The same shall be disclosed on a monthly basis on the websites of AMC and AMFI. The Scheme, in general, will hold all of the securities that comprise the Underlying Index in the same proportion as the index. Expectation is that, over time, the tracking error of the Scheme relative to the performance of the Underlying Index will be relatively low. The Investment Manager would monitor the tracking error of the Scheme on an ongoing basis and would seek to minimize tracking error to the maximum extent possible. There can be no assurance or guarantee that the Scheme will achieve any particular level of tracking error relative to the performance of the Underlying Index

Changes in Investment Pattern:

Portfolio Rebalancing:

Rebalancing due to Passive Breaches

Pursuant to paragraph 3.6.7 of SEBI Master Circular on Mutual Funds dated June 27, 2024, and circulars issued thereunder, in case of change in constituents of the index due to periodic review, the portfolio of the scheme will be rebalanced within 7 calendar days.

Any transactions undertaken in the scheme portfolio of Index Fund in order to meet the redemption and subscription obligations shall be done while ensuring that post such transactions replication of the portfolio with the index is maintained at all points of time.

Rebalancing due to Short term defensive consideration:

Subject to paragraph 1.14.1.2 of SEBI Master Circular on Mutual Funds dated June 27, 2024, and circulars issued thereunder, the asset allocation pattern indicated above may change from time to time, keeping in view the market conditions, market opportunities, applicable regulations and political and macroeconomic factors. Such changes in the investment pattern will be for short term and defensive considerations only and

the intention being at all times to seek to protect the interests of the Unit holders. Such changes in the investment pattern will be rebalanced within 7 calendar days from the date of deviation and further action may be taken as specified under SEBI Circulars/ AMFI guidelines issued from time to time.

Rebalancing in case of involuntary corporate action.

In the event of involuntary corporate action, the scheme shall dispose the security not forming part of the underlying index within a day from the date of allotment of Listing.

In case of any breaches in asset allocation, the norms as specified in paragraph 2.9 and 3.5.3.11 of SEBI Master circular on Mutual Funds dated June 27, 2024 shall be applicable.

B. WHERE WILL THE SCHEME INVEST?

The corpus of the Scheme will be invested in Equity and equity related instruments, debt, money market instruments and other permitted instruments, which will include but not limited to:

Equity and Equity Related Instruments:

1. Equity Shares.
2. Equity related instruments like;
 - Convertible bonds and debentures, convertible preference shares and warrants carrying the right to obtain equity shares.
 - Derivative instruments like options and futures on equity securities / indices.
3. Listed debt or money market securities, in accordance with Seventh Schedule to the SEBI (Mutual Funds) Regulations, Paragraph 4.3 of SEBI Master circular on Mutual Funds dated June 27, 2024 and other guidelines/circulars as may be amended from time to time.

Debt and Money Market Instruments:

1. Tri-party repo (TREPS)
2. Certificate of Deposit (CD) of scheduled commercial banks and development financial Institutions
3. Commercial Paper (CP)
4. Treasury Bill (T-Bill)
5. Repo
6. Securities created and issued by the Central and State Governments
7. Non-convertible debentures and bonds
8. Floating rate debt instruments
9. Investment in Short Term Deposits

The Fund Manager reserves the right to invest in such securities as maybe permitted from time to time and which are in line with the investment objectives of the Scheme.

Please refer **Section II** of the document for further details for each instrument.

C. WHAT ARE THE INVESTMENT STRATEGIES?

EQUITY INVESTMENT STRATEGY:

The investment objective of the scheme is to achieve return equivalent to Nifty Midcap 150 Index by investing in stocks of companies comprising Nifty Midcap 150 Index, subject to tracking error.

The Scheme endeavours to invest in stocks in proportion to the weightages of these stocks in the Nifty Midcap 150 Index. The fund will, in general invest a significant part of its corpus in equities; the surplus amount of the fund, not exceeding 5% shall be invested in Cash/Tri-Party Repo, Repo in corporate debt securities & Money Market instruments.

The performance of the Scheme may not be commensurate with the performance of the respective benchmark of the Schemes on any given day or over any given period. Such variations are commonly referred to as the tracking error. The Scheme intends to maintain a low tracking error by actively managing the portfolio in line with the index.

However, there is no assurance that all such buying and selling activities would necessarily result in benefit for the Fund.

A small portion of the net assets will be held as cash or will be invested in debt and money market instruments permitted by SEBI/RBI including TREPS or in alternative investment for the TREPS as may be provided by the RBI, to meet the liquidity requirements under the Scheme.

Equity Derivatives:

Futures are exchange-traded contracts to sell or buy financial instruments for future delivery at an agreed price. There is an agreement to buy or sell a specified quantity of financial instrument on a designated future date at a price agreed upon by the buyer and seller at the time of entering into a contract. To make trading possible, the exchange specifies certain standardized features of the contract. A futures contract involves an obligation on both the parties to fulfill the terms of the contract.

SEBI has permitted futures contracts on indices and individual stocks with maturity of 1 month, 2 months and 3 months on a rolling basis. The futures contracts are settled on last Thursday (or immediately preceding trading day if Thursday is a trading holiday) of each month. Currently, the futures are settled in cash. The final settlement price is the closing price of the underlying stock(s)/ index.

