

Objectives :

The history project is intended to enhance the understandings of the future generation about the evolution of Indian securities markets. It will serve as a single source for all the historic information.

The History of Indian Securities Market aims to:

- track the evolution of securities markets in India ;
- record the historic events pertaining to the Indian securities market since the earliest available date ;
- gather information on all important milestones initiated and implemented by SEBI in the Indian securities market.
- documentation of the history with a view to put all the information in electronic format ; and
- creation of an archive cell within SEBI website.
