from the 4.3% rise seen in 2015-16, due to higher growth in industrial and agricultural GDP. Industrial GDP in H1 FY17 was estimated to be 5.59%, as against an estimated growth of 6.5% in H1 FY16.

Roads continue to dominate freight traffic with their share in overall freight movement rising steadily to 65.1% in 2015-16, from 58.2% in 2009-10, due to capacity constraints in railways and healthy growth in non-bulk traffic.

### Moderate growth in overall freight demand (in BTKM)

Source: CRISIL Research

### Road freight traffic gaining preference

Capacity constraints of the railways has led to the share of roads in the primary freight pie increasing from an estimated 58.2% (in BTKM) in 2009-10 to around 65.1% in 2015-16. The positive trajectory is expected to continue from 2015-16 to 2020-21, with road freight logging 7-9% CAGR growth to about 2,450 BTKM from an estimated 1,700 BTKM in 2015-16.

Growth in road freight traffic will be largely driven by increased non-bulk traffic and development of road infrastructure. Roads remain the preferred mode of transport for non-bulk traffic and we expect its share in total road primary BTKM to surge to 77.5% by 2020-21, from 74.3% currently.

### Share of roads in total freight movement (BTKM terms)

E: Estimates P: Projected

Source: CRISIL Research

### E-commerce logistics is a growth driver for road freight

CRISIL Research expects the e-commerce industry to grow at an estimated 40-44% CAGR during 2014-15 to 2017-18, to reach close to ₹ 2.5 trillion. Growth is expected to be driven by segments such as the online marketplace, where players will continue to offer huge discounts and deals and will innovate to attract customers. Further, rising penetration of the internet, increasing use of smart phones (with mobile apps) and increasing consumer awareness should support the growth story. As the industry grows, players are looking to develop local ecosystems to serve demand across India. As these local ecosystems develop, lead distances can reduce and freight traffic can shift from air freight to roads gradually.

### Vehicular growth picked in 2015-16, long term projects looks healthy

Domestic passenger car sales increased from 1.97 million units in 2010-11 to 2.03 million units in 2015-16 at a CAGR of 0.5%. From 2.03 million units in 2010-11, domestic passenger car sales shrank at a CAGR of 3.9% to 1.9 million in 2014-15. However, it shot up 7.9%, in 2015-16, primarily due to faster economic growth, lower fuel prices and improvement in consumer sentiments (driven by rising affordability and competitively priced launches).

In contrast, commercial vehicle sales shrank 8.8% CAGR from 2011-12 to 2014-15. However, in 2015-16, commercial vehicle sales shot up 11.2%.

Note: Commercial vehicles include goods vehicle and passenger but excludes three wheeler

## Several new trends seen in roads sector

**Slowing progress in road construction:** The length of roads constructed has decreased at a CAGR of 3%, from 1,784 km in 2010-11 to 1,576 km in 2014-15 (from around 500 km under NHDP in 2001). However, in 2015-16, total road constructed/upgraded shot up to 2,196 km.

**Improving awarding momentum:** Government is focusing to improve awarding and with the introduction of HAM, a significant share of awarding has been under HAM and it is expected to improve further in coming years.

**Increasing participation of private equity funds:** Private equity has contributed to road projects in the past. Going ahead, private equity investment can further pick up, following the recent announcements of exit policy for debt-stressed operators for toll roads.

**Re-emergence of EPC contracts:** Given the current financial crunch being faced by build-operate-transfer (BOT) players, over the next five years, we expect the share of engineering, procurement, construction (EPC)/ cash contract projects to widen, especially in low-traffic-volume projects under NHDP-Phase IV.

**Other sector-favourable policies:** 100% exit policy for stressed BOT players, providing for 'secured' status for PPP projects while lending, proposal to scrap slow moving highway projects (under consideration) etc.

**HAM :** The hybrid annuity model has now gathered pace and hence is likely to improve private participation in the sector. The model has been successful in bringing a new set of players to the private space by mitigating risks related to traffic, interest rate and inflation, and by requiring a smaller equity commitment (only 12-15% of project cost).

**TOT:** The Toll, Operate and Transfer (TOT) model is a new PPP model under consideration by NHAI to spur private participation in the roads sector.

**OMT:** Apart from NHAI, operate, maintain, transfer (OMT) models have also been adopted by a few large Indian states, where state road development authorities have invited bids / awarded state highway stretches to be operated and maintained on OMT basis.

**ETC lane:** Electronic Toll Collection enables road users to pay highway tolls electronically without stopping at the toll plazas. Dedicated ETC lane will help in reducing congestion at the toll plazas and enable seamless movement of vehicles on the national highways. The Ministry has decided to roll out ETC programme in the country under the brand name 'FASTag'

## iv. Outlook on planned investment in roads in Smart Cities

The government introduced the Smart Cities Mission in June 2015 for the development of 100 smart cities over five years (2016-17 onwards) to meet the infrastructure and services expectations of citizens.

### Current status

The smart cities mission has progressed quickly and under it 100 cities have been selected to be developed as smart cities. Of these 100, 33 cities have been selected to be funded from 2016-2017 onwards and they will start implementing their smart city proposals from 2016-17. In the second round of the contracts awarding Stage II, another 27 cities will be selected for funding from 2017-18 and another 40 will be funded from 2018-19 onwards.

About ₹ 335 billion is expected to translate into construction opportunity in the top 33 smart cities. Approximately, 87% of the spends will be spread across four categories - housing, non-residential complexes, water supply and sanitation and, roads and transport facilities.

### Break-up of construction spends in top 33 smart cities

Source: CRISIL Research

### Status of the Smart Cities Mission

In January 2016, the government announced 20 winners of the Smart City challenge competition, for financing during this financial year. Three cities from Madhya Pradesh, two each from Andhra Pradesh, Karnataka, Tamil Nadu, Gujarat, Maharashtra and Rajasthan, one each from Odisha, Kerala, Assam and Punjab, and the New Delhi Municipal Council made it to the winning list.

The winning cities and towns have proposed a total investment of ₹ 508.02 billion over five years, with all the cities proposing public-private partnership as a major vehicle of resource mobilisation; 10 of the 20 cities have indicated ability to raise ₹ 85.2 billion via the PPP route. The cities have identified 26,735 acres for smart city interventions.

Since then, 13 cities were selected for the mission under the fast track round and another 27 cities were selected in September 2016 taking the total number of cities under the mission to 60.

### List of cities

#### v. Impact on 'Make in India' initiative on roads sector

Launched in September 2014, Make in India campaign covers 25 major sectors in the economy including roads and highways. The 'Make in India' initiatives such as encouraging multinational companies (MNCs) to manufacture products in India, steps taken for ease of doing business and FDI reforms is expected to benefit roads sector in terms of higher traffic movement.

#### Encourage MNCs and domestic companies to manufacture products in India

MNCs and domestic companies setting up manufacturing plants in India will facilitate higher road traffic in terms of both passenger and freight. Post announcement of Make in India campaign, the government received several proposals from multinational companies interested in manufacturing electronics in India. For instance, Xiaomi, a Chinese mobile phone maker partnered with Foxconn in August 2015 to manufacture smartphones in India, the factory is based in Andhra Pradesh. Few weeks later, Lenovo, a Chinese computer and mobile phone maker announced that it would commence manufacturing smartphones in India at Chennai plant.

#### vi. Review of road infrastructure in India

##### Road sector contribution to Indian GDP

As of FY 2014-15, road transport sector's share to Indian GDP among other sectors is 3.20%, which is 5 basis points lower than the share in FY 2013-14.

| GVA Share (%)  | 2011-12 | 2012-13 | 2013-14 | 2014-15 |
|----------------|---------|---------|---------|---------|
| Road Transport | 3.24%   | 3.26%   | 3.25%   | 3.20%   |

Source: MOSPI, CRISIL Research

#### Total length, and break-up by national, state and rural

India has the second largest road network in the world, aggregating 5.2 million km. Roads are the most common mode of transportation and account for about 86% of passenger traffic and close to 65% of freight traffic.

In India, national highways, with a length of close to 100,475 km, constitute a mere 2% of the road network but carry about 40% of the total road traffic. On the other hand, state roads and major district roads are the secondary system of roads; they carry another 60% of traffic and account for 98% of road length.

In the decreasing order of the volume of traffic movement, road network in India can be divided into the following categories:

#### Road network in India as in 2015-16

| Road network     | Length (km)      | Percentage of total |              | Connectivity to                                                                                       |
|------------------|------------------|---------------------|--------------|-------------------------------------------------------------------------------------------------------|
|                  |                  | Length              | Traffic      |                                                                                                       |
| National highway | 100,475          | 2.0                 | 40.0         | Union capital, state capitals, major ports, foreign highways                                          |
| State highway    | 148,256          | 3.0                 | 60.0         | Major centres within the states, national highways                                                    |
| Other roads      | 4,983,579        | 95.0                |              | Major and other district roads, Rural roads - Production centres, Markets, Highways, Railway stations |
| <b>Total</b>     | <b>5,232,310</b> | <b>100.0</b>        | <b>100.0</b> |                                                                                                       |

Source: CRISIL Research

#### National highways

National highways (NHs) constitute around 2% of the country's road network, but carry about 40% of the total road traffic. The National Highways Authority of India (NHAI), the nodal agency under the Ministry of Road Transport & Highways (MoRTH), is responsible for building, maintaining and upgrading NHs. In order to develop the NH network, NHAI launched the National Highways Development Programme (NHDP) in December 2000.

#### National highways network

Source: MoRTH

Note: Year represents Financial Year

#### State roads

State roads constitute around 18% of the country's total road network, handling about 40% of the total road traffic. State roads comprise state highways (SHs), major district roads (MDRs), other district roads (ODRs) and rural roads - which do not come under the purview of the Pradhan Mantri Gram Sadak Yojana (PMGSY). State roads represent the secondary system of road transportation in the country. They provide linkages with national highways, district headquarters of the state and important towns, tourist centres and minor ports.

#### Rural roads

Rural roads, connect rural habitations as well as state and national highways. Of India's 4.8 million km road network, rural roads account for around 3.7 million km (80%).

## Key growth drivers for road sector

### Rise in investments, reforms and higher budgetary support to drive growth in roads sector

CRISIL Research expects investment in road projects to double to ₹ 9.8 trillion over the next five years. Investment in state roads is expected to grow steadily, and rise at a faster pace in rural roads owing to higher budgetary allocation to the PMGSY since 2015-16.

Execution of national highway projects has seen a good pick-up since 2015-16, aided by policy reforms, after having slowed down in the previous two fiscals. Higher budgetary support to fund engineering, processing and construction (EPC) projects will also drive investment in national highways, which have recently seen a significant drop in private interest.

### Policy changes to drive execution of national highway projects

Execution of national highway projects declined in the past two years owing to delays in land acquisition and clearances, and private developers' weak financials. To clear the logjam, NHAI terminated projects -- work on about 5,500 km of length was stalled. To put execution back on track, the agency has also re-awarded almost 1,000 km of the terminated projects. Moreover, in the past year and a half, the government announced a host of policy changes to reduce delays in project execution.

To offer some respite to ailing developers, the government came out with a premium rescheduling policy and allowed promoters to fully exit all projects two years after completion. The Union Cabinet has also allowed NHAI to fund projects stuck owing to the weak financial health of promoters and where at least 50% of the work has been completed. The new amendments to the model concession agreement such as back-ending of premium payments and deemed termination on delay of appointed date, have also brought many changes which will reduce delay and improve lender comfort. The new HAM should encourage private participation with limited risk to the developer.

Hence, the government's focus has clearly shifted towards ensuring on-the-ground implementation, instead of merely awarding more projects.

### New Initiatives to drive growth in state road network

New initiatives have been taken by the government to build state roads. Road Requirement Plan-I (RRP-I) for Left Wing Extremism (LWE) affected areas and Special Accelerated Road Development Programme for North-Eastern region (SARDP- NE) are some of the projects which are going in full swing to cover the state roads. Apart from these projects the Bharat Mala programme has also been proposed to build new state roads. For details on these projects, see section 2F.

### Healthy economic growth to push road development

With the economy expected to grow at a healthy pace, per capita income is set to improve pushing the number of two- wheelers and passenger vehicles in the country. Initiatives like 'Make in India' and GST is also expected to add to the road freight traffic in the country (for details, refer section 5J and 5K). The rise in two-wheeler and four-wheeler vehicles, increasing freight traffic, strong trade and tourist flows between states are all set to augment road development in the country. All segments of roads i.e. National Highways, state roads and rural roads are expected to benefit from the growing economy of the country.

### Increased private participation to boost road development

The changes done by the government to put in place appropriate policy, institutional and regulatory mechanisms including a set of fiscal and financial incentives are expected to encourage further private participation in future, which will boost all segments of roads in the country, be it, National Highways, state roads or rural roads.

### Important changes to the MCA (September 2015) and their impact

| Amendment        | Previous Clause                                       | Current Clause                                                                                                             | Impact                                                       |

### Key initiatives and overview on HAM

MORTH released the standard concession agreement and request for proposal for the much-awaited HAM for private-public partnerships in road construction in June 2016. HAM is a mix of engineering, procurement and construction (EPC) and BOT (annuity) model.

The broad contours of the policy are:

- 40 per cent of total project cost to be funded by the government and the remaining by the developer.
- The project cost will be linked to inflation
- The 'Construction Support' is to be disbursed in five equal instalments of 8% each and the timing of each such payment shall be linked to percentage of project cost spent by the concessionaire.
- Traffic risk will be borne by the government with developers receiving fixed annuities
- Annuities will be linked to bank rate plus 3%

Hybrid-annuity model to boost private investments in national highways in next 5 years

We expect the hybrid-annuity model to gradually increase private participation in the roads sector, which declined significantly in the past 2-3 years.

Boosted by the model, we expect project awards by NHAI to inch up to 3,953 km in 2015-16 compared with 3,091 km in 2014-15. Of the total projects awarded in 2015-16, we expect about 900 km to be through HAM in 2015-16, which will push up private participation in national highway projects to 35-38% in 2015-16, and to 40-42% in 2016-17. That will be significantly higher than about 25% private participation seen in 2014-15.

But BOT project typically commence construction about a year after award. Hence, we expect to see a significant

surge in execution through the hybrid annuity mode only from 2017-18. Accordingly, NHAI project execution is expected to gather steam from that fiscal to touch about 3,900 km from less than half that – or about 1,700 km – seen in 2014-15. The share of private investments in national highways is also expected to move up to 50% by 2019-20, after dropping to 47 % in 2015-16 from 70% in 2010-11.

### **Key budget announcements for roads sector**

The Union Budget 2016-17 has announced a significant increase in allocation of funds to the roads segment. While investments in national highways have been increased by 49% y-o-y, investment in the PMGSY scheme has been increased by 26% y-o-y.

#### **Impact factors:**

- A. The Union Budget has proposed a 49% on-year rise in investments for development of national highways to ₹ 1.03 trillion. Of this, ₹ 440 billion is the budgetary support, while the rest is from the internal and extra budgetary resources. This would support continued rise in public investments for highway execution.
- B. Allocation to the PMGSY has been increased substantially by 26% on-year to ₹ 190 billion aiding execution of rural roads.
- C. The Budget provides clarity on dividend distribution tax for infrastructure investment trusts or InvITs, stating that it will not be applicable on distribution made from SPVs to InvITs. This would enhance investor confidence.
- D. Three new initiatives were introduced to boost private participation:
  - i. A public utility Bill will be introduced during FY17 to streamline institutional arrangements for resolution of disputes in infrastructure-related construction contracts, PPP and public utility contracts
  - ii. Guidelines for renegotiation of PPP concession agreements will be issued keeping in view the long-term nature of such contracts and potential uncertainties of the real economy
  - iii. A new credit rating system for infrastructure projects which gives emphasis to various in-built credit enhancement structures will be developed
- E. Countervailing duty of 12.5% has been availed on specified machinery required for construction of roads. This would increase capital spending cost for players who import such machinery.

### **Impact of Land Bill Amendment on national highways**

The Right to Fair Compensation and Transparency in Land Acquisition, Rehabilitation and Resettlement (Second Amendment) Bill, 2015 passed by the government in May 2015 exempted the infrastructure sector from the requirements of - (I) social impact assessment, (II) restrictions on acquisition of multi-cropped land, and (III) consent for private projects and public private partnerships (PPPs) projects, while acquiring land.

However, with the increased cost of acquiring land, there would be following impact on the highway projects:

- Maximum impact on NHAI phase VI projects (greenfield expressways)
- Since land is acquired as well as land costs are borne by NHAI, it will mainly impact NHAI in terms of costs
- While NHs are still not under the purview of the 'Land Act', higher compensation by competing projects will increase expectations of land owners, indirectly pushing up land cost for NHAI. This is also likely to push up time required to acquire land leading to higher time overruns
- Higher time overruns will also impact developer returns wherever land has not been acquired

For NHAI, costs to increase, however, funding is not a big concern

- Land cost accounts for about 8-10% of total project costs
- CRISIL Research expects project costs to increase by 12-15 per cent post the implementation of the 'Land Act'
- NHAI can fund this incremental requirement through additional borrowings

### **vii. Review and outlook on national highways and NHDP**

## Review of investments in NHAI projects

NHAI awards projects under different modes - EPC, build-operate-transfer, or BOT, and the recently introduced HAM. In the last two years, BOT projects have lost out to EPC projects because the latter requires limited upfront capital and involves lower risk.

Since 2013-14, cash contracts have dominated NHAI awarding as a result of low appetite of road players for BOT projects.

To boost private participation further, the government introduced HAM in 2015-16, wherein 40% of the total project cost is to be funded by the government and the remaining by the private developer. The equity requirement in these projects is only about 12-15% of the project cost, which is much lower than a BOT project, and the developer is immune to traffic, inflation and interest rate risk. In 2015-16, this model took off at a rather slower-than-expected pace and only about 350 km were awarded mostly due to the apprehensions of various stakeholders towards a new, untested model. However, the participation of players in these projects improved significantly towards the end of 2015-16. In 2016-17, almost half of the projects are expected to be awarded on HAM.

### NHAI awarding trend: Significant change in last few years

P: projected

Source: NHAI, CRISIL Research

Between 2016-17 and 2020-21, CRISIL Research expects an investment of ₹ 3.8 trillion, up 3.2 times in the next five years compared with the past five years. Notably, the government will account for more than half of the investments against 44% in the previous five years. We believe that in the medium term with EPC and HAM execution being dominant, funding needs for agencies like NHAI will rise substantially.

#### i. Year-wise break-up of total length awarded (over last 4-5 years)

The NHAI awarded projects of close to 4,200 km in 2015-16, a rise of 40% on-year. We expect awarding to improve further and reach 5,100 km in 2016-17 because of improved participation in HAM and BOT projects as new players enter this space. However, EPC will continue to dominate and grow as budgetary allocations to NHAI go up in 2016-17.

As per a recent press release by the Ministry of Road Transport and Highways, the awarding target for NHAI is set at 15,000 km for 2016-17. We believe this is not plausible as many of the projects proposed to be awarded this year are at a very nascent stage in terms of preparation of Detailed Project Reports (DPR), land acquisition and obtaining other clearances.

We expect momentum in the highways sector to build up owing to: a) Completion of the remaining length of the National Highway Development Programme (NHDP) programme, b) new projects such as Bharat Mala, c) upgradation of state highways to national highways, d) four laning of NH, and e) PMGSY.

## NHAI awarding

### ii. Lane upgradation of National Highways over the past 4-5 years

There has been an upgradation in terms of lanes in national highways, which has gone from being single lane and double lane to four lanes. Single lane roads decreased from 30% in 2008-09 to 24% in 2012-13. Double-lane roads reduced from 53% in 2008-09 to 51% in 2012-13, while four-lane roads have increased from 17% to 24%.

#### Percentage of national highways in terms of width

| Width of carriageway    | National Highways length (2010-11) |              | National Highways length (2011-12) |              | National Highways length (2012-13) |              | National Highways length (2015-16) * |              |
|-------------------------|------------------------------------|--------------|------------------------------------|--------------|------------------------------------|--------------|--------------------------------------|--------------|

### iii. Outlook on national highways – construction/upgrade (2015-16 to 2020-21)

Execution of NHAI projects declined for the second consecutive year in 2014-15 by 11% to 1,691 km, in line with our expectations. This was because the project pipeline fell to a five-year low of about 10,181 km (as of October 2014), as the NHAI terminated at least 32 projects of total 4,190 km.

Construction of BOT projects usually begins 8-12 months after being awarded. In the current scenario, the time lag is much longer as players take more time for financial closure. On the other hand, construction of EPC projects can start within 2-4 months. About 70% of projects have been awarded under the EPC mode since 2013-14 and this will support execution over the next 2-3 years. Additionally, new players entering the BOT and HAM space, and pick-up of stalled projects will maintain the pace of execution. Also, new projects such as Bharat Mala and state highways being notified as national highways will support execution in the last two years of the five-year period.

#### Execution of national highways through NHAI: Total length constructed/ upgraded

P: projected

#### iv. Projected investments in national highways over 2016-17 to 2020-21

##### Investment in national highways

Source: CRISIL Research

#### v. Estimated investment break-up between EPC and BOT projects for national highways (2016-17 to 2020-21)

EPC space remains highly competitive, BOT projects find few takers

Contrary to HAM, the EPC space remains highly competitive with an average of 15-16 bids per project, and most projects being awarded in line or below the benchmark cost. Inability of the players to infuse equity in BOT projects has led to a higher participation in EPC projects.

Competition in BOT projects has narrowed significantly over the past two years. As against 2011-12, when there were 25-30 bidders for most projects, currently there are only six-seven bidders. With competition remaining moderate, we do not expect bidding to be aggressive and irrational as in the past. As a result, we believe the expected returns for most projects bid in 2013-14 and 2014-15 to be higher by 200-300 basis points (bps) than the projects bid three years ago.

##### Share of estimated investment of EPC and BOT projects for national highways (2016-17 to 2020-21)

Source: CRISIL Research

Execution share through BOT projects during 2016-17 to 2020-21 is estimated to be the highest compared to EPC and HAM, as major execution of BOT awarding from the past will get converted into on ground execution during that period. On the other hand, execution share through HAM projects is the least, as HAM got introduced only in 2015-16.

#### vi. Key factors driving investment growth in national highways

CRISIL Research expects investment in road projects to grow at a healthy pace during the next five years, led by the government's focus on infrastructure-related sectors. Investment would largely be driven by expenditure on national highways and rural roads as a result of greater budgetary support. However, the current targets set for the sector may be too optimistic, even with the increase in the budget allocation.

#### Share of investment across road categories

Source: CRISIL Research

The revival, which began with the National Highways Authority of India (NHAI) awarding 3,091 km of highway projects in 2014-15, almost double the 1,522 km awarded in the preceding year, carried through into 2015-16, with awarding by NHAI rising 40% on-year. Non-NHAI projects awarded by various other departments of the Ministry of Road Transport and Highways also rose substantially in 2015-16. Notably, **the government will account for more than half of the investments against 44% in the previous five years.**

**To boost private participation further, the government introduced HAM** in 2015-16, wherein 40% of the total project cost is to be funded by the government and the remaining by the private developer. The equity requirement in these projects is only about 12-15% of the project cost, which is much lower than a BOT project, and the developer is immune to traffic, inflation and interest rate risk. In 2015-16, this model took off at a rather slower-than-expected pace and only about 350 km were awarded mostly due to the apprehensions of various stakeholders towards a new, untested model. However, the participation of players in these projects improved significantly towards the end of 2015-16. In 2016-17, almost half of the projects are expected to be awarded on HAM.

Private investment in national highways is likely to be lower than in the past five years, as most developers struggle with weak financials and are, therefore, unable to bid for build-operate-transfer (BOT) projects. Hence, almost

70% of the projects awarded by the government in the previous three fiscal years were in the EPC mode. Balance-sheet stress remains high among many players and a few may not participate in future opportunities, given that many major road players are now going through strategic debt restructuring. Some of the options for a gradual uptick in private road participation are **InVIT and National Investment and Infrastructure Fund (NIIF)**, which are yet to evolve.

## National Highway Development Programme (NHDP)

### Current status and overview

NHDP encompasses building, upgradation, rehabilitation and broadening of existing national highways. The programme is executed by NHAI in coordination with the public works department (PWD) of various states. NHAI also collaborates with BRO for development of certain stretches. NHDP is being implemented in seven phases:

### NHDP phases

| Phases |                                               | Description                                                                  | Implementing agencies |
|--------|-----------------------------------------------|------------------------------------------------------------------------------|-----------------------|
| I      | Golden Quadrilateral                          | Connecting Delhi-Kolkata Chennai                                             | NHAI                  |
|        | Port connectivity                             | Connectivity for 10 major ports                                              | NHAI                  |
|        | Others                                        | -                                                                            | NHAI                  |
| II     | North-South & East-West (NSEW) corridor       | Srinagar to Kanyakumari- (North South) and Silchar to Porbander- (East-West) | NHAI                  |
| III    | Phase                                         | Connecting state capitals and places of economic and tourist importance      | NHAI                  |
| IV     | Improve 2-lane standards with paved shoulders | -                                                                            | NHAI, MoRTH           |
| V      | 6-laning of existing national highways        | Phase involves 6,500 km stretch under GQ                                     | NHAI                  |
| VI     | Expressways                                   | -                                                                            | NHAI                  |
| VII    | Ring roads                                    | -                                                                            | NHAI                  |

Source: CRISIL Research

Execution of NHDP projects increased to 5.6 km per day in July 2016 compared to 3.2 in September 2014. As of July, 2016, around 53% of 46,200 km roads under NHDP has been completed. The total cost incurred amounted to ₹ 2,245 billion (as on October 31, 2014). About 20% of the total length is under construction/ upgradation and the rest is yet to be awarded.

|                                             | Unit      | GQ    | NS&EW<br>Phase I & II | Phase<br>III | Phase<br>IV | Phase<br>V | Phase<br>VI | Phase<br>VII | Total  |

Note: 1) Data is available till July 31st on the NHAI website.

2) Phase IV total length is 20,000 km. However total length under NHAI is 13,203 km.

### viii. Review and outlook of state roads

#### Review of investments, 2010-11 to 2015-16

State roads (which include highways, major district roads and rural roads that do not come under the purview of the PMGSY) constitute over 20% of the country's total road network and handle about 40% of road traffic. They play an important role in economic development of mid-sized towns and rural areas, and aid industrial development by enabling movement of raw materials and products to and from the hinterland.

Over the past few years, many state governments, such as Uttar Pradesh, Gujarat, Maharashtra, Tamil Nadu, etc. have allocated a significant portion of their budgets for developing roads; during this period, the contribution from the Centre to state roads through the central road fund has remained more or less constant. Currently, 12-15% of the total investment in state road projects happens through the PPP route.

During 2010-11 to 2015-16, a total investment of ₹ 2.8 trillion has been made.

#### State roads: Overall investments

Note: State road includes state highways and other district roads

Source: CRISIL Research

#### Projected investments in state roads, 2016-17 to 2020-21

In recent years, state governments have allocated a significant portion of the budgets for developing roads. Between 2016-17 and 2020-21, the total investment in state roads, during this period, is expected to be ₹ 4.4 trillion. We expect private participation in state road projects to remain steady in future. Gujarat, Madhya Pradesh, Maharashtra, and Rajasthan are expected to lead the way in implementing state highway projects through the PPP route.

#### Key infrastructure development plans in the states in which our BOT projects are located

##### HARYANA

##### Economic overview

The GSDP of Haryana is estimated at ₹ 3.6 trillion (2011-12 series; constant price) for 2014-15 compared to ₹ 3.4 trillion (2011-12 series) in 2013-14, showing a growth of 8%. In 2014-15, according to 2011-12 series, India's GDP growth stood at 7.2%. The state's GSDP grew at a CAGR of 6.8% in the period from 2011-12 to 2014-15, equal to India's growth rate.

### Historic 5-year trend in the number of registered motor vehicles for Haryana

Above data is as per latest publicly available information on the Ministry of Road Transport and Highways website as on November, 2016.

Source: MORTH, CRISIL Research

Freight vehicles such as trucks, light motor vehicles, tractors and trailers, etc. grew by 6% annually from 1.06 million vehicles in 2013-14 to 1.12 million vehicles in 2014-15. On the other hand, as per capita incomes have grown, passenger vehicles such as buses, taxis, cars, jeeps, two wheelers, etc. posted a growth of 10-11% annually between 2013-14 and 2014-15 and grew from 6.18 million vehicles to 6.81 million vehicles during the same period.

|                    | 2013-14 | 2014-15 | Y-o-Y |
|--------------------|---------|---------|-------|
| Passenger Vehicles | 6.18    | 6.81    | 10.1% |
| Freight Vehicles   | 1.06    | 1.12    | 6.0%  |

The length of road network in the state of Haryana is 46,287 km, out of which, following is the network split in terms of national vs state vs rural roads:

### Road network split (in km) as on 31st March 2015

|                  | Length (km) | Share (%)     |
|------------------|-------------|---------------|
| National Highway | 2,307       | 5%            |
| State Highway    | 2,128       | 5%            |
| Rural Roads      | 6,974       | 15%           |
| Other Roads      | 34,878      | 75%           |
| <b>Total</b>     |             | <b>46,287</b> |

Above data is as per latest publicly available information on the MORTH website as on November, 2016.

On its way it connects the cities of Moga, Sangrur and Rohtak. There is an overlap of NH-71 with NH-64 from Sangrur to Barnala.</p> <p>The study corridor passes through the districts of Rohtak, Jhajjar and Rewari with the major towns connected being Jhajjar and Rewari.</p> |

**Overview of key infrastructure development plans for cities/districts within the state of Haryana, that will boost road traffic**

## i. Rohtak:

### Industrial model township

The industrial model township (IMT) project in Rohtak lies in the south-east of Haryana state located 30 km west of New Delhi and 250 km of the south of the Chandigarh at the NH-10.

The proposed IMT is envisaged to have campuses for large industries, industrial plots, flatted factories, residential facilities, labour housing, commercial and institutional areas, entertainment zones, skill development and health care facilities, etc. The development will be of international standards with power, water supply, roads, sewerage, effluent disposal, storm water disposal, and solid waste management to enable enterprises to function in a pleasing environment. The proposed IMT shall be planned in an environment friendly so as to allow the hyper industrial activity integrate with the habitation zones and prevent possibilities of urban degradation.

Phase I is developed and Phase II is under development.

## ii. Bawal

Bawal is a sub-district of Rewari district, with 23,519 households and a population of 1.3 lakh persons as per Census 2011.

With DMIC project undertaken by the GoI, Manesar-Bawal is one of the investment regions selected for development in the first phase of the Corridor, which will contribute to major expansion of infrastructure and industry.

Project that may boost the road traffic in long run, as per Haryana State Industrial & Infrastructure Development Corporation Limited is Industrial Township Model in Rewari district, Phase I, II of which are developed and Phase III, IV are under development.

## KERALA

### Economic overview

The GSDP of Kerala is estimated at ₹ 4.3 trillion (2011-12 series; constant price) for 2014-15 compared with ₹ 4 trillion (2011-12 series) in 2013-14, showing a growth of 7.5%. In 2014-15, according to 2011-12 series, India's GDP growth stood at 7.2%. The state's GSDP grew at a CAGR of 5.9% in the period from 2011-12 to 2014-15, lower than India's growth rate of 6.8% CAGR.

### Historic 5-year trend in the number of registered motor vehicles for Kerala

Above data is as per latest publicly available information on the Ministry of Road Transport and Highways website as on November, 2016.

Source: MORTH, CRISIL Research

Freight vehicles such as trucks, lorries, light motor vehicles, tractors and trailers, etc. grew by 4-5% annually from 0.49 million vehicles in 2013-14 to 0.52 million vehicles in 2014-15. On the other hand, as per capita incomes

have grown, passenger vehicles such as buses, taxis, cars, jeeps, two wheelers, etc. posted a growth of 10-11% annually between 20013-14 and 2014-15 and grew from 8.17 million vehicles to 9.02 million vehicles during the same period.

|                    | 2013-14 | 2014-15 | Y-o-Y |
|--------------------|---------|---------|-------|
| Passenger Vehicles | 8.17    | 9.02    | 10.4% |
| Freight Vehicles   | 0.49    | 0.52    | 4.7%  |

The length of road network in the state of Kerala is 194,854 km, out of which, following is the network split in terms of national vs state vs rural roads:

#### Road network split (in km) as on 31st March 2015

|                  | Length (km) | Share (%)      |
|------------------|-------------|----------------|
| National Highway | 1,811       | 1%             |
| State Highway    | 4,341       | 2%             |
| Rural Roads      | 127,985     | 66%            |
| Other Roads      | 60,717      | 31%            |
| <b>Total</b>     |             | <b>194,854</b> |

Above data is as per latest publicly available information on the Ministry of Road Transport and Highways website as on November, 2016.

#### Overview of key infrastructure development plans for cities/ district/ municipal towns within the state of Kerala, that will boost road traffic

In this section, we have given a qualitative overview on few selected locations within the state.

##### i. Thrissur

Thrissur is a district situated in the central part of Kerala. It is spread over an area of about 3,032 sq km and is home to more than 10% of Kerala's population. Thrissur was considered the most urbanised after Ernakulam. One of the projects that will boost the road traffic is:

##### KINFRA Gem and jewellery park

This project is proposed to be set up in 10 acres land in Puzhakkalpadam with the assistance of Ministry of Commerce, GoI, under the ASIDE scheme. This project proposes to have full-fledged infrastructure facilities for ornament making and its allied activities. The expected cost of the project is 1000 million.

##### ii. Chalakudy

Chalakudy is a municipal town situated in Thrissur district. It lies on National Highway 47 and located about 47 km north of the city of Kochi and 30 km south of Thrissur. One of the projects that will boost the road traffic is:

##### Koratty Infopark

With the success of Infopark Phase I, Phase II ‘Indeevaram’ development is taking place. It is located in an expanse of 6 acres in the SEZ area. It is designed with all the facilities to suit the requirement of IT. Infopark Thrissur is strategically placed at the NH 47, midway between Kochi and Thrissur, two major cities of Kerala. The location is with close proximity to Angamaly and Chalakudy.

### iii. Angamaly

It is a municipality in Ernakulam district and it is one of the fastest developing satellite town of Kochi. It is situated in the north of Ernakulam. It lies at the intersection of Central Road and National Highway 47.

Some of the projects that will boost the road traffic are:

#### INKEL City

A master plan of 50 acres of the land adjacent to Transformers and Electricals Kerala Limited, Angamaly is being jointly developed by INKEL and KISDC. Out of the 50 acres, 30 acres of the land will be developed as INKEL city.

#### Transit-oriented development

In order to arrest urban sprawl, reduce the dependency on Kochi City and to open up new areas of development in the Region, it is proposed to develop a transit oriented development corridor connecting centres of Kodungallur, Angamaly, Perumbavoor, Kolenchery, Piravom, Thalayolaparambu, and Cherthala. Intense development shall be promoted along Angamaly -Thripunithra - Piravom corridor in the first phase to induce development along Angamaly - Kolenchery - Piravom- Cherthala corridor, with the main focus on Angamaly.

### ODISHA

#### Economic overview

The GSDP of Odisha is estimated at ₹ 2.8 trillion (2011-12 series; constant price) for 2015-16 compared to ₹ 2.6 trillion (2011-12 series) in 2014-15, showing a growth of 6.2%. In 2015-16, according to 2011-12 series, India’s GDP growth stood at 7.2%. The state’s GSDP grew at a CAGR of 5.2% in the period from 2011-12 to 2015-16, which is lower than India’s growth rate of 6.8% CAGR in same period.

#### Historic 5-year trend in the number of registered motor vehicles for Odisha

Above data is as per latest publicly available information on the MORTH website as on November, 2016.

Source: MORTH, CRISIL Research

Freight vehicles such as trucks, lorries, light motor vehicles, tractors and trailers, etc. grew by 7-8% annually from 0.48 million vehicles in 2013-14 to 0.52 million vehicles in 2014-15. On the other hand, as per capita incomes have grown, passenger vehicles such as buses, taxis, cars, jeeps, two wheelers, etc. posted a growth of 11-12% annually between 2013-14 and 2014-15 and grew from 4.22 million vehicles to 4.70 million vehicles during the same period.

|                    | 2013-14 | 2014-15 | Y-o-Y |
|--------------------|---------|---------|-------|
| Passenger Vehicles | 4.22    | 4.7     | 11.4% |
| Freight Vehicles   | 0.48    | 0.52    | 7.7%  |

The length of road network in the state of Odisha is 283,692 km, out of which, following is the network split in terms of National vs. State vs. Rural roads:

#### Road network split (in km) as on 31st March 2015

|                  | Length (km) | Share (%)      |
|------------------|-------------|----------------|
| National Highway | 4,645       | 2%             |
| State Highway    | 4,109       | 1%             |
| Rural Roads      | 217,919     | 77%            |
| Other Roads      | 57,019      | 20%            |
| <b>Total</b>     |             | <b>283,692</b> |

|--------|---------------------------------------------|-----------------------------------------------------|-------|--------|----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1      | Shree Jagannath Expressways Private Limited | 6 Laning of Chandikhole Bhubaneswar section of NH-5 | NH5   | Odisha | Bhubaneswar, Cuttack, Chandikhol | Important connections provided through the project road include the Road to Puri (NH-203) at Rasulgarh, Ring Road near Cuttack, Link Road and OMP Junction Roads in Cuttack, and NH-42 at Mangoli Chowk. NH-42 connects NH-5 with Dhenkanal, Angul, Redhakhhol and Sambalpur. The end point (north of km 62) of the project road at Chandikhol is a major intersection, where NH-200 and NH-5A cross NH-5 through an overpass. NH-200 connects Daiteri mines and then runs towards Raipur, capital of Chhattisgarh. NH-42 and NH-200 form a loop connecting to Talcher, an important power generation hub. NH-5A connects Paradip, a major port. Both NH-200 and NH-5A have gained prime importance in the roadmap of the country, due to the steel industry as well as harbour facilities at Paradip. A number of iron ore mines and steel plants are located near Chandikhol, Angul and Talcher in District Jajpur. |

#### Overview of key infrastructure development plans for cities/ district/ municipal towns within the state of Odisha, that will boost road traffic

In this section, we have given a qualitative overview on few selected locations within the state.

##### i. Chandikhol

Chandikhol is a place located in Jajpur district. It is one of the end points of National Highway 200, directly connecting to the other end Raipur.

#### Strategic petroleum reserve

In order to secure mandate energy of the country, Ministry of Petroleum & Natural Gas, Govt. of India is creating strategic Petroleum Reserves. Under Phase II storage program, plans currently are progressing to create Strategic Petroleum Reserves at two locations, out of which, one is Chandikhol (4.4 MMT storage capacity).

## ii. Bhubaneswar

Bhubaneswar is the capital state and is a centre of economic importance. The area under the jurisdiction of Bhubaneswar Municipal Corporation covers around 135 sq. kms.

Projects that may boost the road traffic in the long run is:

### Infovalley

Infovalley is a joint venture Integrated IT Park with IL&FS comprising of an IT SEZ with a township of 500 acres land in the western parts of Bhubaneswar. It is a township with both residential and commercial complexes. It includes a 216 acre electronics manufacturing cluster, approved by the GoI.