Option is a contract which provides the buyer of the option (also called holder) the right, without the obligation, to buy or sell a specified asset at the agreed price on or up to a particular date. For acquiring this privilege, the buyer pays premium (fee) to the seller. The seller on the other hand has the obligation to buy or sell specified asset at the agreed price and for this obligation he receives premium. The premium is determined considering number of factors such as the market price of the underlying asset/security, number of days to expiry, risk free rate of return, strike price of the option and the volatility of the underlying asset. Option contracts are of two types, viz:

Call Option - The option that gives the buyer the right to buy specified quantity of the underlying asset at the strike price is a call option. The buyer of the call option (known as the holder of call option) can call upon the seller of the option (writer of the option) and buy from him the underlying asset at the agreed price at any time on or before the expiry of the option.

The seller (writer of the option) on the other hand has the obligation to sell the underlying asset if the buyer of the call option decides to exercise his option to buy.

Put Option - The right to sell is called put option. A Put option gives the holder (buyer) the right to sell specified quantity of the underlying asset at the strike price. The seller of the put option (one who is short put) however, has the obligation to buy the underlying asset at the strike price if the buyer decides to exercise his option to sell.

There are two kind of options based on the date of exercise of right. The first is the European Option which can be exercised only on the maturity date. The second is the American Option which can be exercised on or before the maturity date.

PORTFOLIO TURNOVER:

Portfolio Turnover is defined as the aggregate of purchases and sales as a percentage of the corpus during the specified period of time. Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. Navi Nifty Midcap 150 Index Fund is a passively managed open-ended index scheme. It is therefore expected that there would be a number of subscriptions and redemptions on a daily basis. Generally, turnover will depend upon the extent of purchase and redemption of units and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Navi Nifty Midcap 150 Index Fund.

There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, it is difficult to estimate with reasonable measure of accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

Latest monthly portfolio holding can be obtained on website of Navi Mutual Fund.

D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The performance of the Scheme will be benchmarked with Nifty Midcap 150 TRI.

Justification for use of benchmark:

On the basis of investment objective of the scheme, Nifty Midcap 150Index has been currently selected as the benchmark of the scheme. Since the scheme will invest mainly in Equity & equity related securities diversified over various sectors, Nifty Midcap 150 index is the most appropriate index for the scheme. It is a popular and widely followed benchmark to track the performance of Indian equity markets. It is a diversified

index and captures most of the sectors from which portfolio might be constructed. The benchmark and additional benchmark returns shall be calculated at the Total return Index (TRI) variant of the Index chosen

The Trustee reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to the Regulations and other prevalent guidelines.

The Scheme shall ensure compliance with the portfolio concentration norms in accordance with provisions of Paragraph 3.4 of SEBI Master circular on Mutual Funds dated June 27, 2024, details whereof are given below:

- The index shall have a minimum of 10 stocks as its constituents.
- For a sectoral/ thematic Index, no single stock shall have more than 35% weight in the index. For other than sectoral/ thematic indices, no single stock shall have more than 25% weight in the index.
- The weightage of the top three constituents of the index, cumulatively shall not be more than 65% of the Index.
- The individual constituent of the index shall have a trading frequency greater than or equal to 80% and an average impact cost of 1% or less over previous six months.

vi. Investments of AMC in the Scheme – Please visit website <https://navi.com/mutual-fund/downloads/statutory-disclosure>

The AMC may invest in the Scheme(s) anytime during the continuous offer period subject to the SEBI (MF) Regulations, 1996. The AMC may also invest in existing schemes of the Mutual Fund. As per the existing SEBI (MF) Regulations, 1996, the AMC will not charge Investment Management and Advisory fee on the investment made by it in the Scheme(s) or existing Schemes of the Mutual Fund.

Subject to Regulation 25(16A) of the SEBI (Mutual Funds) Regulations, 1996 read with paragraph 6.9 of SEBI Master Circular on Mutual Funds dated June 27, 2024, the AMC shall invest such amounts in such schemes of the mutual fund, based on the risks associated with the schemes, as may be specified by SEBI from time to time. Such investment shall be maintained at all times and shall not be redeemed unless the scheme is wound up.

PART III- OTHER DETAILS

A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, 1996, or such norms as may be specified by SEBI from time to time. In case of any conflict between the Principles of Fair Valuation and valuation guidelines specified by SEBI, the Principles of Fair Valuation shall prevail.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

$$\text{NAV (Rs.)} = \frac{\text{Market or Fair Value of Scheme's Investments} + \text{Current Assets including Accrued Income} - \text{Current Liabilities and Provisions}}{\text{No. of Units outstanding under Scheme on the Valuation Day}}$$

The NAV shall be calculated up to four decimal places. However the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Option.

The NAVs will be calculated for all the Business days.

Pursuant to Regulation 49 (3) the repurchase Price of the units of an open ended scheme will not be lower than 95% of the NAV. Any imposition or enhancement of Load in future shall be applicable on prospective investments only.

Illustration on Computation of NAV: If the net assets of the Scheme are Rs. 10,55,55,000.00 and units outstanding are 1,00,00,000 then the NAV per unit will be computed as follows: $10,55,55,000.00 / 1,00,00,000 = \text{Rs. } 10.5555$ per unit.

Ongoing price for Redemption (sale) /Switch outs (to other schemes/plans of the Mutual Fund) by Investors.

Ongoing price for redemption /Switch out (to other Schemes/Plans of the Mutual Fund) is the price which a Unit holder will receive for redemption/Switch-outs. During the continuous offer of the Scheme, the Unit holder can redeem the Unit at Applicable NAV.

For other details such as policies w.r.t computation of NAV, rounding off, , procedure in case of delay in disclosure of NAV etc. refer to **SAI**.

B. NEW FUND OFFER (NFO) EXPENSES

This is an ongoing scheme as on the date of updating this document. Hence, Not Applicable.

C. ANNUAL SCHEME RECURRING EXPENSES

The AMC has estimated that upto 1.00 % of the daily net assets of the scheme will be charged to the scheme as expenses. For the actual current expenses being charged, the investor may refer to the website of the Mutual Fund (<https://navi.com/mutual-fund/downloads/disclosure-sid-kim>). Further, the disclosure of Total Expense Ratio (TER) on a daily basis shall also be made on the website of AMFI (www.amfiindia.com). The Mutual Fund would update the current expense ratios on the website at least three business days prior to the effective date of the change.

Goods & Services Tax (GST) on investment management and advisory fees shall be charged to the Scheme in addition to the maximum limit of total expenses ratio as prescribed under Regulation 52 (6) of the SEBI (MF) Regulations, 1996.

- 3) Expenses not exceeding of 0.30 per cent of daily net assets, if the new inflows from such cities as specified by the AMFI data, from time to time are at least (a) 30 per cent of the gross new inflows into the scheme, or (b) 15 per cent of the average assets under management (year to date) of the scheme, whichever is higher;

In case inflows from such cities are less than the higher of (a) or (b) above, such expenses on daily net assets of the scheme shall be charged on proportionate basis in accordance with Paragraph 10.1.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024.

The expenses so charged shall be utilized for distribution expenses incurred for bringing inflows from such cities. However, the amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment. Provided further that the additional TER can be charged based on inflows only from

retail investors (Paragraph 10.1.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024, has defined that inflows of amount up to Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from —retail investor) from beyond top 30 cities. Provided that the additional commission for beyond top 30 cities shall be paid as trail only.

As per Paragraph 10.1.3 of SEBI Master Circular dated June 27, 2024, and AMFI Circular No. CIR/ ARN-23/ 2022-23 dated March 07, 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from March 01, 2023 till the incentive structure is appropriately re-instated by SEBI with necessary safeguards.

These estimates have been made in good faith as per the information available to and estimates made by the Investment Manager and are subject to change inter-se or in total subject to prevailing Regulations. Type of expenses charged shall be as per the Regulations. The AMC may incur actual expenses which may be more or less than those estimated above under any head and/or in total.

Direct Plan shall have a lower expense ratio. Commission/ Distribution expenses will not be charged in case of Direct Plan. The TER of the Direct Plan under the Scheme will be lower to the extent of the distribution expenses/commission which is charged in the Regular Plan.

Any other expenses which are directly attributable to a Scheme maybe charged with the approval of the Trustee within the overall limits as specified in the Regulations except those expenses which are specifically prohibited. The recurring expenses of the Scheme (including the Investment Management and Advisory Fees) shall be as per the limits prescribed under the SEBI (MF) Regulations, 1996.

The recurring expenses of the Scheme (excluding additional expenses under regulation 52 and additional distribution expenses for gross inflows from specified cities), as per SEBI Regulations are as follows:

The annual total of all charges and expenses of the Scheme shall be subject to the following limits, defined under Regulation 52 of SEBI MF regulations:

Limit as prescribed under regulation 52 of SEBI MF regulations for index fund:

Particulars	As a % of daily net assets as per Regulation 52 (6) (b)	Additional TER as per regulation 52 (6A) (b)
On total assets	1.00%	0.30%

The Total expense ratio (including Investment and Advisory Fees) will be subject to the maximum limits (as a percentage of Daily Net Assets of the Scheme) as per Regulation 52 of SEBI Regulations, as amended from time to time, with no sub-limit on Investment and Advisory fees.

Navi Mutual Fund would update the current expense ratios on the website at least three business days prior to the effective date of the change. D. LOAD STRUCTURE

Load is an amount, which is paid by the investor to redeem the units from the scheme. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of the AMC; <https://navi.com/mutual-fund/downloads/disclosure-sid-kim> or may call at 1800 103 8999 or your distributor.

As per clause 8.6 of SEBI Master Circular dated June 27, 2024, has decided that there shall be no entry Load for all Mutual Fund Schemes.

Type of Load	Load chargeable (as %age of NAV)
Exit Load	NIL

However, the Trustee shall have a right to prescribe or modify the load structure with prospective effect subject to a maximum prescribed under the Regulations.

In accordance with clause 10.8.1 of SEBI Master Circular on Mutual Funds dated June 27, 2024, to bring about parity among all class of unit holders, no distinction among unit holders would be made based on the amount of subscription while charging exit loads. The exit load charged, if any, shall be credited to the scheme. Goods and Services tax on exit load shall be paid out of the exit load proceeds and exit load net of Goods and Services tax shall be credited to the schemes.