### Smart City

- Bhubaneswar topped round 1 of stage 2 of the Smart City Challenge, making it the first smart city in the country
- The city has one of the biggest smart city proposals at over ₹ 45,300 million
- More than half of the funding, i.e. ₹ 25,630 million, is expected via public-private partnerships (PPPs)
- Slum and housing redevelopment projects and development of railway station into a multi-modal hub comprise about 65% of the proposed smart city amount. Major proportion of both projects are proposed to be developed through PPPs

## UTTAR PRADESH

### Economic overview

The GSDP of Uttar Pradesh is estimated at ₹ 9.1 trillion (2011-12 series; constant price) for 2015-16 compared with ₹ 8.5 trillion (2011-12 series) in 2014-15, showing a growth of 7.1%. In 2015-16, according to 2011-12 series, India's GDP growth stood at 7.2%. The state's GSDP grew at a CAGR of 6.0% in the period from 2011-12 to 2015-16, which is lower than India's growth rate of 6.8% CAGR in same period.

### Historic 5-year trend in the number of registered motor vehicles for Uttar Pradesh

Above data is as per latest publicly available information on the MORTH website as on November, 2016.

Source: MORTH, CRISIL Research

Freight vehicles such as trucks, light motor vehicles, tractors and trailers, etc. grew by 5-6% annually from 1.63 million vehicles in 2013-14 to 1.72 million vehicles in 2014-15. On the other hand, as per capita incomes have grown, passenger vehicles such as buses, taxis, cars, jeeps, two wheelers, etc. posted a growth of 13-14% annually between 2013-14 and 2014-15 and grew from 17.48 million vehicles to 19.91 million vehicles during the same period.

|                    | 2013-14 | 2014-15 | Y-o-Y |
|--------------------|---------|---------|-------|
| Passenger Vehicles | 17.48   | 19.91   | 13.9% |

|                  | 2013-14 | 2014-15 | Y-o-Y |
|------------------|---------|---------|-------|
| Freight Vehicles | 1.63    | 1.72    | 5.8%  |

The length of road network in the state of Uttar Pradesh is 415,383 km, out of which, following is the network split in terms of National vs. State vs. Rural roads:

#### Road network split (in km) as on 31st March 2015

|                  | Length (km)    | Share (%) |
|------------------|----------------|-----------|
| National Highway | 8,483          | 2%        |
| State Highway    | 7,543          | 2%        |
| Rural Roads      | 80,044         | 19%       |
| Other Roads      | 319,313        | 77%       |
| <b>Total</b>     | <b>415,383</b> |           |

#### Overview of key infrastructure development plans for cities/ district/ municipal towns within the state of Uttar Pradesh, that will boost road traffic

In this section, we have given a qualitative overview on few selected locations within the state.

##### i. Ghaziabad:

Ghaziabad district is located in the northern UP, is spread over an area of 1,273 sq km and has population of 4.68 million person (as per 2011 census). It contributes 2.33% of the total population of UP. Ghaziabad is part of the National Capital Region (NCR), which provides immediate benefits for the district as it can secure loans for infrastructure development at cheaper rates from the NCR Planning Board (NCRPB).

##### i. Dadri Noida Ghaziabad Investment Region:

The proposed Dadri-Noida-Ghaziabad Investment Region would be located close to Delhi, the National Capital. This region has good connectivity by road and rail to rest of India. Besides, it comprises of Noida, the vibrant satellite town of Delhi with IT/ITES and electronics industries; Ghaziabad, the hub of light engineering and electronics industries; and Greater Noida, the city with well-developed road network, state of the art physical and social infrastructure with quality residential commercial, recreational and institutional areas. The facility is being developed over an area of 747.5 acres.

Ghaziabad belt is proficient at manufacture of engineering, electronics, and leather and textile goods. A large industrial park would give a boost to the production and export of these items.

##### ii. Aligarh

Aligarh is located in the western part of the state at a distance of about 126 kms from Delhi. It is spread has population of 3.67 million person (as per 2011 census).

## MAHARASHTRA

### Economic overview

The GSDP of Maharashtra is estimated at ₹ 15.2 trillion (2011-12 series; constant price) for 2014-15 compared to ₹ 14.4 trillion (2011-12 series) in 2013-14, showing a growth of 5.8%. In 2014-15, according to 2011-12 series, India's GDP growth stood at 7.2%. The state's GSDP grew at a CAGR of 6.2% in the period from 2011-12 to 2014-15, which is lower than India's growth rate of 6.5% CAGR in same period.

### Historic 5-year trend in the number of registered motor vehicles for Maharashtra

Above data is as per latest publicly available information on the MORTH website as on November, 2016.

Source: MORTH, CRISIL Research

Freight vehicles such as trucks, light motor vehicles, tractors and trailers, etc. grew by 7-8% annually from 2.15 million vehicles in 2013-14 to 2.30 million vehicles in 2014-15. On the other hand, as per-capita incomes have grown, passenger vehicles such as buses, taxis, cars, jeeps, two wheelers, etc. posted a growth of 9-10% annually between 2013-14 and 2014-15 and grew from 21.25 million vehicles to 23.26 million vehicles during the same period.

|                    | 2013-14 | 2014-15 | Y-o-Y |
|--------------------|---------|---------|-------|
| Passenger Vehicles | 21.25   | 23.26   | 9.5%  |
| Freight Vehicles   | 2.15    | 2.3     | 7.3%  |

The length of road network in the state of Maharashtra is 608,140 km, out of which, following is the network split in terms of National vs. State vs. Rural roads:

### Road network split (in km) as on March 31, 2015

|                  | Length (km)   | Share (%) |
|------------------|---------------|-----------|
| National Highway | 7,048         | 1%        |
| State Highway    | 40,144        | 7%        |
| Rural Roads      | 267,402       | 44%       |
| Other Roads      | 293,546       | 48%       |
| <b>Total</b>     | <b>608140</b> |           |

### Overview of key infrastructure development plans for cities/ district/ municipal towns within the state of Maharashtra, that will boost road traffic

In this section, we have given a qualitative overview on few selected locations within the state.

#### i. Solapur

Solapur district is located in the southern Maharashtra, is spread over an area of 14,844 sq km and has population of 4.3 million person (as per 2011 census). It contributes 3.97% of the total population of Maharashtra. The population of Solapur, as per the 2011 Census is 9.51 Lakh which has increased by 0.87% compound annual growth rate from the previous census (8.72 Lakh in 2001 Census).

Solapur being located on an important junction of the North – South railway line, had a good base for industries. There are approximately 98 medium and 8,986 smaller industries in the district. Chaddars, (Solapur bed sheets) have earned Solapur a reputation and fame for their durability and novel designs. The handloom and power loom weaving industry provides employment to a large number of workers. Solapur has the largest Beedi industry in Maharashtra and is also known for its market in oilseeds. Solapur also houses a large industrial estate developed by the Maharashtra Industrial Development Corporation (MIDC) on the Akkalkot road of Solapur.

#### Industries in the district

As per the information available from the Ministry of Micro, Small and Medium Enterprises, GoI, Solapur is the home to handloom and power loom weaving industry which provides employment to a large number of workers in the district. There are around 6000 power loom industries operational in the Solapur district. Out of these 300 establishments are registered under Mumbai Shops and Societies Act, 1948 and the other 3000 are registered under Factories Act, 1948. There are about 25,000 Power loom and about 30,000 workers are employed. On the Jackard power loom, the main production is the famous Solapur Chadders (bedsheet /quilt), towels and napkins. These workers receive their payments on the 'Piece Rate' basis, based on category of the product. As the 'piece rates' of various products are different there is variation in worker's earnings. As per the traditional piece rate system the worker gets ₹ 70 to 90 per day on an average. The beedi industry is the second important industry in Solapur. There are 115 units of 29 various beedi factories. In these 115 units there are about 70,000 lady workers and 1725 factory workers in the district.

#### Smart City

- Development of a bypass and grade separator for freight traffic, with an estimated cost of ₹ 7,000 million, will provide the maximum construction opportunity
- Improving water supply and sewage system are on top of the city's agenda
- The proposal includes development of a tertiary water treatment plant in order to provide water supply to National Thermal Power Corporation's power plant, which has been facing water constraints

### MADHYA PRADESH

#### Economic overview

The GSDP of MP is estimated at ₹ 4.2 trillion (2011-12 series; constant price) for 2015-16 compared with ₹ 3.9 trillion (2011-12 series) in 2014-15, showing a growth of 8.7%. In 2015-16, according to 2011-12 series, India's GDP growth stood at 7.2%. The state's GSDP grew at a CAGR of 7.5% in the period from 2011-12 to 2015-16, which is higher than India's growth rate of 6.8% CAGR in same period.

#### Historic 5-year trend in the number of registered motor vehicles for Madhya Pradesh

Above data is as per latest publicly available information on the MORTH website as on November, 2016.

Source: MORTH, CRISIL Research

Freight vehicles such as trucks, light motor vehicles, tractors and trailers, etc. grew by 11-12% annually from 1.11 million vehicles in 2013-14 to 1.24 million vehicles in 2014-15. On the other hand, as per capita incomes have grown, passenger vehicles such as buses, taxis, cars, jeeps, two wheelers, etc. posted a growth of 15% annually between 2013-14 and 2014-15 and grew from 8.61 million vehicles to 9.90 million vehicles during the same period.

|                    | 2013-14 | 2014-15 | Y-o-Y |
|--------------------|---------|---------|-------|
| Passenger Vehicles | 8.61    | 9.9     | 15.0% |
| Freight Vehicles   | 1.11    | 1.24    | 11.7% |

The length of road network in the state of Madhya Pradesh is 288,931 km, out of which, following is the network split in terms of National vs. State vs. Rural roads:

#### Road network split (in km) as on March 31, 2015

|                  | Length (km)   | Share (%) |

#### Overview of key infrastructure development plans for cities/ district/ municipal towns within the state of Madhya Pradesh, that will boost road traffic

In this section, we have given a qualitative overview on few selected locations within the state.

##### i. Indore

Indore district is located in south west of Madhya Pradesh and is spread over an area of 3,898 sq km. It has population of 3.28 million persons (as per 2011 census), out of which rural population constitutes 26% of the total population of the district and the literacy rate of the district is 81%.

#### Projects that will boost the road traffic are:

**SEZ Indore:**

SEZs are considered to be growth engines to boost manufacturing, augment exports and generate large scale employment. Indore SEZ was notified prior to the enactment of the SEZ Act, 2005 and became operational from Aug-2003. This SEZ is the only Green Field multi product SEZ of India as on date and is spread over an area of more than 1,100 hectare in Phase I and II.

**Industries of various sectors are located in the zone such as:**

Textile & apparel  
Pharmaceuticals  
Automobile & engineering  
Biotech  
Soya and agro-processing  
Trading & logistics  
Plastics and allied products.

Location of Indore SEZ is suitable for Industries because it is adjacent to the Pithampur/Kheda industrial growth central complex which is incidentally one of the leading growth centers of India and is situated near the most advanced and developed industrial town i.e., Indore, the commercial capital, provides all the social infrastructure, civic facilities and other benefits to the growing centers.

**IT Park, Indore**

It is located in Simhasa Village and is spread over 112 acre. MP has adopted a proactive approach in attracting companies in IT/ITeS sector. The state government has unveiled two policies specifically for the sector – IT policy and BPO policy. Companies that are currently operational at Indore IT park include Impetus, Intellicus, Cleartrail, Infobeans, Yash Technologies, Systematix Technocrats, Hiteshi Infotech and Linkites.

**Smart City**

- The city has one of the largest proposals of about ₹ 49000 million. Over 40% of the proposal is expected to be funded via debt raised from domestic/bilateral/multilateral agencies
- Construction opportunity is huge as big chunk (over 50%) of the proposal is concentrated on redevelopment of public land
- About 166 acres of land is to be developed by the SPV to build residential (80%) and commercial buildings, parking facilities and other infrastructure

**ii. Ujjain**

Ujjain district is a district of Madhya Pradesh state in central India with population of 1.9 lakh persons as per Census 2011. The district is bounded by the districts of Shajapur on the northeast and east, Dewas to the southeast, Indore to the south, Dhar to the southwest, and Ratlam to the west and northwest. The district is part of Ujjain division.

**Projects that will boost the road traffic are:****Integrated Industrial Township ‘Vikram Udyogpuri’ Project:**

The development of Vikram Udyogpuri has been selected by the Government of Madhya Pradesh (GoMP) and DMICDC to be developed as a Smart City. The proposed site of is located about 8 km from Ujjain and 12 km from Dewas and has a total area of 1100 acres.

**Smart City**

Under the Smart Cities Mission introduced by the Government, Ujjain is one of the shortlisted cities in round two. The objective of the mission is to promote the city to provide core infrastructure and smart solutions to citizens apart from giving them a clean and sustainable environment and a decent quality of life.

## BUSINESS

### Overview

Incorporated in 2006, we are a road BOT company in India, focused on development, implementation, operation and maintenance of roads/highways projects. We are involved in the development, operation and maintenance of national and state highways in several states in India with projects in states of Uttar Pradesh, Kerala, Haryana, Madhya Pradesh, Maharashtra and Odisha through partnerships with experienced EPC players in the local space where the project is located. At present, all of our projects are implemented through special purpose vehicles, either through our Subsidiary or in partnership with other infrastructure players.

We perform a range of project management functions, including design, engineering, EPC management and quality control. We also provide project advisory activities including, project management consultancy, project conceptualisation, commissioning, operation and management of the projects during the entire life cycle of our projects. We also undertake debt syndication, refinancing and financial restructuring of our projects.

We have a project portfolio consisting of six (6) BOT Projects, of which two (2) are Projects operational under Final COD, three (3) are Projects operational under Provisional COD and one (1) is a Project under Construction. Our Projects operational under Final COD and Projects operational under Provisional COD are located in the states of Kerala, Madhya Pradesh, and Haryana, Uttar Pradesh and Odisha, respectively. Our Project under Construction is located in the state of Maharashtra. Our Projects operational under Final COD and Projects operational under Provisional COD cover approximately 1,622.44 lane kms, including major and minor bridges and approximately 12 lane kms and 60.72 lane kms are under construction at the GAEPL Project and SJEPL Project, respectively for which we are awaiting final COD. Our Project under Construction involves development of 400.24 lane kms, including major and minor bridges. Further, as of March 31, 2017, the average residual Concession Period of our BOT Projects (based on concession agreements as of March 31, 2017) was approximately 18 years and six (6) months in comparison with our average debt maturity profile of approximately 10 years, as on March 31, 2017. Details of our Company's equity shareholdings in various Project SPVs are as follows:

*\*In addition to the Project SPVs mentioned above, our Company holds 59.38% equity shareholding in Orissa Steel Expressway Private Limited, which was implementing the OSEPL Project, now under foreclosure proceedings with NHAI. For further details regarding the Project SPVs, please refer to the chapter "History and Certain Corporate Matters" and "Our Subsidiaries and Associates" on page 171 and 184.*

We believe, with a history of over two decades in the infrastructure sector, SREI Infrastructure Finance Limited ("SREI"), our Corporate Promoter, is one of India's recognized infrastructure institutions and provides financial products and services for the customers engaged in the infrastructure sector. SREI is registered with the RBI as an Infrastructure Finance Company and is also a notified Public Financial Institution, under Section 4A of the Companies Act, 1956 (now Section 2(72) of the Companies Act, 2013). Our Company has entered into a letter arrangement dated February 16, 2017, pursuant to which all the road/ highway assets of SREI would be managed by our Company. For further details please refer chapter "History and Certain Corporate Matters - Letter Arrangement dated February 16, 2017 between SREI and our Company" on page 182.

We are involved in operating toll based BOT Projects wherein we have the right to collect toll or user fees. Our Company generates revenue from toll operations & maintenance and project management consultancy fees including from our Project SPVs. The summary statement of percentage contribution of our Project SPVs towards the revenue from operations, including other income, of our Company, on a standalone basis is provided below:

| Sr. No. | Name of the SPV | Percentage contribution towards the revenue for the year ended |        |       |
|---------|-----------------|----------------------------------------------------------------|--------|-------|
|         |                 | 2017                                                           | 2016   | 2015  |
| 1.      | STPL            | 14.89%                                                         | 42.10% | 4.67% |
| 2.      | OSEPL           | 29.88%                                                         | 26.78% | 4.60% |
| 3.      | KEPL            | 0.00%                                                          | 0.00%  | 0.00% |
| 4.      | MTPL            | 1.24%                                                          | 10.21% | 0.25% |
| 5.      | SJEPL           | 7.25%                                                          | 17.75% | 0.00% |
| 6.      | GIPL            | 0.00%                                                          | 0.00%  | 0.00% |
| 7.      | GAEPL           | 4.58%                                                          | 3.14%  | 0.00% |

For the Fiscal 2017 and 2016, the total revenue and PBDITA for our operational Project SPVs are as follows:

| Project SPV | Shareholding of BRNL in the Project SPVs (%) | Total revenue (₹ in million) # |                     | PBDITA* (in ₹ million) # |                     |
|-------------|----------------------------------------------|--------------------------------|---------------------|--------------------------|---------------------|
|             |                                              | For the Fiscal 2017            | For the Fiscal 2016 | For the Fiscal 2017      | For the Fiscal 2016 |
| GIPL        | 49.00%                                       | 1,193.20                       | 1,172.88            | 629.58                   | 624.69              |
| MTPL        | 48.00%                                       | 186.05                         | 225.07              | 129.37                   | 180.93              |
| KEPL        | 49.00%##                                     | 770.76                         | 731.79              | 389.27                   | 314.14              |
| GAEPL       | 39.00%                                       | 1,480.46                       | 1,010.07            | 1,349.57                 | 908.94              |
| SJEPL**     | 40.00%                                       | 143.67                         | NA                  | 123.36                   | NA                  |

# as per the audited financial statements of the respective Project SPVs

##20,504,960 equity shares of KEPL, was acquired by our Company pursuant to a share purchase agreement dated October 27, 2016 entered into with SREI. Of the 20,504,960 equity shares of KEPL, 4,900 equity shares of KEPL and 13,665,630 equity shares of KEPL held in the name of SREI and IPDC, respectively are pledged with the senior lenders of KEPL and shall be transferred in the name of our Company upon release of the pledge by the senior lenders of KEPL. However, pending transfer of these shares upon being released from pledge, all the economic and beneficial interest with respect to these shares have been transferred to our Company pursuant to a share purchase agreement dated October 27, 2016. For further details, please refer to "Risk Factor - Some of the shares acquired by our Company in KEPL, have not been transferred in the name of our Company pending release of pledge by senior lenders" on page 26.

\* PBDITA has been calculated as profit before tax and before depreciation, amortisation and finance cost as per the audited financial statements of the respective Project SPVs.

\*\* As SJEP has received its first Provisional COD on January 12, 2017, no profit and loss account was prepared for the Fiscal 2016. SJEP has been however collecting toll since December 14, 2011 but the same has been utilised for funding the construction of the SJEP Project.

For the Fiscals 2017, 2016 and 2015 our consolidated revenue from operations was ₹ 102.51 million, ₹ 7.50 million and ₹ 84.33 million, respectively. For the Fiscals 2017, 2016 and 2015 our consolidated loss after tax was ₹ 738.85 million, ₹ 925.44 million and ₹ 264.22 million, respectively.

## Strengths

- Diverse portfolio of projects in several states in India and long residual concession period of the projects

We have our footprint across the states of Haryana, Uttar Pradesh, Madhya Pradesh, Kerala, Odisha and Maharashtra. At present, our project portfolio consists of six (6) BOT Projects, of which two (2) are Projects operational under Final COD, three (3) are Projects operational under Provisional COD and one (1) is Project under Construction. We believe that our project portfolio is well distributed to cover both urban and rural vehicular traffic and includes national and state highways and that the geographical diversification of our projects reduces our reliance on specific states or their economies and allows us to capitalise on different growth trends in different states across the country. For example, the SJEP Project is located on the NH-5 between Chandikhol, where a strategic petroleum reserve (4.4 MMT storage capacity) is being planned, and Bhubaneswar, the capital of Odisha and centre of economic importance and one of the biggest smart city proposals at over ₹ 45,300.00 million. Similarly, the GAEPL Project which connects Ghaziabad to Aligarh in UP, services the Ghaziabad belt which is part of the National Capital Region (NCR) and is known as manufacturing hub of engineering, electronics, leather and textile goods. Further, the proposed Dadri-Noida-Ghaziabad Investment Region is coming up in proximity to the GAEPL Project, which is expected to boost

traffic. For further details, on our BOT Projects please refer to “Business - BOT Projects in Operation” and “Industry Overview - Key infrastructure development plans in the states in which our BOT project are located” on page 145 and 124 respectively.

All of our projects are implemented through special purpose vehicles formed for the respective projects. These special purpose vehicles enter into concession agreements with government agencies and are expected to generate revenue from toll receipts or user fee. The concession agreements are for periods ranging from 21 years to 28 years. Most of our operational projects having commenced operations in recent years, have long residual concession period. As of March 31, 2017, the average residual concession period of our projects (based on concession agreements) was approximately 18 years and six months.

- *Ability to partner with experienced domestic and international EPC players*

We believe, selection of experienced domestic and international EPC players plays a significant role in pre-qualification for bids as we leverage upon technical know-how and the experience of the EPC partner in executing projects. We are involved in the development, operation and maintenance of national and state highways in several states in India including Uttar Pradesh, Kerala, Haryana, Madhya Pradesh, Maharashtra and Odisha through partnerships with experienced EPC players in the region where the project is located. Tying up with local EPC players in the region helps us benefit from the experience and know-how of the partner at the local level. We believe we have gained significant experience of diverse geographic locations in India with varied degrees of complexities like construction in high traffic and high density areas and construction over wide water bodies. Our partnerships with local EPC players enable us to liaison effectively at local level and help us reduce fixed costs and mitigate risks and enables smooth execution of the projects. This in-turn enables us in managing multiple projects in diverse geographies simultaneously. We have in the past partnered with international EPC players which has enabled us to gain access to best practices in project design and engineering.

- *Ability to effectively finance and manage our projects*

We believe that we have been able to effectively finance and manage our projects, due to support from our Corporate Promoter, efficient project execution and our prudent bidding strategy. We strive to maintain a robust financial position with emphasis on maintaining a strong balance sheet and effective capital gearing. Further, SREI Group’s financial strength and robust track record with financial management provides us access to funds at commercially acceptable terms. Our Company’s total debt (short term, long term and current maturities of long term debt), as on March 31, 2017 was ₹ 1,499.53 million on a standalone basis. We believe we have ability to leverage our Company’s balance sheet to fund future needs of existing Project SPVs as well as for the purpose of bidding for and funding new projects.

Further, as of March 31, 2017, the average residual Concession Period of our BOT Projects (based on concession agreements) was approximately 18 years and six months in comparison with our average debt maturity profile of approximately 10 years, as on March 31, 2017.

We have entered into fixed cost contracts with EPC contractors minimising risk of EPC cost overrun. Further, instead of awarding a single contract for EPC, we have been awarding separate contracts for various sections. This helps us in reducing cost and enables us to work with specialists for respective components which helps us not only in reducing cost but also in negotiating for better quality service and faster BOT Project execution.

Further, our qualified in-house teams who are responsible for different aspects of our projects starting from identifying prospective projects to the collection of tolls and the operation and maintenance of the projects enable us to effectively manage our projects. We are able to undertake a significant number of activities related to all our projects in-house, thereby ensuring faster execution of our projects, meeting highest standards of quality through established and professional monitoring mechanism, reducing our reliance on third parties and decreasing our costs. Our integrated structure also allows us to control our budget and maximize returns for the project, including developer returns and operation and maintenance margins.

- *Strong and experienced Corporate Promoter*

SREI, our Corporate Promoter, which currently holds 30.43% of the issued and paid-up share capital of our Company, is a RBI registered non-deposit taking and systematically important Infrastructure Finance Company and a Public Financial Institution and has presence in the infrastructure sector with a track record

of over two decades of supporting entities in the infrastructure sector.

We believe, SREI, with a history of over two decades, is one of India's recognized infrastructure institutions with interests in infrastructure project finance, advisory and development, infrastructure equipment finance, venture capital, capital market, equipment rental, integrated rural network of common services centres ("CSCs"), insurance broking, SEZ and industrial park and environment management. SREI provides customized financing to infrastructure projects and their sponsor companies. In the past our Corporate Promoter has infused capital in our projects by way of equity and through debt, which not only helped us achieve financial closure for our projects but also enabled us to procure equipment in the early stages of project development and substantially reduce implementation time and risks.

- *Experienced and professional management team with strong asset management, execution capabilities and extensive industry experience*

Our management team has considerable experience in the Indian road infrastructure sector. We consider the strength of our management team, led by the Managing Director of our Company, Mr. Bajrang Kumar Choudhary and Mr. Rajesh Sirohia, Mr. Asim Tiwari, Mr. Partha Pratim Chaudhary and Mr. Arunava Sengupta, our KMPs, who have broad experience of around two decades in areas like asset management, infrastructure development, project evaluation, equity and debt syndication, project management, planning and construction, contract administration & management, to be fundamental to our success. We believe the stability of our management team and the industry experience brought in by our KMPs and employees, coupled with their strong client relationships, will enable us to continue to take advantage of future market opportunities and expand into new markets.

For further details of the roles and experience of our Board and Key Managerial Personnel, refer to "Our Management" on page 192.

## **Strategies**

- *Increased focus on mid to large BOT Projects*

Over the past few years, the Indian road sector has gained momentum with the government's thrust on reforms and policy measures focussed on expanding the roads and highways network commensurate with India's economic growth and development. However, there is inadequate investment in capacity building mainly because of lack of resources for transport infrastructure development. Hence, the government is focusing on both public and private sector funding towards revitalising investment in the roads and highways network through BOT Projects under the PPP framework. As per CRISIL Report, during 2007-2011, road developers bid aggressively to bag more and more BOT-Toll projects. Consequently, the developers faced viability issues with the projects in the later stages. Issues pertaining to subdued financing, lower traffic and delayed execution have stressed the balance sheets of the developers. PPP toll projects are now unable to attract any further bidders due to the stressed balance sheet of the developers, resulting from unavailability of financing from banks and stuck equity of the developers in the existing projects. We believe that going forward BOT space in India is expected to move out of the phase of aggressive bidding which was largely triggered by competition from EPC Contractors and only the infrastructure developers with a strong focus on highway assets would now be primarily bidding for new BOT Projects being awarded. We believe this would result in a rational and healthy competition among the select infrastructure developers with long term focus on the sector.

Leveraging on our domain knowledge and a decade long experience in the infrastructure space, we intend to strengthen our presence by bidding for mid to large BOT Projects. Our focus on larger projects gives us an opportunity to rationalise fixed costs associated with large projects, such as employee expenses, system automation expenses and administration expenses, which typically represent a lower proportion of the total costs of the project than those incurred in smaller projects. Over the next few years, we intend to remain focussed on the operations, maintenance and development of our existing projects while seeking opportunities to expand our portfolio of projects by bidding for new projects either individually or with partners.

Further, while all our existing projects are toll based BOT Projects, we also intend to focus on HAM based BOT Projects in the future which we believe can provide assured cash flows and help reduce the risk of income fluctuations, which is inherent in BOT Projects with a toll component.

We also intend to continue to expand into new geographies based on partnership opportunities. Through an increasingly diversified geographic portfolio, we hope to hedge against risks in specific areas or projects and protect us from fluctuations resulting from business concentration in limited geographical areas. We have established partnerships with experienced EPC players in the states that we currently operate and intend to leverage upon our experience to garner partnership opportunities in economically and politically stable states which we believe would have increased economic activity, which in turn is likely to result in higher traffic.

- *Strengthen internal systems and continue to focus on technology and operational efficiency*

Information technology is integral part of almost every aspect of our operations, from business development to procurement and quality management. With gaining prominence of IT system and other internal processes in every aspect of business and operations, we are constantly strengthening our IT system and capabilities to create an environment friendly sustainable business eco system. We are committed towards driving efficiency through more advanced and fully proven technologies to minimize human error resulting from manual intervention and also moving towards more environment friendly transportation solutions that are sustainable both from energy consumption and an environment perspective. Our increasing focus on the IT infrastructure, applications, and other internal processes necessitates further investments to improve its reliability and functionality. We intend to strengthen our IT systems and other internal processes to reduce manual intervention and improve reliability and efficiency of our business and operations. Improved IT systems help us in achieving low operating costs, high operational efficiency and reduced toll leakages. Given the growing prevalence of Electronic Toll Collection (“ETC”), we are also fast moving towards the collection of tolls based on the automatic identification and classification of vehicles using electronic systems. Keeping in line with Government of India’s emphasis to promote efficient movement of passenger and goods on high-traffic density corridors through automated toll operations through FASTag, we embarked on the process for completed automation of tolling operations at our existing projects, where we have equipped the toll plaza with ETC tags. A similar system automation and subsequent integration with existing tolling operations are in process at our other operating projects. We are also developing new tolling software; through our strategic technology partner to make the toll collection procedure more efficient and accurate. We are in the process of upgrading our existing IT systems and are currently in the process of implementing a fully automated “hands-off” operation management system integrating technology primarily to improve the flow of vehicular traffic and improve safety.

Besides, keeping in line with GoI’s Digital India initiative, all our toll plazas are gradually being equipped with automated toll payment facilities thereby increasing efficiency, accuracy and convenience in toll collection. In addition to increase in usage of plastic money through point of sale (“POS”) and mobile wallet, all our toll plazas are fully equipped with both conventional as well as modern payment facilities for commuters’ convenience. We have been able to leverage our relations with banks to get attractive commercial terms for POS implementation and subsequently adhere to the system automation target set out by Concessioning Authority as well as the Government of India

Besides tolling operations, we are also making efforts to implement new technology to improve highway traffic management, route patrolling and corridor management to reduce delays and improve travel-time reliability. With increasing focus on Highway Traffic Management System, we are aiming to create an advanced integrated Traffic Control Centre equipped with latest technology to detect speed violation, video incident detection, CCTV monitoring system to derive real time traffic information and incident management.

- *Leverage our core competencies through increased activities in the secondary market*

Besides capitalising on primary market opportunities, we also intend to focus on strengthening our position in road infrastructure development business through increased activity in the secondary market.

As per CRISIL Report, during the years 2007 – 2011 road developers, bid aggressively to bag more BOT-Toll projects. This resulted in many small to medium contractors with limited financial strength entering into the BOT space. Some of these BOT Projects have run significant cost overruns arising from various reasons beyond their control, including, subdued financing, lower traffic and delayed execution of projects. The above factors have resulted in lower returns accruing to the developers as well as adversely affecting their debt servicing ability. Some of these developers faced viability issues in the later stages of the projects.

We believe that due to our ability to effectively finance our BOT Projects, we are well positioned to take a rational approach towards secondary market acquisitions of existing BOT Projects, developed or under

development by other companies, assuming such acquisitions are supported by sound strategic and financial objectives. We thus intend to draw on our experience, effectively use our assets, market position and our ability to execute and manage multiple projects across geographies, to grow our portfolio of road projects by secondary acquisition of road assets.

- *Increasing financial efficiencies*

Maintaining financial discipline is key to good financial performance in our business. We intend to continue our practices of strict financial discipline through (i) careful selection of projects; (ii) selective expansion into new geographical areas and (iii) careful selection of EPC contractors with adequate equipment and experience. While we aim to achieve higher profitability, we are careful to avoid over-leveraging our balance sheet or undertake projects that would require significant investment in equipment and/or manpower. We may also deleverage our balance sheet to improve returns on our assets by divesting, either wholly or partially, some of our operational BOT assets.

We source funding for our projects primarily through loans from banks, other financial institutions and equity contribution. We intend to continue to evaluate various funding mechanisms which will enable us to enhance our credit rating and in turn reduce our borrowing cost and improve our liquidity position. Further, we have in the past explored and will continue to explore options for refinancing or repricing certain of our loans to lower our borrowing cost and improve cash flows. For example, in March 2013 we refinanced GIPL's term loans with a new facility from IDFC Bank Limited (originally funded by consortium of lenders led by Punjab National Bank), which not only reduced the interest cost but also helped to align the repayments with a ballooning repayment structure and increasing the loan repayment tenure by around 6 (six) years within the available Concession Period.

- *Enhancing in-house integration with an aim to improve performance and enhance returns*

In-house integration has been an integral part of our growth since incorporation and we seek to focus on further enhancing our in-house competencies by expanding into various functional aspects of our projects thereby reducing dependence on third parties. We intend to focus on improving our project designing, project monitoring and management capabilities. We believe that further developing specialized in-house capabilities would reduce dependence on third parties, thereby avoiding risks and minimizing costs associated with outsourcing.

We intend to focus on improving project monitoring and management capabilities, and depending on the kind of projects that we may bid and win in the future, also develop design and engineering capabilities in-house. This would in long term reduce dependence on third party design consultants, resulting in avoiding risks and minimising costs associated with outsourcing.

We will also continue to focus on maximizing returns from each of our BOT Projects. We intend to improve performance and enhance returns from our BOT Projects by:

- adopting the best of the evolving technologies in collection of tolls and other business processes,
- continuing to improve checks and balances to reduce toll leakages, and
- continuing to complete construction of our BOT Projects on or before time to increase revenues.

## **Our Business and Operations**

Our main business operations can be divided into three categories, i.e. (i) project development and implementation; (ii) operation and maintenance of tolling operations and (iii) providing advisory and project management services to our projects.

All of our projects are implemented and held through our Subsidiaries and Associates. As on the date of this Red Herring Prospectus, we have a project portfolio consisting of six (6) BOT Projects, of which two (2) are Projects operational under Final COD, three (3) are Projects operational under Provisional COD and one (1) is Project under Construction.

Set forth below is a summary of each of the six projects in our project portfolio, and in which we have an interest.

### 1. Operational BOT Projects

| Particulars                                                     | GIPL                                                                                                                                                                                                                                                                                                                  | MTPL                                                                                                                                  | KEPL                                                                                                                                                      | GAEPL                                                                                                                                                                                                                                                                          | SJEPL                                                                                                                                                                                            |

\*As per certificate dated July 28, 2017 issued by MKPS & Associates, Chartered Accountants

<sup>#</sup>Projected completion date as per the concession agreement is 910 days from Appointed Date. An extension of this period by 213 days i.e. up to June 29, 2017 has been recommended by NHAI, PIU Solapur vide letter dated November 17, 2016 to Chief General Manager (Tech.), NHAI, Navi Mumbai, Maharashtra. The Chief General Manager (Tech.), NHAI has accepted the recommendation and has vide his letter dated March 21, 2017 further recommended the extension up to June 29, 2017 to the competent authority at NHAI, for approval. Further, due to delays in achieving completion of Milestone III due to delays in acquisition of land, shifting of utilities and other reasons which are not attributable to STPL, STPL has, vide letter dated January 20, 2017 addressed to the independent engineer for the STPL Project, requested for further extension of time for execution of Milestone III and scheduled four-laning of the STPL Project up to February 15, 2018. However, pursuant to non-fulfilment of obligations of NHAI towards land acquisition, further delays in finalisation of change of scope, shifting of population, health and environment utility and electrical utility and unprecedented rainfall in Osmanabad District section of project highway in Fiscal 2017, STPL has vide its letter dated May 31, 2017 addressed to the independent engineer for the STPL Project, requested for extension of time for execution of Milestone III and scheduled four-laning of the STPL Project by 548 days from the Scheduled COD, i.e. up to May 31, 2018.

<sup>##</sup>Projected completion date as per the concession agreement is 910 days from Appointed Date.

For further details, regarding the Project SPVs, please refer to the chapter “History and Certain Corporate Matters” and “Our Subsidiaries and Associates” on page 171 and 184.

## Summary of our BOT contracts

Typically, our BOT contracts require the Project SPVs to construct a road and /or bridge and operate and maintain the asset over a pre-defined period (known as the concession period) at its own expense. In return, the concessionaire is granted a right to collect revenues or tolls from the end users of the BOT Project road during the concession period. At the end of the Concession Period, the obligation to maintain the road or bridge and the right to collect tolls reverts to the Concessioneing Authority that had granted the concession.

In order to meet specific eligibility requirements for certain larger road projects, including requirements relating to particular types of experience and financial resources, we operate through Project SPVs and in most cases we enter into project-specific joint ventures.

Under each Concession Agreement, we are entitled to collect tolls from the users of our roads. We develop the relevant BOT Project road and operate the BOT Project facilities in accordance with the terms and conditions under the relevant Concession Agreement. While we are required to maintain prescribed performance security with the Concession Authority during the Construction Period, the relevant concession agreement requires us to maintain insurance during the Construction Period and Operation Period. In the event of any deviations or non-compliance in relation to the project, our client may enforce its rights under the agreement, including termination of the agreement. Further, deviation or non-compliances may result in us needing to take remedial measures at our cost and may be obligated to pay a percentage of the cost additionally as penalties.

During the Concession Period, we operate and maintain the BOT Project road and earn revenues through charges, fees, tolls or annuities generated from the BOT Project road. The amount of charges, fees, tolls, or annuities that we may collect are set forth in the relevant concession agreements or notified by the relevant government agency. The tolling rates are usually as may be prescribed under the rules of National Highways and State Highways. The scope of our responsibilities is usually set out in the relevant concession agreement, where we may be required to undertake routine maintenance of the project road, maintain and comply with safety standards to ensure smooth and safe traffic movement, deploy adequate human resources for incident management, maintain proper medical and sanitary arrangements for personnel deployed at the site and prevent any unauthorised entry and exit. The Concessioning Authority may use one or more firms of engineers to carry out periodic tests to assess the quality of the road and related maintenance. If we are determined to have failed to carry out our maintenance obligations, the Concessioning Authority may, following the issuance of notices and the expiry of cure periods, terminate the relevant concession agreement.

## **BOT PROJECTS IN OPERATION**

Set forth below is a summary of each of our Project SPVs.

### **1. Guruvayoor Infrastructure Private Limited (“GIPL”)**

#### Description

The GIPL Project is for (a) four laning of the existing two lane portion of the Thrissur-Angamali section of NH-47 from km 270.00 to km 316.70 (there is a missing chainage of 6.70 km) and (b) improvement, operation and maintenance of the Angamali - Edapalli section from km 316.70 to km 342.00 of NH-47 (“**GIPL Project Road**”) in the state of Kerala on DCDFOM pattern on BOT toll basis (“**GIPL Project**”). The Concession Agreement for the GIPL Project was signed on March 27, 2006 (the “**GIPL Principal Concession Agreement**”) and supplemented by a supplementary agreement dated November 23, 2009 (“**GIPL 1<sup>st</sup> Supplementary Agreement**”) and a supplementary agreement dated December 3, 2011 (“**GIPL 2<sup>nd</sup> Supplementary Agreement**”) (the GIPL Principal Concession Agreement, GIPL 1<sup>st</sup> Supplementary Agreement and GIPL 2<sup>nd</sup> Supplementary Agreement are together referred to as “**GIPL Concession Agreement**”). Our scope of work also included improvement of junction at the Kochi airport, curve improvement at Marthandavarma bridge, six lane flyover at Aluva junction and construction of approaches to ROB at km 320.09.

The Provisional COD for the GIPL Project was received on December 04, 2011 and the Final COD was granted on April 18, 2016. The delay in receiving Final COD was primarily due to non-completion of punch list item, indicated by the Independent Engineer for the project, due to non-availability of Land/ROW by NHAI.

We began collecting toll on the GIPL Project Road on February 9, 2012. This project has one operational toll plaza.