Units issued on reinvestment of dividends for existing as well as prospective investors shall not be subject to load structure.

The investor is requested to check the prevailing load structure of the scheme before investing. Subject to the Regulations, the Trustee reserves the right to modify/alter the load structure on the Units subscribed/redeemed on any Business Day. At the time of changing the load structure, the AMC / Mutual Fund may adopt the following procedure:

- (i) The addendum detailing the changes will be attached to Scheme Information Documents and key information memorandum. The addendum will be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock.
- (ii) Arrangements will be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office.
- (iii) The introduction of the exit load along with the details will be stamped in the acknowledgement slip issued to the investors on submission of the application form and will also be disclosed in the statement of accounts issued after the introduction of such load.
- (iv) Any other measure which the Mutual Fund may consider necessary.

The Trustee/AMC reserves the right to change the load structure subject to the limits prescribed under the Regulations. Any change in Load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

E. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

Pursuant to paragraph 6.11 of SEBI Master Circular on Mutual Fund dated June 27, 2024, the Scheme shall have

- a. minimum of 20 investors and
- b. no single investor shall account for more than 25% of the corpus of the Scheme.

In case the Scheme does not have a minimum of 20 investors, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations, 1996 would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days' notice to redeem his exposure over 25% limit. Failure on the part of the said investor to redeem his exposure over 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

Section II

E. Introduction

A. Definitions/interpretation

For detailed description please refer <https://navi.com/mutual-fund/downloads/statutory-disclosure>.

B. Risk factors

Scheme Specific Risk Factors

Risks associated with Equity and Equity Related Instruments:

Investments in equity and equity related instruments involve a degree of risk, both company specific and market risks and thus investors should not invest in the Scheme unless they can afford to take the risk of losing their investment.

The scheme will invest in equity and equity related securities diversified over various sectors. Thus, any price fluctuation for these securities may adversely affect the NAV of the units issued under the Scheme. The same may also lead to out-performance or under-performance of the scheme against Nifty Midcap 150 which is the benchmark index for the scheme.

Equity and Equity Related Instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected.

Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk; however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities. Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.

The Scheme may invest in securities which are not listed on the stock exchanges. These securities may be illiquid in nature and carry a higher amount of liquidity risk, in comparison to securities that are listed on the stock exchanges or offer other exit options to the investor. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.

Risks of Total Return

Dividends are assumed to be reinvested into the Nifty Midcap 150 Index after the ex-dividend date of the constituents. However, in practice, the dividend is received with a lag. This can lead to some tracking error.

Index Fund Risk

The Scheme being an index scheme follows a passive investment technique and shall only invest in Securities comprising one selected index as per investment objective of the Scheme. The Fund Manager would invest in the Securities comprising the underlying index irrespective of the market conditions. If the Securities market declines, the value of the investment held by the Scheme shall decrease.

Passive Investments

The Scheme is not actively managed. Since the Scheme is linked to index, it may be affected by a general decline in the Indian markets relating to its underlying index. The Scheme as per its investment objective invests in Securities which are constituents of its underlying index regardless of their investment merit. The AMC does not attempt to individually select stocks or to take defensive positions in declining markets.

Trading through mutual fund trading platforms of BSE and/ or NSE

In respect of transaction in Units of the Scheme through BSE and/ or NSE, allotment and redemption of Units on any Business Day will depend upon the order processing/settlement by BSE and/ or NSE and their respective clearing corporations on which the Mutual Fund has no control.

Risks associated with Fixed Income securities:

The following are the risks associated with investment in Fixed Income securities:

Interest-Rate Risk: Fixed income securities such as government bonds, corporate bonds, Money Market Instruments and Derivatives run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the level at which the security is being traded.

Re-investment Risk: Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

Basis Risk: The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

Liquidity Risk: The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

Credit Risk: This is the risk associated with the issuer of a debenture/bond or a Money Market Instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no

default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

Liquidity Risk on account of unlisted securities: The liquidity and valuation of the Scheme investments due to their holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

Settlement Risk: Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

Risks associated with investing in Tri-Party Repos Segments

The mutual fund is a member of securities and Tri-Party Repos segments of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Tri-Party Repos segments are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). The mutual fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time. In the event that the default waterfall is triggered and the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, the scheme may lose an amount equivalent to its contribution to the default fund allocated to the scheme on a pro-rata basis.

Tracking Error Risk

The Fund Manager would not be able to invest the entire corpus exactly in the same proportion as in the underlying index due to certain factors such as the fees and expenses of the Scheme, corporate actions, cash balance and changes to the underlying index and regulatory restrictions, lack of liquidity which may result in Tracking Error. Hence it may affect AMC's ability to achieve close correlation with the underlying index of the Scheme. The Scheme's returns may therefore deviate from its underlying index. "Tracking Error" is defined as the standard deviation of the difference between daily returns of the underlying index and the NAV of the Scheme. The Fund Manager would monitor the Tracking Error of the Scheme on an ongoing basis and would seek to minimize the Tracking Error. There can be no assurance or guarantee that the Scheme will achieve any particular level of Tracking Error relative to performance of the underlying Index.

Risk Factors relating to Portfolio Rebalancing

In the event that the asset allocation of the Scheme deviates from the ranges as provided in the asset allocation table in this SID, then the Fund Manager will rebalance the portfolio of the Scheme to the position indicated in the asset allocation table.

Risks associated with Derivatives Transactions

Systematic Risk: Systematic Risk is the risk associated with the entire market. Unlike unsystematic risk, it is not linked to a specific security or sector. Systematic risk is a market risk which can be due to macro-economic factors, news events, etc.

Mark to Market Risk: This risk is on account of day to day fluctuations in the underlying Security and its derivative instrument, which can adversely impact the portfolio.

Credit Risk: The credit risk is the risk that the counter party will default in its obligations and is generally small as in a Derivative transaction there is generally no exchange of the principal amount.

Interest rate risk: Derivatives carry the risk of adverse changes in the price due to change in interest rates.

Basis Risk: When a security is hedged using a Derivative, the change in price of the security and the change in price of the Derivative may not be fully correlated leading to basis risk in the portfolio.

Liquidity risk: During the life of the Derivative, the benchmark might become Illiquid and might not be fully capturing the interest rate changes in the market, or the selling, unwinding prices might not reflect the underlying assets, rates and indices, leading to loss of value of the portfolio.

Model Risk: The risk of mis–pricing or improper valuation of Derivatives.

Trade Execution: Risk where the final execution price is different from the screen price, leading to dilution in the spreads.

Systemic Risk: For Derivatives, especially OTC ones the failure of one Counter Party can put the whole system at risk and the whole system can come to a halt.

The scheme may invest in various derivative products in accordance with and to the extent permitted under the regulations from time to time.

Derivatives are financial contracts of pre-determined fixed duration, like stock Futures /options and index futures and options, whose values are derived from the value of an underlying primary financial instrument such as: Equities, Interest rates, Exchange rates.

Derivative products are specialized instruments that require investment techniques and risk analysis which are different from those associated with stocks and other traditional securities.

Derivatives are highly leveraged instruments and a small price fluctuation in the underlying can have a larger impact on its value. Thus, its use can lead to disproportionate gains or losses to the portfolio. Execution of derivatives instruments depends on the ability of the fund manager to identify good opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and

decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.

The risks associated with the use of Derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

Risk associated with Short Selling & Securities Lending

Securities Lending is a lending of securities through an approved intermediary to a borrower under an agreement for a specified period with the condition that the borrower will return equivalent securities of the same type or class at the end of the specified period along with the corporate benefits accruing on the securities borrowed. There are risks inherent in securities lending, including the risk of failure of the other party, in this case the approved intermediary to comply with the terms of the agreement. Such failure can result in a possible loss of rights to the collateral, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of corporate benefits accruing thereon.

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The inherent risks are Counterparty risk and liquidity risk of the stock/security being borrowed. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses.

Risk factor associated with segregated portfolio

Investor holding units of segregated portfolio may not be able to liquidate their holding till the time realisable value is recovered.

Security comprising of segregated portfolio may realise lower value or may realise zero value.

Listing of units of segregated portfolio in recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Risks factors associated with investments in Repo Transactions in Corporate Bond:

In repo transactions, securities are sold with the seller agreeing to buy them back at later date. The repurchase price should be greater than the original sale price, the difference effectively representing interest. A repo is economically similar to a secured loan, with the buyer receiving corporate debt securities as collateral to protect against default. The Scheme may invest in repo of corporate debt securities which are subject to the following risks:

Counter party Risk: This refers to the inability of the seller to meet the obligation to buy back securities at the contracted price on the contracted date. The Investment Manager will endeavour to manage counterparty risk by dealing only with counterparties, having strong credit profiles, approved by our credit risk analysis team. The exposure to each counterparty will be within the overall approved credit limits. Also, the counterparty risk is to an extent mitigated by taking collateral equivalent in value to the transaction after

knocking off a minimum haircut on the intrinsic value of the collateral. In the event of default by the repo counterparty, the scheme shall have recourse to the corporate debt securities.

Collateral Risk: Collateral risk arises when the market value of the securities is inadequate to meet the repo obligations. This risk is mitigated by restricting participation in repo transactions only in AA or equivalent and above rated money market and corporate debt securities. Any rating downgrade will tantamount to either an early termination of the repo agreement or a call for fresh margin to meet the minimum haircut requirement. In addition, the Investment manager may apply a higher haircut on the underlying security than mentioned above to adjust for the illiquidity and interest rate risk on the underlying instrument. The adequacy of the collateral will be monitored on a daily basis by considering the daily market value & applying the prescribed haircut. The fund manager shall then arrange for additional collateral from the counterparty, within a period of 1 business day. If the counterparty is not able to top-up either in form of cash / collateral, it shall tantamount to early termination of the repo agreement.

Risk Mitigation Process:

The risk control process involves reducing risks through portfolio diversification. This diversification would help achieve the desired level of consistency in returns. The AMC aims to identify securities, which offer superior levels of yield at lower levels of risks. There would be regular rebalancing of the portfolio, taking into account the change in weights of stocks in the Index.