#### Concession Operator

GIPL is the operator of the GIPL Project. Our Company holds 49.00% of the equity share capital in GIPL and KMC Constructions Limited, together with its associate, KMC Infratech Road Holdings Limited holds the balance 51.00% of the equity share capital. For more information on GIPL, please refer to the chapter “*Our Subsidiaries and Associates*” on page 184. Further, the engineering, procurement and construction work of the GIPL Project has been carried out by KMC Constructions Limited.

### Key Terms of the Concession

The concession was granted by the NHAI. The term of concession was 20 years, and it was to start from September 22, 2006, i.e. Appointed Date and expire on September 21, 2026. However, the same has been extended up to June 21, 2028 by way of GIPL 1<sup>st</sup> Supplementary Agreement due to delay in land acquisition by NHAI and accordingly the Concession Period got extended to 21 years and 9 months.

The GIPL Concession Agreement provides that for a period of eight years from the appointed date, neither NHAI itself, nor GoI and Government of Kerala shall, construct and operate either itself or through any other party, built and operated on BOT basis or otherwise, any expressway or other toll road, not being a bypass, between Thrissur and Edapalli. This restriction shall not apply if the length of the proposed new toll road is more than 120.00% of the GIPL Project Road or the toll rates are more than 133.00% of the applicable toll fee for GIPL Project. Further, in case such a new toll road is constructed by NHAI, GOI or Government of Kerala, the concession period shall get extended by 50.00% of the period remaining out of the concession period at the time of commission of such new toll road.

As per the GIPL Concession Agreement, NHAI can based on detailed traffic study, at any time after eight (8) years of the COD, decide to augment / increase the capacity of the GIPL Project Road and can invite proposals from eligible persons for such augmentation of capacity including GIPL. In case GIPL doesn't submit its proposal or fails or declines to match the preferred offer, a termination payment as would be specified in the GIPL Concession Agreement would be paid to GIPL. GIPL shall, however, have the right of first refusal to match the preferred offer.

### Toll collection

GIPL has entered into an agreement for operation and maintenance of the GIPL Project with Egis Road Operation India Private Limited ("Egis") dated April 3, 2013 whereby Egis undertakes the following activities (a) toll collection, (b) traffic Management and (c) routine maintenance and horticulture.

As per the GIPL Concession Agreement, GIPL is entitled to collect and appropriate the fees from the users of the GIPL Project Road at the toll plaza pursuant to and in accordance with the fee notified by NHAI from time to time. The fees to be collected are revised annually based on extent of variation in WPI as stated in the GIPL Concession Agreement. The current toll rates are subject to and in accordance with the fee determination rules. The GIPL Concession Agreement allows the toll rates to be revised annually but is subject to and in accordance with the provisions of the fee determination rules. The current toll rates per vehicle as specified in the letter dated August 26, 2016 issued by NHAI for the toll plaza is as follows:

(Amount in ₹)

| Toll rates                                                          | Car, passenger van or jeep | Light commercial vehicles | Trucks or buses | Multi-axle vehicles (> 2 Axles) |
|---------------------------------------------------------------------|----------------------------|---------------------------|-----------------|---------------------------------|
| Fee for single journey                                              | 65.00                      | 115.00                    | 225.00          | 365.00                          |
| Fee for multiple trips within a day                                 | 95.00                      | 170.00                    | 340.00          | 550.00                          |
| Fee for monthly pass for use of section continuously and frequently | 1,945.00                   | 3,410.00                  | 6,815.00        | 10,955.00                       |

GIPL is permitted to collect fees from local traffic as per the discounted rates as specified in the GIPL Concession Agreement and is required to issue appropriate passes or make refunds in a manner that minimizes the inconvenience to local traffic. The GIPL Concession Agreement also exempts certain vehicles as identified in the GIPL Concession Agreement from payment of fees.

### Traffic Study

GIPL Project Road is a part of NH-47 which originates at Kanyakumari and ends at Salem. It connects the cities of Kochi, Thrissur and Coimbatore and runs in proximity to the Cochin Refinery, Cochin Port and the proposed KINFRA Gem and jewellery park, a full-fledged infrastructure facility for ornament making and its allied activities (Source: CRISIL Report). The growth in ADT in PCU terms for the GIPL Project is as provided below:

|                               | For the first two months of Fiscal 2018 <sup>#</sup> | Fiscal  |        |         |        |        |
|-------------------------------|------------------------------------------------------|---------|--------|---------|--------|--------|
|                               |                                                      | 2017    | 2016   | 2015    | 2014   | 2013   |
| ADT in PCU terms              | 64,524                                               | 59,891* | 56,471 | 52,594  | 53,596 | 37,074 |
| % growth year on year in PCUs | 4.60%                                                | 6.05%   | 7.37%  | (1.87)% | -**    | N.A.   |

\*GIPL Project was operational only for a period of 8.73 days during November, 2016 and 29 days for December, 2016, due to suspension of tolls by GOI post demonetisation announcement. Hence project was operational for 341.73 days during Fiscal 2017

\*\* Traffic growth for GIPL Project in Fiscal 2014 over previous year could not be computed due to incomplete traffic numbers of Fiscal 2013 due to limitations of toll information system then being used by GIPL

# ADT in PCU terms has been arrived by considering traffic numbers for the first two months of Fiscal 2018 and year on year growth during the first two months of Fiscal 2018 was calculated comparing average daily traffic during first two months of Fiscal 2018 vis-à-vis first two months of Fiscal 2017.

#### **Note**

- Average Daily Traffic (total traffic divided by number of days project was operational during the year)
- The PCU Conversion Factor for various categories of vehicles is as under:

| Vehicle Category                          | PCU Conversion Factor |
|-------------------------------------------|-----------------------|
| Car / Light Motor Vehicle (LMV)           | 1.0                   |
| Light Commercial Vehicle (LCV) / Mini Bus | 1.5                   |
| Truck / Bus                               | 3.0                   |
| Multi- Axle Vehicle (MAV)                 | 4.5                   |
| Oversized Vehicle (OSV)                   | 4.5                   |

(Source – Certificate dated June 23, 2017 issued by Kamal H Agarwal & Associates, Chartered Accountants (Firm No: 327616-E)

#### **Project Cost and Financing**

As of April 18, 2016, (i.e. date of receipt of Final COD) the GIPL Project cost as per certificate dated June 21, 2017 issued by Gianender & Associates, Chartered Accountants, was ₹ 7,212.35 million, which includes a payment of ₹ 150.00 million as upfront Negative Grant to NHAI. The above Project Cost was funded by ₹ 1,689.40 million equity share capital, ₹ 885.44 million as sponsor's fund, ₹ 4,575.95 million of term loan from banks, current liability (net of current assets) of ₹ 54.14 million and project reserve and surplus of ₹ 7.42 million.

#### **Financial Information**

For the Fiscal 2017, GIPL's total revenue and net loss, as per its audited financial statements, was ₹ 1,193.20 million and ₹ 108.81 million, respectively.

As of March 31, 2017, the total outstanding debt due to banks (including current maturities of loan term debt) was ₹ 3,401.58 million and secured debentures outstanding was ₹ 986.46 million.

For further details, please refer to the chapter "Financial Statements – Identified Associates Audited Financial Statements" on page 303.

### **2. Mahakaleshwar Tollways Private Limited ("MTPL")**

#### **Description**

The MTPL Project is for four laning of the Indore-Ujjain portion from Ch. 5/2 to Ch. 53 on State Highway 27 ("MTPL Project Road") on a DBFOT pattern, on a BOT Toll basis in the state of Madhya Pradesh ("MTPL Project"). The Concession Agreement for the MTPL Project was signed on September 17, 2008 ("MTPL Concession Agreement").

The Provisional COD for the MTPL Project was received on November 19, 2010. The Final COD was received on February 17, 2011.

We began collecting toll for MTPL Project Road on November 20, 2010. This project has one operational toll plaza.

#### **Concession Operators**

MTPL is the operator of the MTPL Project. Our Company owns 48.00% of the equity share capital in MTPL, while Galfar Engineering & Contracting S.O.AG., Varaha Infra Limited and Varaha Construction Company own 26.00%, 25.62% and 0.38%, respectively. For more information on MTPL, please refer to the chapter "Our Subsidiaries and Associates" on page 184. Further, the engineering, procurement and construction work of the MTPL Project has been carried out by Galfar Engineering & Contracting (India) Private Limited, and Varaha Infra Limited.

### Key Terms of the Concession

The concession was granted by the MPRDC. The term of the concession is 25 years starting from May 26, 2009 and expires in May 25, 2034.

The concession agreement provides that MPRDC shall ensure that for a period of fifteen years from the appointed date, neither MPRDC itself, nor any other government instrumentality shall, construct or cause to be constructed any expressway or toll road between of State Highway - 27 from Ch. 5/2 Indore to Ch. 53 at Ujjain (collectively the “**MTPL Additional Tollway**”). This restriction shall not apply if such length of MTPL Additional Tollway is more than 20.00% of the MTPL Project Road. Further, the toll rate of the MTPL Additional Tollway, shall not be less than 25.00% higher than the toll rate of the MTPL Project. If new toll road is opened to traffic between the 20<sup>th</sup> and 25<sup>th</sup> anniversary of the Appointed Date for the MTPL Project, MTPL shall be entitled to an additional concession period, which shall be equal in duration to the period between the opening of the MTPL Additional Tollway and the 25<sup>th</sup> (twenty fifth) anniversary.

As per the terms of the MTPL Concession Agreement, traffic is estimated to be 37,096 PCUs per day (the “**Target Traffic**”) as of June 1, 2020 (the “**Target Date**”) and if the average of traffic sampling undertaken on the date one year prior to the Target Date falls short of Target Traffic by more than 2.50%, then for every 1.00% of shortfall as compared to Target Traffic, the Concession Period shall, subject to payment of concession fee in accordance with MTPL Concession Agreement, be increased by 1.50% subject to the increase of period not exceeding 20.00% of the Concession Period. Similarly, if the aforesaid traffic sampling exceeds Target Traffic by more than 2.50%, then for every 1.00% excess as compared to Target Traffic the Concession Period shall be reduced by 0.75%, subject to the reduction of period not exceeding 10.00% of the concession period. In case of reduction of the Concession Period, MTPL may choose to pay a further premium of 25.00% of the realisable fee in lieu of reduction of Concession Period.

### Toll collection

MTPL has entered into an agreement for operation and maintenance of the MTPL Project with Kosher Infrastructure Private Limited (“**Kosher**”) dated May 27, 2016 whereby Kosher undertakes *inter alia* toll collection activities.

The current toll rates are subject to and in accordance with the fee determination rules and the fee notifications issued by MPRDC. The concession agreement allows the toll rates to be revised annually on September 1 but is subject to and in accordance with the provisions of the fee determination rules and fee notifications. The current toll rates per vehicle as specified in the letter dated August 27, 2016 issued by MPRDC for the toll plaza is as follows:

(Amount in ₹)

|            | Car   | Light Commercial Vehicles | Bus    | Trucks | Multi-axle Trucks |
|------------|-------|---------------------------|--------|--------|-------------------|
| Toll rates | 25.00 | 65.00                     | 135.00 | 165.00 | 325.00            |

The rate of monthly pass is ₹ 80.00.

### Traffic Study

MTPL Project Road is a part of SH-27 which connects Rajasthan border in the north and Maharashtra border in the south. On its way it connects the cities of Ujjain, Indore and Pitampur. Indore is the largest and most populous city of the Indian state of Madhya Pradesh and it successfully qualified in Phase-1 of the Smart Cities Mission. SEZ Indore, which is serviced by the MTPL Project Road, is the only Green Field multi product SEZ of India, and is considered to be growth engines to boost manufacturing, augment exports and generate large scale employment and economic activities. Similarly, Ujjain is a prominent city in the state of Madhya Pradesh and an important place of pilgrimage. The Government of Madhya Pradesh is also developing Vikram Udyogpuri Project under the Delhi-Mumbai Industrial Corridor Project, being developed by the GOI (Source: CRISIL Report). The growth in ADT for the MTPL Project is as provided below:

|                               | For the first two months of Fiscal | Fiscal  |        |        |        |        |
|-------------------------------|------------------------------------|---------|--------|--------|--------|--------|
|                               | 2018 <sup>#</sup>                  | 2017*   | 2016   | 2015   | 2014   | 2013   |
| ADT in PCU terms              | 16,355 <sup>#</sup>                | 15,570  | 15,863 | 15,750 | 13,754 | 13,365 |
| % growth year on year in PCUs | N.A.**                             | (1.85)% | 0.72%  | 14.52% | 2.91%  | N.A.   |

\* MTPL Project was operational only for a period of 8.73 days during November, 2016 and 29 days for December, 2016, due

to suspension of tolls by GOI post demonetisation announcement. Further, toll collections in MTPL Project was suspended by the Authority from April 1, 2016 to May 31, 2016 in view of Kumbh Mela. For computing Average Daily Traffic, the number of operating days during the year have been reduced by 61 days for the project. Hence project was operational for only 280.73 days for Fiscal 2017

\*\* Since the tolling was suspended due to Kumbh Mela from April 1, 2016 to May 31, 2016, the comparison with the period April 1, 2017 to May 31, 2017 has not been provided

# ADT in PCU terms has been arrived by considering traffic numbers for the first two months of Fiscal 2018.

## Notes

Average Daily Traffic (total traffic divided by number of days project was operational during the year)

The PCU Conversion Factor for various categories of vehicles is as under:

| Vehicle Category                          | PCU Conversion Factor |
|-------------------------------------------|-----------------------|
| Car / Light Motor Vehicle (LMV)           | 1.0                   |
| Light Commercial Vehicle (LCV) / Mini Bus | 1.5                   |
| Truck / Bus                               | 3.0                   |
| Multi- Axle Vehicle (MAV)                 | 4.5                   |
| Oversized Vehicle (OSV)                   | 4.5                   |

(Source – Certificate dated June 23, 2017 issued by Kamal H Agarwal & Associates, Chartered Accountants (Firm No: 327616-E)

## Project Cost and Financing

As of February 17, 2011, (i.e. date of receipt of Final COD), the MTPL Project cost as per certificate dated July 26, 2017 issued by Sunil Saraf & Associates, Chartered Accountants, was ₹ 3,303.56 million. The above project cost was financed by way of sponsors' contribution in the form of equity share capital of ₹ 1,019.11 million and term loan from lenders of ₹ 2,300.80 million and net current liabilities/ (assets) of ₹ (16.35) million.

## Financial Information

For the Fiscal 2017, MTPL's total revenue and net loss, as per its audited financial statements, was ₹ 186.05 million and ₹ 147.57 million, respectively. For further details, please refer to the chapter "Financial Statements – Identified Associates Audited Financial Statements" on page 303.

As of March 31, 2017, the total outstanding debt due to banks/ financial institutions (including current maturities of loan term debt) was ₹ 1,648.35 million.

## 3. Kurukshetra Expressway Private Limited ("KEPL")

### Description

The KEPL Project is for augmenting the existing road by four laning the Rohtak-Bawal section of NH-71 from km 363.30 to km 450.80 in the state of Haryana on DBFOT Toll basis ("**KEPL Project**"). The Concession Agreement for the project was signed on July 13, 2010 (the "**KEPL Principal Concession Agreement**"). This agreement was amended by way of Supplementary Agreements dated August 22, 2013, March 5, 2014, September 9, 2014 and January 15, 2016 ("**KEPL Supplementary Agreements**") (the KEPL Principal Concession Agreement and the KEPL Supplementary Agreements are together referred to as "**KEPL Concession Agreement**")

The 1<sup>st</sup> Provisional COD was granted on August 24, 2013 and a 2<sup>nd</sup> Provisional COD was granted on September 30, 2014. We have constructed 83.16 kms against the design length of 82.55 kms and are awaiting receipt of the Final COD which is subject to completion of work as per punch list prepared by the independent engineer, delayed due to reasons attributable to the Concessioning Authority and KEPL. The KEPL Project has 2 operational toll plazas and we began collecting toll on September 1, 2013.

### Concession Operators

KEPL is the operator of the KEPL Project. Our Company owns 35.89% of the equity share capital of KEPL while JMC Projects India Limited, IPDC and MPM Holding Private Limited hold 49.57%, 13.11% and 1.43% equity shareholding in KEPL. Additionally, SREI and Mr. Saurabh Gupta hold 4,900 and 200 equity shares of KEPL which is less than 0.10% of equity shareholding of KEPL. For more information on KEPL, please refer to the chapter "Our Subsidiaries and Associates" on page 184. The engineering, procurement and construction work of the KEPL

Project has been carried out by JMC Projects (India) Limited.

### Key Terms of the Concession

The concession was granted by the NHAI. The term of the concession is 28 years starting from May 10, 2011 i.e. Appointed Date and expiring in May 9, 2039.

The concession agreement provides that NHAI shall ensure that for a period of 12 years from the appointed date, neither NHAI itself nor any Government instrumentality and shall, construct or cause to be constructed any expressway or other toll road inter alia between Rohtak and Bawal i.e. km 363.300 and km 450.800 on NH-71 (collectively the “**KEPL Additional Tollway**”). This restriction shall not apply if the length of the KEPL Additional Tollway is more than 20.00% of the length of the KEPL Project Road. Further, the toll rate of KEPL Additional Tollway, shall not be less than 25.00% higher than the toll rate of the KEPL Project Road. If the new toll road is opened to traffic between the 12<sup>th</sup> and 28<sup>th</sup> anniversary of the appointed date, KEPL shall be entitled to an additional concession period, which shall be equal in duration to the period between the date opening of the KEPL Additional Tollway and the 28<sup>th</sup> anniversary.

As per the terms of the concession agreement, traffic is estimated to be 22,800 PCUs per day (“**Target Traffic**”) as of September 1, 2019 (“**Target Date**”) and if the average of traffic sampling undertaken on the date one year prior to the Target Date, the Target Date and on the first anniversary of the Target Date falls short of Target Traffic by more than 2.50%, then for every 1.00% of shortfall as compared to Target Traffic, the concession period shall subject to payment of concession fee in accordance with KEPL Concession Agreement be increased by 1.50% subject to the increase of period not exceeding 20.00% of the concession period. Similarly, if the aforesaid traffic sampling exceeds Target Traffic by more than 2.50%, then for every 1.00% excess as compared to Target Traffic the concession period shall be reduced by 0.75% subject to the reduction of period not exceeding 10.00% of the concession period. In case of reduction of the concession period, KEPL may choose to pay a further premium of 25.00% of the realisable fee in the respective year in lieu of reduction of concession period.

### Toll Collection

KEPL has entered into an agreement for tolling operations of the KEPL Project with Skylark Infra Engineering Private Limited (“**Skylark**”) dated July 1, 2016 pursuant to which Skylark undertakes tolling operations. KEPL has also entered into an agreement for route operations, incident and corridor management of the KEPL Project with Kosher dated October 24, 2016 whereby Kosher undertakes the route operations and routine maintenance activities. KEPL has also entered into an agreement with Kosher dated October 24, 2016 to undertake route maintenance including complete horticulture and cleaning services.

As per the KEPL Concession Agreement, KEPL is entitled during the operations period to levy, collect and appropriate the fees from the users of the KEPL Project Road at the toll plaza pursuant to and in accordance with the fee notified by NHAI from time to time. The fees to be collected are revised annually (1) by 3.00% per annum and (2) based on extent of variation in WPI subject to such revision not exceeding 40.00% of the increase in WPI. The current toll rates per vehicle as specified in the letter dated March 27, 2017 issued by NHAI for the toll plazas is as follows:

|                                                                        | (Amount in ₹)                        |                                                 |                  |                                                                                                  |                                           |
|------------------------------------------------------------------------|--------------------------------------|-------------------------------------------------|------------------|--------------------------------------------------------------------------------------------------|-------------------------------------------|
|                                                                        | Car, jeep, van, light motor vehicles | Mini buses, light commercial and goods vehicles | Trucks and buses | Heavy construction machinery, earth moving equipment or multi-axle vehicles (three to six axles) | Over-sized vehicles (seven or more axles) |
| <b>Dighal Village toll plaza at km 370.420 for 38.280 km</b>           |                                      |                                                 |                  |                                                                                                  |                                           |
| Fee for single journey                                                 | 40.00                                | 65.00                                           | 140.00           | 215.00                                                                                           | 265.00                                    |
| Fee for multiple journey (max. no of two one way) journey within a day | 60.00                                | 100.00                                          | 205.00           | 325.00                                                                                           | 395.00                                    |

| Fee for single journey                                                 | 70.00                                | 110.00                                          | 220.00           | 340.00                                                                                           | 430.00                                    |
| Fee for multiple journey (max. no of two one way) journey within a day | 105.00                               | 160.00                                          | 330.00           | 510.00                                                                                           | 650.00                                    |
| Fee for monthly pass for                                               | 2,310.00                             | 3,600.00                                        | 7,385.00         | 11,315.00                                                                                        | 14,405.00                                 |

|                               | Car, jeep, van, light motor vehicles | Mini buses, light commercial and goods vehicles | Trucks and buses | Heavy construction machinery, earth moving equipment or multi-axle vehicles (three to six axles) | Over-sized vehicles (seven or more axles) |
|-------------------------------|--------------------------------------|-------------------------------------------------|------------------|--------------------------------------------------------------------------------------------------|-------------------------------------------|
| 50 single journeys in a month |                                      |                                                 |                  |                                                                                                  |                                           |

KEPL is permitted to collect fees from local traffic as per the discounted rates as specified in the KEPL Concession Agreement and is required to issue appropriate passes or make refunds in a manner that minimizes the inconvenience to local traffic. The KEPL Concession Agreement also exempts certain vehicles as identified in the KEPL Concession Agreement from payment of fees.

### Traffic Study

KEPL Project Road is a part of NH-71, which starts at Jalandhar and ends at NH-8 near Bawal. On its way it connects the cities of Moga, Sangrur and Rohtak. An industrial model township being set-up in Rohtak, of which Phase I has been developed while Phase II is under development. Similarly, the Manesar-Bawal region that is serviced by the KEPL Project road is one of the investment regions selected for development in the first phase of the Delhi-Mumbai Industrial Corridor Project, being developed by the GOI and is expected to contribute to major expansion of infrastructure and industry in the state of Haryana (Source: CRISIL Report).

The growth in ADT for the KEPL Project is as provided below:

|                               | For the first two months of Fiscal 2018 <sup>#</sup> | 2017     | 2016    | 2015   | 2014             |
|-------------------------------|------------------------------------------------------|----------|---------|--------|------------------|
| ADT in PCU terms              | 23,902                                               | 20,167** | 20,872* | 21,115 | 21,468           |
| % growth year on year in PCUs | 19.47%                                               | (3.37)%  | (1.15)% | 1.65%  | NA <sup>##</sup> |

\* KEPL Project Toll collection was affected during 'Jat Quota Agitation' in the month of February 2016. Toll collection was suspended for 11 days on one Toll Plaza and 3 days on another Toll Plaza. On overall basis, the project has been taken as not operating due to said agitation for 7 days during Fiscal 2016.

\*\*KEPL Project was operational only for a period of 8.73 days during November, 2016 and 29 days for December, 2016, due to suspension of tolls by GOI post demonetisation announcement. Hence project was operational for 341.73 days during Fiscal 2017.

<sup>#</sup> ADT in PCU terms has been arrived by considering traffic numbers for the first two months of Fiscal 2018. The year on year growth during the first two months of Fiscal 2018 was calculated comparing average daily traffic during first two months of Fiscal 2018 vis-à-vis first two months of Fiscal 2017.

<sup>##</sup>Project started toll collection from August 24, 2013, hence operational for a period of 220 days during Fiscal 2014.

### Notes:

- Average Daily Traffic (total traffic divided by number of days project was operational during the year)
- ADT has been arrived by taking the mean of the traffic numbers of 2 toll plazas.
- The PCU Conversion Factor for various categories of vehicles is as under:

| Vehicle Category                          | PCU Conversion Factor |
|-------------------------------------------|-----------------------|
| Car / Light Motor Vehicle (LMV)           | 1.0                   |
| Light Commercial Vehicle (LCV) / Mini Bus | 1.5                   |
| Truck / Bus                               | 3.0                   |
| Multi- Axle Vehicle (MAV)                 | 4.5                   |
| Oversized Vehicle (OSV)                   | 4.5                   |

(Source – Certificate dated June 23, 2017 issued by Kamal H Agarwal & Associates, Chartered Accountants (Firm No: 327616-E)

### Project Cost and Financing

As of March 31, 2017, the KEPL Project cost as per certificate dated July 27, 2017 issued by MKPS & Associates, Chartered Accountants, was ₹ 10,236.62 million. The above project cost was financed by ₹ 1,985.18 million of equity contribution, ₹ 7,810.55 million of term loan from banks, ₹ 425.29 million of sponsor's contribution and current liability (net of current assets) of ₹ 15.60 million.

### Financial Information

For the Fiscal 2017, KEPL's total revenue and net loss, as per its audited financial statements, was ₹ 770.76 million and ₹ 715.28 million, respectively. For further details, please refer to the chapter "Financial Statements – Identified Associates Audited Financial Statements" on page 303.

As of March 31, 2017, the outstanding debt due to banks (including current maturities of loan term debt) was ₹ 7,414.54 million. For further details, please refer to the chapter “Financial Statements – Identified Associates Audited Financial Statements” on page 303.

#### 4. Ghaziabad Aligarh Expressway Private Limited (“GAEPL”)

##### Description

The toll project is for four laning of the Ghaziabad-Aligarh section of NH-91 connecting km 23.60 to km 140.20 of NH-91 on DBFOT pattern on BOT Toll basis (“**GAEPL Project Road**”) and subsequent six laning of the GAEPL Project Road (excluding Aligarh bypass from km 129.60 to km 149.90) before the 12<sup>th</sup> anniversary of the appointed date i.e. February 25, 2011 (“**GAEPL Project**”). The Concession Agreement for the project was signed on May 20, 2010 (“**GAEPL Concession Agreement**”).

The Provisional COD was received on June 23, 2015, a delay of approximately 669 days from the scheduled commercial operation date, due to delay in handing over of certain stretches on the GAEPL Project Road by the Concessioning Authority. The independent engineer vide its letter dated February 11, 2015 had recommended extension of scheduled four laning date to September 14, 2015. GAEPL has received 2<sup>nd</sup> Provisional COD on November 25, 2016, a delay of approximately 1,190 days from the scheduled commercial operation date, due to further delay in handing over of certain stretches on the GAEPL Project Road by the Concessioning Authority. The independent engineer has recommended completion of all other balance activities within 90 days of issuance of 2<sup>nd</sup> Provisional COD dated November 25, 2016 which was completed by GAEPL and intimated to the independent engineer vide letter dated March 4, 2017.

We began collecting toll on June 24, 2015. The GAEPL Project has 2 operational toll plazas.

##### Concession Operator

GAEPL is the operator of the GAEPL Project. Our Company owns 39.00% of the equity share capital in GAEPL, while PNC Infratech Limited, PNC Infra Holdings Limited, Galfar Engineering & Contracting (India) Private Limited and Galfar Engineering & Contracting S.A.O.G., own 15.12%, 19.88%, 23.91% and 2.09%, respectively. For more information on GAEPL, please refer to the chapter “Our Subsidiaries and Associates” on page 184. Further, the engineering, procurement and construction work of the GAEPL Project has been carried out by PNC Infratech Limited, and Galfar Engineering & Contracting (India) Private Limited.

##### Key Terms of the Concession

The concession was granted by the NHAI. The term of the GAEPL Concession Agreement is 24 years starting from the appointed date i.e. February 25, 2011 and expiring in February 24, 2035. The GAEPL Concession Agreement provides that NHAI shall ensure that for a period of twenty-four years from the appointed date, neither NHAI itself, nor any other government instrumentality shall, construct or cause to be constructed any expressway or other toll road between inter alia km 23.600 and km 140.200 of NH-91 (collectively the “**GAEPL Additional Tollway**”) for use by traffic. This restriction shall not apply if the length of the GAEPL Additional Tollway is more than 20.00% of the length of the GAEPL Project Road. Further, the toll rate of GAEPL Additional Tollway, shall not be less than 25.00% higher, than the toll rate of the GAEPL Project Road. If the GAEPL Additional Tollway is opened to traffic between the 15<sup>th</sup> and 24<sup>th</sup> anniversary of the appointed date, GAEPL shall be entitled to an additional Concession Period, which shall be equal in duration to the period between the opening of GAEPL Additional Tollway and the 24<sup>th</sup> anniversary

As per the terms of the concession agreement, traffic is estimated to be 37,550 PCUs per day (the “**Target Traffic**”) as of December 1, 2018 (the “**Target Date**”) and if the average of traffic sampling undertaken on the date one year prior to the Target Date, the Target Date and on the first anniversary of the Target Date falls short of Target Traffic by more than 2.50%, then for every 1.00% of shortfall as compared to Target Traffic, the concession period shall, subject to payment of concession fee in accordance with GAEPL Concession Agreement, be increased by 1.50% subject to the increase of period not exceeding 20.00% of the concession period. Similarly, if the aforesaid traffic sampling exceeds Target Traffic by more than 2.50%, then for every 1.00% excess as compared to Target Traffic the concession period shall be reduced by 0.75% subject to the reduction of period not exceeding 10.00% of the concession period. In case of reduction of the concession period, GAEPL may choose to pay a further premium of 25.00% of the realisable fee in lieu of reduction of concession period.

## Toll Collection

GAEPL undertakes O&M and tolling operation for the GAEPL Project road.

As per the GAEPL Concession Agreement, GAEPL is entitled during the operations period to levy, collect and appropriate the fees from the users of the GAEPL Project Road at the toll plaza pursuant to and in accordance with the fee notified by NHAI from time to time. The fees to be collected are revised annually (1) by 3.00% per annum and (2) based on extent of variation in WPI subject to such revision not exceeding 40.00% of the increase in WPI. The GAEPL Concession Agreement allows the toll rates to be revised annually on April 1 but is subject to and in accordance with the provisions of the fee determination rules and Concession Agreement. The current toll rates per vehicle as specified in the letter dated March 31, 2017 by NHAI for the toll plazas are as follows:

(Amount in ₹)

| Particulars                                         | Car, jeep, van, light motor vehicles | Mini buses, light commercial and goods vehicles | Trucks and buses | Heavy construction machinery, earth moving equipment or multi-axle vehicles (three or six axles) | Over-sized vehicles (seven or more axles) |
|-----------------------------------------------------|--------------------------------------|-------------------------------------------------|------------------|--------------------------------------------------------------------------------------------------|-------------------------------------------|
| <b>Luharali Village toll plaza at km 47.500</b>     |                                      |                                                 |                  |                                                                                                  |                                           |
| Fee for single journey                              | 105.00                               | 160.00                                          | 330.00           | 505.00                                                                                           | 650.00                                    |
| Fee for return journey within a day                 | 155.00                               | 245.00                                          | 500.00           | 760.00                                                                                           | 975.00                                    |
| Fee for monthly pass for 50 or more single journeys | 3,480.00                             | 5,405.00                                        | 11,055.00        | 16,890.00                                                                                        | 21,625.00                                 |
| <b>Somna Village toll plaza at km 113.30</b>        |                                      |                                                 |                  |                                                                                                  |                                           |
| Fee for single journey                              | 135.00                               | 210.00                                          | 420.00           | 635.00                                                                                           | 835.00                                    |
| Fee for return journey within a day                 | 205.00                               | 315.00                                          | 630.00           | 955.00                                                                                           | 1,250.00                                  |
| Fee for monthly pass for 50 or more single journeys | 4,560.00                             | 6,970.00                                        | 14,045.00        | 21,240.00                                                                                        | 27,795.00                                 |

GAEPL is permitted to collect fees from local traffic as per the discounted rates as specified in the GAEPL Concession Agreement and is required to issue appropriate passes or make refunds in a manner that minimizes the inconvenience to local traffic. The GAEPL Concession Agreement also exempts certain vehicles as identified in the GAEPL Concession Agreement from payment of fees.

## Traffic Study

GAEPL Project Road connects Ghaziabad to Aligarh in UP and services the Ghaziabad belt which is part of the National Capital Region (NCR). Ghaziabad is the hub of engineering, electronics, and leather and textile goods. Further, the proposed Dadri-Noida-Ghaziabad Investment Region is coming up in proximity to the GAEPL Project. (Source: CRISIL Report)

GAEPL started its tolling operation on June 24, 2015. The growth in ADT for the GAEPL Project is as provided below:

|                               | For the first two months of Fiscal 2018 <sup>#</sup> | Fiscal 2017 | Fiscal 2016 |
|-------------------------------|------------------------------------------------------|-------------|-------------|
| ADT in PCU terms              | 28,716                                               | 26,042**    | 24,436*     |
| % growth year on year in PCUs | 10.27%                                               | 6.57%       | N.A.        |

\* GAEPL Project started toll collection started from June 23, 2015 and it was operational for a period of 283 days during Fiscal 2016

\*\*GAEPL Project was operational only for a period of 8.73 days during November, 2016 and 29 days for December, 2016, due to suspension of tolls by GOI post demonetisation announcement. Hence project was operational for 341.73 days during Fiscal 2017

<sup>#</sup>ADT in PCU terms has been arrived by considering traffic numbers for the first two months of Fiscal 2018. The year on year growth during the first two months of Fiscal 2018 was calculated comparing average daily traffic during first two months of Fiscal 2018 vis-à-vis first two months of Fiscal 2017.

### Note:

- Average Daily Traffic (total traffic divided by number of days' project was operational during the year)
- ADT has been arrived by taking the mean of the traffic numbers of 2 toll plazas.
- The PCU Conversion Factor for various categories of vehicles is as under:

| Vehicle Category                          | PCU Conversion Factor |
|-------------------------------------------|-----------------------|
| Car / Light Motor Vehicle (LMV)           | 1.0                   |
| Light Commercial Vehicle (LCV) / Mini Bus | 1.5                   |
| Truck / Bus                               | 3.0                   |
| Multi- Axle Vehicle (MAV)                 | 4.5                   |
| Oversized Vehicle (OSV)                   | 4.5                   |

(Source – Certificate dated June 23, 2017 issued by Kamal H Agarwal & Associates, Chartered Accountants (Firm No: 327616-E)

### Project Cost and Financing

As of March 31, 2017, the GAEPL Project cost, as per certificate dated June 23, 2017 issued by RMA and Associates, Chartered Accountants, was ₹ 19,248.22 million. The above project cost was financed by equity share capital of ₹ 1,940.00 million, term loan from banks of ₹ 15,139.98 million, grant from NHAI as capital work in progress of ₹ 137.15 million, current liability (net of current assets) of ₹ 644.23 million and sponsors' contribution of ₹ 1,386.86 million.

### Financial Information

For the Fiscal 2017, GAEPL's total revenue and net loss, as per its audited financial statements for Fiscal 2017, was ₹ 1,480.46 million and ₹ 513.90 million, respectively.

As of March 31, 2017, the outstanding debt due to banks (including current maturities of loan term debt) was ₹ 13,370.46 million. For further details, please refer to the chapter "*Financial Statements – Identified Associates Audited Financial Statements*" on page 303.

## **5. Shree Jagannath Expressways Private Limited ("SJEPL")**

### Description

The SJEPL Project is for augmenting the existing road from km 413.00 to km 418.00 and km 0.00 to km 62.00 on Chandikhol-Jagatpur-Bhubaneswar section of NH-5 in the state of Odisha by six laning the Chandikhole-Jagatpur-Bhubaneswar section of NH-5 ("**SJEPL Project Road**") in the state of Odisha on a DBFOT pattern on BOT Toll basis ("**SJEPL Project**"). The Concession Agreement for the project was signed on August 6, 2010 ("**SJEPL Original Concession Agreement**"). This agreement was amended by way of Supplementary Agreements dated November 27, 2014, November 26, 2015 and November 11, 2016 ("**SJEPL Supplementary Agreements**") (the SJEPL Principal Concession Agreement and the SJEPL Supplementary Agreements are together referred to as "**SJEPL Concession Agreement**").

As SJEPL Project is augmentation of the SJEPL Project Road by six laning the existing four lane road to six lanes, the appointed date for the SJEPL Project i.e. December 14, 2011. We began collecting toll on December 14, 2011, which was the date of commencement of operations of the SJEPL Project. The Provisional COD for the SJEPL Project was received on January 12, 2017.

### Concession Operators

SJEPL is the operator of the SJEPL Project. Our Company owns 40.00% of the equity share capital in SJEPL, while our partners Simplex Infra Development Limited, Simplex Infrastructure Limited, Galfar Engineering and Contracting (India) Private Limited, and Galfar Engineering & Contracting, S.A.O.G., own 34.00%, 0.001%, 20.18% and 5.82%, respectively. For more information on SJEPL, please refer to the chapter "*Our Subsidiaries and Associates*" on page 184. The engineering, procurement and construction work of the SJEPL Project has been carried out by Simplex Infrastructure Limited and RKD Construction Private Limited.

### Key Terms of the Concession

The concession was granted by the NHAI. The term of the SJEPL Concession Agreement is 26 years starting from December 14, 2011, i.e. the appointed date and expiring on December 13, 2037.

The Concession Agreement provides that NHAI shall ensure that for a period of twelve years from the appointed date, neither NHAI itself, nor any other government instrumentality shall, construct or cause to be constructed any expressway or other toll road between Chandikhole, Jagatpur and Bhubaneswar (inter alia km 431.00, km

418.00 and km 0.00 and km 62.00 of NH-5) (collectively the “**SJEPL Additional Tollway**”) for use by traffic. This restriction shall not apply if the length of the SJEPL Additional Tollway is more than 20.00% of the SJEPL Project Road. Further, the toll rate of the SJEPL Additional Tollway, shall not be less than 25.00% higher than the toll rate of the SJEPL Project. If the SJEPL Additional Tollway is opened to traffic between the 12<sup>th</sup> and 26<sup>th</sup> anniversary of the appointed date, the SJEPL shall be entitled to an additional concession period, which shall be equal in duration to the period between the opening of the SJEPL Additional Tollway and the 26<sup>th</sup> anniversary.

As per the terms of the concession agreement, traffic is estimated to be 56,937 PCUs per day (the “**Target Traffic**”) as of April 1, 2020 (the “**Target Date**”) and if the average of traffic sampling undertaken on the date one year prior to the Target Date, the Target Date and on the first anniversary of the Target Date falls short of Target Traffic by more than 2.50%, then for every 1.00% of shortfall as compared to Target Traffic, the concession period shall subject to payment of concession fee in accordance with SJEPL Concession Agreement be increased by 1.50% subject to the increase of period not exceeding 20.00% of the concession period. Similarly, if the aforesaid traffic sampling exceeds Target Traffic by more than 2.50%, then for every 1.00% excess as compared to Target Traffic the concession period shall be reduced by 0.75% subject to the reduction of period not exceeding 10.00% of the concession period. In case of reduction of the concession period, SJEPL may choose to pay a further premium of 25.00% of the realisable fee in the respective year in lieu of reduction of concession period.

### Toll Collection

SJEPL undertakes tolling operation for the SJEPL Project road. However, it has entered into agreements with various parties in relation to route operations and maintenance services etc.