Nifty Midcap 150 Index Fund being a passive investment carries lesser risk as compared to active fund management. The portfolio follows the index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Thus there is no additional element of volatility or stock concentration on account of fund manager decisions.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

C. Risk mitigation strategies

Risk and Description	Risk Mitigants/management strategy
Risks associated with Equity investments	
Derivatives Risk As and when the Scheme trades in the derivatives market there are risk factors and issues concerning the use of derivatives since derivative products are specialized instruments that require investment techniques and risk analyses different from those associated with stocks and bonds.	Derivatives will be used in the form of Index Options, Index Futures and other instruments as may be permitted by SEBI. All derivatives trade will be done only on the exchange with guaranteed settlement. The AMC monitors the portfolio and regulatory limits for derivatives through its front office monitoring system. Exposure to derivatives of stocks or underlying index will be done based on requisite research. Fund managers will endeavor to use derivatives which are liquid and traded frequently on the exchanges. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the

	SID. Such exposure shall also be regularly reviewed by the Fund manager. No OTC contracts will be entered into.
Liquidity risk The liquidity of the Scheme's investments is inherently restricted by trading volumes in the securities in which they invests	The Scheme will try to maintain a proper asset-liability match to ensure redemption payments are made on time and not affected by illiquidity of the underlying stocks
Tracking Error risk (Volatility/ Concentration risk): The performance of the Scheme may not be commensurate with the performance of the underlying Index on any given day or over any given period	Tracking Error risk (Volatility/ Concentration risk): Over a short to medium period, the Scheme may carry the risk of variance between portfolio composition and Benchmark. The objectives of the Scheme are to track the performance of the Underlying Index over the same period, subject to tracking error. The Scheme would endeavor to maintain a low tracking error by actively aligning the portfolio in line with the Index.
Risks associated with Debt/Money market investments	
Market Risk/ Interest Rate Risk As with all debt securities, changes in interest rates may affect the Scheme's Net Asset Value as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long-term securities generally fluctuate more in response to interest rate changes than do short-term securities. Indian debt markets can be volatile leading to the possibility of price movements up or down in fixed income securities and thereby to possible movements in the NAV	In a rising interest rate scenario the scheme may increase its investment in money market securities whereas if the interest rates are expected to fall the allocation to debt securities with longer maturity may be increased thereby mitigating risk to that extent.
Liquidity or Marketability Risk This refers to the ease with which a security can be sold at or near to its valuation yield-to-maturity (YTM).	The Scheme may invest in government securities and money market instruments. While the liquidity risk for government securities and money market instruments may be low
Credit Risk Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security).	Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken
Reinvestment Risk This risk refers to the interest rate levels at which cash flows received from the securities in the Schemes are reinvested The risk	Reinvestment risks will be limited to the extent of coupons received on debt instruments, which will be a very small portion of the portfolio value

is that the rate at which interim cash flows can be reinvested may be lower than that originally assumed.

16. The Fund shall not borrow more than 20% of the net assets of the individual Scheme and the duration of the borrowing shall not exceed a period of 6 months.

17. The Scheme will not advance any loan for any purpose.

18. A mutual fund scheme may invest in exchange traded commodity derivatives subject to such investment restrictions as may be specified by the Board from time to time.

19. In accordance with the guidelines as stated under paragraph 4.3 of SEBI Master Circular on Mutual Funds dated June 27, 2024, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:

- i. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.
- ii. Further, investment in unrated debt and money market instruments, other than government

securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular:

- a) Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
- b) Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes.
- c) All such investments shall be made with the prior approval of the Board of AMC and the Trustee.

The Scheme will comply with the other Regulations applicable to the investments of Mutual Funds from time to time. All the investment restrictions will be applicable at the time of making investments.

Apart from the Investment Restrictions prescribed under the Regulations, internal risk parameters for limiting exposure to a particular scrip or sector may be prescribed from time to time to respond to the dynamic market conditions and market opportunities.

The AMC/Trustee may alter these above stated restrictions from time to time to the extent the Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective.

C. Fundamental Attributes

Following are the Fundamental Attributes of the scheme, in terms of paragraph 1.14 of SEBI Master Circular for Mutual Funds dated June 27, 2024:

- (i) **Type of a scheme** - An open-ended equity scheme replicating/tracking Nifty Midcap 150 Index

D. Index methodology

i. About the Index:

Nifty Midcap 150 is an index that represents the performance of the 150 stocks which come after the top 100 stocks in order of free float market capitalization. It is used for a variety of purposes such as benchmarking fund portfolios, index based derivatives and index funds. Nifty Midcap 150 is owned and managed by NSE Indices Ltd. (formerly known as India Index Services & Products Ltd.) (NSE Indices). NSE Indices is India's specialized company focused upon the index as a core product. The Nifty Midcap 150 is computed using a float-adjusted, market capitalization weighted methodology, wherein the level of the index reflects the total market value of all the stocks in the index relative to a particular base period. The methodology also takes into account constituent changes in the index and corporate actions such as stock splits, rights issuance, etc., without affecting the index value.

ii. Index eligibility criteria:

Eligibility Criteria for Selection of Constituent Stocks:

- To be considered for inclusion in Nifty Midcap 150 index, companies must form part of Nifty 500
- Securities will be included if rank based on full market capitalisation is among top 225
- Securities will be included if full market capitalisation is 1.50 times of the last constituent in Nifty Midcap 150
- Securities will be excluded if rank based on full market capitalisation falls below 275 or if constituents get excluded from Nifty500
- Eligibility criteria for newly listed security is checked based on the data for a three-month period instead of a six-month period

iii. Index methodology:

Nifty Midcap 150 represents the next 150 companies (companies ranked 101-250) based on full market capitalisation from Nifty 500. This index intends to measure the performance of mid market capitalisation companies.

iv. Index Rebalancing:

Index is re-balanced on semi-annual basis. The cut-off date is January 31 and July 31 of each year, i.e. For semi-annual review of indices, average data for six months ending the cut-off date is considered. Four weeks prior notice is given to market from the date of change.

v. Index Service Provider

NSE Indices Limited (NSE Indices), a subsidiary of NSE Strategic Investment Corporation Limited was setup in May 1998 to provide a variety of indices and index related services and products for the Indian capital markets.

NSE Indices provides a broad range of services, products and professional index services. It maintains over 80 equity indices comprising broad-based benchmark indices, sectoral indices and customized indices

maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	
Restrictions, if any, on the right to freely retain or dispose of units being offered	As per requirements of the U.S. Securities and Exchange Commission (SEC), A person who falls within the definition of the term “U.S. Person” under ‘Regulation S’ promulgated under the Securities Act of 1933 of the United States, as amended, and corporations or other entities organised under the laws of the U.S. are not eligible to invest in the schemes and apply for subscription to the units of the schemes, except for lump sum subscription, systematic transactions and switch transactions requests received from Non-resident Indians/Persons of Indian origin who at the time of such investment, are present in India and submit a physical transaction request along with such documents as may be prescribed by NAVI Asset Management Company Limited (the AMC)/NAVI Trustee Limited (the Trustee) from time to time. The AMC shall accept such investments subject to the applicable laws and such other terms and conditions as may be notified by the AMC/the Trustee. The investor shall be responsible for complying with all the applicable laws for such investments. The AMC reserves the right to put the transaction requests on hold/reject the transaction request/reverse allotted units, as the case may be, as and when identified by the AMC, which are not in compliance with the terms and conditions notified in this regard. However, existing investments will be allowed to be redeemed.
Cut off timing for subscriptions/ redemptions/ switches This is the time before which your application (complete in all respects) should reach the official points of acceptance	The below cut-off timings and applicability of NAV shall be applicable in respect of valid applications received at the Official Point(s) of Acceptance on a Business Day: For Purchase of any amount: In respect of valid applications received upto 3.00 p.m. and where the funds for the entire amount are available for utilization before the cut-off time i.e. credited to the bank account of the Scheme before the cut-off time - the closing NAV of the day shall be applicable. In respect of valid applications received after 3.00 p.m. and where the funds for the entire amount are credited to the bank account of the Scheme either on the same day or before the cut-off time of the next Business Day i.e. available for utilization before the cut-off time of the next Business Day - the closing NAV of the next Business Day shall be applicable.

	Irrespective of the time of receipt of application, where the funds for the entire amount are available for utilization before the cut-off time on any subsequent Business Day - the closing NAV of such subsequent Business Day shall be applicable. For Switch-ins of any amount: In case of switch from one scheme to another scheme received before cut-off i.e. upto 3 p.m. having business day for both the schemes, closing NAV of the Business Day shall be applicable for switch-out scheme and for Switch-in scheme, the closing NAV of the Business Day shall be applicable, on which funds are available for utilization in the switch-in scheme (allocation shall be in line with the redemption payout). For Redemptions including Switch - outs: In respect of valid applications received up to 3.00 p.m. – same day's closing NAV shall be applicable. In respect of valid applications received after 3.00 p.m. - the closing NAV of the next Business Day shall be applicable. With respect to investors who transact through the stock exchange, a confirmation slip given by the stock exchange mechanism shall be considered for the purpose of determining Applicable NAV for the Scheme and cut off timing for the transactions. To clarify, for investments through systematic investment routes such as Systematic Investment Plans (SIP), Systematic Transfer Plans (STP), etc. the units will be allotted as per the closing NAV of the day on which the funds are available for utilization by the Target Scheme irrespective of the instalment date of the SIP, STP or record date of dividend etc.
Minimum amount for purchase/redemption/switches	Minimum amount for purchase/Switch in Rs. 10/- and in multiples of Re 1/- thereafter Minimum Additional Purchase Amount Rs. 10/- and in multiples of Re. 1/- thereafter Minimum Redemption Amount/Switch Out Rs. 10/- or 1 Unit or account balance whichever is lower. In case the Investor specifies both the number of Units and amount, the number of Units shall be considered for Redemption. In case the Unit holder does not specify either the number or amount, the request will not be processed.