As per the SJEPL Concession Agreement, SJEPL is entitled during the Operations Period to levy, collect and appropriate the fees from the users of the SJEPL Project Road at the toll plaza pursuant to and in accordance with the fee notified by NHAI from time to time. The fees to be collected are revised annually (1) by 3.00% per annum and (2) based on extent of variation in WPI subject to such revision not exceeding 40.00% of the increase in WPI. The current toll rates per vehicle as specified in the letter dated February 23, 2017 issued by NHAI for the toll plaza is as follows:

(Amount in ₹)

| Particulars                                   | Car, jeep, van, light motor vehicles | Mini buses, light commercial and goods vehicles | Trucks and buses | Heavy construction machinery, earth moving equipment or multi-axle vehicles (three to six axles) | Over-sized vehicles (seven or more axles) |
|-----------------------------------------------|--------------------------------------|-------------------------------------------------|------------------|--------------------------------------------------------------------------------------------------|-------------------------------------------|
| Fees for single journey                       | 100.00                               | 160.00                                          | 330.00           | 510.00                                                                                           | 640.00                                    |
| Fees for return journey within a day          | 155.00                               | 240.00                                          | 495.00           | 765.00                                                                                           | 960.00                                    |
| Fees for monthly pass for 50 single journeys  | 3,390.00                             | 5,340.00                                        | 11,015.00        | 17,000.00                                                                                        | 21,350.00                                 |
| Fees for local personal vehicles monthly pass | 235 per month                        |                                                 |                  |                                                                                                  |                                           |

SJEPL is permitted to collect fees from local traffic as per the discounted rates as specified in the SJEPL Concession Agreement and is required to issue appropriate passes or make refunds in a manner that minimizes the inconvenience to local traffic. The SJEPL Concession Agreement also exempts certain vehicles as identified in the SJEPL Concession Agreement from payment of fees.

### Traffic Study

The SJEPL Project is located on the NH-5 between Chandikhol, where a strategic petroleum reserve (4.4 MMT storage capacity) is being planned and Bhubaneswar, the capital of Odisha and centre of economic importance and one of the biggest smart city proposals at over ₹ 45,300.00 million (Source: CRISIL Report). The SJEPL Project also envisages tolling on the bridge across the Mahanadi river. The growth in ADT for the SJEPL Project is as provided below:

|                               | For the first two months of Fiscal 2018 <sup>#</sup> | Fiscal  |        |         |         |        |
|-------------------------------|------------------------------------------------------|---------|--------|---------|---------|--------|
|                               |                                                      | 2017    | 2016   | 2015    | 2014    | 2013   |
| ADT in PCU terms              | 45,100                                               | 43,287* | 38,692 | 35,934  | 37,427  | 37,630 |
| % growth year on year in PCUs | 6.84%                                                | 11.90%  | 7.68%  | (3.99%) | (0.54%) | N.A.   |

<sup>#</sup>SJEPL Project was operational only for a period of 8.73 days during November, 2016 and 29 days for December, 2016, due to suspension of tolls by GOI post demonetisation announcement. Hence project was operational for 341.73 days during Fiscal

2017

# ADT in PCU terms has been arrived by considering traffic numbers for the first two months of Fiscal 2018. The year on year growth during the first two months of Fiscal 2018 was calculated comparing average daily traffic during first two months of Fiscal 2018 vis-à-vis first two months of Fiscal 2017.

Note:

- Average Daily Traffic (total traffic divided by number of days project was operational during the year)
- The PCU Conversion Factor for various categories of vehicles is as under:

| Vehicle Category                          | PCU Conversion Factor |
|-------------------------------------------|-----------------------|
| Car / Light Motor Vehicle (LMV)           | 1.0                   |
| Light Commercial Vehicle (LCV) / Mini Bus | 1.5                   |
| Truck / Bus                               | 3.0                   |
| Multi- Axle Vehicle (MAV)                 | 4.5                   |
| Oversized Vehicle (OSV)                   | 4.5                   |

(Source – Certificate dated June 23, 2017 issued by Kamal H Agarwal & Associates, Chartered Accountants (Firm No: 327616-E)

Project Cost and Financing

As of March 31, 2017, the amount expended towards SJEPL Project cost, as per certificate dated June 28, 2017 issued by Chaturvedi & Co., Chartered Accountants, was ₹ 18,030.71 million. The above project cost was financed by equity share capital of ₹ 1,478.70 million, term loan from senior lenders of ₹ 10,039.98 million, grant from NHAI of ₹ 1,773.97 million, internal accruals of ₹ 3,788.86 million, net accruals after provisional completion (February 25, 2017 to March 31, 2017) of ₹ 9.13 million and additional sponsors' fund (unsecured loan) of ₹ 940.07 million.

Financial Information

As the Provisional COD for the SJEPL Project was received on January 12, 2017, and the total revenue and net loss numbers have been determined from the date of receipt of the Provisional COD, no profit and loss statement has been prepared for SJEPL for the Fiscal 2016. For the Fiscal 2017, SJEPL's total revenue and net loss, as per its audited financial statements for Fiscal 2017, was ₹ 143.67 million and ₹ 11.29 million respectively. As of March 31, 2017, the outstanding debt due to banks (including current maturities of loan term debt) was ₹ 10,039.98 million.

**6. Solapur Tollways Private Limited ("STPL")**

Description

The STPL Project is for augmenting the existing road by four laning the Solapur-Maharashtra / Karnataka border section of NH-9 from km 249.00 to km 348.80 ("**STPL Project Road**") in the states of Maharashtra and Karnataka on DBFOT pattern on BOT Toll basis. ("**STPL Project**"). The Concession Agreement for the project was signed on February 29, 2012 ("**STPL Concession Agreement**").

The Project Director, PIU Solapur, vide his letter NHAI/PIU/SLP/MAH-KNTBorder/STPL/14029/10/1/1983 dated November 17, 2016 recommended extension of time of 213 days to Chief General Manager (Tech.), NHAI, Navi Mumbai, Maharashtra. The recommendation was accepted by the Chief General Manager (Tech.), NHAI, Navi Mumbai, Maharashtra and submitted the recommendation to the competent Authority at NHAI for approval. Once the approval is received and notified accordingly, then the revised Scheduled COD would be advanced to June 29, 2017.

Further, due to delays in achieving completion of Milestone III due to delays in acquisition of land, shifting of utilities and other reasons which are not attributable to STPL, STPL has, vide letter dated January 20, 2017 addressed to the independent engineer for the STPL Project, requested for further extension of time for execution of Milestone III and scheduled four-laning of the STPL Project up to February 15, 2018. However, pursuant to non-fulfilment of obligations of NHAI towards land acquisition, further delays in finalisation of change of scope, shifting of PHE Utility and electrical utility and unprecedented rainfall in Osmanabad District section of project highway in Fiscal 2017, STPL has vide its letter dated May 31, 2017 addressed to the independent engineer for the STPL Project, requested for extension of time for execution of Milestone III and scheduled four-laning of the STPL Project by 548 days from the Scheduled COD, i.e. up to May 31, 2018.

### Concession Operators

STPL is the operator of the project. Our Company and Coastal Projects Limited own 99.02% and 0.98% of the equity share capital of STPL. For more information on STPL, please refer to the chapter “*Our Subsidiaries and Associates*” on page 184. Further, the engineering, procurement and construction work of the project is being carried out by Varaha Infra Limited, PBA Infrastructure Limited, Shinde Developers Private Limited, Kilari Construction, Hyderabad and V&V Projects, Solapur.

### Key Terms of the Concession

The concession was granted by the NHAI. The term of the STPL Concession Agreement is 25 years starting from June 3, 2014 and expiring in June 2, 2039.

The concession agreement provides that NHAI shall ensure that for a period of 15 years from the appointed date, neither NHAI itself, nor governmental instrumentality shall, construct or cause to be constructed any expressway or other toll road between Solapur and Maharashtra/ Karnataka border i.e. km 249.00 to km 348.80 & Solapur Bypass on NH-9 (collectively the “**STPL Additional Tollway**”). This restriction shall not apply if the length of the proposed STPL Additional Tollway by more than by 20.00% the length of the STPL Project Road. Further, the toll rate of the STPL Additional Tollway shall not be less than 25.00% higher than the toll rate of the SJEPL Project. If the STPL Additional Tollway is opened to traffic between the 15<sup>th</sup> and 25<sup>th</sup> anniversary of the appointed date, STPL shall be entitled to an additional concession period which shall be equal in duration to the period between the opening of the STPL Additional Tollway and the 25<sup>th</sup> anniversary.

As per the terms of the concession agreement, traffic is estimated to be 23,391 PCUs per day (“**Target Traffic**”) as of April 1, 2021 (“**Target Date**”) and if the average of traffic sampling undertaken on the date one year prior to the Target Date, the Target Date and on the first anniversary of the Target Date falls short of Target Traffic by more than 2.50%, then for every 1.00% of shortfall as compared to Target Traffic, the concession period shall subject to payment of concession fee in accordance with STPL Concession Agreement be increased by 1.50% subject to the increase of period not exceeding 20.00% of the concession period. Similarly, if the aforesaid traffic sampling exceeds Target Traffic by more than 2.50%, then for every 1.00% excess as compared to Target Traffic the concession period shall be reduced by 0.75% subject to the reduction of period not exceeding 10.00% of the concession period. In case of reduction of the concession period, STPL may choose to pay a further premium of 25.00% of the realisable fee in the respective year in lieu of reduction of concession period.

### Traffic Study

STPL Project Road is part of NH-9 which connects west and east passing through major cities such as Vijayawada, Hyderabad, Pune and provides onward connectivity to Mumbai. The STPL Project Road comes within the Solapur District, which is the home to handloom and power loom weaving industry and beedi manufacturing industries (Source: CRISIL Report).

### Project Cost and Financing

As of July 15, 2017, amount expended towards the STPL Project cost, as per certificate dated July 28, 2017 issued by MKPS & Associates, Chartered Accountants, was ₹ 5,041.88 million. The above project cost was financed by equity share capital of ₹ 5.00 million of, ₹ issue of warrants of 1,764.20 million by, subordinate debt from the sponsors of the STPL Project of ₹ 658.20 million and term loan from banks / financial institutions of ₹ 2,614.48 million.

### Financial Information

As the STPL project is under construction and operations are yet to commence, for the Fiscal 2017, STPL’s total revenue and net loss, as per its audited financial statements, was ₹ 0.09 million and ₹ 1.11 million, respectively. For further details, please refer to the chapter “*Financial Statements – Identified Associates Audited Financial Statements*” on page 303.

## **PROJECT UNDER FORECLOSURE**

Other than the Projects operational under Final COD, Projects operational under Provisional COD and the Project under Construction, we have one more project that is currently under foreclosure. The OSEPL Project is for

augmenting the existing road on the Rimuli-Roxy-Rajamunda section of NH-215 from km 163.00 to km 269.00 (Four lane 84.6 km and Two Lane 11.853 km). The two lane stretch of 11.853 km from km 247.600 to km 259.453 of the project highway (“**OSEPL Project Road**”) shall be four laned before the eight anniversary of the date appointed by the NHAI in the state of Odisha on DBFOT Toll basis (“**OSEPL Project**”). The Concession Agreement for the project was signed on July 6, 2010 (the “**OSEPL Concession Agreement**”).

We entered into conciliation proceedings with NHAI in relation with foreclosure of the OSEPL Project due to delay in handing over of the requisite land for the purpose of the OSEPL Project. Pursuant to multiple rounds of NHAI conciliation committee meetings the NHAI Conciliation committee recommended that, as the project has been delayed due to NHAI not being able to hand over requisite land as per the OSEPL Concession Agreement and OSEPL not completing work on land already handed over, the foreclosure of the OSEPL Project be done by settlement between parties by mitigating costs of each other. The costs, as per the recommendation, was to be limited to direct costs and apprehensive indirect costs were not to be considered. As per the recommendation upon OSEPL agreeing to terms of the foreclosure, the OSEPL Concession Agreement would be foreclosed releasing the project for re-award by NHAI and OSEPL shall be compensated for actual work done after deducting maintenance charges, due receivables from OSEPL on account of payment to independent engineer and any penalties. In case the terms are not acceptable to OSEPL, it can invoke arbitration proceedings and NHAI would consider the same as termination of the project due to OSEPL’s defaults and it would also encash the bank guarantee and takeover the project for re-award.

NHAI by way of its letter dated January 13, 2017 has recommended foreclosure of the OSEPL Project and permitted OSEPL to settle its claims through settlement-cum ISAC procedure, failing which, OSEPL can invoke arbitration. OSEPL has communicated to NHAI by way of its letter dated January 18, 2017, that it accepted the proposal of NHAI and has considered the OSEPL Concession Agreement as foreclosed with effect from January 13, 2017 and has released the project for re-bid, subject to the claims of OSEPL. OSEPL *vide* its communication dated January 18, 2017 has confirmed to NHAI that the performance bank guarantee shall be kept alive till there is a settlement either amicably or through dispute resolution process or upon passing of any order by ISAC/ arbitrators or courts in this regard. Upon such resolution or order by the appropriate forum and will not be invoked in the meanwhile. Subsequently, NHAI has *vide* its letter dated May 5, 2017 suggested that the settlement-cum ISAC procedure be followed by an arbitration. OSEPL has on June 13, 2017 re-submitted its request to proceed under the settlement-cum ISAC procedure, failing which OSEPL will invoke arbitration. For further details, refer to the “*Risk Factors – One of our Projects which was under construction has been foreclosed by NHAI, subject to determination of amount of compensation through settlement-cum ISAC procedure. We cannot assure you that we would receive any part or whole of such compensation on a timely basis or at all*” on page 24.

## PROJECT CONSTRUCTION AND OPERATIONS

### (i) *Project Development and Implementation*

We perform a range of project development activities from the conceptualization of projects to commissioning and commencement of commercial operations. These activities include the following:

- Business development and pre-qualifications and tenders;
- Bidding;
- SPV formation and arranging financing for the project; and
- Management of logistical and development issues;

#### *Business development and pre-qualification activities*

We have a well-regulated management policy governing our strategy on bidding for projects. The entire bidding process of our Company is managed by a Bid Management Committee which comprises of technical, financial and operational teams. Our business development team identifies potential projects and prepares the bids generally by monitoring the published tenders of local, state and central governments. Our technical team supervises the EPC partner’s roles and responsibilities and certifying relevant studies and preliminary designs in accordance with the requirements of the bid documents to conclude the viability of the project and to arrive at an estimate cost of the project.

Prior to submitting our application for pre-qualification, our Bid Management Committee reviews each potential

project for its viability and obtains necessary internal approvals for participation in the project. If viable, we initiate preparation of a formal application that will satisfy the pre-qualification criteria as defined in the pre-qualification document floated by the project authority (which is generally the State or Central Government Entity who is awarding the project) including technical experience and financial strength, pursuant to which we submit our credentials for pre-qualification. In the pre-qualification stage.

### *The Bidding Stage*

Once we are pre-qualified for a project, we obtain the relevant information from the Project Authority with respect to the project requirements then proceeds to an in-depth understanding of the project requirements including the delivery schedules. Mostly, the relevant local, state or central government authority follow the Model Concession Agreement formulated by the Planning Commission of India and the concessionaire generally have limited ability to negotiate these terms. However, the concessionaires do have to determine the amount of the premium to be paid to the project authority for the project or the amount of financial grant or annuity it proposes to receive under the concession agreement. As a result, it is important that both revenues and expenses are accurately forecasted during the bidding phase, and that potential risks are correctly identified, assessed and appropriate provisions are incorporated prior to submission of the bid.

We have formulated a robust bid evaluation mechanism to ensure match between external competitive drivers and internal capabilities. We rely on our experienced management team, domain knowledge, understanding of techno-commercial aspect of project to prepare and submit competitive bids or the projects.

### *SPV Formation and Financing*

Once we have been awarded an infrastructure road project, we establish a special purpose vehicle (SPV) which holds the project and develops, maintains and operates the concession. The SPV is the legal entity with rights and obligations under the concession agreement and we provide all necessary support to the SPV and take the lead in project management in accordance with the terms of the concession agreement. Though we empower SPVs to independently operate and maintain the toll/annuity roads once it is completed, we do follow a robust governance framework to maintain an effective management, financial and operating control over the SPVs to safeguard shareholder's interest.

Upon accepting the award of the concession, the successful bidder signs a letter of award received from the Project Authority, including the submission of a performance guarantee. The performance guarantee is usually provided by us within 180 days from date of signing of the concession agreement. All the required finances for the project are generally mandated to be concluded within 180 days of signing of concession agreement. We normally seek to fund up to 75.00% of the required capital expenditure for new BOT/ Annuity projects through debt financing. The Project SPVs also enter into state support agreements with the respective states in which the BOT Project Road is situated where in the state governments *inter alia* agree to:

- provide access to the project site to the concessionaire for peaceful use of and operations at the project site by the concessionaire under and in accordance with the provisions of the concession agreement;
- provide and/or assist the concessionaire in obtaining access to all necessary infrastructure facilities and utilities, including water, electricity and telecommunication facilities at rates and on terms no less favourable to the concessionaire than those generally available to commercial customers receiving substantially equivalent services;
- ensure that no barriers are erected or placed by state government or any of its agencies that interrupts free flow of traffic on the project /project facility except on account of any law and order situation or upon national security consideration;
- provide the concessionaire with assistance through a dedicated team against payment of prescribed fee and charges, if any, for regulation of traffic on the project/project facility;
- provide to the concessionaire with police assistance in the form of dedicated highway patrol parties against payment of prescribed costs and charges, if any, for patrolling and provision of security on the project/ project facility;
- support, cooperate with and facilitate GOI and the concessionaire in the implementation of the project;

- assist in procurement of all applicable permits required from any municipal and other local authorities and bodies including panchayats;
- ensure, subject to and in accordance with the applicable laws, that all relevant municipal and other local authorities and bodies including panchayats in the state do not put any barriers or other obstructions that interrupt free flow of traffic on the project/ project facility;
- not construct and operate either itself or have the same, interalia, built and operated on BOT basis or otherwise a competing facility, either toll free or otherwise during the concession period;
- not levy any additional toll, fee, charge or tax on the use of whole or any part of the project facility;

For most of our projects, we also undertake the banking and commercial operations, debt syndication, refinancing and restructuring of the project domiciled in the SPV.

#### *Construction activities*

The construction phase of road project begins after financial closure is achieved. The construction of a project often takes up to 30 months from the appointed date, as fixed under the concession agreement. The concession agreements often contain incentives for early completion of a project.

During the construction phase, we prepare a detailed design of the project, liaise with the Project Authority and respective government agencies in connection with the land acquisition process, utility shifting, and procurement of necessary approvals/permits and supervise and manage construction work. We also liaise with state and local authorities for obtaining land and environment related approvals for the projects during the concession period

Throughout this phase, we monitor and control various work processes closely with the objective of controlling costs, maintaining quality and other logistical issues such as land acquisition, environmental rehabilitation or social resettlement. The design, development, construction, supervision and management for most of our projects are given on sub-contract either to our local partner at the consortium or a domestic contractor through competitive bidding. The contractors generally procure all the raw materials required for each project. The contractors are typically paid based on the completion of construction milestones. We choose the contractor for a given project based on multiple factors including the size and nature of the project, the contractor's capability, the contractor's presence and experience in the local region, the contractor's relevant experience and the contractor's quote and estimated time for completion.

The civil works portion of the contracts is usually outsourced to a third party domestic construction contractor on a competitive fixed price contract. In fixed price contracts, the construction price is fixed at the time of agreement and the contractor bears the risk of any subsequent increase in costs and delays (other than increased costs or delays attributable to the Project Authority) in connection with construction. An independent engineer is appointed to certify execution of road works in accordance with the technical specifications set forth in the relevant concession agreement. Upon completion of the construction of the road, the independent engineer's issues a completion certificate in accordance with the requirements set forth in the relevant concession agreement, which allows us to begin collecting toll or receive annuity payments as per the provisions of the Concession Agreement.

#### ***(ii) Operation and maintenance***

We also perform a range of project operation maintenance activities through our own in-house teams and also through sub-contractors. These activities include the following:

- Management and supervision of projects during the project life cycle;
- Toll operations; and
- Other Services.

#### *Management and supervision of projects during the project life cycle*

We are required to operate and maintain the Road Projects in accordance with the concession agreement, including by modifying, repairing or otherwise making improvements to the road including rectification of any defects on

the road surface, services for overlaying, draining, safety services and equipment, signage and signaling, maintaining bridges and viaducts and carrying out protective works such as patchwork repairs. In particular, each of the concession agreements requires us to maintain the Road Projects to certain standards during the concession period. The Project Authorities have used, and will likely to continue to use, independent engineers to carry out periodic tests to assess the quality of the construction and their related maintenance.

We have project implementation teams located on site at all our projects. These teams are assigned the task to monitor the roads for maintenance, upkeep and operations services, as well as user and emergency services. These services are provided either through our own facilities at the SPV or by sub-contracting some services to specialist companies. We conduct regular safety inspections of all our roads using independent engineers.

### *Toll Operations*

An efficient and effective toll operations and management is the most important aspect of our road project life cycle. We constantly strive for automation of toll operations and management to minimize human interfaces and reduce manual errors in tolls collections.

Once the vehicle enters a toll plaza, it is automatically classified into a particular vehicle category for the purpose of toll collection, using automatic vehicle category classification (“AVCC”) technology, thus reducing dependence on toll collector to classify the vehicle manually. Together with the classification of vehicle category, the system also automatically detects the overweight vehicles which are charged simultaneously through in built integration between Toll Management software and the WIM software. This way we can completely eliminate manual involvement and manual errors in toll collection thereby giving a seamless toll payment experience to the commuters while passing through our toll plazas. The typical process flow for vehicle pre-classification for a semi-auto toll plaza has been represented by the schematic process flow as below:

We have also enabled our plazas with POS machines and other platforms of digital transactions to provide a hassle free experience to the toll payers. Further we have equipped few lanes of the plazas with state of the art ETC system whereby the commuter need not stop at the plaza for paying toll and the toll is charged to the commuter's

account through a ETC tag fitted in the vehicle which is read by the ETC readers at the toll plazas while passing.

Toll fees can also be paid using a pre-paid smart card, where the road user flashes the smart card on a smart card reader to perform the transaction. The smart card reader validates the user against certain predefined parameters and the toll fee is deducted from the users account and a receipt is generated for the transaction.

The process is monitored by supervisors using point-tilt-zoom camera surveillance. Since a significant portion of the toll fees are paid in cash, we closely monitor the collection of toll fees in order to reduce fraud and pilfering. The toll supervisor also reconciles cash receipts against the records entered into computer systems by the toll collector and against the information recorded by the AVC system. In the event the toll collector charges less toll fees, the toll collector is required to make up for such shortfall. Further, each of our Project SPVs has an internal audit team which is primarily responsible for auditing its toll operations.

The user fees that we charge the users of our toll roads are set according to the user fee notification provided as part of the concession agreements. The user fee is typically increased at scheduled intervals, sometimes by reference to certain indices. The user fee also varies depending on the type of vehicle.

#### *Other Services*

##### *i. Traffic control*

There is an emergency telephone system to provide a reliable communication channel for the drivers in cases of emergency where they need to communicate with staff at the control room. The Project SPVs takes regular preventive and corrective measures to maintain the emergency telephone system at the highest levels of reliability and safety. The Project SPVs are required to carry out regular patrolling and regulate and maintain traffic order within the projects. Emergency telephone systems and emergency helpline numbers are provided at all projects where such systems and numbers are required by the relevant concession agreement. There are also patrol vehicles that continuously move on the section of the project that it is assigned to, which will intervene to regulate traffic and carry out surveillance activities.

##### *ii. Accident and Emergency Services*

In managing our toll roads, we seek to meet accepted safety standards in the industry. Our accident prevention strategy prioritizes construction, acquisition and provision of new safety features, such as pedestrian overpasses, concrete barriers, speed limit controls, improved signals and signage, roadway widening, ambulance response capability, traffic inspection and removal of dead animals and other obstructions.

Further, the concession agreements also require us to provide emergency medical aid to users of our toll roads. In this regard, we provide ambulance service, paramedic and first aid kits, rescue and search services at our projects.

Our traffic inspection teams patrol the toll roads and monitor potential problems and emergencies, placing emergency signs and taking other appropriate measures when necessary. Our service team provides emergency aid to vehicles with mechanical problems on our roads, using tow trucks to remove broken down or damaged vehicles. We also operate mobile rescue units that are equipped to provide first aid and evacuation in case of medical emergency. Most of our mobile rescue units have a GPS tracking system installed that permits us to monitor the vehicle's activity, fuel levels and other critical details on a real-time basis by means of a satellite network.

##### *iii. Traffic Information*

We maintain several traffic information systems for our road users, including technologically advanced traffic management systems such as variable message panels along certain of our concession toll roads to provide traffic condition information.

### **Information Technology**

Information technology is part of almost every aspect of our operations, from business development to procurement and quality management. Our IT system and other internal processes have become the backbone of all aspects of our business and operations. Our increasing focus on strengthening the IT infrastructure, applications, and other internal processes necessitates further investments to improve its reliability and

collection. In addition to increase in usage of plastic money through point of sale (POS) and mobile wallet, all our toll plazas are fully equipped with both conventional as well as modern payment facilities for commuters' convenience.

## **Insurance**

We adopt prudent risk management policies. Our principal types of insurance coverage including fire insurance, motor vehicle insurance, electronic equipment insurance, machinery breakdown insurance, directors' and officers' liability insurance, public liability insurance, group personal accident and employees' compensation liability. While we try to maintain adequate insurance, our insurance policies may not be sufficient to cover our economic losses. For further details, please refer to the chapter "*Risk Factors*" on page 18. Our operations are subject to hazards inherent to the road infrastructure development business, such as risks of equipment failure, terrorist attacks, riots, work accidents, fire, earthquake, flood and other force majeure events. This includes hazards that may cause injury and loss of life, damage and destruction of property, equipment and environmental damage.

Insurance during the construction phase typically includes the following:

- Standard fire and special perils policy; and
- Directors and officer's liability insurance;

In addition, some of our Project SPVs has taken the following insurance covers apart from the extended maintenance cover under the "Contractor's All Risk Policy":

- Fire insurance policy for all natural perils including earthquake, terrorism, riots, strike and malicious damage for project roads, toll plazas, bridges and ROBs and administration buildings;
- Loss of profit policy for loss of toll revenue due to natural perils;
- Group Personal Accident for claims arising from accidents on the project roads;
- Public liability policy for any claims arising from the public for any public liability; and
- Money policy for all toll collection locations.

## **Employees**

As of March 31, 2017 our Company had a total of 20 employees. Our employees do not belong to a union. We have not experienced any work stoppage, strike, demonstration or other labour disturbances from our employees. Further, as of March 31, 2017, GAEPL, GIPL, MTPL, KEPL, SJEPL, OSEPL and STPL had 207, 10, 29, 23, 25, nil and 24 employees, respectively.

## **Intellectual Property**

Our Corporate Promoter, SREI holds trademark registration for the logo of our Company under various classes including classes 35, 36, 37, 39 and 42 under the Indian Trademark Rules, 2002, in respect of roads construction and engineering services. We have entered into an agreement with SREI dated November 12, 2016 which permits our Company and our Subsidiaries to use the said logo for the purposes of our business.

## **Competition**

Our revenues from existing toll roads are subject to competition from other roads that operate in the same area as well as from other modes of transportation. Additionally, the competition depends on various factors, such as the type of project, total contract value, potential margins and location of the project. In addition, we compete with a number of Indian and international infrastructure operators in acquiring both concessions for new road projects and existing projects. Some of our competitors are IRB Infrastructure Developers Limited, Sadbhav Infrastructure Project Limited and Ashoka Buildcon Limited.

## **Property and Equipment**

We do not own most of the assets that we use in our concessions. Generally, pursuant to the terms of our concession agreements, title to our toll roads and related infrastructure such as toll plazas and monitoring posts remains with the Concessioneing Authority for the duration of the concession period.

During the concession period, we are entitled to use the toll roads and the related infrastructure which comprise the concession assets and we are entitled to the income arising from these assets. Upon the expiration of the concession period, we are required to transfer these project assets to the Concessioneing Authority without further compensation.

Details of our Registered Office and Corporate Office are as provided below:

| Location of property                                                                                                                                     | Type of Property (ownership / lease)   | Lessor, if applicable                   | Relationship with our Company, if applicable | Monthly rental                                                                                                                                                                                                                                                                                                       | Period                             |

Additionally, our Company also enters into short term leases, leave and license agreements for lands and buildings for setting up site offices from time to time.

## REGULATIONS AND POLICIES

*The following description is a summary of the relevant regulations and policies that are applicable to our business, as prescribed by the GoI and other regulatory bodies. The information detailed below has been obtained from the various legislations, including rules and regulations promulgated by regulatory bodies and the bye laws of the respective local authorities that are available in the public domain. The regulations set below may not be exhaustive, are intended only to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. For details of government approvals obtained by us, please refer to the chapter “Government and Other Approvals” beginning on page 357.*

*Except as otherwise specified in this Red Herring Prospectus, taxation statutes including the Income Tax Act, 1961, Goods and Services Tax Act, 2017, The Integrated Goods and Services Tax Act, 2017 and applicable relevant state GST statutes and other miscellaneous regulations and statutes apply to us as they do to any other Indian company. The statements below are based on the current provisions of Indian law and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions. Set forth below are certain significant Indian legislations and regulations which are generally adhered to by the industry that we operate in.*

### **Highways Related Laws**

#### ***National Highways Act, 1956***

The GoI is responsible for the development and maintenance of national highways. The NH Act *inter-alia* empowers the GoI to delegate any function relating to development or maintenance of national highways to the relevant State Government in whose jurisdiction the national highway falls, or to any officer or authority subordinate to the GoI or the concerned State Government.

The National Highways Act, 1956 (“**NH Act**”) was enacted with the purpose of declaration of certain highways to be national highways and for matters connected therewith. Under the NH Act, the GoI is vested with the power to declare a highway as a national highway and also to acquire land for this purpose. The NH Act empowers the GoI to, by notification, declare its intention to acquire any land when it is satisfied that for a public purpose such land is required to be acquired for the building, maintenance, management or operation of a national highway or part thereof. The NH Act prescribes the procedure for such land acquisition which *inter alia* includes entering and inspecting such land, hearing of objections, declaration of acquisition and the mode of taking possession. The NH Act also provides for payment of compensation to owners and any other person whose right of enjoyment in that land has been affected.

#### ***National Highways Fee (Determination of Rates and Collection) Rules, 2008***

The National Highways Fee (Determination of Rates and Collection) Rules, 2008 (“**NH Fee Rules**”) regulate the collection of fee for the use of a national highway. Pursuant to the NH Fee Rules, GoI may, by a notification, levy fee for use of any section of a national highway, permanent bridge, bypass or tunnel forming part of a national highway, as the case may be. However, the GoI may, by notification, exempt any section of a national highway, permanent bridge, bypass or tunnel constructed through a public funded project from levy of fees.

Pursuant to the NH Fee Rules, GoI may, by a notification, levy fee for use of any section of a national highway, ‘permanent bridge’, bypass or tunnel forming part of a national highway, as the case may be. However, GoI may, by notification, exempt any section of a national highway, permanent bridge, bypass or tunnel constructed through a public funded project from levy of fees.

The collection of fee in case of a public funded project shall commence within 45 days from the date of completion of the project. In case of a private investment project, the collection of such fee shall be made in accordance with the terms of the agreement entered into by the concessionaire. The NH Fee Rules further provide for the base rate of fees applicable for the use of a section of the national highway for different categories of vehicles, collection of fees, location of toll plaza.

#### ***National Highways Authority of India Act, 1988***

The National Highways Authority of India Act, 1988 (“**NHAI Act**”) provides for the constitution of an authority for the development, maintenance and management of national highways. Pursuant to the same, the NHAI, was

constituted as an autonomous body in 1988 and operationalised in 1995. Under the NHAI Act, GoI carries out development and maintenance of the national highways system, through NHAI. The NHAI has the power to enter into and perform any contract necessary for the discharge of its functions under the NHAI Act.

The NHAI Act prescribes a limit in relation to the value of the contracts that may be entered into by NHAI. However, the NHAI may enter into contracts exceeding the value so specified, on obtaining prior approval of the GoI. NHAI Act provides that the contracts for acquisition, sale or lease of immovable property on behalf of the NHAI cannot exceed a term of 30 years unless previously approved by the GoI. The National Highways Authority of India (Amendment) Act, 2013 which received the assent of the President on September 10, 2013, aimed at increasing the institutional capacity of NHAI to help execute the powers delegated to it.

### ***National Highways Development Project***

The GoI, under the Central Road Fund Act, 2000 created a dedicated fund for NHDP ( “**Fund**”). Certain sources for financing of NHDP are through securitization of cess as well as involving the private sector and encouraging Public Private Partnership (PPP). The NHDP is also being financed through long-term external loans from the World Bank, the ADB and the JBIC as well as through tolling of roads.

#### ***Private Participation in NHDP***

In an effort to attract private sector participation in the NHDP, the NHAI has formulated model concession agreements where a private entity (“**Concessionaire**”) is awarded a concession to build, operate and collect toll on a road for a specified period of time, which is usually up to 30 years.

The bidding for the projects takes place in two stages as per the process provided below:

- in the pre-qualification stage, NHAI selects certain bidders on the basis of technical and financial expertise, prior experience in implementing similar projects and previous track record; and
- in the second stage, NHAI invites commercial bids from the pre-qualified bidders on the basis of which the right to develop the project is awarded.

In a BOT project, the Concessionaire meets the up-front cost and expenditure on annual maintenance and recovers the entire cost along with the interest from toll collections during the concession period. To increase the viability of the projects, a capital grant is provided by the NHAI/GoI on a case to case basis. The Concessionaire at the end of the concession period transfers the road back to the Government. The Concessionaire’s investment in the road is recovered directly through user fees by way of tolls.

In annuity projects, the private entity is required to meet the entire upfront cost (no grant is paid by NHAI/GoI) and the expenditure on annual maintenance. The Concessionaire recovers the entire investment and pre-determined return on investments through annuity payments by NHAI/GoI.

In hybrid annuity projects, 40.00% of the total project cost is to be funded by the government and the remaining by the Concessionaire. For further details, please refer to the chapter “*Industry Overview*” on page 106.

The NHAI also forms SPVs for funding road projects. This method of private participation involves very less cash support from the NHAI in the form of equity/debt. Most of the funds come from ports/financial institutions/beneficiary organisations in the form of equity/debt. The amount spent on developments of roads/highways is to be recovered in the prescribed concession period by way of collection of toll fee by the SPV.

Tax incentives which are being provided to the private entity are eligible for 100.00% exemption for any consecutive 10 years out of the first 20 years after completion of a project. The Government has also allowed duty free import of specified modern high capacity equipment for highway construction.

### ***Control of National Highways (Land and Traffic) Act, 2002***

The Control of National Highways (Land and Traffic) Act, 2002 ( “**Control of NH Act**”) provides for control of land within national highways, right of way and traffic moving on national highways and also for removal of unauthorised occupation thereon.

The Control of NH Act makes provisions for the GoI to establish a body or authority of one or more officers of

the GoI or the State Government as Highway Administrations and confers various powers on the Highway Administrations. Under the Control of NH Act, all land that forms part of a highway which vests in the GoI, or that which does not already vest in the GoI but has been acquired for the purpose of highways shall be deemed to be the property of the GoI. The Control of NH Act prohibits any person from occupying any highway land or discharging any material through drain on such land without the permission of the Highway Administration. The Control of NH Act permits the grant of lease and license for use of highway land for temporary use. The Control of NH Act empowers the GoI to establish one or more tribunals known as the National Highway Tribunal to exercise the jurisdiction, powers and authority conferred on such National Highway Tribunal by or under the Control of NH Act.

### ***Indian Tolls Act, 1851***

Pursuant to the Indian Tolls Act, 1851, (“**Tolls Act**”) the State Governments have been vested with the power to levy tolls at such rates as they deem fit, to be levied upon any road or bridge, made or repaired at the expense of the Central or any state government. The tolls levied under the Tolls Act, are deemed to be ‘public revenue’. The collection of tolls can be placed under any person as the state governments deem fit under the Tolls Act, and they are enjoined with the same responsibilities as if they were employed in the collection of land revenue. Further, all police officers are bound to assist the toll collectors in the implementation of the Tolls Act. The Tolls Act further gives power for recovery of toll and exempts certain category of people from payment of toll.

### ***Provisions under the Constitution of India and other legislations on collection of toll***

Entry 59, List II of Schedule VII read with Article 246 of the Constitution of India vests the States with the power to levy tolls. Pursuant to the Indian Tolls Act, 1851, the State Governments have been vested with the power to levy tolls at such rates as they deem fit.

### ***Other legislations relevant to the road sector***

In addition to the above, there are also certain other legislations that are relevant to the road sector which include the Road Transport Corporation Act, 1950, National Highways Rules, 1957, National Highways (Temporary Bridges) Rules, 1964, National Highways (Fees for the Use of National Highways Section and Permanent Bridge Public Funded Project) Rules, 1997, National Highways (Rate of Fee) Rules, 1997, National Highways Tribunal (Procedure) Rules, 2003, Central Road Fund Act, 2000, Central Road Fund (State Roads) Rules, 2007 and Green Highways (Plantation, Transplantation, Beautification & Maintenance) Policy, 2015.

### **Environmental Laws**

The major statutes in India which seek to regulate and protect the environment against pollution related activities in India are the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981 and the Environment Protection Act, 1986 and the rules and regulations thereunder and The Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008. Pollution Control Boards (“**PCBs**”), which are vested with diverse powers to deal with water and air pollution, have been set up in each state to control and prevent pollution. The PCBs are responsible for setting the standards for the maintenance of clean air and water, directing the installation of pollution control devices in industries and undertaking investigations to ensure that industries are functioning in compliance with the standards prescribed. All industries and factories are required to obtain consent orders from the PCBs, and these orders are required to be renewed annually.

### **Labour Related Laws**

As part of its business, our Company is required to comply with certain laws in relation to the employment of labour. The following is an indicative list of labour laws applicable to our operations:

- Contract Labour (Regulation and Abolition) Act, 1970;
- Employees’ Compensation Act, 1923;
- Employees’ Provident Funds and Miscellaneous Provisions Act, 1952;
- Employees’ State Insurance Act, 1948;
- Industrial Disputes Act, 1947;
- Industrial Employment (Standing orders) Act, 1946;
- Building and other Construction Workers (Regulation of Employment and Conditions of Service) Act,

- 1996;
- Child Labour (Prohibition and Regulation) Act, 1986;
- Maternity Benefit Act, 1961;
- Minimum Wages Act, 1948;
- Payment of Bonus Act, 1965;
- Apprentices Act, 1961;
- Payment of Gratuity Act, 1972;
- Payment of Wages Act, 1936;
- Equal Remuneration Act, 1976; and
- Public Liability Insurance Act, 1991.

**Other laws**

In addition to the above, our Company is also required to, inter alia, comply with the provisions of the Factories Act, 1948, the Shops and Establishments Legislations of the relevant State, Petroleum Rules, 2002, Explosives Rules, 2008, the Electricity Act, 2003 and the Bureau of Indian Standards Act, 1986.

## HISTORY AND CERTAIN CORPORATE MATTERS

### Brief history of our Company

Our Company was incorporated as 'Bharat Road Network Limited' on December 22, 2006, at Kolkata as a public limited company under the Companies Act, 1956. Our Company was issued a certificate of commencement of business on August 2, 2007 by the RoC.

Our Company has seven (7) members as of the date of this Red Herring Prospectus. For more details on the shareholding pattern, please refer to the chapter "Capital Structure" on page 79.

For information on our Company's profile, management, activities, services, market, growth, technology, managerial competence, standing with reference to prominent competitors, geographical segment etc. please refer to the chapter "Our Management", "Business" and "Industry Overview" on pages 192, 136 and 106, respectively.

### Changes in the Registered Office

The Registered Office of our Company has been changed once from Mirania Gardens, 10B, Topsia Road (South), Kolkata – 700 046, West Bengal, India to Mirania Gardens, 10B/1, Topsia Road (East), Kolkata – 700 046, West Bengal, India w.e.f. November 25, 2016 as there was an error in the address of the Registered Office in the original form filed with the RoC.

### Main Objects of our Company

The main objects contained in the Memorandum of Association include the following:

1. *To acquire, purchase, own, build, develop, design, appropriate, operate, transfer, consult, maintain, manage, control, undertake, hire, take on lease license, exchange or hire purchase, mortgage, assign, let, sell, dispose of any type of lands, properties, estates, farms, gardens, parks, orchards, mines, buildings, flats, sheds, structures, hostels, hotels, motels, resorts, shops commercial complexes, townships, farmhouses, roads, streets, railways, ropeways, docks, aerodromes, dams, bridges, new power plants or takeover of old plants, thermal power plants, power stations, any water works, gas works, reservoirs, electric power, heat and light supply works, reservoirs, electric stations, generators, sub-stations and transfer stations, low tension networks, electric locomotives, tramways and industrial railway, electric railway lines, beautification and modifications of Railway Stations, industries, barrages, valleys, stadiums, museums, tourist and picnic spots and for any other project in the road sector, including their erection, construction, demolition and rebuilding, alteration, conversion, renovation, improvement, interior and exterior decoration and to act as developers, builders, colonizers, and contractors.*
2. *To carry on the business of assisting in the creation, expansion and modernisation of roadway facilities and to identify projects, project ideas, to prepare project profiles, project reports, market research, feasibility studies and reports, pre-investment studies, appraisals, evaluations and investigation of roadway projects.*
3. *To engage in the business of development / project management / financing roadway/ highway projects / transportation in India and / or abroad.*
4. *To carry on and undertake the business of financing industrial enterprises including those engaged in and providing roadways facility and setting up of projects and also to provide by way of operating lease, all types of plant, equipment, machinery, vehicles, vessels, ships, all electrical and electronic equipment and any other moveable and immovable equipment and/or properties whether in India or abroad, for industrial, commercial or other uses.*
5. *To engage in infrastructure development on the Build, own, operate and Transfer format and Build, operate and Transfer format and/or any other format and for this purpose to enter into any contracts in relation to and to erect, construct, maintain, alter, repair, pull down and restore either alone or jointly with any other companies, State/Statutory Body or persons works of all descriptions including wharves, docks, piers, railways, tramways, power projects, waterways, roads, bridges, airports, dams, warehouses, factories, mills, engines, machinery, railway carriages and wagons, ships and vessels of every description, gas works, electric works, water works, drainage and sewage works and buildings of every description including hospitals and health cares and to act as advisors and consultants on matters relating to the infrastructure development.*

The main objects as contained in the Memorandum of Association enable our Company to carry on the business presently being carried out.

## Amendments to our Memorandum of Association

Set out below are the amendments to our Memorandum of Association since the incorporation of our Company:

| Date of Shareholders Resolution | Particulars                                                                                                                                                                                                                                                                                   |
|---------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| March 28, 2013                  | The capital clause of the Memorandum of Association was substituted to reflect the increase in the authorised capital of our Company from ₹ 5.00 million divided into 500,000 Equity Shares of ₹ 10.00 each to ₹ 100.00 million divided into 10,000,000 Equity Shares of ₹ 10.00 each         |
| October 18, 2016                | The capital clause of the Memorandum of Association was substituted to reflect the increase in the authorised capital of our Company from ₹ 100.00 million divided into 10,000,000 Equity Shares of ₹ 10.00 each to ₹ 1,000.00 million divided into 100,000,000 Equity Shares of ₹ 10.00 each |

## Major events and milestones of our Company and projects being currently undertaken by our Subsidiaries and Associates

| Fiscal | Particulars                                                                                                                                                                                       |

\* Originally awarded to SREI along with other SPV partners. Our Company has acquired stake and/ or has been allotted equity shares in the respective Project SPVs subsequently. For details of project awarded to our Company and projects being currently undertaken by our Subsidiaries and Associates, please refer to the chapter “Business” on page 136.

## Our Holding Company

As of the date of this Red Herring Prospectus, our Company does not have a holding company.

## Our Subsidiaries and Associates

As of the date of this Red Herring Prospectus, our Company has two (2) Subsidiaries and five (5) Associates. For details, please refer to the chapter “Our Subsidiaries and Associates” on page 184.

## Capital raising activities through equity or debt

For details regarding our capital raising activities through equity, please refer to the chapter “Capital Structure” on page 79. For details regarding our capital raising activities through debt instruments, please refer to the chapters “Financial Statements” and “Financial Indebtedness” on page 218 and 337, respectively.

## Injunctions or restraining order against our Company

As of the date of this Red Herring Prospectus, there are no injunctions or restraining orders against our Company.

## Strike and lock-outs

We have not experienced any strikes, lock-outs or labour unrest in the past.

## Changes in activities of our Company during the last five years

There has been no change in the activities of our Company during last five years.

## Time/cost overrun

Other than as disclosed in the chapters “Risk Factors” and “Business” on page 18 and 136, respectively, there have been no time/cost overruns pertaining to our business operations since incorporation.

## Defaults or rescheduling of borrowings with financial institutions/banks, conversion of loans into equity by the Company

As on date of this Red Herring Prospectus, there are no defaults or rescheduling of borrowings with financial institutions, banks or conversion of loans into equity in relation to our Company. For the details of outstanding delays in payment of interest and principal in relation to the outstanding term loans for our Project SPV, as on March 31, 2017, please refer to the “Risk Factor - Delay in servicing of outstanding borrowings by our Subsidiaries and Associates may result in an event of default and may have an adverse effect on our results of operations and financial condition” on page 34.

One of our Associates, MTPL, which has entered into one-time settlement with its lenders in Fiscals 2015 and 2016. For details, please refer to the chapter “Our Subsidiaries and Associates” on page 184 and the “Risk Factor –One of our Project SPVs, MTPL has in the past entered into one-time settlement with its lenders. We cannot assure you that similar situations may not arise in the future or that we will be able to make a settlement or refinance the loan facilities on terms that are acceptable to us” on page 25.

## Details regarding acquisition of business/undertakings, mergers, amalgamation, revaluation of assets

Except as disclosed in this chapter there are no acquisition of business/undertakings, mergers, amalgamation, revaluation of assets that our Company is involved in.

## Shareholders’ Agreements

1. ***Shareholders’ agreement dated December 14, 2006 between KMC Constructions Limited (“KMC”), SREI and GIPL as amended by way of amendment agreement dated March 28, 2016 (“GIPL SHA”) and Deed of Adherence dated March 30, 2015 (“GIPL DOA”).***

GIPL has entered into a concession agreement dated March 27, 2006 with the NHAH undertaking the GIPL Project on BOT basis (“**GIPL Concession Agreement**”). KMC and SREI, being the shareholders of GIPL, have entered into the GIPL SHA to lay down the rights, obligations and interests of each party with regards to GIPL and, consequently implement the GIPL project. As on the date of the GIPL SHA, the shareholding of KMC and SREI was 51.00%, and 49.00%, respectively.

The prominent terms of the GIPL SHA are:

- GIPL shall make endeavour to raise additional share capital through initial public offer within a period of 4.5 years from date of the GIPL SHA, failing which, GIPL shall purchase the shares of SREI and its associates subject to the minimum shareholding as stipulated in the GIPL Concession Agreement.
- The existing shareholders of GIPL have the right of first refusal in case equity shares of GIPL are sold by another existing shareholder of GIPL.
- The board of directors of GIPL shall have a maximum of 12 directors, and they shall be appointed by KMC and SREI in the ratio of 3:2, if their shareholding in GIPL continues to remain 51.00% and 49.00%, respectively. Further, KMC has the right to appoint the chairman and managing director of the GIPL.
- No quorum for a board meeting of GIPL would be validly constituted unless at least one director each of KMC and SREI is present. However, if the quorum is not validly constituted, the board meeting would be adjourned to the same day in the next week. If at such adjourned meeting, the quorum is not validly constituted, then the directors present shall constitute a valid quorum.

- No decision in relation to specific matters can be taken without the presence of at least one member or one director of KMC and SREI in a board or general meeting, respectively. Such specific matters include:
  - increase in the share capital of and issuance and allotment of any securities and decision as to the alteration in the structure of share capital of GIPL;
  - borrowing of funds or pre-payment of any loans or other debts and giving guarantee, indemnities or security;
  - establishment of subsidiaries; and
  - payment of dividends, etc.

The GIPL DOA was entered into between IPDF, our Company and GIPL, whereby IPDF proposed to transfer 45,270,000 equity shares, allotted to IPDF between February, 2007 and November, 2010 in GIPL, to our Company. Pursuant to such transfer and execution of GIPL DOA, our Company agreed to be bound by the terms of the GIPL SHA.

For current shareholding pattern of GIPL, please refer to the chapter “*Our Subsidiaries and Associates*” on page 184.

**2. *Shareholders’ agreement dated November 17, 2009 between Galfar Engineering & Contracting, S.A.O.G. (“Galfar”), Varaha Construction Company. (“Varaha”), SREI and MTPL (“MTPL SHA”) and the Deed of Adherence dated October 27, 2016 (“MTPL DOA”).***

MTPL has entered into a concession agreement dated September 17, 2008 with the MPRDC for undertaking the MTPL Project on BOT basis (“**MTPL Concession Agreement**”). Galfar, Varaha and SREI, being the shareholders of MTPL, along with MTPL, have entered into the MTPL SHA to lay down the rights, obligations and interests of each party with regards to MTPL and, consequently implement the MTPL Project. As on the date of the MTPL SHA, the shareholding of Galfar, Varaha and SREI was 26.00%, 26.00% and 48.00%, respectively.

Prominent terms of the MTPL SHA are as follows:

- SREI shall have the right to appoint two nominee directors, while Galfar and Varaha, shall have the right to appoint one nominee director each, on the board of MTPL.
- However, in case the shareholding of any party to the MTPL SHA falls below 10.00%, it shall cease to have any right under the MTPL SHA including the right to appoint any nominee director or right to be indemnified.
- No quorum for a board meeting of MTPL would be validly constituted, unless at least one nominee director of SREI is present in person throughout the board meeting.
- No decision in respect of reserved matters can be taken at the board, committee or general meeting of MTPL without the specific approval of at least one nominee director or representative of SREI, as the case may be. Such reserved matters include:
  - alteration of constitutional documents;
  - issuance and allotment of any securities;
  - entering into profit sharing agreements or partnerships;
  - raising of any loans and giving of any guarantees, warranties or any other form of financial commitment; and
  - payment of dividends, etc.
- The shareholders of MTPL have pre-emptive right in relation to issue of new securities by MTPL. In case MTPL allots equity shares to any third party, the shareholding ratio *inter-se* the existing shareholders of MTPL is required to be maintained.
- The existing shareholders of MTPL have the right of first refusal and tag along right, in case equity shares of MTPL are sold by existing shareholder of MTPL.
- Prior written approval of MPRDC is required for issuance or transfer of equity shares to any third party,

creation of pledge on any shares, exercise any pre-emptive rights or right of first refusal or tag along right or call on unpaid portion of the equity shares of MTPL if the same results in:

- the shareholding of Galfar, Varaha and SREI and their associate or affiliates falling below 51.00% during the construction period of the MTPL Project, or 33.00% during a period of three years following the commercial operation date of the MTPL Project, or 26.00% or such other percentage as may be permitted by the government of Madhya Pradesh, India up to the date of transfer of the MTPL Project;
  - any person allotted, either individually or jointly or acting in concert, at least 15.00% of the shares of MTPL;
  - Galfar, Varaha and SREI along with their respective associates / affiliates holding less than 10.00% of shares of MTPL at any time during the construction period; or
  - any material variance in the shareholding ratio *inter-se* Galfar, Varaha and SREI together with their associate or affiliates.
- The MTPL SHA is valid till the validity of the Concession Agreement, unless terminated earlier in terms of the termination clause of the MTPL SHA or until MTPL or any of its shareholders is wound up / dissolved.

The MTPL DOA was entered into between IPDC, SREI, IPDF, our Company and MTPL whereby our Company agreed to be bound by the MTPL SHA and proposed to purchase total of 49,995,000 equity shares held by IPDC, IPDF and SREI.

For current shareholding pattern of MTPL, please refer to the chapter “*Our Subsidiaries and Associates*” on page 184.

**3. Shareholders’ agreement dated October 27, 2010 between JMC Projects (India) Limited (“JMC”) and SREI and KEPL (“KEPL SHA”) and Deed of Adherence dated August 29, 2013 (“KEPL DOA”)**

KEPL has entered into a concession agreement dated July 13, 2010 with the NHAI for undertaking the KEPL Project on DBFOT basis (“**KEPL Concession Agreement**”). JMC and SREI, being the shareholders of KEPL, along with KEPL, have entered into the KEPL SHA to lay down the rights and obligations of each party with regards to KEPL and, consequently implement the KEPL Project. As on the date of the KEPL SHA, the shareholding of JMC and SREI in KEPL was 51.00% and 49.00%, respectively.

The prominent terms of the KEPL SHA are:

- The number of directors that can be appointed on the board of KEPL by each party is dependent on the shareholding of the respective party in KEPL. Each party to the KEPL SHA has a right to appoint two nominee directors on the board of KEPL if its shareholding in KEPL is more than 26.00% and up to 51.00%. If the shareholding of a party to the KEPL SHA is more than 10.00% and up to 26.00%, then such party shall have right to appoint only one nominee director on the board of KEPL. However, if the shareholding of a party to the KEPL SHA falls below 10.00%, then such party shall not have any right to appoint any nominee directors on the board of KEPL.
- No quorum for a board or committee meeting of KEPL would be validly constituted, unless at least nominee director of each of the parties is present.
- No decision in relation to reserved matters of KEPL can be taken at any board, committee or general meeting of KEPL, without the presence of at least one nominee director of JMC and SREI. Such reserved matters include:
  - alteration of constitutional documents,
  - issue and allotment of any securities by KEPL,
  - entering into profit sharing agreements or partnerships;
  - raising of any loans and giving of any guarantee or warranties or any other form of financial commitment; and
  - payment of dividends, etc.

However, if the shareholding of any party falls below 26.00% but is more than 10.00%, the parties will have affirmative voting rights on fewer items of the reserved matters.

- The shareholders of KEPL have pre-emptive right in relation to issue of new equity shares by KEPL. In case KEPL allots equity shares to any third party, the shareholding ratio *inter-se* the existing shareholders of KEPL is required to be maintained.
- The existing shareholders of KEPL have the right of first refusal and tag along right, in case equity shares of KEPL are sold by another existing shareholder of KEPL.
- Prior written approval of NHAI is required for issuance of equity shares to any third party, creation of pledge on any shares, exercise any pre-emptive rights or right of first refusal or tag along right or call on unpaid portion of the equity shares of KEPL if the same results in:
  - the shareholding of JMC and SREI and their associate or affiliates falling below 51.00% during the construction period of the KEPL Project, or 26.00% during a period of two years following the commercial operation date of the KEPL Project;
  - any person acquiring, either individually or jointly or acting in concert, legally or beneficially at least 15.00 % of the shares of KEPL or control over the board of KEPL; or
  - any material variance in the shareholding ratio *inter-se* Galfar, Varaha and SREI together with their associate or affiliates.
- The KEPL SHA is valid till the validity of the Concession Agreement, unless terminated earlier in terms of the termination clause of the KEPL SHA or until KEPL any of its shareholders is wound up / dissolved.

The KEPL DOA was entered into between IPDC, SREI, MPM Holding Private Limited, JMC, our Company and KEPL, whereby it was agreed that IPDC, MPM Holding Private Limited and our Company shall adhere to the terms of the KEPL SHA.

For current shareholding pattern of KEPL, please refer to the chapter “*Our Subsidiaries and Associates*” on page 184.

**4. *Shareholders’ agreement’ dated September 18, 2010 between PNC Infratech Limited (“PNC”), Galfar Engineering & Contracting, S.A.O.G. (“Galfar”), SREI and GAEPL (“GAEPL SHA”) and the Deed of Adherence dated December 27, 2013 (“GAEPL DOA”)***

GAEPL has entered into a concession agreement dated May 20, 2010 with the NHAI for undertaking the GAEPL Project on build, operate and transfer basis (“**GAEPL Concession Agreement**”). PNC, Galfar and SREI, being the shareholders of GAEPL, along with GAEPL, have entered into the GAEPL SHA to lay down the rights, obligations and interests of each party with regards to GAEPL and, consequently implement the GAEPL Project. As on the date of the GAEPL SHA, the shareholding of PNC, Galfar and SREI in GAEPL, along with their respective associates, was 35.00%, 26.00% and 39.00%, respectively. On July 9, 2012, SREI, PNC, Galfar and GAEPL executed a supplementary shareholders’ agreement amending certain clauses of the GAEPL SHA.

The prominent terms of the GAEPL SHA are:

- PNC and SREI have the right to nominate 3 directors each in GAEPL, and Galfar has the right to nominate two directors in GAEPL. Further, for every 10.00% equity shares held in GAEPL, each party shall have the right to nominate one director in GAEPL.
- No quorum for a board or a committee meeting shall be validly constituted unless at least one nominee director appointed by each of SREI, PNC and Galfar are present in person throughout the meeting. However, if shareholding of any party, including their respective to the GAEPL SHA falls below 10.00%, it shall cease to have the right to appoint a nominee director in GAEPL.
- The shareholders of GAEPL have pre-emptive right in relation to issue of new equity shares by GAEPL. In case GAEPL allots equity shares to any third party, the shareholding ratio of the existing shareholders of GAEPL is required to be maintained.
- The existing shareholders of GAEPL also have the right of first refusal and tag along right, in case equity shares of GAEPL are sold by another existing shareholder of GAEPL.

- Prior written approval of NHAI is required for transfer of equity shares to any third party, exercise of pre-emptive rights, or right of first refusal or tag along right if the same results in:
  - shareholding of the PNC, Galfar and SREI and their associates, including our Company, falls below 51.00% during the construction period of the GAEPL Project, or below 33.00%, three years after commercial operation date of the GAEPL Project, or below 26.00% or such other percentage as may be permitted by NHAI before the transfer date of the GAEPL Project;
  - Acquisition by a third party of 15.00% or more shares of GAEPL or control over the board of GAEPL; and
  - The shareholding of PNC, Galfar and SREI and their respective associates or affiliates falling below 10.00% during the concession period of the GAEPL Concession Agreement.
- The GAEPL SHA is valid till the validity of the GAEPL Concession Agreement, unless terminated earlier in terms of the termination clause of the GAEPL SHA or until GAEPL any of its shareholders is wound up/dissolved.
- Further, in terms of the supplementary shareholders' agreement dated July 9, 2012, no decision in respect of reserved matters can be taken at the board, committee or general meeting of GAEPL without the specific approval of at least one nominee director or representative of SREI, PNC and Galfar. Such reserved matters include:
  - alteration of constitutional documents;
  - issuance and allotment of any securities;
  - entering into profit sharing agreements or partnerships;
  - raising of any loans and giving of any guarantee or warranties or any other form of financial commitment; and
  - payment of dividends; etc.

The GAEPL DOA was entered into between PNC, PNC Infra Holding Limited, Galfar Engineering & Contracting (India) Private Limited (“**Galfar Engineering**”), Galfar, IPDC, our Company and GAEPL, whereby IPDC, Galfar Engineering, PNC Infra Holdings Limited and our Company agreed to adhere to the terms of the GAEPL SHA.

For current shareholding pattern of GAEPL, please refer to the chapter “*Our Subsidiaries and Associates*” on page 184.

**5. Shareholders agreement dated October 6, 2010 between Galfar Engineering & Contracting, S.A.O.G. (“Galfar”), Simplex Infrastructure Limited (“Simplex”), SREI and SJEPL (“SJEPL SHA”) and Deed of Adherence dated October 27, 2016 (“SJEPL DOA”).**

SJEPL has entered into a concession agreement dated August 6, 2010 with NHAI for undertaking the SJEPL Project on DBFOT basis (“**SJEPL Original Concession Agreement**”) amended by 1<sup>st</sup> supplementary to the SJEPL Original Concession Agreement, 2<sup>nd</sup> supplementary to the SJEPL Original Concession Agreement and 3<sup>rd</sup> supplementary to the SJEPL Original Concession Agreement dated November 27, 2014, November 26, 2015 and November 11, 2016, respectively (the SJEPL Original Concession Agreement together with the supplementary agreements is referred to as “**SJEPL Concession Agreement**”). Galfar, Simplex and SREI, being the shareholders of SJEPL, along with SJEPL, have executed the SJEPL SHA to lay down the rights, obligations and interests of each party with regards to SJEPL and, consequently implement the SJEPL project. As on the date of the SJEPL SHA, the shareholding of Galfar, Simplex and SREI was 26.00%, 26.00% and 48.00%, respectively.

The prominent terms of the SJEPL SHA are:

- Each party to the SJEPL SHA has a right to appoint three directors on the board of SJEPL if its shareholding in SJEPL is more than 30.00%. If the shareholding of a party in SJEPL exceeds 15.00% but is up to 30.00%, then such party shall have right to appoint two directors on the board of SJEPL. If the shareholding in SJEPL of a party it exceeds 10.00% but is up to 15.00%, then such party shall have the right to appoint one nominee director on the board of SJEPL. If the shareholding of a party in SJEPL falls below 10.00%, then such party shall cease to have the right to appoint any nominee director.
- No quorum for board meeting of SJEPL would be validly constituted, unless at least one nominee director from any two shareholders, out of Galfar, Simplex or SREI, is present in person throughout the board meeting.

- No decision in relation to reserved matters can be taken the board, committee or the general meeting of SJEPL without the presence of at least one nominee director or representative of SREI, Simplex and Galfar. Such reserved matters include:
  - alteration of constitutional documents;
  - issuance and allotment of any securities;
  - entering into profit sharing agreements or partnerships;
  - raising of any loans and giving of any guarantees, warranties or any other form of financial commitment; and
  - payment of dividends, etc.
- The shareholders of SJEPL have pre-emptive right of subscription in relation to issue of new securities by SJEPL. In case SJEPL allots equity shares to any third party, the shareholding ratio inter se the existing shareholders of SJEPL is required to be maintained.
- The existing shareholders of SJEPL also have the right of first offer and tag along right in case the equity shares of SJEPL are sold by another existing shareholder of SJEPL.
- However, in case the shareholding of a shareholder in SJEPL falls below 10.00%, it shall cease to have any right under the SJEPL SHA including pre-emptive right, tag along right, right to appoint a nominee director and right to be indemnified.
- Prior written approval of NHAI is required for issuance or transfer of equity shares to any third party, for pledge of shares, to exercise any pre-emptive rights, right of first refusal, tag along right or call on unpaid portion of the equity shares if the same results in:
  - the aggregate shareholding of the Galfar, Simplex and SREI together with their associates or affiliates falling below 51.00% during the construction period and 2 years thereafter, of the SJPEL Project, or the shareholding of either Galfar, Simplex or SREI and their respective associates or affiliates falling below 26.00% during the construction period and two years thereafter; or
  - direct, indirect, legal or beneficial acquisition by any person of 15.00% or more shares of SJEPL or control over the board of SJEPL.
- The SJEPL SHA valid till the validity of the SJEPL Concession Agreement, unless terminated earlier in terms of the termination clause of the SJEPL SHA or until SJEPL any of its shareholders is wound up or dissolved.

Our Company, SREI and SJEPL entered in to SJEPL DOA whereby our Company agreed to be bound by the terms of the SJEPL SHA and proposed to purchase 20,695,600 equity shares of SJEPL, held by SREI.

For current shareholding pattern of SJEPL, please refer to the chapter “*Our Subsidiaries and Associates*” on page 184.

**6. *Shareholders’ agreement dated August 3, 2013 between Coastal Projects Limited (“CPL”), SREI, STPL and our Company (“STPL SHA”).***

STPL has entered into a concession agreement dated February 29, 2012 with NHAI for undertaking the STPL Project on DBFOT basis (“**STPL Concession Agreement**”). CPL, SREI and our Company, being the shareholders of STPL, along with STPL, have entered into the STPL SHA to lay down the rights, obligations and interests of each party with regards to STPL and, consequently implement the STPL project. As on the date of the STPL SHA, the shareholding of CPL, SREI and our Company was 49.00%, 49.00% and 2.00%, respectively.

The prominent terms of the STPL SHA are:

- All directors in STPL shall be nominee directors of SREI.
- Further, no quorum of a board meeting of STPL would be validly constituted unless at least a nominee director of SREI is present.
- SREI also has the right to appoint chairman, the managing director, chief executive officer, chief operation officer, chief financial officer and other key personnel to the board of STPL.
- SREI has an affirmative voting right on all the matters of STPL including declaration of dividend.

- The STPL SHA and the STPL Concession Agreement also requires prior approval of NHAI for *inter alia* any change in the ownership of STPL in excess of 15.00% of the shareholding of STPL or pursuant to a change in control of STPL.
- The STPL SHA is valid till the STPL Concession Agreement is valid, unless it is terminated in case of breach of the Concession Agreement, or a material breach of the STPL SHA which results in breach of the Concession Agreement, or in case of insolvency of a shareholder of STPL.

For current shareholding pattern of STPL, please refer to the chapter “Our Subsidiaries and Associates” on page 184.

**7. Shareholders’ agreement dated October 18, 2010 between MBL Infrastructure Limited (“MBL”), AMR India Limited, (“AMR”) (previously AMR Constructions Limited), Rithwik Projects Private Limited (“RPPL”), SREI, OSEPL and our Company (“OSEPL SHA”).**

OSEPL has entered into a concession agreement dated July 6, 2010 with NHAI for undertaking the OSEPL Project on DBFOT basis (“**OSEPL Concession Agreement**”). Pursuant to a share purchase agreement dated October 12, 2010, MBL transferred 12.00% of its shareholding in OSEPL to AMR and RPPL in equal proportions. Further, pursuant to another share purchase agreement dated October 13, 2010, MBL transferred 2.00% of its shareholding of OSEPL to our Company. MBL, AMR, RPPL, SREI and our Company, being the shareholders of OSEPL, along with OSEPL, executed the OSEPL SHA to lay down the rights, obligations and interests of each party with regards to OSEPL and, consequently implement the OSEPL Project. At the time of the OSEPL SHA, the shareholding of SREI, MBL, RPPL, AMR and our Company was 50.00%, 36.00%, 6.00%, 6.00% and 2.00%, respectively.

The prominent terms of the OSEPL SHA are:

- SREI has the right to appoint three nominee directors in OSEPL, while MBL, AMR and RPPL have the right to appoint one nominee director each.
- No quorum for a meeting of the board would be validly constituted, unless at least two nominee directors of SREI and one nominee director of the other shareholders are present.
- No decision in relation to reserved matters can be taken at any board, committee or general meeting of OSEPL without the presence of at least one nominee director or representative of SREI. Such reserved matters include:
  - alteration of constitutional documents;
  - issue and allotment of any securities; and
  - entering into profit sharing agreements or partnerships;
- The existing shareholders of OSEPL have pre-emptive right to subscribe to any issue of new equity shares by OSEPL. In case OSEPL allots equity shares to any third party strategic investor, the shareholding ratio *inter-se* the existing shareholders of OSEPL is required to be maintained.
- The existing shareholders of OSEPL have the right of first offer and tag along right, in case equity shares of OSEPL are sold by another existing shareholder of OSEPL.
- In case the shareholding of any party to the OSEPL SHA falls below 5.00%, it shall cease to have all rights under the OSEPL SHA including the right to appoint a nominee director, pre-emptive right, right of first refusal and tag along right.
- Prior written approval of NHAI is required for issuance or transfer of equity shares to any third party, creation of pledge on any shares of OSEPL, exercise of any pre-emptive rights or right of first refusal or tag along right, if the same results in:
  - the shareholding in OSEPL of MBL and SREI together with their affiliates and associates falls below 51.00% collectively and 26.00% individually during the construction period of the OSEPL Project and two years thereafter; and
  - direct, indirect, legal or beneficial acquisition by a third party of 15.00% or more shares of OSEPL or control over the board of OSEPL.

- The OSEPL SHA is valid till the validity of the OSEPL Concession Agreement, unless terminated earlier in terms of the termination clause of the OSEPL SHA or until OSEPL any of its shareholders is wound up or dissolved.

For current shareholding pattern of OSEPL, please refer to the chapter “Our Subsidiaries and Associates” on page 184.

**Other agreements / arrangements not being a contract entered into in the ordinary course of the business carried on or intended to be carried on by the issuer or a contract entered into more than two years before the date of this Red Herring Prospectus**

**1. Share Purchase Agreement dated March 30, 2015 between our Company and SREI, for the transfer of 45,270,000 equity shares of GIPL (“GIPL IPDF SPA”)**

Pursuant to the GIPL SPA dated March 30, 2015, IPDF sold 45,270,000 equity shares held by them in GIPL, at a price of ₹ 15.00 per equity share, for a total purchase consideration of ₹ 679.05 million, to be transferred to our Company, free and clear of all charges and encumbrances.

**2. Share Purchase Agreement dated October 27, 2016 between our Company and IPDC for the transfer of 17,500,000 equity shares of GIPL (“GIPL IPDC SPA”).**

**13. *Security Purchase Agreement dated November 12, 2016 between our Company and IPDC for the transfer of 20,000 equity shares and 1,985,500 OCPIDs of Potin Pangin Highway Private Limited ("PPHPL IPDC SPA").***

Pursuant to the PPHPL IPDC SPA dated November 12, 2016, our Company sold 20,000 equity shares of Potin Pangin Highway Private Limited held by them, at a price of ₹ 10.00 per equity share, for a total purchase consideration of ₹ 200,000.00, to be transferred to IPDC, free and clear of all charges and encumbrances. Further Our Company also sold 1,985,500 OCPID for a total purchase consideration of ₹ 30.00 million to IPDC. As on date of this Red Herring Prospectus our Company does not hold any equity shares or OPCID in PPHPL.

**14. *Trademark License Agreement dated November 12, 2016 between SREI and our Company***

Pursuant to a trademark license agreement dated November 12, 2016 entered into between our Corporate Promoter, SREI, and our Company, SREI has granted our Company and the Subsidiaries non-exclusive and perpetual license to use trade marks in relation to our corporate logo 'BRNL'. The consideration for such grant of license is a royalty of (i) ₹ 10,000.00 per annum payable by our Company as long as SREI is a promoter of our Company; or (ii) at the rate of 0.25% of the consolidated revenue of our Company for the last completed financial year, otherwise. This agreement is valid for a term up to November 11, 2026, post which period it may be renewed with the mutual consent of the parties thereto.

**15. *Letter of Agreement dated November 11, 2016 between our Company and SREI for acquisition of the subordinated debt due to SREI aggregating to ₹525.45 million ("MTPL Letter Agreement").***

Our Company has entered into a Letter of Agreement dated November 11, 2016 with SREI with an understanding that our Company intends to acquire at par, subject to this Issue, the subordinated debt extended to MTPL by SREI in the form of MTPL OCPID – I, MTPL OCPID – II and an unsecured loan on the same terms and conditions as had previously existed between SREI and MTPL.

The MTPL Letter Agreement provides that any interest earned on the MTPL OCPID – I, MTPL OCPID – II and the unsecured loan by our Company shall be paid to SREI on the same terms, for the period of holding of MTPL OCPID – I, MTPL OCPID – II and an unsecured loan by SREI. However, any liabilities (including tax liabilities) arising on account of receipt or transfer of such interest payable by our Company to SREI, shall be borne by SREI.

Pursuant to the MTPL Letter Agreement, in case our Company converts any part or whole of the MTPL OCPID – I, MTPL OCPID – II and the unsecured loan into equity shares of MTPL, there would be no payments which would be due and payable by our Company to SREI for such conversion, including in the event of receipt of any future returns on such converted subordinate debt. For further details with respect to the MTPL OCPID – I, MTPL OCPID – II and an unsecured loan to MTPL, please refer to the chapter “*Objects of the Issue*” on page 88.

**16. Letter of Agreement dated November 11, 2016 between SREI and our Company for acquisition of subordinated debt in the form of optionally convertible debentures advanced/held by SREI to/ in KEPL aggregating to ₹879.59 million (“KEPL Letter Agreement”).**

Our Company has entered into a Letter of Agreement dated November 11, 2016 with SREI with an understanding that our Company intends to acquire at par, subject to this Issue, the subordinated debt extended to KEPL by SREI in the form of KEPL OCD – I on the same terms and conditions as had previously existed between SREI and KEPL.

The KEPL Letter Agreement provides that any interest earned on the KEPL OCD – I by our Company shall be paid to SREI on the same terms, for the period of holding of KEPL OCD – I by SREI. However, any liabilities (including tax liabilities) arising on account of receipt or transfer of such interest payable by our Company to SREI, shall be borne by SREI.

Pursuant to the KEPL Letter Agreement, in case our Company converts any part or whole of the KEPL OCD – I into equity shares of KEPL, there would be no payments which would be due and payable by our Company to SREI for such conversion, including in the event of receipt of any future returns on such converted subordinate debt. For further details with respect to the KEPL OCD – I, please refer to the chapter “*Objects of the Issue*” on page 88.

**17. Letter of Agreement dated November 11, 2016 between our Company and SREI for acquisition of the subordinated debt due to SREI aggregating to ₹2,317.40 million by STPL (“STPL Letter Agreement”).**

Our Company has entered into a Letter of Agreement dated November 11, 2016 with SREI with an understanding that our Company intends to acquire at par, subject to the successful completion of this Issue, the subordinated debt extended to STPL by SREI in form of STPL OCPID and STPL Warrants on the same terms and conditions as had previously existed between SREI and STPL.

The STPL Letter Agreement provides that any interest earned on the STPL OCPID and STPL Warrants by our Company shall be paid to SREI on the same terms, for the period of holding of STPL OCPID and STPL Warrants by SREI. However, any liabilities (including tax liabilities) arising on account of receipt or transfer of such interest payable by our Company to SREI, shall be borne by SREI.

Pursuant to the STPL Letter Agreement, in case our Company converts any part or whole of the STPL OCPID and/or STPL Warrants into equity shares of STPL, there would be no payments which would be due and payable by our Company to SREI for such conversion, including in the event of receipt of any future returns on such converted subordinate debt. For further details, please refer to the chapter “*Objects of the Issue*” on page 88.

**18. Letter Arrangement dated February 16, 2017 between SREI and our Company (“BRNL Letter Arrangement”).**

Our Company and SREI have entered into a Letter Arrangement dated February 16, 2017, where-in it has been agreed that as long as SREI continues to be the Promoter of the Company, it shall not directly or indirectly engage in any business that is considered to be a competing business with our Company, except through our Company and that all future road assets / projects shall be managed by our Company, with the exception of those road assets/projects acquired by SREI in its ordinary course of business as an NBFC. However, in case SREI intends to subsequently dispose of these assets acquired as part of its ordinary course of business, it shall provide our Company a first right of refusal.

Our Company has not entered into any material agreements, other than agreements disclosed above, in the last two years from the date of this Red Herring Prospectus, which are not in the ordinary course of its business.

**Financial and Strategic Partners**

Other than the partners in the Project SPVs, our Company does not have any financial and strategic partners as of the date of filing this Red Herring Prospectus.

## OUR SUBSIDIARIES AND ASSOCIATES

| Conveyance Facility            | ₹ 75,000.00 per month                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Ex-gratia                      | Payment of one month's salary per annum or such other higher sum as may be decided by the Board                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Other benefits and perquisites | <ul style="list-style-type: none"> <li>Medical Reimbursement – Entitled for reimbursement of actual medical expenses incurred for self and family, restricted to an amount equivalent to one month's salary per annum.</li> <li>Leave Travel Concession – Entitled for reimbursement of actual travelling expenses for proceeding on leave, once in a year in respect of self and family, restricted to an amount equivalent to one month's salary per annum.</li> <li>Contribution to provident fund, superannuation and annuity fund by the Company shall be as per rules applicable for senior executives of our Company.</li> <li>Gratuity would be paid at the rate of half month's salary for each completed year of service or at such higher rate to be decided by the Board under the payment of Gratuity Act, 1972.</li> <li>Leave – Entitled for leave with full pay or encashment thereof as per the rules of the Our Company.</li> <li>Other Perquisites - Subject to overall ceiling on remuneration prescribed in Schedule V to the Companies Act, 2013, as amended or replaced, he may be given any other allowances, benefits and perquisites as the Board may from time to time decide.</li> <li>Incentives and Amenities - Any incentive and amenities as per the policy of our Company or as decided by the Board from time to time will also be paid to him.</li> </ul> |
| Minimum remuneration           | In the event of loss or inadequacy of profits in any financial year during the currency of tenure of service, the payment of salary, perquisites, and other allowances shall be as approved by the Board and be governed by the limits prescribed under Part II of Schedule V of the Companies Act, 2013                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Restriction on Dual Employment | During the currency of agreement, Mr. Bajrang Kumar Choudhary shall not accept any appointment or engagement of any nature as an employee/consultant/advisor or under any other title whatsoever of any other Company or elsewhere or be engaged in any other business or activity for gain, though Bajrang Kumar Choudhary can be an ordinary director of other Companies and can hold honorary positions in any organization/ institution/ trust/ society etc.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Termination                    | Appointment may be terminated even during the period of employment by either party by giving a prior notice of three months of such intention in writing to the other or on payment of three months' salary in lieu thereof.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

### Payment or benefits to Directors

The details of payments and benefits made to our Directors, by our Company, in Fiscal 2017 are as follows:

#### 1. Executive Directors

Our Company has paid remuneration of ₹ 5,511,454 to Mr. Bajrang Kumar Chaudhary in the Fiscal 2017 in his capacity as Managing Director. He has been designated as the Managing Director w.e.f. November 1, 2016.

#### 2. Independent Directors

The details of remuneration (including commission) paid/payable to our Independent Directors for Fiscal 2017 are as follows:

| Sr. No.      | Name of Director     | Amount (in ₹)    |
|--------------|----------------------|------------------|
| 1.           | Brahm Dutt           | 355,000          |
| 2.           | Pradeep Singh        | 205,000          |
| 3.           | Atanu Sen*           | 315,000          |
| 4.           | Tuk Tuk Ghosh Kumar* | 230,000          |
| <b>Total</b> |                      | <b>1,105,000</b> |

*\*Became directors in Fiscal 2017*

None of our Directors have been paid any remuneration or are eligible to be paid any remuneration from our Subsidiaries and Associates in Fiscal 2017. Further, none of the beneficiaries of loans and advances and sundry debtors are related to our Director.

### **Borrowing Powers of the Board of Directors**

As per the Articles of Association, the Board is authorised to exercise all the powers of the Company to borrow money, subject to the provisions of the Articles of Association and the Companies Act.

The shareholders, through a resolution passed at the AGM of the Company on September 30, 2015 authorised our Board to borrow money at all or any time from banks, financial institutions or any other lenders on such terms and conditions as the Board may consider suitable, up to such limit not exceeding ₹ 10,000.00 million notwithstanding that the monies to be borrowed together with the monies already borrowed by our Company by the way of loans (apart from temporary loans obtained by our Company in the ordinary course of business) will exceed the aggregate of the paid up capital of our Company and its free reserves.