	The minimum amount of Redemption / Switch-out may be changed in future by the AMC / Trustee.
Accounts Statements	The AMC shall send an allotment confirmation specifying the units allotted by way of email and/or SMS within 5 Business days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form). A Consolidated Account Statement (CAS) detailing all the transactions across all schemes of Navi Mutual fund (including transaction charges paid to the distributor) and holding at the end of the month shall be sent to the Unit holders in whose folio(s) transaction(s) have taken place during the month by email on or before 15th of the succeeding month. The CAS will be dispatched by email to all the investors whose email addresses are registered with the Depositories and AMCs/MF-RTAs. However, where an investor does not wish to receive CAS through email, option shall be given to the investor to receive the CAS in physical form at the address registered with the Depositories and the AMCs/MF-RTAs. The depositories shall also intimate the investor on quarterly basis through the SMS mode specifying the email id on which the CAS is being sent. If there is any transaction in any of the demat accounts of the investor or in any of his mutual fund folios, then CAS will be sent to that investor through email on monthly basis. In case there is no transaction in any of the mutual fund and demat accounts then CAS with holding details will be sent to the investors by email on half yearly basis. However, where an investor does not wish to receive CAS through email, option will be given to the investor to receive the CAS in physical form at the address registered with the Depositories and the AMCs/MF-RTAs. In the event the account has more than one registered holder, the first named Unit holder shall receive the CAS/ account statement. The transactions viz. purchase redemption, switch, etc., carried out by the Unit holders shall be reflected in the CAS on the basis of Permanent Account Number (PAN). The CAS shall not be received by the Unit holders for the folio(s) not updated with PAN details. The Unit holders are therefore requested to ensure that the folio(s) are updated with their PAN.

	In case of a specific request received from the Unit holders, the AMC will provide an account statement (reflecting transactions of the Fund) to the investors within 5 Business Days from the receipt of such request, by mail/email. The Unit holder without any charges may request for a physical account statement by writing to/calling the AMC/ISC/RTA. The AMC/Mutual Fund shall dispatch an account statement within 5 Business Days from the date of the receipt of request from the Unit holder. Half-yearly CAS shall be issued at the end of every six months (i.e. September/ March) on or before 21st day of succeeding month, to all investors providing the prescribed details across all schemes of mutual funds and securities held in dematerialized form across demat accounts, if applicable. The statement of holding of the beneficiary account holder for units held in demat will be sent by the respective DPs periodically. The Account Statement shall state that the net investment as gross subscription less transaction charges, if any and specify the no. of units allotted against the net investment. CAS for investors having Demat account: ▪ Investors having MF investments and holding securities in Demat account shall receive a single Consolidated Account Statement (CAS) from the Depository. ▪ Consolidation of account statement shall be done on the basis of Permanent Account Number (PAN). In case of multiple holding, it shall be PAN of the first holder and pattern of holding. The CAS shall be generated on a monthly basis. ▪ If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within ten days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts then CAS with holding details shall be sent to the investor on half yearly basis. ▪ In case an investor has multiple accounts across two depositories, the depository with whom the account has been opened earlier will be the default depository. ▪ No Account Statements will be issued by the AMC to Unit holders who hold units in dematerialized mode. For Units in

Bank Mandate	Registering Multiple Bank Accounts (Pay-in bank accounts) 1. The AMC has introduced the facility of registering Multiple Bank Accounts in respect of an investor folio. 2. Registering of Multiple Bank Accounts will enable the Fund to systematically validate the Pay-in payment and avoid acceptance of third party payments. "Pay-in" refers to payment by the Fund to the Investor. 3. Investor can register upto 5 Pay-in bank accounts in case of individuals and HUFs, and upto 10 in other cases. 4. In case of Multiple Registered Bank Account, investor may choose one of the registered bank accounts for the credit of redemption/dividend proceeds (being "Pay-out bank account"). Investor may, however, specify any other registered bank accounts for credit for redemption proceeds at the time of requesting for the redemption. Investor may change such Pay-out Bank Account, as necessary, through written instructions. 5. For the purpose of registration of bank accounts(s), Investor should submit Bank Mandate Registration Form together with any of the following documents. i) Cancelled cheque leaf in respect of bank account to be registered; or ii) Bank Statement/Pass Book page with the Investor's bank account number, name and address.

	6. The AMC will register the bank account only after verifying that the sole/1st Joint holder is the holder/one of the joint holders of the bank account. In case the copy of documents is submitted, investor shall submit the original to the AMC/Service Center for verification and the same shall be returned. 7. Investors may note that in case where his bank account number has changed for any reason, a letter issued by the bank communicating such change is also required to be submitted along with the Bank Mandate Registration Form. 8. In case of existing investors, their existing registered bank mandate, and in case of new Investors, their bank account details as mentioned in the Application Form shall be treated as default account for Pay-out, if they have not specifically designated a default Pay-out bank account. Investors may change the same through written instructions. 9. Where an investor proposes to delete his existing default Pay-out account, he shall compulsorily designate another account as default account. 10. In case of modification in the Bank Mandate, the AMC may provide for a cooling period of upto 10 days for revised mandate/default Bank Account. The same shall be communicated to the investor through such means as may be deemed fit by the AMC. Investors may also note the terms and conditions as appearing in the Multiple Bank Account Registration Form are also available at the Investor Service Center/AMC Website. The AMC may request for such additional documents or information as it may deem fit for registering the aforesaid Bank Accounts.