### **Appointment of relatives of our Directors to any office or place of profit**

None of the relatives of our Directors hold any office or place of profit in our Company or our Subsidiaries as on the date of this Red Herring Prospectus.

### **Interest of Directors**

All our Directors may be deemed to be interested to the extent of fees payable to them for attending meetings of the Board of Directors or a committee thereof as well as to the extent of other remuneration and reimbursement of expenses payable to them under our Articles of Association, and to the extent of remuneration paid to them for services rendered as an officer or employee of our Company. All our Directors may also be regarded as interested in our Company to the extent of Equity Shares, if any, held by them or that may be subscribed by or allotted to the companies, firms and trusts, in which they are interested as directors, members, partners, trustees or promoters, pursuant to the Issue. Consequently, all of our Directors may also be deemed to be interested to the extent of any dividend payable to them and other distributions in respect of the said Equity Shares.

#### *Interest of Directors in the promotion of our Company*

None of our Directors are interested in the promotion of our Company other than in the ordinary course of our business. No consideration in cash or shares or otherwise has been paid or agreed to be paid to any of our Directors or to the firms or companies in which any of our Directors are interested, by any person, either to induce him to become, or to qualify him as, as a Director, or otherwise for services rendered by our Directors or by the firm or company in which they are interested, in connection with the promotion or formation of our Company.

#### *Interest of Directors in the properties of our Company*

Our Directors have no interest in any property acquired in the preceding two years or proposed to be acquired by our Company within the two years from the date of filing of the Draft Red Herring Prospectus, or in any transaction by our Company for acquisition of land, construction of building or supply of machinery.

### **Loans taken by Directors**

None of our Directors have availed any loans from our Company.

| 13.     | Sanjay Kumar Chaurasia  | November 10, 2016                        | Resignation                                   |

## Corporate Governance

The provisions of SEBI Listing Regulations will be applicable to us immediately upon the listing of our Equity Shares on the Stock Exchanges. We are in compliance with the requirements of the applicable regulations, including the SEBI Listing Regulations and the Companies Act, in respect of corporate governance including constitution of the Board and committees thereof. Our Board of Directors is constituted in compliance with the Companies Act, Equity Listing Agreements and the SEBI Listing Regulations.

As on the date of this Red Herring Prospectus, our Board comprises of five Directors. Since our Board has independent chairperson, in compliance with the requirements of the SEBI Listing Regulations, more than 1/3<sup>rd</sup> of our board comprises of independent directors. We have one (1) executive director and four independent directors on our Board, of which one is a woman Director.

## Committees of the Board

The Board has constituted the following committees in accordance with the requirements of the Companies Act and the SEBI Listing Regulations:

### 1. Audit Committee

The members of the Audit Committee are:

| Sr. No. | Name                    | Designation                                    | Designation in the Committee |
|---------|-------------------------|------------------------------------------------|------------------------------|
| 1.      | Brahm Dutt              | Chairman of the Board and Independent Director | Chairman                     |
| 2.      | Bajrang Kumar Choudhary | Managing Director                              | Member                       |
| 3.      | Atanu Sen               | Independent Director                           | Member                       |

The Audit Committee was re-constituted in meeting of our Board of Directors held on November 10, 2016. Our CFO and Company Secretary is the secretary of the Audit Committee. The scope and function of the Audit Committee is in accordance with the provisions of the Companies Act, 2013 and the SEBI Listing Regulations and its terms of reference include the following:

#### I. Powers -

- To investigate any activity within its terms of reference;
- To seek information from any employee;
- To obtain outside legal or other professional advice from external sources including forensic or other investigations, if necessary;
- To secure attendance of outsiders with relevant expertise, if it considers necessary;

- (e) To have full access to the information contained in the records of the Company.

## **II. Role -**

- (a) Oversight of the Company's financial reporting process and the disclosure of its financial information to ensure that the financial statement is correct, sufficient and credible;
- (b) Recommendation for appointment, remuneration and terms of appointment of auditors of the Company;
- (c) Approval of payment to statutory auditors for any other services rendered by the statutory auditors;
- (d) Reviewing / examining, with the management, the annual financial statements and auditor's report thereon before submission to the Board for approval, with particular reference to:
  - Matters required to be included in the Director's Responsibility Statement to be included in the Board's Report in terms of Section 134(3)(c) of the Companies Act, 2013;
  - Changes, if any, in accounting policies and practices and reasons for the same;
  - Major accounting entries involving estimates based on the exercise of judgment by management;
  - Significant adjustments made in the financial statements arising out of audit findings;
  - Compliance with other legal requirements relating to financial statements;
  - Disclosure of any related party transactions; and
  - Qualifications / modified opinion(s) in the draft audit report.
- (e) Reviewing / examining, with the management, the quarterly financial statements before submission to the Board for approval;
- (f) Reviewing / examining / monitoring, with the management, the statement of uses / application of funds raised through an issue (public issue, rights issue, preferential issue, etc.), the statement of funds utilized for purposes other than those stated in the offer document / prospectus / notice and the report submitted by the monitoring agency monitoring the utilisation of proceeds of a public or rights issue, and making appropriate recommendations to the Board to take up steps in this matter;
- (g) Review and monitor the auditor's independence and performance, and effectiveness of audit process;
- (h) Approval or any subsequent modification of transactions of the Company with related parties;
- (i) Scrutiny of inter-corporate loans and investments, unless otherwise defined, for the purposes of definition of auditor above, shall include statutory auditors, secretarial auditors, cost auditors and internal auditors;
- (j) Valuation of undertakings or assets of the Company, wherever it is necessary;
- (k) Evaluation of internal financial controls and risk management systems;
- (l) Reviewing, with the management, performance of statutory and internal auditors, adequacy of the internal control systems;
- (m) Reviewing the adequacy of internal audit function, defining the scope and frequency of Internal Audit including the structure of the internal audit department, staffing and seniority of the official heading the department, reporting structure coverage and frequency of internal audit;
- (n) Discussion with internal auditors of any significant findings and follow up there on;
- (o) Reviewing the findings of any internal investigations by the internal auditors into matters where there is suspected fraud or irregularity or a failure of internal control systems of a material nature and reporting the matter to the Board;

- (p) Discussion with statutory auditors before the audit commences, about the nature and scope of audit as well as post-audit discussion to ascertain any area of concern;
- (q) To look into the reasons for substantial defaults in the payment to the depositors, debenture holders, shareholders (in case of non-payment of declared dividends) and creditors;
- (r) To review the functioning of the Whistle Blower mechanism;
- (s) Approval of appointment of CFO (i.e., the whole-time Finance Director or any other person heading the finance function or discharging that function) after assessing the qualifications, experience and background, etc. of the candidate;

### III. Review of Information –

- (a) To mandatorily review the following information -
  - Management discussion and analysis of financial condition and results of operations.
  - Statement of significant related party transactions (as defined by the Audit Committee), submitted by management.
  - Management letters / letters of internal control weaknesses issued by the statutory auditors.
  - Internal audit reports relating to internal control weaknesses.
  - The appointment, removal and terms of remuneration of the Chief Internal Auditor shall be subject to review by the Audit Committee.
  - Statement of deviations:
    - i. Quarterly statement of deviation(s) including report of monitoring agency, if applicable submitted to stock exchange(s) in terms of Regulation 32(1) of the SEBI Listing and Disclosure Requirements Regulations, 2015 (“**SEBI Listing Regulations**”); and
    - ii. Annual statement of funds utilised for purposes other than those stated in the offer document / prospectus / notice in terms of the SEBI Listing Regulations.
- (b) To deal with such matters as may be delegated / referred to by the Board of Directors from time to time;
- (c) To delegate any of the above matters to any executive of the Company / sub-committee except those not allowed to be delegated under law;
- (d) Monitoring the end use of funds raised through public offers and related matters; and
- (e) Carrying out any other function as deemed appropriate or determined by the Board from time to time in the best interest of the Company and other stakeholders of the Company.

## 2. Nomination and Remuneration Committee

The members of the Nomination and Remuneration Committee are:

| Sr. No. | Name          | Designation                                    | Designation in the Committee |
|---------|---------------|------------------------------------------------|------------------------------|
| 1.      | Brahm Dutt    | Chairman of the Board and Independent Director | Chairman                     |
| 2.      | Pradeep Singh | Independent Director                           | Member                       |
| 3.      | Atanu Sen     | Independent Director                           | Member                       |

The Nomination and Remuneration Committee was re-constituted in meetings of our Board of Directors held on September 07, 2016 and November 10, 2016. Our CFO and Company Secretary is the secretary of the Nomination and Remuneration Committee. The scope and function of the Nomination and Remuneration Committee is in accordance with the provisions of the Companies Act, 2013 and the SEBI Listing Regulations and its terms of reference include the following:

- a. Evaluate the current composition and organization of the Board and its committees in light of requirements

established by any Regulatory Body or any other applicable statute, rule or regulation which the Committee deems relevant and to make recommendations to the Board in respect to the appointment, re-appointment and resignation of Independent, Executive and Non-Executive Directors of the Company;

- b. To periodically review the terms of reference and make recommendations to the Board for changes;
- c. Review the composition and size of the Board in order to ensure that the Board is comprised of members reflecting the proper expertise, skills, attributes and personal and professional backgrounds for service as a Director of the Company, as determined by the Committee;
- d. Review and recommend to the Board an appropriate course of action upon the resignation of current Board members, or any planned expansion of the Board, and review the qualifications, experience and fitness for service on the Board of any potential new members of the Board;
- e. Review all stockholder proposals submitted to the Company (including any proposal relating to the nomination of a member of the Board) and the timeliness of the submission thereof and recommend to the Board appropriate action on each such proposal;
- f. Formulate, administer and supervise the Company's Stock Option schemes, if any, in accordance with relevant laws;
- g. Ensure that the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the Company successfully;
- h. Ensure that relationship of remuneration to performance is clear and meets appropriate performance benchmarks;
- i. Ensure that remuneration to Directors, Key Managerial Personnel and senior management involves a balance between fixed and incentive pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals;
- j. Formulate the criteria for determining qualifications, positive attributes and independence of a Director and recommend to the Board a policy, relating to the remuneration for the Directors, Key Managerial Personnel and other employees of the Company;
- k. Formulate the criteria for evaluation of Independent Directors and the Board;
- l. Identify the persons who are qualified to become Directors and who may be appointed in senior management in accordance with the criteria laid down, recommend to the Board their appointment and removal;
- m. Deal with such matters as may be referred to by the Board of Directors from time to time; and
- n. Devising a policy on diversity of Board.

### 3. Stakeholders' Relationship Committee

The members of the Stakeholders' Relationship Committee are:

| Sr. No. | Name                    | Designation          | Designation in the Committee |
|---------|-------------------------|----------------------|------------------------------|
| 1.      | Pradeep Singh           | Independent Director | Chairman                     |
| 2.      | Atanu Sen               | Independent Director | Member                       |
| 3.      | Bajrang Kumar Choudhary | Managing Director    | Member                       |

The Stakeholders' Relationship Committee was constituted in a meeting of our Board of Directors held on October 17, 2016. Our CFO and Company Secretary is the secretary of the Stakeholders' Relationship Committee. The scope and function of the Stakeholders' Relationship Committee is in accordance with the provisions of the Companies Act, 2013 and the SEBI Listing Regulations. The terms of reference of the Stakeholders' Relationship Committee include:

- a. To approve, authorise, authenticate and register transfer and / or transmission of all classes of shares and / or securities;
- b. To approve and / or authorise sub - division, consolidation, issuance, re - issuance and rematerialisation etc. of share certificates and / or other security certificates;
- c. To authorise issue of duplicate share / security certificates;
- d. To review the status of unpaid / unclaimed dividend accounts and take necessary actions thereof;
- e. To authorise affixation of common seal on share certificates and / or other security certificates or documents;
- f. To deal with matters relating to shares and / or securities as may be prescribed by applicable laws including inter alia the SEBI Listing Regulations, Depositories Act, Companies Act etc. or any amendments thereto;
- g. To consider and resolve the grievances of security holders of the Company including complaints related to transfer of shares, non-receipt of balance sheet, non-receipt of declared dividends;
- h. To deal with matters relating to Company's Code of Conduct for Prohibition of Insider Trading (BRNL Insider Code) as well as SEBI (Prohibition of Insider Trading) Regulations, 1992;
- i. Any other share and / or securities related matters as may be delegated to the Committee from time to time; and
- j. To delegate powers of any of the above to any executive of the Company or to the Registrar and Share Transfer Agents (RTA) of the Company except those not allowed to be delegated under law.

#### 4. Corporate Social Responsibility Committee ("CSR Committee")

The members of the CSR Committee are:

| Sr. No. | Name                    | Designation          | Designation in the Committee |
|---------|-------------------------|----------------------|------------------------------|
| 1.      | Tuk Tuk Ghosh Kumar     | Independent Director | Chairman                     |
| 2.      | Atanu Sen               | Independent Director | Member                       |
| 3.      | Bajrang Kumar Choudhary | Managing Director    | Member                       |

The CSR Committee was constituted in a meeting of our Board of Directors held on October 17, 2016. The scope and function of the CSR Committee is in accordance with the provisions of the Companies Act, 2013. Our Company Secretary is the secretary of the CSR Committee. The terms of reference of the CSR Committee include:

- a. Formulating and recommending to the Board, a Corporate Social Responsibility (CSR) Policy in accordance with the Companies (Corporate Social Responsibility Policy) Rules, 2014 including inter alia list of activities to be undertaken by the Company as specified in Schedule VII of the Companies Act, 2013, modalities of execution of such activities and implementation schedule for the same;
- b. Recommending the amount of expenditure to be incurred on the activities referred to in clause (a) above;
- c. Monitoring the CSR Policy of the Company from time to time; and
- d. Instituting a transparent monitoring mechanism for implementation of the CSR projects or programs or activities undertaken by the Company.

#### 5. IPO Committee

An IPO committee was constituted in a meeting of our Board of Directors held on November 10, 2016. The members of the IPO committee are Mr. Pradeep Singh, Mr. Brahm Dutt, Mr. Atanu Sen and Mr. Bajrang Kumar Choudhary.

## Interest of SREI in our Company

SREI is interested in our Company to the extent of being a Promoter of our Company, its shareholding and the dividends payable, if any, repayment of interest and principal amounts for loans provided to the Company.

Additionally, our Company has entered into the trademark license agreement dated November 12, 2016 with SREI for the use of “BRNL” trademarks, currently applied for by SREI. For further details, please refer to chapter “History and Certain Corporate Matters” on page 171.

Except as stated in this Red Herring Prospectus, our Company has not entered into any contracts, agreements or arrangements during the preceding two years from the date of the Draft Red Herring Prospectus or proposes to enter into any such contract in which SREI is directly or indirectly interested and no payments have been made to SREI in respect of the contracts, agreements or arrangements which are proposed to be made with it other than in ordinary course of business. Further, other than as disclosed in the chapter “Objects of the Issue” on page 88, no payment shall be made by our Company to our Corporate Promoter, from the proceeds of the Issue.

SREI is not interested as a member of a firm or company and no sum has been paid or agreed to be paid to SREI, or to such firm or company in cash or shares or otherwise by any person for services rendered by SREI or by such firm or company in connection with the promotion or formation of our Company, except as disclosed in this Red Herring Prospectus.

As on the date of this Red Herring Prospectus, SREI is not involved with any ventures which are in the same line of activity or business as that of our Company other than those which SREI undertakes in ordinary course of business.

Please refer to the chapters titled “History and Certain Corporate Matters”, “Business” and “Financial Information” beginning on pages 171, 136 and 218, for details of SREI’s interest in our Company’s business. Further, SREI has no interest in any property acquired by our Company in the last two years from the date of the Draft Red Herring Prospectus, or proposed to be acquired by our Company, or in any transaction with respect to the acquisition of land, construction of building or supply of machinery.

## Financial Performance

#### *Companies with which SREI has disassociated in the preceding three Fiscals*

Except as disclosed below, SREI is not disassociated itself from any company or firm during the three years preceding the Draft Red Herring Prospectus:

| Sr. No. | Name of the entity from which promoter disassociated                             | Date of disassociation | Reason for disassociation               |
|---------|----------------------------------------------------------------------------------|------------------------|-----------------------------------------|
| 1.      | Goldensons Construction Private Limited                                          | June 30, 2015          | Ceased to have shareholding             |
| 2.      | Attivo Economic Zones Private Limited (formerly Global Investment Trust Limited) | November 21, 2014      | Ceased to have shareholding             |
| 3.      | Quippo Mauritius Private Limited, Mauritius                                      | February 25, 2015      | Ceased to be step down-subsiary of SREI |
| 4.      | Quippo Energy Nigeria Private Limited, Nigeria                                   | February 25, 2015      | Ceased to be step down-subsiary of SREI |
| 5.      | Quippo CJ Exploration & Production Private Limited                               | July 8, 2014           | Ceased to be step down-subsiary of SREI |
| 6.      | Sahaj Retail Limited (formerly Srei Forex Limited)                               | May 17, 2016           | Ceased to have shareholding             |
| 7.      | Quippo Telecom Infrastructure Private Limited                                    | January 13, 2017       | Ceased to have shareholding             |

#### *Mechanism for redressal of investor grievance*

The board of directors of SREI has constituted a stakeholders' relationship committee in accordance with the SEBI Listing Regulations to look into the redressal of shareholder/investor complaints. It normally takes 5-7 days to dispose various types of investor grievances. It received 2,998 investor complaints in the last three years and up to June 30, 2017 and of which two investor complaints remained unsolved.

#### *Other Confirmations*

SREI does not fall under the definition of sick companies under SICA, does not have a negative networth, and it is not under winding up.

Further, during the five years preceding the date of this Red Herring Prospectus, SREI has not been a defunct company nor has there been an application made to the registrar of companies for striking off its name.

For further details of legal and regulatory proceedings involving SREI, please refer to the chapter titled “*Outstanding Litigations and Material Developments*” on page 341.

For details of Promoters’ Contribution and lock-in, please refer to chapter titled “*Capital Structure*” on page 79 of this Red Herring Prospectus.

### **B. Make in India Fund – A scheme of Manufacturing Value Addition Fund (“Make in India Fund”)**

Manufacturing Value Addition Fund has been organised as a contributory trust under the provisions of the Indian Trust Act, 1882 and has been registered with SEBI as an Alternative Investment Fund (Category I – Venture Capital Fund) under the Securities and Exchange Board of India (Alternative Investment Funds) Regulations, 2012 vide a certificate of registration dated December 13, 2012. Make in India Fund is a scheme of the Manufacturing Value Addition Fund with a target corpus of ₹ 500.00 million with a green shoe option of another ₹ 500.00 million for investing in entities engaged primarily in sectors such as the IT & ITes Sector, e-commerce, manufacturing, services, electronic, biotechnology, agriculture sector, infrastructure sector including power, pharmaceuticals and defence sector. Mr. Raghunath Ghose is the trustee of the Make in India Fund.

Make in India Fund is managed by SAIML, a wholly owned subsidiary of SREI having its registered office at Vishwa Karma, 86C Topsia Road (S), Kolkata, West Bengal – 700 046. The board of directors of SAIML currently comprises the following:

- i. Shashi Bhushan Tiwari;
- ii. Chandra Shekhar Samal;
- iii. Susil Kumar Pal; and
- iv. Sanjeev Sancheti.

The current term of the Make in India Fund is for 20 years commencing from September 25, 2015 with an option of extending the tenure by a further period of two years (two extensions of one year each).

As on the date of this Red Herring Prospectus, the Make in India Fund has two (2) institutional investors / contributors, together having contributed 100% of the total fund, respectively. As on March 31, 2017, Make in India Fund holds investment only in our Company (currently, 500,000 Equity Shares).

For details of Promoters’ Contribution and lock-in, please refer to chapter “*Capital Structure*” on page 79 of this Red Herring Prospectus.

### **Financial Performance**

| Income                                                   | 0.13                | 0.00                  |
| Surplus / (Deficit) for the year                         | (0.41)              | (0.60)                |
| Basic Surplus / (Deficit) for the year-Per Unit (in ₹)   | (0.38)              | **                    |
| Diluted-Surplus / (Deficit) for the year-Per Unit (in ₹) | (0.38)              | **                    |
| Net asset value per unit (in ₹)                          | 99.08               | **                    |

\*Fund operational since September 2015, therefore no data prior to Fiscal 2016

\*\* Since no contribution fund/unit outstanding therefore no data

### **Interest of Make in India Fund in our Company**

Make in India Fund is interested in our Company to the extent of being a Promoter of our Company, its shareholding and the dividends payable, if any.

Except as stated in the Draft Red Herring Prospectus, our Company has not entered into any contracts, agreements or arrangements during the preceding two years from the date of the Draft Red Herring Prospectus or proposes to enter into any such contract in which Make in India Fund is directly or indirectly interested and no payments have been made to Make in India Fund in respect of the contracts, agreements or arrangements which are proposed to be made with it other than in ordinary course of business. For further details of related party transactions, as per Accounting Standard 18, please refer to the chapter “*Related Party Transactions*” on page 216.

Make in India Fund is not interested as a member of a firm or company and no sum has been paid or agreed to be paid to Make in India Fund, or to such firm or company in cash or shares or otherwise by any person for services rendered by Make in India Fund or by such firm or company in connection with the promotion or formation of our Company, except as disclosed in this Red Herring Prospectus.

As on the date of this Red Herring Prospectus, Make in India Fund is not involved with any ventures which are in the same line of activity or business as that of our Company.

Further, Make in India Fund has no interest in any property acquired by our Company in the last two years from the date of the Draft Red Herring Prospectus, or proposed to be acquired by our Company, or in any transaction with respect to the acquisition of land, construction of building or supply of machinery.

### **Other Confirmations**

Our Company confirms that the PAN, the bank account number, the company registration number and address of the registrar of companies where SREI is registered and the PAN, bank account number and SEBI registration number of Make in India Fund has been submitted to the Stock Exchanges at the time of filing of the Draft Red Herring Prospectus.

Our Promoters and Promoter Group entities have not been identified as wilful defaulters by the RBI or any government authority.

Our Promoters and Promoter Group do not intend to subscribe to this Issue.

No disciplinary action has been initiated against our Promoters by the Stock Exchanges or SEBI or any other statutory authority nor has any of our Promoters or Promoter Group entities been found to be non-compliant with the securities laws of India or abroad.

Except as stated otherwise in “*Related Party Transactions*” which provides the related party transactions, as per Accounting Standard 18 on page 216, in “*Promoter and Promoter Group – Interests of our Promoter*” on pages 207 and 209, and certain amounts paid and intended to be paid by our Company to our Promoter out of the proceeds of the Issue, as disclosed in the chapter “*Objects to the Issue*” on page 88, there has been no payment or benefit to our Promoters or Promoter Group during the two years preceding the filing of the Draft Red Herring Prospectus nor is there any intention to pay or give any benefit to our Promoters or Promoter Group as on the date of this Red Herring Prospectus.

Our Company has also entered into a leave and license agreement with Sahaj e-Village Limited, our Promoter Group Company for our Registered Office. For details, please refer to “*Business - Property and Equipment*” on page 165.

Our Promoters and Promoter Group have not been restrained or debarred or prohibited from accessing the capital markets or restrained or debarred or prohibited from buying, selling or dealing in securities under any order or directions passed for any reasons by SEBI or any other authority or refused listing of any of the securities issued by any stock exchange in India or abroad. Further, our Promoters are not and have never been a promoter of any other company which is debarred or prohibited from accessing capital markets under any order or direction passed by SEBI or any other regulatory authority.

Except as disclosed in “*Related Party Transactions*” on page 216, our Promoters are not related to any sundry debtors of our Company.

### *Change in control of our Company in the last five years*

Our Company allotted 16,630,000 Equity Shares, 500,000 Equity Shares and 9,520,000 Equity Shares to SREI,

Make in India Fund and OSPL Infradeal Private Limited on November 12, 2016, at a price of ₹ 205.00 per Equity Share (“**Preferential Allotment**”). Pursuant to the Preferential Allotment, our Promoters and Promoter Group, by virtue of their shareholding in our Company, are collectively in control over our Company.

### **Promoter Group**

1. OSPL Infradeal Private Limited
2. IPDF

## GROUP COMPANIES

As per the SEBI ICDR Regulations, for the purpose of identification of ‘group companies’, our Company has considered companies covered under the applicable accounting standard, i.e. Accounting Standard 18 issued by the Institute of Chartered Accountants of India (“AS 18”) as per the audited consolidated financial statements for fiscal year ended March 31, 2017, other than our Subsidiary, our Associates, our Corporate Promoter, Make in India Fund and any company which has ceased to be the related party of the Company in terms of AS 18. Further, pursuant to a resolution of our Board dated December 22, 2016, for the purpose of disclosure in this Red Herring Prospectus, apart from companies covered under AS 18 in terms of the audited consolidated financial statements for the fiscal year 2017, a company shall be considered material and disclosed as a Group Company if (i) the company is a member of the Promoter Group and our Company has entered into one or more transactions with such company (excluding contributions by members of the Promoter Group towards subscription of Equity Shares of the Company) in the last financial year and/or relevant stub period (in respect of which, financial statements are included in the Draft Red Herring Prospectus), cumulatively exceeding 10.00% of the consolidated revenue of our Company for such financial year / stub period; and (ii) companies which subsequent to the date of the last audited financial statements, would require disclosure in the latest audited consolidated financial statements of our Company for subsequent periods as companies covered under AS 18 in addition to/other than those companies covered under AS 18 in the latest audited consolidated financial statements. For avoidance of doubt, it is hereby clarified that transactions with members of the Promoter Group in relation to subscription of Equity Shares of the Company shall not be considered while identifying Group Companies.

For avoidance of doubt, it is hereby clarified that our Corporate Promoter and Make in India Fund as well as the Subsidiaries and Associates, have not been considered as Group Companies for the purpose of disclosure in this Red Herring Prospectus.

### 1. Infrastructure Project Development Capital (“IPDC”)

#### Corporate Information

IPDC is a scheme of SREI Venture Capital Trust with a target corpus of ₹ 3,500.00 million with a green shoe option of another ₹ 1,500.00 million. SREI Venture Capital Trust has been organised as a contributory trust under the provisions of the Indian Trust Act, 1882 and has been registered with SEBI as a Venture Capital Fund under the SEBI (Venture Capital Funds) Regulations, 1996. The investment objective of IPDC is to achieve substantial, intermediate to long-term capital appreciation, by acquiring significant equity or quasi-equity stakes in Indian entities engaged in development, creation, development, maintenance of and/or providing services to infrastructure facilities / projects. The sectors that IPDC primarily deploys its funds in are the road, power, port, airport, railway and the urban infrastructure sector. Mr. Raghunath Ghose is the trustee of IPDC.

IPDC is managed by SAIML, a wholly owned subsidiary of our Corporate Promoter, SREI, having its registered office at Vishwakarma, 86C Topsia Road (South), Kolkata – 700 046, West Bengal, India.

The current term of IPDC is for eight years commencing from September 30, 2009 with an option of extending the tenure by a further two years (two extensions of one year each). As on date of this Red Herring Prospectus, our Promoter SREI holds 19.68% of the total units of IPDC.

## Independent Auditor's Report on Restated Consolidated Financial Information

The Board of Directors of  
Bharat Road Network Limited  
10B, Mirania Gardens,  
Topsia Road (South),  
Kolkata – 700 046.

Dear Sirs,

1. We have examined the attached Restated Consolidated Financial Information of Bharat Road Network Limited ('the Company'), and its subsidiaries (collectively known as "Group"), which comprise of the Restated Consolidated Summary Statement of Assets and Liabilities as at 31<sup>st</sup> March, 2017, 2016, 2015, 2014, and 2013, the Restated Consolidated Summary Statement of Profit and Loss and the Restated Consolidated Summary Statement of Cash Flows for each of the years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014, and 2013 and the Summary of Significant Accounting Policies as approved by the Board of Directors of the Company prepared in terms of the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013 ("the Act") read with Rule 4 to 6 of Companies (Prospectus and Allotment of Securities) Rules, 2014 ("the Rules") and
- b) the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 as amended from time to time in pursuance of provisions of Securities and Exchange Board of India Act, 1992 ("ICDR Regulations").

The preparation of the Restated Consolidated Financial Information is the responsibility of the Management of the Company for the purpose set out in paragraph 10 below. The Management's responsibility includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Consolidated Financial Information. The Management is also responsible for identifying and ensuring that the Company complies with the Rules and ICDR Regulations.

2. We have examined such Restated Consolidated Financial Information taking into consideration:
  - a) The terms of reference and terms of our engagement agreed upon with you in accordance with our engagement letter dated 7<sup>th</sup> October, 2016 in connection with the proposed issue of equity shares of the Company; and
  - b) The Guidance Note on Reports in Company Prospectuses (Revised 2016) issued by the Institute of Chartered Accountants of India (ICAI) ("The Guidance Note").
3. These Restated Consolidated Financial Information have been compiled by the management from the audited consolidated financial statements as at 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013 and for each of the years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013 which have been approved by Board of directors at their meetings held on 26<sup>th</sup> April, 2017, 19<sup>th</sup> September, 2016, 25<sup>th</sup> September, 2015, 26<sup>th</sup> September, 2014 and 2<sup>nd</sup> September, 2013 respectively.
4. We did not audit the financial statements of subsidiary/ies and certain associates for the financial years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014, and 2013 whose share of total assets, total revenues, and net cash flows and Group's share of net losses, included in the Restated Consolidated Financial Information, for the relevant years is tabulated below:

(₹ in millions)

| Particulars                   | 31 <sup>st</sup> March,<br>2017 | 31 <sup>st</sup> March,<br>2016 | 31 <sup>st</sup> March,<br>2015 | 31 <sup>st</sup> March,<br>2014 | 31 <sup>st</sup> March,<br>2013 |
|-------------------------------|---------------------------------|---------------------------------|---------------------------------|---------------------------------|---------------------------------|
| Total Assets                  | 7,362.06                        | 3,911.15                        | 2,432.76                        | 1,955.23                        | Not applicable                  |
| Revenues                      | 1.71                            | -                               | -                               | -                               | Not applicable                  |
| Net Cash Inflows / (Outflows) | (61.25)                         | 143.73                          | (248.39)                        | 281.84                          | Not applicable                  |
| Group's share of Losses       | 371.10                          | 427.03                          | 180.38                          | 93.70                           | 2.48                            |

These financial statements have been audited by other firms of Chartered Accountants, Singhi & Co., MKPS & Associates, RMA & Associates, Chaturvedi & Co. and Gianender & Associates whose reports have been furnished to us and our opinion in so far as it relates to the amounts included in these Restated Consolidated Financial Information are based solely on the report of other auditors.

5. Based on our examination in accordance with the requirements of Section 26 of Part I of Chapter III of the Act read with, Rules 4 to 6 of Companies (Prospectus and Allotment of Securities) Rules, 2014, the ICDR Regulations and the Guidance Note, we report that:
  - a) The Restated Consolidated Summary Statement of Assets and Liabilities of the Group as at 31<sup>st</sup> March, 2017, 2016, 2015, 2014, and 2013 examined by us, as set out in Annexure - I to this report, have been arrived at after making adjustments and regroupings/reclassifications as in our opinion were appropriate and more fully described in Annexure - V - Summary Statement of Adjustments to the Audited Consolidated Financial Statements.
  - b) The Restated Consolidated Summary Statement of Profit and Loss of the Group for the years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013 examined by us, as set out in Annexure - II to this report have been arrived at after making adjustments and regroupings/reclassifications as in our opinion were appropriate and more fully described in - Annexure – V - Summary Statement of Adjustments to the Audited Consolidated Financial Statements.
  - c) The Restated Consolidated Summary Statement of Cash Flows of the Group for the years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013, as set out in Annexure - III to this report, have been arrived at after making adjustments and regroupings/reclassifications as in our opinion were appropriate and more fully described in Annexure – V - Summary Statement of Adjustments to the Audited Consolidated Financial Statements.
  - d) Based on the above, and according to the information and explanations given to us, we further report that the Restated Consolidated Financial Information:
    - (i) have been made after incorporating adjustments for the changes in accounting policies retrospectively in respective financial years to reflect the same accounting treatment as per changed accounting policy for all the reporting periods;
    - (ii) have been made after incorporating adjustments for the material amounts in the respective financial years to which they relate;
    - (iii) do not contain any extra-ordinary items that need to be disclosed separately in the Restated Consolidated Financial Information and do not contain any qualifications requiring adjustments. However, remarks/comments in the Companies (Auditors Report) Order, 2015 issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (referred to as 'CARO') which do not require any corrective adjustments in the financial information have been disclosed in Annexure V - Summary Statement of Adjustments to the Audited Consolidated Financial Statements.
    - (iv) Include adjustment arising on account of Emphasis of matter paragraphs included in Independent Auditors report to the Consolidated Financial Statements as stated below:

Year ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013:

Note A(2) of Annexure V to the Restated Consolidated Financial Information in respect of capitalisation of borrowing cost on fund borrowed exclusively for investment as part of cost of investment, has now been de-capitalised and charged to the Statement of Profit and Loss.

Year ended 31<sup>st</sup> March, 2017:

Note A(4)(f) of Annexure V to the Restated Consolidated Financial Information in respect of an associate for non-provisioning of negative grant (premium) payable to Madhya Pradesh Road Development Corporation for the financial year 2013-14, 2014-15, 2015-16 and 2016-17, have now been recognised by restatement of profits/ (losses) of the associate for the respective

financial years and consequently, the amount of share of loss of associate is revised as a result of restatement of profits/ (losses) of the associate for the respective period.

- (v) Emphasis of matter paragraph included in Independent Auditors report to the Consolidated financial statements in respect of a subsidiary, which do not require any corrective adjustment in the financial information, are as follows:

Year ended 31<sup>st</sup> March, 2017

Note B(III) of Annexure V to the Restated Consolidated Financial information regarding Foreclosed of Project on 2nd March, 2017 and that the process of determination and settlement of claims is under process.

6. We have also examined the following Restated Consolidated Financial Information of the Group set out in the Annexures prepared by the management and approved by the Board of Directors on 26<sup>th</sup> April, 2017 for the year ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013.

- (a) Annexure IV –Summary Statement of Significant Accounting Policies and Notes to Accounts (Note 1);
- (b) Annexure V - Summary Statement of Adjustments to the Consolidated Financial Statements;
- (c) Annexure VI –Summary Statement of Accounting Ratios;
- (d) Annexure VII - Summary Statement of Capitalisation;
- (e) Annexure VIII - Summary Statement of Dividend Paid.

According to the information and explanations given to us, in our opinion, the Restated Consolidated Financial Information and the above restated consolidated financial information contained in Annexures IV to VIII accompanying this report, read with Summary of Significant Accounting Policies disclosed in Note 1 of Annexure IV, are prepared after making adjustments and regroupings as considered appropriate and have been prepared in accordance with Section 26 of Part I of Chapter III of the Companies Act, 2013 read with Rules 4 to 6 of Companies (Prospectus and Allotment of Securities) Rules, 2014, ICDR Regulations and the Guidance Note.

- 7. This report should not in any way be construed as a reissuance or re-dating of any of the previous audit reports issued by us, nor should this report be construed as a new opinion on any of the financial statements referred to herein.
- 8. We have no responsibility to update our report for events and circumstances occurring after the date of the report.
- 9. Our report is intended solely for use of the management for inclusion in the offer document to be filed with Securities and Exchange Board of India, relevant stock exchanges and Registrar of Companies, West Bengal in connection with the proposed issue of equity shares of the Company. Our report should not be used, referred to or distributed for any other purpose except with our prior consent in writing.

- The above Cash Flow Statement has been prepared under the 'Indirect Method' as set out in the Accounting Standard 3 (AS 3) "Cash Flow Statements".
- Cash and cash equivalents do not include any amount which is not available to the Company for its use.
- Figures in brackets represents outflows.
- The above statement should be read with Statement of Significant Accounting Policies and Notes to the Accounts appearing in Annexure - IV, Summary Statement of Adjustments to the Consolidated Financial Statements appearing in Annexure - V, Restated Consolidated Summary Statement of Accounting Ratios in Annexure - VI, Restated Consolidated Summary Statement of Capitalisation in Annexure - VII, Restated Consolidated Summary Statement of Dividend Paid in Annexure - VIII.
- During the financial year 2012-13, unsecured Loan given amounting to ₹ 1455.71 Million was converted into Investment in Debentures. However, the same has not been considered as movement in Investing Activities as it did not involve physical movement of cash.
- During the financial year 2012-13, 2013-14, 2014-15, 2015-16 and 2016-17 Share/debenture application money given aggregating to ₹ 120.70 Million, ₹ 4.90 Million, ₹55.00 Million, ₹ Nil and ₹ 138.49 Million respectively have been converted into investments in Equity Shares/debentures. However, the same has not been considered as movement in Investing Activities as it did not involve physical movement of cash.
- Interest of ₹ 43.56 Million and ₹ 41.34 Million for the period/year ended 30th November, 2016 and 31st March, 2016 respectively earned on advances and adjusted with borrowing costs, has been included in interest received to the extent realised during the year.
- Previous years audited figures have been regrouped wherever necessary.

## Annexure IV

### Summary of Significant Accounting Policies and Notes to Accounts

**Corporate Information:** The Group is presently engaged in the business of designing, building, operating, maintaining and carrying out all other activities pertaining to road projects. As per the guidelines of respective Government Authority and the requirements of the Concession Agreements, such road projects are required to be implemented under the Built, Operate & Transfer (BOT) model by creating Special Purpose Vehicles (SPVs) so that after the concession period, the SPV can be transferred to the respective authority on an “as is where is basis”. The Group has, therefore, invested in various road projects under the aforesaid SPV model.

#### Note - 1. Significant Accounting Policies

##### 1.1 Basis of Preparation:

The consolidated financial statements are prepared in accordance with the historical cost convention and the accrual basis of accounting.

The Restated Consolidated Summary Statement of Assets and Liabilities of the Group as at 31st March, 2017, 31st March, 2016, 31st March, 2015, 31st March, 2014, and 31st March, 2013 and the related Restated Consolidated Summary Statement of Profits and Losses and Cash Flows Statement for the years ended 31st March, 2017, 31st March, 2016, 31st March, 2015, 31st March, 2014 and 31st March, 2013 (herein collectively referred to as ‘Restated Consolidated Summary Statements’ have been compiled by the management from the consolidated financial statements of the Group for the years ended 31st March, 2017, 31st March, 2016, 31st March, 2015, 31st March, 2014 and 31st March, 2013.

These Restated Consolidated Summary Statements have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP). These Financial Statements have been prepared to comply in all material respects with the Accounting Standards (‘AS’) specified under Section 133 of the Companies Act 2013, read with Rule 7 of the Companies(Accounts) Rules, 2014, and the Companies (Accounting Standards) Amendments Rules, 2016, other pronouncements of the Institute of Chartered Accountants of India and relevant applicable provisions of the Companies Act, 1956, and Companies Act, 2013 to the extent notified.

Restated Consolidated Summary Statements relate to the Group and have been prepared specifically for inclusion in the offer document to be filed by the Company with the Securities and Exchange Board of India (‘SEBI’) and Registrar of Companies (ROC) in connection with its proposed Initial Public Offering.

These Restated Consolidated Summary Statements of assets and liabilities, profits and losses and cash flows have been prepared by the Group to comply in all material respects with the requirements of Sub-clause (i), (ii) and (iii) of clause (b) of Sub-section (1) of Section 26 of Chapter III of the Companies Act, 2013 read with Rule 4 of Companies (Prospectus and Allotment of Securities) Rules, 2014 and the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (“the SEBI Guidelines”) issued by SEBI on August 26, 2009 as amended from time to time.

The preparation of consolidated financial statements requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities including Contingent Liabilities as of the date of the financial statements and the reported income and expenses for the reporting year. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.

#### Principles of Consolidation:

The consolidated financial statements relates to Bharat Road Network Limited (the Holding Company) and its Subsidiaries and associates. The Holding Company, its subsidiaries and associates are collectively referred to as ‘the Group’. The consolidated financial statements of the Group have been prepared in accordance with Accounting Standard 21 (AS-21) “Consolidated Financial Statements” and Accounting Standard 23 (AS-23) “Accounting for Investments in Associates in Consolidated Financial Statements” notified by the Central Government under the Companies (Accounting Standards) Rules, 2006. The consolidated financial statements have been prepared on the following basis:

The financial statements of the Holding Company and its subsidiary companies have been combined on line by line basis by adding together the book value of like items of Assets, Liabilities, Income and Expenses after eliminating intra-group balances and intra-group transactions resulting in unrealised profits or losses.

In case of investments in subsidiaries, where the shareholding is less than 100%, minority interest in the net assets of consolidated subsidiaries consist of:

- i) The amount of equity attributable to minorities at the date on which Investment in the subsidiary is made.
- ii) The minorities’ share of movements in equity since the date the holding subsidiary relationship came into existence.

Uniform accounting policies for like transactions and other events in similar circumstances have been adopted and presented, to the extent possible, in the same manner as the Holding Company's separate financial statements.

The excess of cost of the Holding Company of its investment in the subsidiary over the Holding Company's portion of equity of the subsidiary as at the date of investment is recognised in the consolidated financial statements as Goodwill. It is tested for impairment on a periodic basis and written-off if found impaired.

The excess of Holding Company's portion of equity of the subsidiary over cost as at the date of investment, is treated as Capital Reserve.

Investment in associate is accounted using the equity method and disclosed separately in the Consolidated Balance Sheet.

The list of subsidiaries/associates included in the consolidation and the holding company's share therein are as under:

| Sr. No. | Name of Subsidiary                                             | Country of Incorporation | Proportion of Ownership Interest held as at |                        |                        |                        |                        |
|---------|----------------------------------------------------------------|--------------------------|---------------------------------------------|------------------------|------------------------|------------------------|------------------------|

## 1.2 Property, Plant and Equipment and Depreciation / Amortization:

### Property, Plant and Equipment

Property, Plant and Equipment are stated at Cost less accumulated depreciation and impairment losses, if any. Cost includes taxes, duties, freight and incidental expenses related to the acquisition and installation of the assets. The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

### Intangible Assets

Toll Collection Rights are obtained in consideration for rendering construction, operation and maintenance services in relation to building and maintenance of the of the project on Design, Build, Operate and Transfer basis. The cost

of toll collection rights comprises civil works, machinery under erection, construction and erection materials, pre-operative expenditure, expenditure indirectly related to the project and incidental to setting up project facilities, borrowing cost incurred during the implementation phase. Such costs, on completion of project are capitalized as Intangible Assets.

Intangible Assets comprising of computer software and licenses expected to provide future enduring economic benefits are carried at cost less accumulated amortization and impairment losses, if any. Cost comprises of purchase price and directly attributable expenditure on making the asset ready for its intended use. Any technology support cost or annual maintenance cost for such software is charged to the Statement of Profit and Loss.

#### Intangible Assets under Development

Intangible Assets under development includes direct and indirect expenditure incurred for the highway project and costs incidental and related thereto. Expenses incurred relating to the development of highway project prior to commencement of commercial operations are included under Intangible Assets under development and after completion to be transferred to Intangible Assets. All expenses which are capital in nature and directly relatable to development of highway project incurred after commencement of commercial operations are included under

Intangible assets under development. These expenses will be transferred to Intangible Assets upon completion and receipt of the final completion certificate from NHAI.

#### Depreciation and amortization

Depreciation on tangible assets is provided on Straight Line Method ('SLM'), which reflects the management's estimate of the useful lives of the respective Property, Plant and Equipment. Pursuant to the enactment of the Companies Act 2013, the Group has, effective 1st April 2014, reviewed and revised the useful life of its respective Property, Plant and Equipment and such useful life are equal to the corresponding useful life prescribed in Part C of Schedule II to Companies Act 2013:

|          | Asset category            | Useful Life of the Asset |
|----------|---------------------------|--------------------------|
| <b>I</b> | <b>Assets for Own Use</b> |                          |
| i)       | Computers                 | 3, 6 years               |
| ii)      | Furniture & Fixtures      | 10 years                 |
| iii)     | Plant & Machinery         | 15 years                 |
| iv)      | Office Equipment          | 5 years                  |
| v)       | Electrical Installation   | 10 years                 |

Upto 31st March, 2014, the depreciation on Property, Plant and Equipment is provided at rates prescribed under Schedule XIV to the Companies Act, 1956 and with effect from 1st April, 2014, the depreciation is provided based on useful life prescribed under Schedule II of the Companies Act, 2013. In respect of Property, Plant and Equipment purchased during the year, depreciation is provided on a pro-rata basis from the date on which such asset is ready to be put to use.

Toll collection rights in respect of road projects are amortized over the period of concession using the revenue based amortization method in the manner prescribed under Schedule II to the Companies Act, 2013. Under the revenue based method, amortization is provided based on the proportion of actual revenue earned till the end of the year to the total projected revenue from the intangible asset expected to be earned over the concession period. Total projected revenue is reviewed at the end of each financial year and is adjusted to reflect the changes in earlier estimate vis-à-vis the actual revenue earned till the end of the year so that the whole of the cost of the intangible assets is amortized over the concession year.

Amortization of intangible assets such as Specialized software are provided on SLM which reflect the management's estimate of useful life of such assets:

Asset category Useful Life

|          | Asset category            | Useful Life |
|----------|---------------------------|-------------|
| <b>I</b> | <b>Assets for Own Use</b> |             |
| i)       | Intangible Assets         | 6 years     |

Depreciation on assets acquired/sold during the year is recognised in Statement of Profit and Loss on pro-rata basis from/till the date of purchase/sale.

### 1.3 Impairment of Property, Plant and Equipment:

Wherever events or changes in circumstances indicate that the carrying amount of Property, Plant and Equipment may be impaired, the Group subjects such assets to a test of recoverability, based on discounted cash flows expected from use or disposal thereof. If the assets are impaired, the Company recognizes an impairment loss as the excess of the carrying amount over the recoverable amount.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However the carrying amount after reversal is not increased beyond the carrying amount that would have prevailed by charging usual depreciation if there was no impairment.

#### **1.4 Revenue Recognition:**

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company, it can be reliably measured and it is reasonable to expect ultimate collection.

Income from Dividend of shares of corporate bodies is accounted when the right to receive the dividend is established.

All other income is accounted for on accrual basis.

#### **1.5 Investments:**

Investment which are readily realizable and intended to be held not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investment.

Current Investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long Term Investments are stated at cost. Provision for diminution in value, is made to recognize a decline other than temporary in the value of the investments.

Cost includes acquisition charges such as brokerage, fee and duties that are directly attributable to the acquisition of the investment.

#### **1.6 Grant from National Highways Authority of India (NHAI):**

Grant received by way of "Equity Support" from National Highway Authority of India (NHAI) in terms of Concession Agreement entered into between the NHAI and the SPVs are recognized in accordance with the criteria specifies in Accounting Standard (AS) 12 i.e. "Accounting for Government Grants". Where the government grants are of the nature of promoters contribution i.e. they are given with reference to the total investment in an undertaking or by way of contribution towards its total capital outlay and no repayment is ordinarily expected in respect thereof, the grants are treated as Capital Reserve which can neither be distributed as dividend nor considered as deferred income.

#### **1.7 Foreign Currency Transactions:**

Foreign currency transactions are recorded at the exchange rates prevailing at the time of transaction. Monetary assets and liabilities expressed in foreign currencies are translated into the reporting currency at the exchange rate prevailing at Balance Sheet date. Any income or expense on account of exchange difference either on settlement or on translation at the year-end is recognized in the Statement of Profit and Loss.

#### **1.8 Borrowing Costs:**

Borrowing costs to the extent attributed to the acquisition/construction of qualifying assets are capitalized up to the date when such assets are ready for its intended use and all other borrowing costs are recognized as an expense in the year in which they are incurred.

#### **1.9 Employee Benefits:**

##### **Short term employee benefits**

Short term employee benefits based on expected obligation on undiscounted basis are recognised as expense in the Statement of Profit and Loss for the period in which the related service is rendered.

##### **Defined contribution plan:**

Company's contribution towards Regional Provident Fund Authority and Employee State Insurance Corporation are charged to the Statement of Profit and Loss.

**Defined benefit plan:**

Group's liabilities towards gratuity and leave benefits are defined benefit plans. Such liabilities are ascertained by an independent actuary as per the requirement of Accounting Standard – 15 (revised 2005) "Employee Benefits". All actuarial gains and losses are recognised in Statement of Profit and Loss in the year in which they occur.

**1.10 Segment Reporting:**

The Group is primarily engaged in a single business segment of purchase, own, build, develop, design, Operate, transfer road and related services. All the activities of the Group revolved around the main business. As such there are no separate reportable segments as per Accounting Standard -17 "Segment Reporting".

**1.11 Taxes on Income:**

Tax expense comprises of current tax [(net of Minimum Alternate Tax (MAT) credit entitlement)] and deferred tax.

Current tax is the amount of tax payable on the taxable income for the year determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax is recognized on timing differences which is the differences between the taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Deferred tax assets subject to the consideration of prudence are recognised and carried forward only to the extent that there is a reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized.

In situations where the Group has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

**1.12 Provision, Contingent Liabilities and Contingent Assets:**

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events; it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. Contingent Liabilities are not recognised but are disclosed in the notes. Contingent Assets are neither recognised nor disclosed in the financial statements.

**1.13 Earnings per Share:**

The Group reports basic and diluted earnings per equity share in accordance with Accounting Standard-20, Earnings per Share notified by the Central Government under the Companies (Accounting Standards) Rules, 2006. Basic earnings per equity share have been computed by dividing net profit / (loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the net profit (loss) after tax for the year by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

**1.14 Cash Flow Statement:**

Cash flows are reported using the indirect method, whereby profit/loss before tax is adjusted for effects of transactions of a non-cash nature, any deferral or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing flows. The cash flows from operating, investing and financing activities of the Group are segregated.

**1.15 Cash and cash equivalents:**

Cash and cash equivalents include cash on hand, cheques on hand and balance of bank on current accounts.

2.1 The figures mentioned in bracket represent absolute number of shares.

2.2 The rights, preferences and restrictions attached to each class of Equity shares are as under:

The Company has only one class of equity shares having a par value of ₹ 10 per share. Each holder of equity shares is entitled to one vote per share. Dividend when declared is payable in Indian Rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. In the event of liquidation of the company, the holders of equity shares will be entitled to receive remaining assets of the company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

2.3 The reconciliation of the number of shares outstanding at the beginning and at the end of year has been shown in the table below:

| Particulars                                                           | As at 31st March, 2017 | As at 31st March, 2016 | As at 31st March, 2015 | As at 31st March, 2014 | As at 31st March, 2013 |

**Note:**

4.1 Warrants have been issued by one of the subsidiary company. Subject to a re-characterisation event not having taken place, on the maturity of the Warrants, that is, at the end of the Tenure (36 months), the warrants entitle the Warrant-holder to subscribe to one equity share of ₹ 10/- (Face Value of ₹ 10 per share) in the Company, for each warrant held by the Warrant-Holder. If the Warrant-holder opts not to subscribe to equity shares in Solapur Tollways Pvt. Ltd., the amount paid on the Warrants will be fully forfeited, and thereupon, the Warrant has been deemed to have expired.

| Number of Warrants | Date of Issue   | Expiring on     |
|--------------------|-----------------|-----------------|
| 165,920,000        | 30th June, 2016 | 29th June, 2019 |

The above Warrants has been issued by Solapur Tollways Pvt. Ltd to Srei Infrastructure Finance Limited (Promoter w.e.f.16.02.2017)

#### **Unsecured Term Loan from Financial Institution**

##### **Term Loan No: 1**

Principal loan amount was repayable as bullet payment at the end of 3rd year i.e. in September, 2014. Interest is payable yearly, compounding on monthly rest @ 13% per annum.

##### **Term Loan No: 2**

Principal loan amount repayable as bullet payment on 31st March, 2015. Interest is payable quarterly, compounding on monthly rest @ 14% per annum.

#### **Unsecured Bond/Debentures (Un-quoted)**

##### **Terms of issue of OCPID:**

##### **Interest:**

Total interest shall accrue and will be payable on interest due dates only when the issuing subsidiary company has Residual Cash Flows available for distribution after paying all expenses, statutory dues and payment to senior secured lenders. Final rate or amount of interest for the year shall be decided every year at the end of the financial year based on the residual cash flows of the issuer subject to maximum of 16% cumulative interest.

##### **Tenure, Conversion and Redemption:**

Tenure of OCPID is 10 years (Extendable for a further year of 5 years at the option of holders) from the date of Allotment. OCPID will be redeemed at the end of 10 years from the date of allotment or at the end of extended year as the case may be or anytime during the tenure with mutual consent. OCPID holder will have the option to convert each OCPID into equity shares of the issuer at par value (i.e. at the face value of the equity share), during the currency of the OCPID, subject to a notice year of 3 months, in one or more tranches.

##### **Others**

The Sponsor's fund is being granted to the company for a period of 12 years from the Scheduled Project Completion Date or the actual project completion date whichever is earlier. The repayment shall be made in a single bullet payment at the end of the tenure. Yield on the Sponsor fund is payable only from the Available cash flow after satisfying the priority of the payment as specified in Clause 31 of the Concession Agreement and Clause 4.1.1(a) to (j) of the Escrow Agreement.

#### **6.2 Amount due to Directors/Promoters/Group Companies/Relatives of Promoters/Relative of Directors.**

**Notes:**

**14.1** The Figure mentioned in bracket represent absolute number of shares except those described as "Share of Profit/(Loss)".

**14.2** The Unsecured Optionally Convertible Participating Interest bearing Debentures does not carry any fixed rate of interest. Rate of interest, subject to maximum of 16% cumulative interest, shall be decided every year at the end of the Financial Year based on the residual cash flows after servicing Senior Lenders of the Issuer.

14.3 The investment in equity shares of Associates includes Goodwill (Net of Capital reserve) on Consolidation as below:

| (₹ in Million)                         |                        |                        |                        |                        |                        |

**Notes:**

17.1 \*Orissa Steel Expressway Pvt. Ltd., a subsidiary of the Company, has been awarded the work to promote, develop, finance, establish, design, construct, equip, operate, maintain, modify and upgrade the two/ four laning of Rimuli - Roxy - Rajamunda Section of NH 215 from Km 163.000 to Km 259.453 under NHDP- III in the State of Orissa on Design, Build, Finance, Operate and Transfer (DBFOT) basis and to charge and collect toll fees and to retain and appropriate receivables as per the concession agreement dated July 6, 2010 from the NHAI.

Due to Land unavailability and Forest issues, NHAI has agreed to Foreclosure of the Concession Agreement / Contract. Based on same, a joint inspection of the Project site was carried on with Independent Engineer appointed by NHAI and NHAI representatives. Thereafter the project has been handed over to NHAI on 02-03-2017 on 'as is where is' basis which has been acknowledged by NHAI vide their letter dated 03-03-2017.

The subsidiary company is in the process of filing Claims through the process of ISAC (Independent Settlement Advisory Committee) cum Settlement mechanism and / or arbitration. The subsidiary company management expects that it will recover compensation from NHAI. Financial Statements of the subsidiary company has been prepared on Going Concern, till final settlement of claim with NHAI. Further as the project has been handed over to NHAI, expenditure incurred on the Project which were classified as Intangible Assets under Development have been transferred to Claims disclosed under Other Non Current Assets.

17.2 The above statement should be read with Statement of Significant Accounting Policies and Notes to the Accounts appearing in Annexure - IV, Summary Statement of Adjustments to the Consolidated Financial Statements appearing in Annexure - V, Restated Consolidated Summary Statement of Accounting Ratios in Annexure - VI, Restated Consolidated Summary Statement of Capitalisation in Annexure - VII, Restated Consolidated Summary Statement of Dividend Paid in Annexure - VIII.

17.3 The figures disclosed above are based on the restated Consolidated summary statement of assets and liabilities of the Company.

| - Income Tax (F.Y. 2013-14)                                                             | 0.38                        |                             |                             |                             |                             |
| - Reimbursement to NHAI for IE remuneration prior to appointed date i.e 3rd June, 2014. | 3.15                        | 3.15                        | 5.95                        | -                           | -                           |
| - Claims against the Company not acknowledged as debt                                   | 10.48                       | 4.37                        | 5.88                        | -                           | -                           |

The amounts shown above represent the best possible estimates arrived at on the basis of available information. The uncertainties and timing of the cash flows are dependent on the outcome of legal processes which have been invoked by the Company and therefore cannot be estimated accurately. The Company does not expect any reimbursement in respect of above contingent liabilities.

In the opinion of the management, no provision is considered necessary for the dispute mentioned above on the ground that there are fair chances of successful outcome of the appeal and the amount has been considered as contingent liability.

|        | <b>Total adjustments</b>                                                      | <b>(301.43)</b>                 | <b>(481.70)</b>                 | <b>(51.80)</b>                  | <b>(505.79)</b>                 | <b>(169.65)</b>                 |
| (c)    | <b>Restated Profit/(Loss) (a+b)</b>                                           | <b>(744.23)</b>                 | <b>(925.44)</b>                 | <b>(264.22)</b>                 | <b>(607.61)</b>                 | <b>(169.18)</b>                 |
| (d)    | <b>Total current tax adjustments of earlier years (Note 6)</b>                | 5.38                            | -                               | -                               | -                               | 0.41                            |
| (e)    | <b>Restated Net Profit / (Loss) after tax (c+d)</b>                           | <b>(738.85)</b>                 | <b>(925.44)</b>                 | <b>(264.22)</b>                 | <b>(607.61)</b>                 | <b>(168.77)</b>                 |

#### Note 1 Material Regrouping:

Appropriate adjustments have been made in the Restated Consolidated Summary Statements of Assets and Liabilities, Profits and Losses and Cash Flows, wherever required, by a reclassification of the corresponding items of income, expenses, assets, liabilities and cash flows in order to bring them in line with the groupings as per the audited financials of the Company as at 31st March, 2017, prepared in accordance with Schedule III to the Companies Act, 2013 and the requirements of the Securities and Exchange Board of India (Issue of Capital & Disclosure Requirements) Regulations, 2009 (as amended).

#### Note 2 Finance Cost Capitalised to Investment, now decapitalised:

Emphasis of matter paragraph included in Independent Auditors report to the Consolidated Financial Statement for the year ended 31st March, 2013, 31st March, 2014, 31st March, 2015, 31st March, 2016 and 31st March, 2017 in respect of capitalisation of borrowing cost on borrowed fund exclusively for investment as part of cost of investment, has now been decapitalised and charged to the Restated Consolidated Statement of Profit and Loss.

In respect of above restatement, adjustment made to investment and finance cost are as under:

(₹ in Million)

| Particulars                    | As at<br>31st March,<br>2017 | As at<br>31st March,<br>2016 | As at<br>31st March,<br>2015 | As at<br>31st March,<br>2014 | As at<br>31st March,<br>2013 |
|--------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|
| Finance cost charge/(credit)   | 349.47                       | 469.47                       | 395.37                       | 501.63                       | 167.17                       |
| Investment increase/(decrease) | (349.47)                     | (469.47)                     | (395.37)                     | (501.63)                     | (167.17)                     |

#### Note 3 Other Expenses:

In the financial year 2013-14, a subsidiary of the Company has decapitalised the Administrative expenses from expenditure during construction period and charged to the statement of Profits and Losses.

#### Note 4 Share of Profit/(Loss) of Associate

The proportionate share of Profit/(Loss) for the associates have been considered for the following restatements:

(₹ in Million)

| Particulars                                | As at<br>31st March,<br>2017 | As at<br>31st March,<br>2016 | As at<br>31st March,<br>2015 | As at<br>31st March,<br>2014 | As at<br>31st March,<br>2013 |

**Notes:**

- During the last five financial years ending as on 31st March, 2017, certain associates have capitalized various sunk cost like audit fee, business development expenditure, expense incurred for increase in authorised share capital, penal interest, office rent/maintenance charges, festival celebration expense etc. Accordingly, for the purpose of the Restated Consolidated Summary Statements, the said items of sunk costs have been appropriately charged to the Profit and Loss of the respective years to which they relate. Consequently, the amount of share of loss of associates is revised as a result of restatement of profits/ (losses) of associates for the respective period after the acquisition date. The amount of share of loss of associates pertaining to period prior to the acquisition of associates is adjusted against the Goodwill/Capital reserve arising on the acquisition of the respective associate (wherever applicable).
- In the books of one of the associate company, interest expense pertaining to financial year 2015-16 was booked in the year ending as on 31st March, 2017. For the purpose of restatements, such interest expense has been appropriately adjusted in the financial year to which they relate. Consequently, the amount of share of loss of associate is revised as a result of restatement of profits/ (losses) of associate for the respective period after the acquisition date. The amount of share of loss of associate pertaining to period prior to the acquisition of associate is adjusted against the Goodwill/Capital reserve arising on the acquisition of the associate (wherever applicable).
- In order to align the accounting policy in preparation of consolidated financial statement, aggregate provision for major maintenance obligation made by two associate has been reversed during year ending as on 31st March, 2017. Consequently, for the purpose of Restated Consolidated Summary Statements, the proportionate share of the holding Company pertaining to pre-acquisition period has been adjusted against the goodwill/capital reserve of respective associate in the respective period and proportionate share pertaining to post-acquisition period, as a result of restatement of profits/ (losses) of associate for the respective period, has been included in the share of loss/profit from the associate in the respective period after the acquisition date. The amount of share of loss/profit of associates pertaining to period prior to the acquisition of such associates is adjusted against the goodwill/capital reserve arising on the acquisition of the respective associates (wherever applicable).
- During the financial years 2012-13 and 2013-14, in the Standalone Financial Statements of one of the associates, certain transactions were shown as prior period items. Accordingly, for the purpose of the Restated Consolidated Summary Statements, the said transactions of income / expense have been appropriately adjusted in the respective year to which they relate. Consequently, the amount of share of loss of associate is revised as a result of restatement of profits/ (losses) of associate for the respective period after the acquisition date. The amount of share of loss of associate pertaining to period prior to the acquisition of associate is adjusted against the Goodwill/Capital reserve arising on the acquisition of the associate (wherever applicable).
- In one of the associates, additional concessional fees pertaining to financial year 2013-14 was booked in the financial year 2014-15. Accordingly, for the purpose of the Restated Consolidated Summary Statements, the said transaction of expense has been appropriately adjusted in the respective year to which it relate. Consequently, the amount of share of loss of the associate is revised as a result of restatement of profits/ (losses) of associate for the respective period after the acquisition date. The amount of share of loss of associate pertaining to period prior to the acquisition of associate is adjusted against the Goodwill/Capital reserve arising on the acquisition of the associate (wherever applicable).
- Emphasis of matter paragraph included in Independent Auditors report to the Financial Statement of one of the associates for the year ended 31st March, 2017 in respect of non-provisioning of negative grant (premium) payable to Madhya Pradesh Road Development Corporation for the financial year 2013-14, 2014-15, 2015-16 and 2016-17, have been recognised by restatement of profits/ (losses) of the associate for the respective financial years. Consequently, the amount of share of loss of associate is revised as a result of restatement of profits/ (losses) of the associate for the respective period after the acquisition date. The amount of share of loss of associates pertaining to period prior to the acquisition of associate is adjusted against the Goodwill/Capital reserve arising on the acquisition of the associate (wherever applicable).

- g) During the financial years 2012-13, 2013-14, 2014-15, 2015-16 and 2016-17, one of the associates has credited income (including dividend and profit on disposal of units of mutual funds) to Capital works in progress (CWIP). Accordingly, for the purpose of the Restated Consolidated Summary Statements, the said items of income have been appropriately credited to the Statement of Profit and Loss and the corresponding adjustment was made to CWIP of the respective years to which they relate. Consequently, the amount of share of loss of associate is revised as a result of restatement of profits/ (losses) of the associate for the respective period after the acquisition date. The amount of loss/profit of associates pertaining to period prior to the acquisition of associate is adjusted against the Goodwill/Capital reserve arising on the acquisition of the associate (wherever applicable).
- h) Restatement has been done with respect to change in amortisation in some of the associates on account of:
- Pursuant to change in accounting policy (on account of change in statute) in financial year 2014-15 for amortization of Toll Collection Rights (Intangible assets), the group has retrospectively revised the method of amortization from useful life to revenue based amortization. As a result, there was a reversal of depreciation in certain associates in their Standalone Audited Financial Statements in financial year 2014-15. For the purposes of Restatement Consolidated Summary Statements, such amortization have been appropriately adjusted in the Statement of Profit and Loss for the respective years to which the transaction pertains to. Consequently, the amount of share of loss of associate is revised as a result of restatement of profits/ (losses) of the associate for the respective period after the acquisition date. The amount of share of loss/profit of associates pertaining to period prior to the acquisition of such associates is adjusted against the goodwill/capital reserve arising on the acquisition of the respective associates (wherever applicable).
  - Pursuant to revision of amortisation: - In order to align the accounting policy in preparation of consolidated financial statement for the year ended 31st March, 2017, NHAI Grant (equity support) received by two associates have been considered as part of equity for accounting of investments in associates. Consequently, proportionate share in additional depreciation on intangible asset arising due to such alignment and proportionate share in pre-acquisition portion of NHAI Grant has been considered in computation of goodwill of the respective associate in respective year. Further, carrying amount of investment in these two associates has been increased to recognise holding Company's proportionate share arising from changes in the investee's equity on post acquisition receipt of NHAI Grant in the respective year.

#### **Note 5 Profit on sale of Investment Long Term:**

For the year ended 31st March, 2015 and 31st March, 2017, the Holding Company had sold certain investments at cost which was inclusive of interest capitalised. Since the whole amount of interest capitalised has now been decapitalised, the difference of the restated Cost with sale price has been credited to the Statement of Profit and Loss of the respective year/period as profit on sale of investment.

#### **Note 6 Current tax adjustments:**

In the audited accounts of BRNL for the year ended 31st March, 2014, 31st March, 2015 and 31st March, 2016 provision for income tax was made under the provision of MAT u/s 115JB of Income Tax Act, 1961. MAT credit u/s 115JAA of Income Tax Act, 1961 for equivalent amount was recognised in the books. Due to the adjustment as stated in point 2 above the book profits for these years have become negative, consequently the MAT liability and MAT credit have also become nil in restated standalone statement of profit and loss. More so, the normal provision for income tax for the year ended 31st March, 2013 and 31st March, 2017 have also become nil in the restated standalone statement of Profit and loss.

#### **B. Non-adjusting items**

Certain statements /comments included in audit opinion on the financial statements, which do not require any adjustments in restated summary financial information are reproduced below in respect of the financial statements presented:

#### **I For the year ended 31st March, 2012:**

Clause (X) of Companies (Auditor's Report) Order, Annexed to the Auditor's Report.

|            | Net worth at the end of the year, as restated (G)                                          | 4,297.65               | (669.01)               | 59.51                  | 104.78                 | (11.33)                |
|            | Number of Equity share outstanding at end of the year (H)                                  | 54,650,000             | 10,000,000             | 10,000,000             | 10,000,000             | 10,000,000             |
|            | Net Asset Value Per Equity share ( G )/(H)                                                 | 78.64                  | (66.90)                | 5.95                   | 10.48                  | (1.13)                 |

\* Return on Networth has not been calculated, since both Restated Net Profit and Net worth are negative.

**Notes:**

1 The ratios have been computed as below:

Basic Earnings per share (₹): 
$$\frac{\text{Net profit/(loss) after tax, as restated attributable to equity shareholders}}{\text{Weighted average number of equity shares outstanding during the year}}$$

2 Diluted Earnings per share (₹): 
$$\frac{\text{Net profit/(loss) after tax, as restated attributable to equity shareholders}}{\text{Weighted average number of diluted equity shares outstanding during the year}}$$

3 Return on Net Worth (%) 
$$\frac{\text{Net profit attributable to equity shareholders}}{\text{Net worth excluding preference share capital at the end of the year}}$$

4 Net asset value per equity share (₹): 
$$\frac{\text{Net worth excluding preference share capital at the end of the year}}{\text{Number of equity shares outstanding at the end of the year}}$$

5 Share Application Money for ₹ 250 Million outstanding as on 31st March, 2013 has not been considered for the calculation of diluted loss per share for financial year 2012-13, in lieu of the same being refunded due to change in management decision (Refer Note 5 of Annexure IV.)

6 Net profit/(Loss), as restated as appearing in the Restated Summary Statement of Profits and Losses, has been considered for the purpose of computing the above ratios. These ratios are computed on the basis of the consolidated restated financial statements of the Company.

7 Net worth has been computed based on the definition as per sec 2(57) of the Companies Act, 2013. Refer Note 3 of Annexure IV for components of Reserves and Surplus.

8 Earnings per share calculations are done in accordance with Accounting Standard 20 "Earnings Per Share".

## Annexure VII

| <b>Total shareholders' funds</b>   | (B)            | <b>4,297.83</b>                  |                   |
|                                    |                |                                  |                   |
| <b>Long Term Debt/Equity ratio</b> | <b>(A)/(B)</b> | <b>1.20:1</b>                    |                   |

\* Share Capital and Reserves & Surplus post issue can be calculated only on the conclusion of Book Building Process.

#### Notes:

- 1 The above has been computed on the basis of the Restated Consolidated Summary Statements of Assets and Liabilities of the Company as on 31st March, 2017.
- 2 Short term debt is considered as borrowing due within 12 months from the balance sheet date.
- 3 Long term debt is considered as borrowing other than short term debt, as defined above and also includes the current maturities of long term debt.

## **Independent Auditor's Report on Restated Standalone Financial Information**

The Board of Directors of  
Bharat Road Network Limited,  
10B, Mirania Gardens,  
Topsia Road (South),  
Kolkata – 700 046.

Dear Sirs,

1. We have examined the attached Restated Standalone Financial Information of Bharat Road Network Limited ('the Company'), which comprise of the Restated Standalone Summary Statement of Assets and Liabilities as at 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013, the Restated Standalone Summary Statement of Profit and Loss and the Restated Standalone Summary Statement of Cash Flows for each of the years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013 and the Summary of Significant Accounting Policies (collectively, the "Restated Standalone Financial Information") as approved by the Board of Directors of the Company prepared in terms of the requirements of:

- a) Section 26 of Part I of Chapter III of the Companies Act, 2013 ("the Act") read with Rule 4 to 6 of Companies (Prospectus and Allotment of Securities) Rules, 2014 ("the Rules") and
- b) the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 as amended from time to time in pursuance of provisions of Securities and Exchange Board of India Act, 1992 ("ICDR Regulations").

The preparation of the Restated Standalone Financial Information is the responsibility of the Management of the Company for the purpose set out in paragraph 9 below. The Management's responsibility includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the Restated Standalone Financial Information. The Management is also responsible for identifying and ensuring that the Company complies with the Rules and ICDR Regulations.

2. We have examined such Restated Standalone Financial Information taking into consideration:
  - a) The terms of reference and terms of our engagement agreed upon with you in accordance with our engagement letter dated 7<sup>th</sup> October, 2016 in connection with the proposed issue of equity shares of the Company; and
  - b) The Guidance Note on Reports in Company Prospectuses (Revised 2016) issued by the Institute of Chartered Accountants of India (ICAI) ("The Guidance Note").
3. These Restated Standalone Financial Information have been compiled by the Management from the Audited Financial Statements as at 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013 and for each of the years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013 which have been approved by Board of directors at their meetings held on 26<sup>th</sup> April, 2017, 19<sup>th</sup> September, 2016, 25<sup>th</sup> September, 2015, 26<sup>th</sup> September, 2014 and 2<sup>nd</sup> September, 2013 respectively.
4. In accordance with the requirements of Section 26 of Part I of Chapter III of the Act read with, Rules 4 to 6 of the Companies (Prospectus and Allotment of Securities) Rules, 2014, the ICDR Regulations and the Guidance Note, we report that:
  - a) The Restated Summary Statement of Assets and Liabilities of the Company as at 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013 examined by us, as set out in Annexure - I to this report, have been arrived at after making adjustments and regroupings/ reclassifications as in our opinion were appropriate and more fully described in Annexure - V - Summary Statement of Adjustments to the Audited Financial Statements.
  - b) The Restated Summary Statement of Profit and Loss of the Company for the each of the years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013 examined by us, as set out in Annexure - II to this report, have been arrived at after making adjustments and regroupings/reclassifications as in our opinion were

appropriate and more fully described in Annexure – V - Summary Statement of Adjustments to the Audited Financial Statements.

- c) The Restated Summary Statement of Cash Flows of the Company for the each of the years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013, as set out in Annexure - III to this report, have been arrived at after making adjustments and regroupings/ reclassifications as in our opinion were appropriate and more fully described in Annexure – V - Summary Statement of Adjustments to the Audited Financial Statements.
- d) Based on the above and according to the information and explanations given to us, we further report that the Restated Standalone Financial Information:
  - (i) do not require any adjustments for the changes in accounting policies as the accounting policies as at 31<sup>st</sup> March, 2017 are materially consistent with the policies adopted for the financial years ended 31<sup>st</sup> March, 2016, 2015, 2014 and 2013 subject to restatement arising on account of Emphasis of matter stated in para (iv) here in below.
  - (ii) have been made after incorporating adjustments for the material amounts in the respective financial years to which they relate; and
  - (iii) do not contain any extra-ordinary items that need to be disclosed separately in the Restated Standalone Financial Information and do not contain any qualifications requiring adjustments. However, remarks/comments in the Companies (Auditors Report) Order, 2003 issued by the Central Government of India under sub-section (4A) of section 227 of the Companies Act, 1956/ Companies (Auditors Report) Order, 2015/ Companies (Auditors Report) Order, 2016 issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (together referred to as 'CARO') which do not require any corrective adjustments in the financial information have been disclosed in Annexure V to the Restated Standalone Financial Information.
  - (iv) Include adjustment arising on account of Emphasis of matter paragraph included in Independent Auditors report to the Standalone Financial Statements as stated below:

Year ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013:

Note 3 of Annexure V of the Restated Standalone Financial Information in respect of capitalisation of borrowing cost on fund borrowed exclusively for investment as part of cost of investment, has now been decapitalised and charged to the Statement of Profit and Loss.

5. We have also examined the following restated standalone financial information of the Company set out in the Annexures prepared by the management and approved by the Board of Directors on 26th April, 2017 for years ended 31<sup>st</sup> March, 2017, 2016, 2015, 2014 and 2013:
  - a) Annexure IV - Summary Statement of Significant Accounting Policies and Notes to Accounts (Note 1);
  - b) Annexure V - Summary Statement of Adjustments to the Audited Financial Statements;
  - c) Annexure VI – Restated Standalone Summary Statement of Accounting Ratios;
  - d) Annexure VII - Restated Standalone Summary Statement of Capitalisation;
  - e) Annexure VIII - Restated Standalone Summary Statement of Tax Shelter;
  - f) Annexure IX - Restated Standalone Summary Statement of Dividend Paid.

According to the information and explanations given to us, in our opinion, the Restated Standalone Financial Information and the above restated financial information contained in Annexures I to IX accompanying this report, read with Summary of Significant Accounting Policies disclosed in Annexure IV, are prepared after making adjustments and regroupings as considered appropriate and have been prepared in accordance with Section 26 of Part I of Chapter III of the Companies Act, 2013 read with Rules 4 to 6 of Companies (Prospectus and Allotment of Securities) Rules, 2014, ICDR Regulations and the Guidance Note.

6. This report should not in any way be construed as a reissuance or re-dating of any of the previous audit reports issued by us, nor should this report be construed as a new opinion on any of the financial statements referred to herein.

7. We have no responsibility to update our report for events and circumstances occurring after the date of the report.
8. Our report is intended solely for use of the management for inclusion in the offer document to be filed with Securities and Exchange Board of India, relevant stock exchanges and Registrar of Companies, West Bengal in connection with the proposed issue of equity shares of the Company. Our report should not be used, referred to or distributed for any other purpose except with our prior consent in writing.

2. The above Cash Flow Statement has been prepared under the 'Indirect Method' as set out in the Accounting Standard 3 (AS 3) "Cash Flow Statements".
3. Cash and cash equivalents do not include any amount which is not available to the Company for its use.
4. Figures in brackets represent outflows.
5. During the financial year 2012-13, unsecured Loan given amounting to ₹ 1455.71 Million was converted into Investment in Debentures. However, the same has not been considered as movement in Investing Activities as it did not involve physical movement of cash.
6. During the financial years 2012-13, 2013-14, 2014-15, 2015-16 and 2016-17, Share/debenture application money given aggregating to ₹ 120.70 Million, ₹ 4.90 Million, ₹ 55.00 Million, ₹ Nil and ₹ 138.49 Million respectively have been converted into investments in Equity shares/debentures. However, the same has not been considered as movement in Investing Activities as it did not involve physical movement of cash.
7. Interest of ₹ 43.56 Million and ₹ 41.34 Million for the year ended 31st March, 2017 and 31st March, 2016 respectively earned on advances and adjusted with borrowing costs, has been included in interest received to the extent realised during the year.
8. The above statement should be read with Summary of Significant Accounting Policies and Notes to the Accounts appearing in Annexure - IV, Summary Statement of Adjustments to the Standalone Financial Statements appearing in Annexure - V, Restated Standalone Summary Statement of Accounting Ratios in Annexure - VI, Restated Standalone Summary Statement of Capitalisation in Annexure - VII, Restated Standalone Summary Statement of Tax Shelters in Annexure - VIII and Restated Standalone Summary Statement of Dividend Paid in Annexure - IX.
9. Previous years audited figures have been regrouped wherever necessary.

## Annexure IV

### Summary of Significant Accounting Policies and Notes to Accounts

**Corporate Information:** The Company is presently engaged in the business of designing, building, operating, maintaining and carrying out all other activities pertaining to road projects. As per the guidelines of respective Government Authority and the requirements of the Concession Agreements, such road projects are required to be implemented under the Built, Operate & Transfer (BOT) model by creating Special Purpose Vehicles (SPVs) so that after the concession period, the SPV can be transferred to the respective authority on an “as is where is basis”. The Company has, therefore, invested in various road projects under the aforesaid SPV model.

#### Note - 1. Significant Accounting Policies

##### 1.1 Basis of Preparation:

The Restated Standalone Summary Statement of Assets and Liabilities of the Company as at 31st March 2017, 31st March, 2016, 31st March, 2015, 31st March, 2014 and 31st March, 2013 and the related Restated Standalone Summary Statement of Profits and Losses and Cash Flows Statement for the year ended 31st March, 2017, 31st March, 2016, 31st March, 2015, 31st March, 2014 and 31st March, 2013 (herein collectively referred to as ‘Restated Standalone Summary Statements’) have been compiled by the management from the Standalone Summary financial statements of the Company for the years ended 31st March, 2017, 31st March, 2016, 31st March, 2015, 31st March, 2014 and 31st March, 2013.

The Restated Standalone Summary Financial Statements of the Company have been prepared in accordance with the generally accepted accounting principles in India (Indian GAAP) applicable as on 31st March, 2017. The company has prepared these Standalone Summary Financial Statements to comply in all material respects with the Accounting Standards specified under section 133 of the Companies Act, 2013, read with rule 7 of the Companies (Accounts) Rules, 2014 (Standalone Summary Financial Statements up to 31st March, 2014 comply with accounting standards specified under Companies Act 1956, which are similar to Accounting Standards specified under section 133 of the Companies Act, 2013) and other accounting principles generally accepted in India. The Standalone Summary Financial Statements are prepared in accordance with the historical cost convention and the accrual basis of accounting. The accounting policies applied by the Company are consistent with those applied in the preparation of the financial statements for the year ended 31st March, 2017.

Restated Standalone Summary Statements have been prepared specifically for inclusion in the offer document to be filed by the Company with the Securities and Exchange Board of India (‘SEBI’) and Registrar of Companies (ROC) in connection with its proposed Initial Public Offering.

These Restated Standalone Summary Statements of assets and liabilities, Profits and Losses and Cash Flows have been prepared to comply in all material respects with the requirements of Sub-clause (i), (ii) and (iii) of clause (b) of Sub-section (1) of Section 26 of Chapter III of the Companies Act, 2013 read with Rule 4 of Companies (Prospectus and Allotment of Securities) Rules, 2014 and the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 (“the SEBI Guidelines”) issued by SEBI on 26th August, 2009 as amended from time to time.

The preparation of financial statements requires the Management to make estimates and assumptions considered in the reported amounts of assets and liabilities including contingent liabilities as of the date of the financial statements and the reported income and expenses for the reporting year. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Future results could differ from these estimates.

##### 1.2 Property, Plant & Equipment and Depreciation / Amortization:

Property, Plant & Equipment are stated at Cost less accumulated depreciation and impairment losses, if any. Cost includes taxes, duties, freight and incidental expenses related to the acquisition and installation of the assets.

The residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

##### Intangible Assets

Intangible Assets comprising of computer software and licenses expected to provide future enduring economic benefits are carried at cost less accumulated amortization and impairment losses, if any. Cost comprises of purchase price and directly attributable expenditure on making the asset ready for its intended use. Any technology support cost or annual maintenance cost for such software is charged to the Statement of Profit and Loss.

Upto 31st March, 2014, the depreciation on Property, Plant & Equipment is provided at rates prescribed under Schedule XIV to the Companies Act, 1956 and with effect from 1st April, 2014, the depreciation is provided based on useful life prescribed under Schedule II of the Companies Act, 2013. In respect of Property, Plant & Equipment purchased during the year, depreciation is provided on a pro-rata basis from the date on which such asset is ready to be put to use.

Capital work in progress is stated at cost and includes development and other expenses including interest during construction period.

##### 1.3 Impairment of Property, Plant & Equipment

Wherever events or changes in circumstances indicate that the carrying amount of Property, Plant & Equipment may be impaired, the Company subjects such assets to a test of recoverability, based on discounted cash flows expected from use or disposal thereof. If the assets are impaired, the Company recognizes an impairment loss as the excess of the carrying amount over the recoverable amount.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

A previously recognized impairment loss is increased or reversed depending on changes in circumstances. However the carrying amount after reversal is not increased beyond the carrying amount that would have prevailed by charging usual depreciation if there was no impairment.

#### **1.4 Revenue Recognition**

Revenue is recognized to the extent it is probable that the economic benefits will flow to the Company, it can be reliably measured and it is reasonable to expect ultimate collection.

Interest income is recognized on time proportion basis, taking into account the amount outstanding and the rate applicable.

#### **1.5 Investments :**

Investment which are readily realizable and intended to be held not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investment.

Current Investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long Term Investments are stated at cost. Provision for diminution in value, is made to recognize a decline other than temporary in the value of the investments.

Cost includes acquisition charges such as brokerage, fee, duties that are directly attributable to the acquisition of the investment.

#### **1.6 Foreign Currency Transactions :**

Foreign currency transactions are recorded at the exchange rates prevailing at the time of transaction. Monetary assets and liabilities expressed in foreign currencies are translated into the reporting currency at the exchange rate prevailing at Balance Sheet date. Any income or expense on account of exchange difference either on settlement or on translation at the year-end is recognized in the Statement of Profit and Loss.

#### **1.7 Borrowing Costs:**

Borrowing costs to the extent attributed to the acquisition/construction of qualifying assets are capitalized up to the date when such assets are ready for its intended use and all other borrowing costs are recognized as an expense in the year in which they are incurred.

#### **1.8 Employee Benefits:**

##### **Short term employee benefits**

Short term employee benefits based on expected obligation on undiscounted basis are recognised as expense in the Statement of Profit and Loss for the year in which the related service is rendered.

##### **Defined contribution plan:**

Company's contribution towards Regional Provident Fund Authority and Employee State Insurance Corporation are charged to the Statement of Profit and Loss.

##### **Defined benefit plan:**

Company's liabilities towards gratuity and leave benefits are defined benefit plans. Such liabilities are ascertained by an independent actuary as per the requirement of Accounting Standard – 15 (revised 2005) "Employee Benefits". All actuarial gains and losses are recognised in Statement of Profit and Loss in the year in which they occur.

#### **1.9 Segment Reporting :**

The company is primarily engaged in a single business segment of purchase, own, build, develop, design, Operate, transfer road and related services. All the activities of the company revolved around the main business. As such there are no separate reportable segments as per Accounting Standard -17 "Segment Reporting".

#### **1.10 Taxes on Income:**

Tax expense comprises of current tax and deferred tax.

Current tax is the amount of tax payable on the taxable income for the year determined in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax reflects the impact of timing differences between taxable income and accounting income for the current reporting year and reversal of timing differences of earlier reporting years.

Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the Balance Sheet date. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set off current tax assets against current tax liabilities and these relate to the taxes on income levied by the same governing taxation laws. Deferred tax assets are recognised only to the extent that there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. In situations where the Company has unabsorbed depreciation or carry forward tax losses, all deferred tax assets are recognised only if there is virtual certainty supported by convincing evidence that they can be realised against future taxable profits.

At each Balance Sheet date, the Company re-assesses unrecognised deferred tax assets. It recognises unrecognised deferred tax assets to the extent that it has become reasonably certain or virtually certain, as the case may be, that sufficient future taxable income will be available against which such deferred tax assets can be realised.

MAT credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the reporting year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in guidance note issued by The Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that the Company will pay normal income tax during the specified year.

#### **1.11 Provision, Contingent Liabilities and Contingent Assets:**

Provisions involving substantial degree of estimation in measurement are recognised when there is a present obligation as a result of past events; it is probable that there will be an outflow of resources and a reliable estimate can be made of the amount of the obligation. Contingent Liabilities are not recognised but are disclosed in the notes. Contingent Assets are neither recognised nor disclosed in the financial statements.

#### **1.12 Earnings per Share:**

The Company reports basic and diluted earnings per equity share in accordance with Accounting Standard-20, Earnings per Share notified by the Central Government under the Companies (Accounting Standards) Rules, 2006. Basic earnings per equity share have been computed by dividing net profit / (loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per equity share is computed by dividing the net profit/(loss) after tax for the year by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares.

#### **1.13 Cash Flow Statement:**

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transaction of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income and expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

#### **1.14 Cash and cash equivalents:**

Cash and cash equivalents include cash on hand, cheques on hand, balance with banks on current accounts and short term highly liquid investments with an original maturity of three months or less which carry insignificant risk of changes in value.

**Notes:**

2.1 The Figure mentioned in bracket represent absolute number of shares.

2.2 Terms/right attached to equity shares:

The Company has only one class of equity shares having a par value of ₹ 10 per share. Each holder of equity shares is entitled to one vote per share. Dividend when declared is payable in Indian Rupees. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

2.3 The reconciliation of the number of shares outstanding at the beginning and at the end of year has been shown in the table below:

| Particulars                                                           | As at 31st March, 2017 | As at 31st March, 2016 | As at 31st March, 2015 | As at 31st March, 2014 | As at 31st March, 2013 |

**25 Restated Standalone Summary Statement Disclosure pursuant to Accounting Standard (AS) 15:**

**Defined Contribution Plans:**

The Company provides Provident Fund benefit to all employees. Under this scheme fixed contribution is made to the Regional Provident Fund Commissioner. The Company has no legal and constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay employee benefits. The Company has made contributions of ₹ 1.52 Million as at 31st March, 2017, (31st March, 2016 ₹1.11 Million, 31st March, 2015: ₹1.15 Million, 31st March, 2014: ₹ 1.05 Million, 31st March, 2013: ₹ 0.51 Million) to Regional Provident Fund Authority, which is recognised as expense in the Statement of Profit and Loss.

**Defined Benefit Plans:**

The Employees' Gratuity scheme, Leave benefit scheme, and Sick Leave availment scheme are the Company's defined benefit plans. The present value of defined obligation and related current cost are measured using the Projected Unit Credit Method with actuarial valuation being carried out at Balance Sheet date.

The following tables set out the details of amount recognized in the financial statements in respect of gratuity and leave benefits which is not funded:

## 27 Restated Standalone Summary Statement of Contingent Liabilities and Commitments

### Contingent liabilities

(₹ In Million)

| Particulars                                                | Year Ended 31st March, 2017 | Year Ended 31st March, 2016 | Year Ended 31st March, 2015 | Year Ended 31st March, 2014 | Year Ended 31st March, 2013 |
|------------------------------------------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|-----------------------------|
| <b>Claims against the Company not acknowledged as debt</b> |                             |                             |                             |                             |                             |
| - Income Tax ( F.Y. 2012-13)                               | 2.31                        | 2.31                        | -                           | -                           | -                           |

Under scrutiny assessment for the financial year 2012-13, Ld. Deputy Commissioner of Income Tax had made disallowance u/s 14A and determined total income under normal provision of the Act at ₹6.91 Million by his order u/s 143(3) as against returned income of ₹1.32 Million. The Company has preferred an appeal to Commissioner of Income Tax (Appeals) against the above order on the facts that the order u/s 143(3) is grossly unjustified, erroneous and unsustainable.

The amounts shown above represent the best possible estimates arrived at on the basis of available information. The uncertainties and timing of the cash flows are dependent on the outcome of legal processes which have been invoked by the Company and therefore cannot be estimated accurately. The Company does not expect any reimbursement in respect of above contingent liabilities.

In the opinion of the management, no provision is considered necessary for the dispute mentioned above on the ground that there are fair chances of successful outcome of the appeal and the amount has been considered as contingent liability.

## 28 Restated Standalone Summary Statement of Deferred Tax

The Deferred Tax Asset (net) of ₹ 524.41 Million (31st March, 2016: ₹ 416.47 Million, 31st March, 2015 : ₹ 255.19 Million, 31st March, 2014 : ₹ 233.38 Million, 31st March, 2013 : ₹ 60.40 Million) arising out of timing difference as on 31st March, 2017 is on account of the following:

(₹ In Million)

### Material Regrouping

- Appropriate adjustments have been made in the Restated Summary Statements of Assets and Liabilities, Profits and Losses and Cash Flows, wherever required, by a reclassification of the corresponding items of income, expenses, assets, liabilities and cash flows in order to bring them in line with the groupings as per the audited financials of the Company as at 31st March, 2017, prepared in accordance with Schedule III to the Companies Act, 2013 and the requirements of the Securities and Exchange Board of India (Issue of Capital & Disclosure Requirements) Regulations, 2009 (as amended).
- No restatement adjustment was required to be made in the audited opening balance figures in the net surplus in the statement of profit and loss for the financial year 2011.
- Finance Cost Capitalised to Investment, now decapitalised :**

Emphasis of matter paragraph included in Independent Auditors report to the standalone financial statement for the year ended 31st March, 2013, 31st March, 2014, 31st March, 2015, 31st March, 2016 and 31st March, 2017 in respect of capitalisation of borrowing cost on borrowed fund exclusively for investment as part of cost of investment, has now been decapitalised and charged to the Restated Statement of Profit and Loss as under:

(₹ In Million)

| Particulars                    | As at<br>31st March,<br>2017 | As at<br>31st March,<br>2016 | As at<br>31st March,<br>2015 | As at<br>31st March,<br>2014 | As at<br>31st March,<br>2013 |
|--------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|------------------------------|
| Finance cost charge/(credit)   | 349.47                       | 469.47                       | 395.37                       | 501.63                       | 167.16                       |
| Investment increase/(decrease) | (349.47)                     | (469.47)                     | (395.37)                     | (501.63)                     | (167.16)                     |

### 4 Profit on sale of Investment Long Term :

For the year ended 31st March, 2015 and 31st March, 2017, the Company had sold certain investments at cost which was inclusive of interest capitalised. Since the whole amount of interest capitalised has now been decapitalised, the difference of the restated Cost with Sale price has been credited to the Statement of Profit and Loss of the respective year as profit on sale of investment.

### 5 Current tax adjustments:

In the audited accounts for the year ended 31st March, 2014, 31st March, 2015 and 31st March, 2016, provision for income tax was made under the provision of MAT u/s 115JB of Income Tax Act, 1961. MAT credit entitlement u/s 115JAA of Income Tax Act, 1961 for equivalent amount was recognised in the books. Due to the adjustment as stated in point 3 above, the book profit for these years have become negative, consequently the, MAT liability and MAT credit entitlements have also become nil and hence reversed in Restated Standalone Summary Statement of Profit and Loss. Further, the normal provision for income tax for the year ended 31st March, 2013 and year ended 31st March, 2017 have also become nil and reversed in the Restated Standalone Summary Statement of Profit and Loss.

**B. Non adjusting items**

Certain statements /comments included in audit opinion on the financial statements, which do not require any adjustments in restated summary financial information are reproduced below in respect of the financial statements presented:

**I For the year ended 31st March, 2016 :**

Clause VII (b) of Companies (Auditor's Report) Order, Annexed to the Auditor's Report.

The disputed statutory dues aggregating to ₹ 2.31 Million that have not been deposited on account of matters pending before appropriate authorities are as under :

| Name of Statute      | Nature of dues | Periods to which Pertains | (₹ In Million) | Forum where the dispute is pending   |
|----------------------|----------------|---------------------------|----------------|--------------------------------------|
| Income Tax Act, 1961 | Income Tax     | 2012-13                   | 2.31           | Commissioner of Income Tax (Appeals) |

|            | Net worth excluding preference share capital at the end of the year, as restated (G)                    | 4,217.25               | (1,105.50)             | (638.61)               | (575.56)               | (74.79)                |
|            | Number of Equity share outstanding at end of the year (H)                                               | 54,650,000             | 10,000,000             | 10,000,000             | 10,000,000             | 10,000,000             |
|            | Net Asset Value Per Equity share (G)/(H)                                                                | 77.17                  | (110.55)               | (63.86)                | (57.56)                | (7.48)                 |

\* Return on Networth has not been calculated, since both Restated Net Profit and Net worth are negative.

#### Notes:

- The ratios have been computed as below:  

Basic Earnings per share (₹)

$$\frac{\text{Net profit/(loss) after tax, as restated attributable to equity shareholders}}{\text{Weighted average number of equity shares outstanding during the year}}$$
- Diluted Earnings per share (₹)  

$$\frac{\text{Net profit/(loss) after tax, as restated attributable to equity shareholders}}{\text{Weighted average number of diluted equity shares outstanding during the year}}$$
- Return on Net Worth (%)  

$$\frac{\text{Net profit/(loss) after tax, as restated attributable to equity shareholders}}{\text{Net worth excluding preference share capital at the end of the year}}$$
- Net asset value per equity share (₹)  

$$\frac{\text{Net worth excluding preference share capital at the end of the year}}{\text{Number of equity shares outstanding at the end of the year}}$$
- Share Application Money for ₹ 250 Million outstanding as on 31st March, 2013 has not been considered for the calculation of diluted loss per share for FY 2012-13, in lieu of the same being refunded due to change in management decision Refer Note 4 of Annexure IV.

- 6 Net Profit/(Loss), as restated as appearing in the Restated Summary Statement of Profits and Losses, has been considered for the purpose of computing the above ratios. These ratios are computed on the basis of the Restated Summary Financial Statements of the Company.
- 7 Net worth has been computed based on the definition as per sec 2(57) of the Companies Act, 2013. Refer Note 3 of Annexure IV for components of Reserves and Surplus.
- 8 Earnings per share calculations are done in accordance with Accounting Standard 20 "Earnings Per Share".

## Annexure VII

### Restated Standalone Summary of Capitalisation Statement

(₹ In Million)

| Class of Shares                    |                | Pre-Issue as at 31st March, 2017 | Post-Issue as at* |

| Reserve and surplus                |                | 3,670.93                         |                   |
| <b>Total shareholders' funds</b>   | <b>(B)</b>     | <b>4,217.43</b>                  |                   |
| <b>Long Term Debt/Equity ratio</b> | <b>(A)/(B)</b> | <b>0.23:1</b>                    |                   |

\* Share Capital and Reserves & Surplus post issue can be calculated only on the conclusion of Book Building Process.

#### Notes:

- 1 The above has been computed on the basis of the Restated Summary Statements of Assets and Liabilities of the Company as on 31st March, 2017.
- 2 Short term debt is considered as borrowing due within 12 months from the balance sheet date.
- 3 Long term debt is considered as borrowing other than short term debt, as defined above and also includes the current maturities of long term debt.

## **INDEPENDENT AUDITOR'S REPORT**

### **TO THE BOARD OF DIRECTORS OF KURUKSHETRA EXPRESSWAY PRIVATE LIMITED**

#### **I) Report on the Financial Statements prepared under Companies Accounting Standard Rule, 2006**

We have audited the accompanying financial statements prepared under Companies Accounting Standard Rule, 2006 of **KURUKSHETRA EXPRESSWAY PRIVATE LIMITED** ("the Company"), which comprise the Balance Sheet as at March 31, 2017; the Statement of Profit and Loss and the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information. The special purpose financial statements have been prepared by the Management of the Company based on the measurement and presentation requirements as prescribed under the Indian GAAP and not as per the applicable Indian Accounting Standards (IndAS). These special purpose financial statements have been prepared for specific requirement of management and are not the General Purpose financial statements required to be prepared under the Companies Act, 2013.

#### **II) Management's Responsibility for the Special Purpose Financial Statements**

- 1) The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these special purpose financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the IndAS prescribed under section 133 of the Act.
- 2) This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### **III) Auditor's Responsibility**

- 1) Our responsibility is to express an opinion on these special purpose financial statements based on our audit.
- 2) We have taken into account the provisions of the Act and the accounting and auditing standards.
- 3) We conducted our audit of the special purpose financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements and Reporting Package are free from material misstatement.
- 4) An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements and reporting package, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
- 5) We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the special purpose financial statements and reporting package.

#### **IV) Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid special purpose financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2017, and its loss and its cash flows for the year ended on that date.

## V) Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016("the Order"), as amended, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "**Annexure A**" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143 (3) of the Act, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
  - b. In our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - c. The Balance Sheet, the Statement of Profit and Loss and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
  - d. In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
  - e. On the basis of written representations received from the directors as on 31st March, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2017 from being appointed as a director in terms of Section 164 (2) of the Act.
  - f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure B**".
  - g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - i. Based on the best assessment made by the management, the Company does not have any pending litigations which would impact its financial position.
    - ii. Based on the best assessment made by the management, the Company does not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
    - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
    - iv. The company has provided requisite disclosures in its financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8th November, 2016 to 30th December, 2016. Based on audit procedures and relying on the management representation we report that the disclosures are in accordance with Books of Accounts maintained by the Company and as produced to us by Management - Refer Note 28.

**VI) Restriction on Distribution and Use**

The financial statements prepared under Companies Accounting Standard Rule, 2006 is intended solely for the Company for the sole purpose of consolidation in the financial statements of Bharat Road Network Limited and should not be used by any other person.

**Annexure A to the Independent Auditor Report on Financial Statements prepared under Companies Accounting Standard Rule, 2006 of Kurukshetra Expressway Private Limited for the year ended March 31, 2017**

- i) In Respect of its fixed Assets, comprising tangible assets and Intangible assets towards toll collection rights:
  - (a) The company is maintaining proper records showing full particulars, including quantitative details and situation of its fixed assets.
  - (b) The fixed assets of the company have been physically verified by the management during the year and no material discrepancies have been noticed on such verification. In our opinion, the frequency of verification is reasonable.
  - (c) The title deed of the immovable assets are held in the name of the company.
- ii) In our opinion and according to the information and explanation given to us, the company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnership or other parties covered in the register maintained under section 189 of the Companies Act 2013.
- iii) In our opinion and according to the information and explanation given to us, In respect of loans, investments and guarantees, the company has complied with the provisions of Section 185 and 186 of the Act.
- iv) In our opinion and according to the information and explanations given to us, the company has not accepted any deposits during the period under audit. Consequently, the directives issued by Reserve Bank of India and the provisions of sections 73 to 76 of the Act and the rules framed thereunder are not applicable.
- v) The maintenance of cost records has been specified by the Central Government under sub-section (1) of section 148 of the Act for the company. We have broadly reviewed such records and are of the opinion that prima-facie, the prescribed records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vi)
  - (a) According to the information and explanations given to us and based on the records of the company examined by us, the company is generally regular in depositing the undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and any other material statutory dues, as applicable, with the appropriate authorities in India.  
According to the information and explanations given to us, there are no undisputed amounts in respect of the aforesaid statutory dues which in arrears as at March 31, 2017 for a period of more than six months from the date they became payable.
  - (b) According to the information and explanations given to us, there are no applicable statutory dues which have not been deposited on account of any dispute.
- vii) Based upon the audit procedures carried out by us and on the basis of information and explanations provided by the management we report that the company has defaulted in payment of periodic interest / charges and scheduled repayment of term loan dues to banks. As on March 31, 2017 the aggregate amount of interest overdue amounts to Rs. 187.06 Million and aggregate amount of overdue towards instalment amounts to Rs. 69.48 Million.  
The company does not have any borrowings from financial institutions or government. There are no overdue for debentures as at the balance sheet date.
- viii) In our opinion and according to the information and explanations given to us, the term loans taken by the company have been ultimately utilised for the purpose for which they were taken. Further, the company has not raised any funds by way of initial / further public offer.
- ix) Based on the audit procedures performed by us for the purpose of reporting the true and fair view of the financial statements and as per the information and explanations given to us by the management, we report that we have neither come across any instance of fraud by the company or on the company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the management.
- x) According to the information and explanations given to us, the company has not paid any managerial remuneration during the year and hence the reporting requirements under clause (xi) of paragraph 3 of the order are not applicable.

- xi) According to the information and explanations given to us, all transactions entered into by the company with related parties are in compliance with section 177 and 178 of the Act where applicable and the details thereof have been disclosed in the financial statements as required by the applicable accounting standards.
- xii) As per the information and explanations provided to us, the company has not entered into any non-cash transactions with directors or persons connected with them.
- xiii) In our opinion and according to the information and explanations given to us, the company is not required to be registered under Section 45 – IA of the Reserve Bank of India, 1934.
- xiv) The reporting requirements under sub-clause (ii), (xii) and (xiv) are not applicable to the company for the period under audit.

**“Annexure B” to the Independent Auditor’s Report of even date on the Standalone Financial Statements prepared under Companies Accounting Standard Rule, 2006 of Kurukshetra Expressway Private Limited**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)**

We have audited the internal financial controls over financial reporting of Kurukshetra Expressway Private Limited as of 31<sup>st</sup> March, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

**Management’s Responsibility for Internal Financial Controls**

The Company’s management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors’ Responsibility**

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

## **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

## **Inherent Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31<sup>st</sup> March, 2017, based on our audit procedures.

|              | The preparation of financial statements in conformity with Indian GAAP requires that the management of the company makes estimates and assumptions that affect the reported amounts of income and expenses of the year, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. Examples of such estimates include the useful lives of fixed assets and intangible assets, provision for doubtful debts / advances, future obligations in respect of retirement benefit plans etc. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.                                                                                                                                                                                                                                                                                                                                                                                          |   |
| <b>2.3</b>   | <b>Fixed Assets</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |   |
| <b>2.3.1</b> | <b>Tangible Assets</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |   |
|              | Fixed assets are stated at cost less accumulated depreciation. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |   |

|  |             | <p><b>Intangible Assets</b></p> <p>Toll collection rights in respect of road projects are amortized over the period of concession using the revenue based amortization method in the manner prescribed under Schedule II to the companies Act, 2013. Under the revenue based method, amortization is provided based on the proportion of actual revenue earned till the end of the year to the total projected revenue from the intangible asset expected to be earned over the concession period. Total projected revenue is reviewed at the end of each financial year and is adjusted to reflect the changes in earlier estimate vis-à-vis the actual revenue earned till the end of the year so that the whole of the cost of the intangible assets is amortized over the concession period.</p> <p>Specialized software is amortized over a period of three years on straight line basis from the month in which the addition is made.</p> <p>Amortization on impaired assets is provided by adjusting the amortization charges in the remaining periods so as to allocate the assets revised carrying amount over its remaining useful life.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|  | <b>2.6</b>  | <p><b>Investments</b> -</p> <p>Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as Long Term Investments. Current investments are carried at lower of cost or and fair value determined on an individual investment basis. Long Term investments are carried at cost less provisions for permanent diminution, if any, in the value of such investments.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|  | <b>2.7</b>  | <p><b>Revenue Recognition</b> -</p> <p>Revenue is recognized to the extent it is probable that the economic benefits will flow to the company and revenue can be reliably measured. Revenue from toll is accounted for on the basis of usage charges recovered from the users of the toll. Toll Revenue in the form of periodic pass(es) are accounted for as income in the period in which the same are received.</p> <p>Interest income on fixed deposits is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.</p> <p>Other Income and Claims Raised on 3rd Parties are recognised when right to received is established.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|  | <b>2.8</b>  | <p><b>Borrowing Costs</b></p> <p>Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consists of interest and other cost that an entity incurs in connection with the borrowing of funds. Interest / Income earned from temporary investment in term deposits / other investments are reduced from borrowing costs.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|  | <b>2.9</b>  | <p><b>Provisions, Contingent Liabilities and Contingent Assets</b></p> <p>A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised but are disclosed in the notes to the financial statement. A contingent asset is neither recognised nor disclosed.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
|  | <b>2.10</b> | <p><b>Employee Benefits</b></p> <p><b>(i) Short Term Employee Benefits</b></p> <p>All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits. The benefits like salaries, wages, short term compensated absences etc. and the expected cost of bonus, ex-gratia are recognized in the period in which the employee renders the related service.</p> <p><b>(i) Post-Employment Benefits</b></p> <p>a) Defined Contribution Plans: The Company's obligation to employee's provident fund is a defined contribution plan. The contribution paid/payable is recognized in the period in which the employee renders the related service.</p> <p>b) Defined Benefit Plans: The Company's obligation towards gratuity is a defined benefit plan</p> <p>The present value of the obligation under such Defined Benefit Plans is determined based on actuarial valuation using the Projected Unit Credit Method, which recognizes each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.</p> <p>The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plans, is based on the market yields on Government securities as at the Balance sheet date, having maturity periods approximating to the terms of related obligations.</p> <p>Actuarial gains and losses are recognized in the Statement of Profit and loss.</p> <p><b>(i) Long Term Employee Benefits</b></p> |

|  |             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|  |             | <p>Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act, 1961. Deferred tax resulting from “timing differences” between book and taxable profit is accounted for using the tax rates and laws that have been enacted or substantively enacted as on the balance sheet date. The deferred tax asset is recognised and carried forward only to the extent that there is a reasonable certainty that the assets will be realised in future.</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 34 | In the opinion of the management, the Assets other than Fixed Assets and Non-Current Investments have a realisable value, in the ordinary course of business , approximately at the amount at which they are stated in these financial statements.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 35 | The company had to pay committed Premium as per the terms of the Concession Agreement executed between the company and NHAI. The company had applied for deferment of premium for the year 2014-15 to 2020-21 and for 2023-24 which has been sanctioned by NHAI and for that Supplementary Agreement signed between Company and NHAI on 15th January, 2016 , due to which the amount is payable in future. However, the amount of premium as well as interest @ Bank Rate + 2% thereon has been duly provided every year including current financial year.                                                                                                                                                                                                                    |
| 36 | During Jat Quota Agitation in Haryana, which started on 14th Feb 2016 and took a violent turn on 19th Feb 2016, Toll Plaza at Dighal was set on fire and was completely destroyed including the Toll Management System (TMS) by the agitating mob. The Tolling Operations restarted from 24th February, 2016 at Toll Plaza at Gangayacha and 29th February, 2016 at Dighal, Toll Plaza. The loss had been intimated to the Insurance Company and Lenders. Loss of damaged assets has been claimed as Rs. 115.5 millions. We have recognised loss of Rs. 3.90 million only incurred due to cash theft in FY 2015- 2016. Claim for Loss of Profit (under policy Fire loss of Profit) has been also submitted; currently claim is under process with Insurance company/surveyor. |
| 37 | Due to the Demonitisation Scheme announced by Government of India w.e.f. 9th November 2016, the toll collection was suspended in accordance with directives of National Highways Authority of India (NHAI) for the period 09.11.2016 to 02.12.2016 (23 Days). As NHAI circular dated 29.11.2016 and 06.12.2016, the Company has raised and submitted its claim with NHAI for Compensation against Interest on Debt and Reimbursement of Operation and Maintenance Expenses of the said period. Till date, the company has received Rs. 37.750 million from National Highways Authority of India as interim / part payment and balance is under process.                                                                                                                       |
| 38 | There is no income and expenditure in foreign currency during the period (Previous year Nil).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

## **INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF KURUKSHETRA EXPRESSWAY PRIVATE LIMITED**

### **Report on the Financial Statements**

1. We have audited the accompanying financial statements of Kurukshetra Expressway Private Limited ("the Company"), which comprise the Balance Sheet as at 31<sup>st</sup> March, 2016, the Statement of Profit and Loss, the Cash Flow Statement for the year then ended, and a summary of the significant accounting policies and other explanatory information.

### **Management's Responsibility for the Standalone Financial Statements**

2. The Company's management and Board of Directors are responsible for the matters stated in Section 134 (5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

3. Our responsibility is to express an opinion on these Standalone Financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

4. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### **Opinion**

6. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31<sup>st</sup> March, 2016, and its losses and its cash flows for the year ended on that date.

## **Report on Other Legal and Regulatory Requirements**

7. As required by the Companies (Auditor's Report) Order 2016 ("the order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in Annexure – "A" a statement on the matters specified in paragraphs 3 and 4 of the order.
8. As required by Section 143(3) of the Act, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
  - c. The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account
  - d. in our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
  - e. On the basis of the written representations received from the directors as on 31<sup>st</sup> March, 2016, taken on record by the Board of Directors, none of the directors is disqualified as on 31<sup>st</sup> March, 2016 from being appointed as a director in terms of Section 164 (2) of the Act.
  - f. With respect to the adequacy of the Internal Financial Controls over financial reporting of the company and the operating effectiveness of such controls, we give our separate report in "Annexure – B".
  - g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - i. Based on the assessment made by the company, the company does not have any pending litigations which would have a material impact its financial position
    - ii. Based upon the assessment made by the company, there are no material foreseeable losses on its long term contracts that may require any provisioning
    - iii. In view of there being no amounts required to be transferred to the Investor Education and Protection Fund for the year under audit the reporting under this clause is not applicable.

**Annexure – A to the Independent Auditors Report**

**Referred to in para 7 of our report of even date, to the members of Kurukshetra Expressway Private Limited for the year ended March 31, 2016**

- i)
  - (a) The company is maintaining proper records showing full particulars, including quantitative details and situation of its fixed assets.
  - (b) The fixed assets of the company have been physically verified by the management during the year and no material discrepancies have been noticed on such verification. In our opinion, the frequency of verification is reasonable.
  - (c) The title deed of the immovable assets are held in the name of the company.
- ii) In our opinion, and according to the information and explanations given to us, the company has sub-contracted the entire construction / operation activities and therefore does not carry any inventories. Hence, the reporting requirements under clause (ii) of paragraph 3 of the order are not applicable.
- iii) In our opinion and according to the information and explanation given to us, the company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnership or other parties covered in the register maintained under section 189 of the Companies Act 2013. Accordingly, the reporting requirements under sub-clause (a), (b) and (c) of Clause (iii) of paragraph 3 of the order are not applicable.
- iv) In our opinion and according to the information and explanation given to us, In respect of loans, investments and guarantees, the company has complied with the provisions of Section 185 and 186 of the Act.
- v) In our opinion and according to the information and explanations given to us, the company has not accepted any deposits during the period under audit. Consequently, the directives issued by Reserve Bank of India and the provisions of sections 73 to 76 of the Act and the rules framed thereunder are not applicable.
- vi) The maintenance of cost records has been specified by the Central Government under sub-section (1) of section 148 of the Act for the company. We have broadly reviewed such records and are of the opinion that prima-facie, the prescribed records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii)
  - (a) According to the information and explanations given to us and based on the records of the company examined by us, the company is generally regular in depositing the undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, Cess and any other material statutory dues, as applicable, with the appropriate authorities in India.  
According to the information and explanations given to us, there are no undisputed amounts in respect of the aforesaid statutory dues which in arrears as at March 31, 2016 for a period of more than six months from the date they became payable.
  - (b) According to the information and explanations given to us, there are no applicable statutory dues which have not been deposited on account of any dispute.
- viii) Based upon the audit procedures carried out by us and on the basis of information and explanations provided by the management we report that the company has defaulted in payment of periodic interest / charges and scheduled repayment of term loan dues to banks. The amount and the period of default as at the reporting date are as under:

| Name of the Bank | Amount of default as at the Balance Sheet date |           | Period of default                                                                                                    | Remarks |

**KURUKSHETRA EXPRESSWAY PRIVATE LIMITED**  
**Notes to the financial statements for the Year ended on March 31, 2016**

**1 Nature of Operations**

The Company has been awarded the work to promote, develop, finance, establish, design, construct, equip, operate, maintain, modify and upgrade the four laning of Rohtak Bawal Section of NH 71 from Km 363/300 to 450/800 under NHDP- III in the State of Haryana on Design, Build, Finance, Operate and Transfer (DBFOT) basis and to charge and collect toll fees and to retain and appropriate receivables as per the concession agreement dated July 13, 2010 from the NHAI. The Concession Agreement is for a period of 28 years from appointed date i.e 10th May 2011.

The project was completed partially in August 2013 and toll collection had commenced partially from September 2013 and afterwards the full stretch had been completed and 2nd PCOD is 1st October 2014, except for construction of Y Trumpet at NH-8. However, COD for the entire stretch (Except 500 Mtr) had been received and toll collection had started accordingly.

**2 Significant Accounting Policies**

**2.1 Basis of Preparation**

The financial statements have been prepared in accordance with the Generally Accepted Accounting Principles in India, Accounting Standards as per section 133 of the Companies Act 2013 read with Rule 7 of Companies (Accounts) Rules 2014 and the other relevant provisions of the Companies Act, 2013. The financial statements have been prepared under the historical cost convention on an accrual basis. The accounting policies have been consistently applied by the Company throughout the accounting period.

**2.2 Use of Estimates**

The preparation of financial statements in conformity with Indian GAAP requires that the management of the company makes estimates and assumptions that affect the reported amounts of income and expenses of the year, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the financial statements. Examples of such estimates include the useful lives of fixed assets and intangible assets, provision for doubtful debts / advances, future obligations in respect of retirement benefit plans etc. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

**2.3 Fixed Assets**

Fixed assets are stated at cost less accumulated depreciation. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

**2.4 Intangible Assets under Development**

All Project related expenditure for acquisition of Toll collection rights viz., civil works, machinery under erection, construction and erection materials, pre-operative expenditure, expenditure indirectly related to the project and incidental to setting up project facilities, borrowing cost incurred prior to the date of commercial operation, and trial run expenditure are shown under Intangible Assets under development. Cost includes expenses incurred for Change of Scope to the extent the same are not received from NHAI. These expenses are net of recoveries, claims and income (net of tax), if any, from surplus funds arising out of project specific borrowings.

**2.5 Depreciation / Amortisation**  
**Tangible Assets**

As per notification dated, March 26, 2014 issued by the Ministry of Corporate Affairs, Schedule II of the Companies Act 2013 comes into effect from April 1, 2014 which prescribes the useful life of depreciable assets. The Company has adopted the useful life prescribed under the Schedule II of the Companies Act 2013 and the tangible assets are depreciated over the same.

**Intangible Assets**

Intangible assets are amortised in proportion to revenue for the year to projected revenue i.e. based on the toll revenue for the year to projected revenue that is expected to be collected over the concession period in the manner as prescribed under Schedule - II of the Companies Act, 2013.

**2.6 Borrowing Costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consists of interest and other cost that an entity incurs in connection with the borrowing of funds. Interest / Income earned from temporary investment in term deposits / other investments are reduced from borrowing costs.

**2.7 Revenue Recognition**

Revenue is recognized to the extent it is probable that the economic benefits will flow to the company and revenue can be reliably measured. Interest income on fixed deposits is recognized on time proportion basis taking into account the amount outstanding and the rate applicable.

Revenue from toll is accounted for on the basis of usage charges recovered from the users of the toll. Toll Revenue in the form of periodic pass(es) are accounted for as income in the period in which the same are received.

**2.8 Accounting for Taxes on Income**

Provision for current tax is made after taking into consideration benefits admissible under the provisions of the Income Tax Act, 1961. Deferred tax resulting from “timing differences” between book and taxable profit is accounted for using the tax rates and laws that have been enacted or substantively enacted as on the balance sheet date. The deferred tax asset is recognised and carried forward only to the extent that there is a reasonable certainty that the assets will be realised in future.

**2.9 Provisions, Contingent Liabilities and Contingent Assets**

A provision is recognised when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are not recognised but are disclosed in the notes to the financial statement. A contingent asset is neither recognised nor disclosed.

**2.10 Employee Benefits**

Retirement and employee benefits in the form of Provident Fund are defined contribution plans and the Company's contributions, paid or payable during the reporting period is transferred to the Pre-operative expenses. Gratuity liability is a defined benefit plan and is determined on the basis of last drawn salary and period of service with the company. Long-Term compensated absences in the form of Leave encashment is accounted for on accrual basis at the Balance Sheet date.

#### **2.11 Current/Non-Current Assets and Liabilities:**

Assets are classified as current when it satisfies any of following criteria:

- It is expected to be realized within twelve months after the reporting date,
- It is held primarily for the purpose of being traded,
- It is Cash or cash equivalent unless it restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as Non-current.

Liabilities are classified as current when it satisfies any of following criteria:

- It is expected to be settled within twelve months after the reporting date,
- It is held primarily for the purpose of being traded,
- The company does not have an unconditional right to defer the settlement of the liability for at least twelve months after the reporting date.

All other liabilities are classified as Non-current.

#### **2.12 Earnings Per Share (EPS)**

Basic Earnings Per Share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating Diluted Earnings Per Share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.
